Tele Aid1 is an optional feature on all C-Class models. When equipped with Tele Aid, first year’s Tele Aid Security & Care subscription is included at no additional cost with subscription. Subscription and acquaintance call required for service to be active. Service operates only where cellular and GPS coverage are available, and requires adequate power supply. Owner must authorize vehicle operation with passcode and a valid stolen vehicle police report number. PIN code required to activate Remote Door Unlock. See dealer for details.

Tele Aid Security & Care service
You’re already driving a very safe car. Now the Tele Aid Security & Care service enhances your sense of security and care. With an active Tele Aid Security & Care service comes from knowing you and your family have an added measure of security and care. With an active Tele Aid Security & Care service, you may be eligible for a discount from your insurance provider.

Tele Aid Luxury & Convenience Package
The Tele Aid Luxury & Convenience Package builds on the services of the Tele Aid Security & Care service and adds access to premium services that enhance your in-vehicle experience every time you get into your Mercedes-Benz. Upgrading to the Tele Aid Luxury & Convenience Package is as easy as pressing the i-button and speaking with a Tele Aid Response Specialist.

Personal Concierge acts as your personal assistant on the road. The Tele Aid Concierge Service offers you the gift of time and convenience by fulfilling your requests for nearly “anything, anytime, anywhere” at the touch of a button. You can also use the Online Concierge, which allows you to access your Personal Concierge via your computer or in your PDA from the convenience of your home, office or anywhere Internet access is available.

Traffic Information service. Traffic Information provides up-to-the-minute details on traffic conditions along your route. Traffic Information service is based on available data and may not reflect current traffic conditions.

Vehicle Recovery, i-Operator’s Manual, Anti-Theft Security & Care service enhances your sense of security and care. With an active Tele Aid Security & Care service you may be eligible for a discount from your insurance provider.

• SOS button: In case of an emergency, push the SOS button for a Tele Aid Response Specialist who can notify police, paramedics or other emergency personnel of your vehicle's location. SOS is automatically triggered in the event of an air bag or rear-end Emergency Tensioning Device (ETD) deployment.
• i-Button: In case of an emergency, push the SOS button for a Tele Aid Response Specialist who can notify police, paramedics or other emergency personnel of your vehicle's location. SOS is automatically triggered in the event of an air bag or rear-end Emergency Tensioning Device (ETD) deployment.

Traffic Information service. Traffic Information provides up-to-the-minute details on traffic conditions along your route. Traffic Information is based on available data and may not reflect current traffic conditions.

• Route Assistance connects you to a trained specialist who has the resources to locate and help you reach your destination.

24-hour Roadside Assistance
The first of its kind, the Mercedes-Benz Roadside Assistance Program is still the only one you can rely on or one year (10,000 miles or one year for AMG models).6

Mercedes-Benz Warranties
Our New Vehicle Limited Warranty runs for 48 months or 60,000 miles, whichever comes first. And anytime during the new vehicle warranty coverage, you can also purchase a Mercedes-Benz Extended Limited Warranty that will provide additional protection when the New Vehicle Limited Warranty expires.*

Mercedes-Benz Maintenance System
We made caring for your vehicle easier than ever. With the Mercedes-Benz Maintenance System, the service intervals are fixed and predictable—every 13,000 miles or 12 months (whichever comes first). Your vehicle will only require maintenance at the first 1,000- and 3,000-mile intervals, where your dealer will perform a diagnostic check and will address any questions you may have. It’s part of our no-charge Service Welcome, which also provides your first oil change at no charge anytime before 4,000 miles.

It’s part of our no-charge Service Welcome, which also provides your first oil change at no charge anytime before 4,000 miles.

The no-charge Service Welcome
Getting proper care for your Mercedes-Benz is easiest when you go to the people who know your vehicle—and you—best: your Mercedes-Benz Center's Service Department. To help you get acquainted, just bring your vehicle in for a no-charge first visit between 1,000 and 3,000 miles, where your dealer will perform a diagnostic check and will address any questions you may have. It’s part of our no-charge Service Welcome, which also provides your first oil change at no charge anytime before 4,000 miles.

