BORN AND BRED FOR SPORTS CAR PERFORMANCE

Precise handling, agile cornering, instant responsiveness, all-around roadability... this is the Corvette's performance pedigree. Developed and refined to make it a sports car of extraordinary competence. Not only in America but in every country the Corvette's performance ability was demonstrated and respected. It is widely acclaimed in even the most critical and discriminating international sports-car circles.

Sports Car Enthusiast's Dream Car!

Front Corvette's strong, thin and precisely balanced body is in these areas, too, and, if you can almost feel the weight of a comparable steel body! This enables the Corvette to have a high home performance to lower-weight ratio—a true measure of its strength. The reduction of glass and plastic weights among the body panels and the weight being the Corvette's body is ramified and highly

Automated taillight safer, Positive Stoplight! Dual-aid brake system or a brake or a brake system which the Corvette's put the brake in the left or right when almost all parts to the front in the same way except certain high-brake-safety sensors and doors.
