Introducing The Ninth Generation S-Class

S550    S600    S65 AMG

S600 shown on front cover in Pewter metallic paint.
MERCEDES-BENZ WARRANTIES
Our New Vehicle Limited Warranty runs for 48 months or 50,000 miles, whichever comes first. And anytime during the new vehicle warranty coverage, you can also purchase a Mercedes-Benz Extended Limited Warranty that will provide additional protection when the New Vehicle Limited Warranty expires.*

THE MERCEDES BENZ MAINTENANCE SYSTEM
Now we’ve made caring for your vehicle easier than ever. With the Mercedes-Benz Maintenance System, the service intervals are all fixed and predictable — they’re every 10,000 miles or one year (10,000 miles or one year for AMG models).* Your vehicle will even remind you about one month before a service is due, so an automatic display on the dashboard will also tell you which type of maintenance service is due.

THE NO-CHARGE SERVICE WELCOME
Getting proper care for your Mercedes-Benz is easiest when you go to the people who know your vehicle — and you — best: your Mercedes-Benz Center’s Service Department. To help you get acquainted, just bring your vehicle in for a no-charge first visit between 1,500 and 3,000 miles, where your dealer will perform a diagnostic check as well as answer any questions you may have. It’s part of our no-charge Service Welcome, which also provides your first tire rotation at no charge anytime before 6,500 miles.*

24-HOUR CUSTOMER SERVICE
Our Customer Assistance Center is your one-stop source for answers. Whether you need to know how to use your audio system, find the nearest Mercedes-Benz dealer, or ask about financing and leasing options, you can connect via a toll-free phone number (1-800-FOR-MERCEDES) or press the Tele Aid button 8 in your vehicle. In the event that you need help with a problem covered by your MBUSA New Vehicle Limited Warranty, your dealer will provide you with the appropriate advice and assistance free of charge. You can also send the particulars to your local dealer, to help them set up a test drive for you.

ALTERNATE TRANSPORTATION PROGRAM
When you bring your vehicle into an official Mercedes-Benz Center for servicing during the warranty period, ask your dealer to set up an Alternate Transportation Program — so you can maintain your busy schedule while your dealer maintains your vehicle.*

EUROPEAN DELIVERY PROGRAM
It’s more than just a new car; it’s a driving adventure. With our factory delivery program, you can enjoy a honeymoon with your new Mercedes-Benz as you savor the delight of driving in a land where it was built — while you enjoy a 7% savings on many models. Enjoy it as a brief trip or as the starting point of your own self-planned European adventure. You can also take advantage of the optional Rally Package, which takes you through the Black Forest and the Alps, then on to Munich, staying at luxurious, historic hotels all along the way.

MERCEDES-BENZ FINANCIAL
Mercedes-Benz Financial offers a wide and impressive array of flexible and convenient financing options. To determine whether purchasing or leasing is right for you online. You can even send the particulars to your local dealer, to help them set up a test drive for you.

• Purchase Inquiry: Schedule a test drive, order a brochure, get financing rates on your Mercedes-Benz, visit MBUSA.com. Whether you need to locate the closest Mercedes-Benz dealer, want to know about financing and leasing options or would like more information about our exclusive European Delivery Program, MBUSA.com can help. This comprehensive website covers virtually every aspect of Mercedes-Benz ownership. You can also see MBUSA.com to pursue the automatic catalog of Mercedes-Benz accessories, or set up an Online Portfolio to save all of your automotive preferences. Quick, easy and always at your service, MBUSA.com puts a world of information just a mouse-click away.

• Model Selector: Find the perfect Mercedes-Benz based on performance, price and bodystyle.

• Photos and Videos: Mercedes-Benz photos, wallpaper, screen savers, running footage, TV commercials and more.

• Build Your Own: Build your dream Mercedes-Benz online. You can even send the particulars to your local dealer, to help them set up a test drive for you.

• Purchase Inquiry: Schedule a test drive, order a brochure, learn more about a model and explore financing and leasing options.