Getting the most out of life means making the most of every situation. You have to instantly adapt to your surroundings—to be able to transform from responsible, hard-working company player to hard-playing purveyor of good times, and back. The versatile C-Class Sport Sedans each feature a smooth and powerful DOHC V-6 engine harnessed to a standard 6-speed manual transmission or an optional 7-speed automatic. So whatever you’re planning, count us in. You’ll find the C-Class is specifically designed for any environment—or state of mind—in which you find yourself.

C 230 Sport Sedan shown on cover in optional Iridium Silver metallic paint with optional Sunroof Package.
Remember, what you wear on the outside is an expression of how you feel inside. That’s why the aggressive attitude of the 2007 C 230 and C 350 Sport Sedans’ smooth and powerful DOHC V-6 engines is reflected by 360 degrees of intense exterior style, from its brilliant clear-lens headlamps, to its wraparound chrome trim, to its eye-catching taillamps, AMG trunk lid spoiler and dual chrome AMG exhaust tips. It’s an assertive look that demands to be noticed, with dramatically contoured lower bodywork that includes a deep front apron with wire mesh air intakes. LED turn signals in the side mirror housings even bring attention to the driver’s intentions.

And be sure to take advantage of the clever SmartKey remote. It not only operates the remote door locks and sets the alarm — it can even open or close all the windows from outside the car. It also starts the car with a nearly clone-proof electronic code. The sleek chrome all-in-one design actually fits in your pocket without ruining the lines of your favorite jeans. For in-the-car convenience, all four power windows feature one-touch express-up/down control.

Numerous features:
- AMG trunk lid spoiler
- LED turn signals in side mirror housings
- SmartKey remote-opens windows and locks and unlocks doors
- Raise or lower windows completely with one-touch express up/down button
- 17” staggered-width 6-spoke aluminum-alloy wheels
- Lowered sport-tuned suspension
- Perforated and ventilated front disc brakes with dual-piston calipers
- Nano-particle clearcoat paint technology
- AMG trunk lid spoiler
- Dual chrome AMG exhaust tips
- AMG front lip spoiler
The performance-inspired interiors of the C 230 and C 350 Sport Sedans can satisfy just about any desire you have at a given moment. The C 230 offers 10-way adjustable sport front seats with power-adjustable height and recline. The C 350 features 10-way power-adjustable sport front seats with 3-position memory as well as a 4-way power-adjustable steering column. Both Sport Sedans are fitted with stylish MB-Tex upholstery. Black Birdseye Maple wood trim the console and doors, while hooded chrome rings encircle the gauges in the instrument panel. The powerful sound system features six speakers and a standard CD player, while the leather-wrapped multifunction sport steering wheel lets you change CD tracks, adjust the audio volume or, with the accessory iPod® Integration Kit, even control an Apple iPod. Dual-zone climate control ensures that both driver and passengers will be equally pleased with the temperature. An electrostatic dust filter helps preserve the clean air in the cabin. And the optional 320-watt, 12-speaker, harman/kardon® LOGIC7® 7.1-channel digital surround sound system helps keep things moving at the exact pace of your choosing.
The C 230 and C 350 Sport Sedans feature AMG-design lower bodywork — including a muscular front apron with mesh inserts and aggressively contoured side sills — and 17" staggered-width 6-spoke aluminum-alloy wheels rolling on a lowered sport suspension with a staggered wheel stance. After all, if you're going to live life in the fast lane — 201-horsepower, 2.5-liter, DOHC V-6 fast in the C 230, 268-horsepower, 3.5-liter fast in the C 350 — you've got to look the part. So we've given the C 230 and C 350 Sport Sedans extra touches, such as clear-lens headlamps, cool blue-tinted glass and dual chrome AMG exhaust tips. Even their paint is innovative, using nano-particle technology to help their clearcoats fend off minor scratches — like swirl marks from the car wash — and help protect their deep glosses from dulling.

