Envoy and Envoy XL encompass the Professional Grade qualities of a GMC® SUV with extraordinary comfort. These versatile vehicles have unsurpassed standard horsepower in their class, thanks to a 275-hp Vortec™ 4200 engine.* New for 2003, Envoy XL offers even more power with the available 290-hp Vortec 5300 V8 engine. Fully 16 inches longer than the five-passenger Envoy, XL affords third-row seating for two 6'2" adults without sacrificing legroom. 4WD models with Autotrac® help maintain traction off-road or on slippery surfaces. Nearly 100 years of imagination and experience help propel Envoy into the next generation of SUVs.

*Based on latest available competitive data. Excludes other GM vehicles.