• Locate a Dealer: Finding your nearest dealer is easy with detailed maps and driving directions.

• Owners Online: This exclusive online resource offers owner benefits that extend beyond your vehicle. Access your Mercedes-Benz Financial account, configure your Tele Aid System, get vehicle maintenance tips and find answers to frequently asked questions. Plus, you’ll receive exclusive offers and promotions, and advance notice of what’s new and exciting at Mercedes-Benz.

• Owner Benefits: Access exclusive offers and promotions, and advance notice of what’s new and exciting at Mercedes-Benz.

• MBUSA.COM: Whether you need to locate the closest Mercedes-Benz dealer, want to know about financing and leasing options or would like more information about our exclusive European Delivery Program, MBUSA.com can help. This comprehensive website covers virtually every aspect of Mercedes-Benz ownership. You can also see MBUSA.com to pursue the automatic catalog of Mercedes-Benz accessories, or set up an Online Portfolio to save all of your automotive preferences. Quick, easy and always at your service, MBUSA.com puts a world of information just a mouse-click away.

In Our Case, It Really Does Measure Revolutions.

The all-new 2007 S-Class is nothing short of a rolling revolution. The best in performance, comfort and style, and boasting some of the most advanced safety features, remade and reimagined to be even better. Each successive generation of the S-Class sets the standard for the industry. And with every new S-Class, we take that standard and push it, and ourselves, even further. The result? Quite simply, the finest automobile in the world.
S550 shown in Iridium Silver metallic paint and over a century of revolutionary innovations.
The exterior of the S550 is a revolutionary combination of art and aerodynamics that pleases the eye and cheats the wind. Dramatically flared wheel arches, tautly defined lines and a muscular stance hint at the high performance within: think 382 horsepower unleashed by a 5.5-liter V-8 engine and you’ll have an idea of the kind of force it sets free. Poised handling – from the Airmatic suspension with Adaptive Damping System to the driver-adaptive 7-speed automatic transmission – lets you harness it all. Yet sophisticated details like chrome accents around the windows, door handles and trunk whisper that all this power is, indeed, quite refined. Underneath the beautiful design of the S550 exterior is Ultra-High-Strength/Low-Alloy steel, found in important areas of the safety cage. In addition to providing a crucial safety benefit, this remarkable metal is also far more rigid yet lighter in weight than conventional steel.
S550 shown in Obsidian Black metallic paint with the lowest drag coefficient of any vehicle in its class.
It is a standard by which all other luxury automobiles are judged. And then some. Specifically designed for those who desire the finest in automotive amenities, the S 600 offers more standard equipment than you might expect. Its interior is swathed in glove-soft Exclusive Leather and graced with a Panorama Roof that gives both driver and passengers a spectacular view of the sun and stars. Furthermore, high-performance tires¹ on 18” forged aluminum-alloy wheels provide a level of strength that helps keep the S 600 firmly adhered to the road. Yet it is under the hood that this luxury sedan reveals its fierce disposition. There, a 12-cylinder, 36-valve twin-turbocharged engine develops 510 horsepower. And the 612 lb-ft of torque allows the S 600 to rocket from 0 to 60 in just 4.5 seconds² — just about the time it takes to realize that this is a singularly extraordinary machine.

1 Lower aspect ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions. 2 Stated rates of acceleration are based upon manufacturer’s track results and may vary depending on model, environmental and road surface conditions, driving style, elevation and vehicle load.
Embracing Traditional Standards of
Craftsmanship.
How Radical.
The interior of the 2007 S-Class embodies a synergy of timeless craftsmanship and technological innovation. The wood-/leather-trimmed steering wheel helps make you feel as though you’re one with the road. The hand-polished Burl Walnut wood trim, featured throughout the luxurious cabin, is finished and set by hand. And the fiber-optic lines that glow from beneath the wood trim provide ambient lighting that is pleasing to both the mind and the eyes.

