The Yukon® line of full-size SUVs is designed to move like no other. Every Yukon model is engineered for surprising agility, whether you’re deftly handling traffic or maneuvering through a tight parking garage. A variety of features combines to produce their exceptional responsiveness, including the revolutionary QUADRASTEER® four-wheel steering system, available on Yukon XL 3/4-ton models. Driving a Yukon or Yukon XL may very well shatter your assumptions about the handling capabilities of a full-size SUV.

- 365 lb.-ft. of torque @ 4000 rpm

Available on Yukon and Yukon XL 1/2-ton

(Gross Vehicle Weight Rating) (GVWR) is the maximum allowable weight of the vehicle, payload, passengers, optional equipment and cargo. Maximum GVWR weight ratings are calculated using a base vehicle, except for any optional equipment required to achieve the rated GVWR. The actual weight of optional equipment and the number of passengers carried may affect the actual GVWR of your vehicle.