Racing-bred excellence

- 17" staggered-width 6-spoke aluminum-alloy wheels
- Perforated front disc brakes with dual-piston calipers
- Lowered sport-tuned suspension
- Nano-particle clearcoat paint technology
- AMG-design lower bodywork
- AMG trunk lid spoiler
- Dual chrome AMG exhaust tips
- 3-spoke multifunction sport steering wheel
- Optional Bi-Xenon headlamps

The interiors of the C 230 and C 350 Sport Sedans are also fully loaded with stylish standard features like a multifunction sport steering wheel that you can use to control and view information on the display. The look is fresh as well, with a host of performance-oriented appointments, including rubber-studded aluminum pedals. And, like every C-Class, the C 230 and C 350 Sport Sedans offer the 8-way protection of six standard airbags.
Get a grip

That sporty 2-spoke steering wheel isn't just for show, you know. We tried for you to put it to

understanding use on every hairpin turn and twisting ribbon of asphalt you can find. With just 2.8 turns

lock-to-lock, the rack-and-pinion steering is quick and precise. The handling response is tighter than a

3.5-liter DOHC V-6

4-wheel independent multilink suspension. 17" staggered-width wheels and Z-rated high-performance

tires1 are wider at the rear of the car to maximize traction during acceleration, while the front tires are

sized to keep the steering taut and crisp. 

HSA can potentially reduce stopping distances when it matters most.3

Brake Assist. In general, drivers tend not to brake hard enough, soon enough, in an emergency. So

we invented BAS, which senses panic braking via the speed at which you depress the brake pedal and

automatically applies all available braking boost immediately. By helping eliminate the delay caused by

human nature, BAS can potentially reduce stopping distances when it matters most.3

Optional driver-adaptive 7-speed automatic with Touch Shift feature, just flick the lever to the left or right of Drive for the fun of manual-style control.

258 lb-ft of torque @ 2,400–5,000 rpm

268 hp @ 6,000 rpm

3.5-liter DOHC V-6

C 350 Sport Sedan

C 230 Sport Sedan

Lower aspect ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged

tire surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions.

Electronic Stability Program (ESP) and traction control

It's not enough to expect the unexpected. You've got to be able to react to it as well. Our Electronic

Stability Program continuously monitors your steering and braking actions while you're cornering and

compares them to the actual vehicle path. If it senses the onset of understeer (plowing) or oversteer

(fishtailing), ESP brakes individual wheels and/or reduces excess engine power, to help keep you on

course. ESP also incorporates traction control, to help counteract wheelspin during acceleration.

4-wheel disc brakes with ABS and Brake Assist (BAS)

Along with standard 4-wheel disc brakes, every C-Class benefits from an emergency-sensing Brake Assist. In general, drivers tend not to brake hard enough, soon enough, in an emergency. So

we invented BAS, which senses panic braking via the speed at which you depress the brake pedal and

automatically applies all available braking boost immediately. By helping eliminate the delay caused by

human nature, BAS can potentially reduce stopping distances when it matters most.3

Standard on every C 230 and C 350 Sport Sedan is a precise and slick-shifting 6-speed manual

transmission with short throws and crisp action. As an option, you can hook your C-Class up with

the first 7-speed automatic in the industry. Why seven speeds? More gears means a smaller rpm drop

to launch you off the line and keep you in the sweet spot as the needles eagerly climb the gauges.

We're not suggesting you break any laws, of course. But if you aren't careful, you just might make that

daily commute disappointingly brief.

The 2.5-liter V-6 in the C 230 provides loads of torque all the time,

assertive 3.5-liter V-6 engine in the C 350, acceleration is brisk and cruising is super-smooth. An

optional driver-adaptive 7-speed automatic with Touch Shift feature, just flick the lever to the left or right of Drive for the fun of manual-style control.