The optional Drive-Dynamic multicontour front seats are a journey into the realm of the senses. Beneath their skillfully stitched and buttery soft leather surfaces are 13 adjustable pneumatic chambers, seven of which can deliver four different levels of massage, helping to reduce stress and maintain awareness. These very special 14-way adjustable seats also react to provide additional support to the driver and front passenger during turns, and play a part in our revolutionary PRE-SAFE® system.

For those who crave the pulse-pounding thrill of racing-bred performance, the S 65 AMG has an invitation to extend. Step inside this ultra-exclusive vehicle and you’ll discover a wealth of industry-leading features and equipment, as well as an astonishing 604 horsepower and 738 lb-ft of torque. From its hand-built, bi-turbo V-12 engine to its hand-fitted appointments, the S 65 AMG stands as a work of automotive art. All it asks for is a driver bold enough to take the wheel.

1 Standard S 600. Optional S 550. AMG-design wood/leather-trimmed sport steering wheel is standard on S 65 AMG.
S550 shown with Savanna/Cashmere leather interior.

A Better Way To Peer Into The Dark Says A Lot About The Challenge Of Being Visionary.

Our available Night View Assist helps you see in the dark nearly 500 feet ahead. Unlike most systems, Night View Assist actually projects infrared light from two projectors in the headlamps, allowing it to see both warm objects (such as deer and pedestrians) and cold objects (such as a fallen tree) on even the darkest nights. When you activate the system, a high-resolution black-and-white image appears in the instrument panel behind the steering wheel, depicting objects illuminated by the infrared light. Like our antilock brakes and Electronic Stability Program (ESP®), Night View Assist joins a long list of automotive technological innovations that made their Mercedes-Benz debut on an S-Class.
Nothing is more powerful than an idea. Take the Mercedes-Benz safety concept, which is beyond sophisticated and has been split into four distinct areas: PERFORM-SAFE, PRE-SAFE®, PASSIVE-SAFE and POST-SAFE.

PERFORM-SAFE helps drivers avoid dangerous situations, and includes systems like ABS and Active Curve-Illuminating Headlamps. PRE-SAFE helps reduce injuries by tensioning the seat belts and moving the front passenger and optional power rear passenger seats into more favorable positions. If an impending rollover is detected, PRE-SAFE will also close the sunroof¹ and windows. PASSIVE-SAFE becomes effective during an accident and includes eight air bags offering 10-way protection. And finally, POST-SAFE activates after an accident occurs, automatically shutting off the car’s engine, unlocking passenger doors and calling an emergency response center via the Tele Aid System.²

S 550 shown in Obsidian Black metallic paint with optional Parktronic system and Dynamic Rear View Monitor.

¹ Not applicable for optional Panorama Roof. Not available S 600.
² First year’s Tele Aid Security & Care service provided at no additional cost with subscription. Subscription and acquaintance call required for service to be active. Service operates only where cellular and GPS coverage are available, and requires adequate power supply.
An Automobile That Can Anticipate An Accident.

From A Company
That Regularly Knows What’s Coming Next.
Perhaps the greatest luxury the S 550 offers is peace of mind: it can handle a variety of weather and road conditions. When equipped with optional 4matic™ permanent all-wheel drive, the S550 automatically sends torque to all four wheels for optimum control, even when driving conditions are not their best.1 A 45/55 front/rear torque split affords the S-Class the assured balance, performance and steering attributes of a rear-wheel-drive vehicle. 4matic also incorporates our 4-wheel Electronic Traction System. This advanced feature monitors wheel speed and, upon sensing slippage, can brake any one of the wheels individually, routing power to the wheel or wheels with traction. If necessary, 4matic can get the S 550 moving — even if only one wheel has traction — until the other wheels regain their grip.

1 No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Performance is limited by available traction, which snow, ice and other conditions can affect. Always drive carefully, consistent with conditions. Best performance in snow is obtained with winter tires.
A great number of the innovations now found on nearly every automobile — such as antilock brakes and crumple zones — were first incorporated into passenger vehicles by Mercedes-Benz. The 2007 S-Class continues that tradition. And we look forward to helping lead the automotive industry into the future.
A. NIGHT VIEW ASSIST
Optional Night View Assist employs infrared light technology – yet another industry first from Mercedes-Benz – to detect objects up to 500 feet ahead in near-total darkness. This system, which can be selected via a switch to the left of the steering wheel, uses infrared projectors in the headlamps to bathe the road ahead in infrared light that’s invisible to the naked eye. An infrared camera to the right of the rearview mirror assembly captures the reflected IR light and converts it to an image that is displayed on a high-resolution screen in the instrument cluster. When the system is activated, the speedometer is displayed as a horizontal bar on the bottom of the screen. The system works only in conjunction with low beams.

Mercedes-Benz Night View Assist has several advantages over competitive systems:
- Because this system projects infrared light, it is effective up to 500 feet ahead, which is farther than the range of low beams.
- Some other systems rely on heat signatures from animals or humans, leaving objects such as rocks or debris virtually invisible. Mercedes-Benz Night View Assist overcomes this shortcoming, as it is able to display both warm and cold objects.
- Displaying a black-and-white image on a high-resolution screen (rather than the windshield) creates a clear, sharp picture.

Standard S 600 and S 65 AMG. Optional S 550.

B. DISTRONIC PLUS ADAPTIVE CRUISE CONTROL
Using two separate onboard radar systems, Distronic Plus Adaptive Cruise Control monitors the vehicle ahead and adjusts your speed to help maintain your selected following distance. This system makes long journeys even more pleasurable by reducing the need for the driver to continually adjust the cruise control setting. In stop-and-go traffic, Distronic Plus can automatically keep pace by bringing the vehicle to a complete stop when the vehicle directly ahead stops, then start you moving again with traffic. If the vehicle ahead of you suddenly slows or comes to an abrupt stop, the Distronic Proximity Warning System will issue a visual and audio warning in case the driver has not already taken appropriate braking action. New for the 2007 S-Class: If the vehicle that the system is monitoring slows to a complete stop, Distronic Plus uses up to 40% of the vehicle’s braking capacity to stop your vehicle.

Standard S 600. Optional S 550 and S 65 AMG.

1 Night View Assist does not replace the use of headlamps and should not be used as the primary visual source for the driver. 2 Distronic Plus Adaptive Cruise Control is no substitute for active driving involvement. It does not react to stationary objects, nor recognize or predict the curvature and lane layout of the road or the movement of vehicles ahead, and can only apply a maximum of 40% of vehicle braking power. It is the driver’s responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. 3 If the vehicle has been at a standstill for more than a few seconds, Distronic Plus Adaptive Cruise Control will need to be reengaged by touching.
C. PARKTRONIC SYSTEM

When parking, ultrasonic sensors in the front and rear bumpers detect nearby objects within the system’s range. Audible signals and illuminated displays, visible in both the instrument cluster and rearview mirror, help you maneuver with confidence. This system helps you avoid obstacles that might be outside your field of vision when parking in tight spaces. (Park assist feature is included with standard Distronic Plus Adaptive Cruise Control on the S 600).  
*Standard S 65 AMG, Optional S 550.*

D. DYNAMIC REAR VIEW MONITOR

This innovative driver assistance advancement enables you to see what’s behind your vehicle when reversing. It also makes parallel parking and backing into a parking space easier and more accurate than ever before. When you shift into Reverse, a wide-angle camera mounted discreetly in the trunk lid recess area near the license plate captures an image of what’s behind the vehicle and displays it on the COMAND screen on the dashboard. This image is overlaid with dynamic guidelines which react to steering-wheel inputs to assist the driver in making accurate parking maneuvers. These guidelines can be altered between Parallel Parking and Backing-In mode, depending on the driver’s need.  
*Standard S 600 and S 65 AMG, Optional S 550.*