C-Class Sport Sedan Safety

**Active safety**

To help you avoid an accident:

- Electronic Stability Program (ESP®)
- 4-wheel multilink sport tuned suspension
- Quick-ratio rack-and-pinion steering
- 4-wheel disc brakes with ABS and Brake Assist

**Passive safety**

To help protect you in certain accidents:

- Adaptive dual-stage front air bags
- Front side-impact air bags
- Window Curtain Air Bags
- Reinforced body structure
- Outboard seat-belt Emergency Tensioning Devices
- Active Front Head Restraints
- Three rear head restraints
- Optional Tele Aid System

**Active Front Head Restraints**

In the event of an impact exceeding the system’s deployment threshold, Active Front Head Restraints help to ease the shock and the head. As a result, reduced movement of the head inward, thereby reducing the chance or severity of whiplash-type injuries to the cervical spine.

**Advanced seat belts**

All four-outboard seat belts feature Emergency Tensioning Devices, which help remove seatbelt slack in a sufficiently severe front or rear impact, and belt force limiters, which can help reduce the peak deceleration forces on belted occupants.

**High-Strength, Low-Alloy (HSLA) steel**

HSLA steel is used in critical areas throughout the C-Class body to help create an exceptionally rigid structure designed to maximize integrity and stiffness, clean fuel, and improved handling precision.

**Side-impact protection**

Rearward-facing child seats, flor seats, floorpans, roof and dashboard supports in every C-Class are part of an integrated safety structure that affords formidable side-impact protection.

**Occupant Classification System (OCS)**

OCS adjusts the front passenger’s seatbelt inflation rate based on the weight category determined by weight sensor readings from the front passenger seat. The Wrench button connects you to our legendary Roadside Assistance Service. There’s also an Wrench button for more information. The optional Tele Aid System uses GPS satellites to help remove seatbelt slack in a sufficiently severe front or rear impact, and belt force limiters, which can remove seatbelt slack in a sufficiently severe front or rear impact.

**Rear side-impact air bags are optional.**

**Window Curtain Air Bags**

Side-impact air bags, as well as Window Curtain Air Bags along the side windows for all four outboard occupants. 2 Dual-stage front air bags and front side-impact air bags, as well as Window Curtain Air Bags along the side windows for all four outboard occupants.

**Six standard air bags**

Every C-Class provides the 4-way protection of six standard air bags, including adaptive dual-stage front air bags and side-impact air bags, as well as Window Curtain Air Bags along the side windows for all four outboard occupants. Their side-impact air bags are optional.

**Reinforced body structure**

Front and rear crumple zones feature full-width crossmembers. The front bumper adds strength to the front crumple zone. Side-impact protection systems impact energy around the cabin, and staggered underhood components are engineered to stack up the front fascia deforms.

**Outboard seat-belt Emergency Tensioning Devices**

When a slack in a seat-belt Emergency Tensioning Device deploys, as well as the Stolen Vehicle Tracking and Remote Door Unlock services.

**Tele Aid**

The optional Tele Aid System uses GPS satellites to help create an exceptionally rigid structure designed to maximize integrity and stiffness, clean fuel, and improved handling precision.

STANDARD EQUIPMENT

SEAT AND SEATING COMPONETS

• 4-way (tilt/telescoping) power steering column, position-linked to driver’s seat memory. Driver-programmable easy-exit feature can raise steering wheel when SmartKey is removed from ignition, and restore position when key is reinserted.

• 12-volt auxiliary outlet with two 12-volt outlets (if equipped) and cabin air intake by pressing and holding the red button on the multifunction display in instrument cluster. Provides automatic reminder feature when service interval draws near.

• Digital display for clock and Touch Shift gear/mode selection.

• Electronic analog speedometer, tachometer and gauges for fuel and oil pressure with clear white markings and white nighttime backlighting.

• Driver-programmable settings for instrument cluster, clock, trip computer, multifunction display, and comfort features.

• Multifunction display in instrument cluster can be scrolled via multifunction steering wheel controls for basic functions of audio system and optional Hands-Free Phone System.

• Driver-programmable right exterior illumination using rear car’s taillamps and brake lamps.

• Instrumentation, at right).

• Illuminated, carpeted cargo area.

• Folding rear center armrest with slide-out dual cupholder.

• Magazine pockets on both front seatbacks.

• Parcel net in right front footwell.