E. BI-XENON HEADLAMPS WITH ACTIVE CURVE ILLUMINATION

To help you see better around corners at night, these active headlamps turn along with your steering wheel. As a result, you get a better view into corners by increasing usable illumination by up to 90% over conventional fixed headlamps. Bi-Xenon headlamps deliver superior visibility over halogen headlamps because their brighter, whiter light is much closer to natural sunlight. They also incorporate dynamic level control and high-pressure heated headlamp washers. When making tight turns at low speeds, the cornering light function illuminates the area to the inside of the turn for better visibility.  
*Standard all models.*

---

4. Pulling the Distronic Plus stalk. 5. Dynamic Rear View Monitor does not audibly notify driver of nearby objects and is not a substitute for actively checking around the vehicle for any obstacles.
A. COMAND SYSTEM

The new COMAND system makes controlling the main systems in the S-Class easy and intuitive, while also helping reduce potential driver distraction. COMAND gives you precise control over the audio, climate, telephone and Navigation Systems, visible front-seat adjustments and many vehicle settings via an 8" color wide screen at the top of the dashboard, within the driver’s line of sight. You also have access to most audio features, the Hands-Free Communication System and the Navigation System via Voice Control.

Standard all models.

B. HARMAN/KARDON® LOGIC7® DIGITAL SURROUND-SOUND SYSTEM

The harman/kardon LOGIC7 digital surround-sound system fills the S-Class cabin with 600 watts of beautifully balanced sound. Fourteen optimally placed speakers deliver an enthralling surround-sound experience from MP3s, SIRIUS Satellite Radio, the standard 6-disc CD changer and even discs in DVD-Audio and DTS formats. An integrated microphone monitors vehicle acoustics and adjusts frequency response to deliver the optimum sound experience.

Standard all models.

C. MEMORY CARD SLOT

The PCMCIA multimedia slot lets you bring your digital music into your S-Class. Simply transfer digital audio files from your PC onto a widely available memory card and slip it into your S-Class. You'll then be able to scroll through playlists and song titles via the COMAND system's graphical user interface. Many other memory card formats, such as SD and Compact Flash, are supported with the aid of an adapter. (PCMCIA adapter card required. Sold separately.)

Standard all models.

D. SIRIUS SATELLITE RADIO®

SIRIUS Satellite Radio brings you over 120 digital channels of music, sports, news and talk — including live coverage of the NFL®, NHL® and NBA. When equipped with this feature, a 6-month subscription is included if activated at the time the vehicle is purchased.

Standard S600 and S65 AMG. Optional S550.

E. CLIMATE CONTROL

The dual-zone climate control system, standard on the S 550, delivers comfortable and precise heating and cooling to the cabin. When set to the Auto position, this system can even monitor sunlight intensity and seat occupancy, thus determining which side of the car requires greater cooling and adjusting the temperature and airflow accordingly. An enhanced 4-zone climate control system comes standard on the S 600 and S 65 AMG (optional on the S 550). It fine-tunes the conditions even further so that all passengers can create their individual comfort zones.

Standard all models.

1 When equipped with this feature. 2 Programming subject to change. Not available in Alaska, Hawaii or Puerto Rico. While the SIRIUS network of satellite and terrestrial antennae provides nearly seamless service throughout the contiguous U.S., SIRIUS service may be unavailable or interrupted for a variety of reasons, including environmental or topographic conditions; in certain locations such as tunnels, parking garages or within or next to large buildings; or near other technologies that can interfere with the SIRIUS signal. SIRIUS, the dog logo and SIRIUS stream names and logos are trademarks of SIRIUS Satellite Radio. NFL® is a registered trademark of the National Football League and its affiliates. NHL® is a registered trademark of the National Hockey League. The National Basketball Association name is the property of NBA Properties, Inc. 3 While the Navigation System provides directional assistance, the driver must remain focused on safe driving behavior, including paying attention to traffic and street signs. The driver should utilize the system’s audio cues while driving and should only consult the map or verbal displays once the vehicle has been stopped in a safe place. Maps do not cover all areas nor all routes within an area.
F. NEXT GENERATION NAVIGATION SYSTEM