• Delayed-shutoff front courtesy lamps. Dual front reading lamps.

• 3-way lid (upper tray opens from left or right, lower compartment opens from center)

• Hands-free power rear hatch.

• Hexagon mesh on front Grille, single S-class external Grille inserts with front parking lights.

• Mirror positions.

• Memory of all doors plus the trunk and fuel filler.

• Roof release and trunk lid release for the radio, CD player, optional glovebox-mounted CD changer, and cabin air intake by pressing and holding the red button on the multifunction display in instrument cluster. Provides automatic reminder feature when service interval draws near.

• SmartKey offers infrared-remote opening/closing of windows (plus power sunroof, if equipped) from outside the car.

• SmartKey remote locking uses redundant infrared and ultrasonic beam to simultaneously lock all doors plus the trunk and fuel filler.

• SmartKey remote control integrates:

  – Panic alarm.
  – Removable valet key.
  – Remote Door Lock/Unlock buttons.

• SmartKey remote control integrates:

  – Panic alarm.
  – Removable valet key.
  – Remote Door Lock/Unlock buttons.

• SmartKey remote control integrates:

  – Panic alarm.
  – Removable valet key.
  – Remote Door Lock/Unlock buttons.

• SmartKey remote control integrates:

  – Panic alarm.
  – Removable valet key.
  – Remote Door Lock/Unlock buttons.

• With the car is remote-unlocked in darkness. Unlocking car activates exterior lights to help illuminate a path after parking.

• Built-in alarm system.

• Automatic delay off function for headlamps, close power sunroof and remove key from ignition.

• Audible reminders to release parking brake, fasten seat belts, switch off headlights, close power sunroof and turn off radio.

• Mercedes-Benz Vehicle Information System displays distance remaining to service intervals, indicates type of service due and provides automatic reminder feature when service interval draws near.

• Audible reminders to release parking brake, turn off headlights, close power sunroof and turn off radio.

• Delayed-shutdown feature.

• In-dash audio system operating panel integrates controls and displays for the radio, CD player, optional glovebox-mounted CD changer and CD/MP3 Input Adapter.

• In-vehicle navigation system with voice-activated controls and display window for voice-activated navigation system.

• 6-speaker audio system with automatic speed-sensitive volume control.

• AM/FM stereo/weather band radio. In-dash single-CD player with 10-song capacity.

• Dual-zone automatic climate control with dual rotary temperature controls for basic functions of audio system and optional Hands-Free Phone System.
Driver-adaptive 7-speed electronic automatic transmission with Touch Shift control.

• 4-way driver seat with adjustable seat backrest angle and electric seat height adjustment, dual-ply seat cushion with easy entry feature.
• 8-way passenger seat with adjustable seat backrest angle and electric seat height adjustment, dual-ply seat cushion with easy entry feature.
• Heated front seats.

• Steel front 3-point seat belts, center seat belt with emergency buckle reminder.
• All-steel front side-impact air bags.
• Driver-adaptive 7-speed electronic automatic transmission with Touch Shift control.
• Rear-door mounted side-impact air bags.
• iPod® Integration Kit allows any Apple iPod model with dock connector (sold separately) to fully integrate into the vehicle's audio system.

• Automatic Alarm Notification (alerts Mercedes-Benz to contact vehicle owner if antitheft alarm sounds).
• Remote Door Unlock (allows owner to have doors remotely unlocked).
• Automatic Collision Notification (engages SOS function if an air bag is deployed or a preset impact severity exceeding the system’s deployment threshold is detected).
• Tele Aid System uses GPS satellites plus a cellular link to automatically contact emergency services if an accident occurs.
• Automatic Alarm Notification (alerts Mercedes-Benz to contact vehicle owner if antitheft alarm sounds).
• Remote Door Unlock (allows owner to have doors remotely unlocked).
• Automatic Collision Notification (engages SOS function if an air bag is deployed or a preset impact severity exceeding the system’s deployment threshold is detected).
• Tele Aid System uses GPS satellites plus a cellular link to automatically contact emergency services if an accident occurs.