With greater detail and faster processing than previous systems, this new Navigation System dispenses with using discs, instead employing a 20-gigabyte hard drive to store maps, Points Of Interest and driving directions. Using GPS technology, detailed driving directions are provided along with audio instructions via a friendly voice. Maps are displayed on the COMAND system’s large color-LCD screen. You can input your destination and select from points of interest such as gas stations, hotels, restaurants and Mercedes-Benz dealerships through the COMAND system or by using Voice Control. Data for the contiguous U.S., Canada and Oahu, Hawaii is included standard. Periodic updates can be obtained from your authorized Mercedes-Benz dealer.

Standard all models.

G. HANDS-FREE COMMUNICATION SYSTEM WITH VOICE CONTROL

The Mercedes-Benz Hands-Free Communication System incorporates state-of-the-art communications technology with the engineering expertise of Mercedes-Benz. This system works with your existing approved cellular phone by seamlessly integrating it into your vehicle. It allows you to initiate and receive calls using the COMAND system, the multifunction steering wheel or Voice Control. Calls are delivered through the audio system, which is automatically paused or muted. Your cellular phone’s phone book can also be downloaded into the vehicle’s hard drive for easy access through the COMAND system. A keypad is integrated into the center handrest for easy dialing and incoming caller ID is displayed on the COMAND screen. The Hands-Free Communication System requires one of two accessory interfaces (sold separately):

Standard all models.

H. BLUETOOTH® INTERFACE

Now you can make calls and access your phone book without ever taking your cellular phone out of your pocket. Using the accessory Bluetooth interface, the Hands-Free Communication System integrates itself wirelessly with your approved compatible phone. Once the Bluetooth interface is initialized with the phone, the system will automatically recognize your phone each time you enter the vehicle.

Sold separately. Not available with Multi-Handset Interface.

I. MULTI-HANDSET INTERFACE

Another option for using the Hands-Free Communication System is the Multi-Handset Interface. Simply plug your approved compatible phone into the appropriate accessory cradle and it will be automatically charged and connected to the vehicle’s Hands-Free Communication System. Your phone will also be connected to the integrated roof antenna for better reception.

Sold separately. Not available with Bluetooth interface.

J. KEYLESS GO

A leap in ease and efficiency, this option lets you open or lock any door or the trunk while leaving your vehicle’s SmartKey in your pocket. To start the vehicle, simply step on the brake pedal and push the Start button on the vehicle’s ignition. You can also start the vehicle in the conventional way by removing the Start/Stop button and inserting the SmartKey in the ignition.

Standard S600 and S65 AMG. Optional S550.

---

4 Always plug the phone into the cradle for use inside the vehicle or use the Bluetooth interface. Otherwise operating a non-approved phone or radio transmitter with its own attached or built-in antenna while the engine is running can interfere with the vehicle’s electronic systems. For safety reasons, the driver should not use a cellular phone while the vehicle is in motion. We encourage the driver to stop the vehicle in a safe location before answering or placing a call. See your Mercedes-Benz dealer or visit www.Wireless4MB.com for current handset availability. Not all approved phones support all system features. See dealer for details. 5 Certain Mercedes-Benz-approved phones support voice interactivity, but not the phone book download feature, with Bluetooth technology. See dealer for details. 6 BLUETOOTH INTERFACE DOES NOT PROVIDE PHONE CHARGING OR EXTERNAL ANTENNA. PHONE BOOK DOWNLOAD AND VOICE INTERACTIVITY FEATURES ARE DEPENDENT ON SELECTED HANDSET. VISIT WWW.WIRELESS4MB.COM FOR DETAILS. 7 Interface and phone sold separately. See dealer for a list of approved compatible phones. 8 Includes one-year, unlimited-mileage warranty. See dealer for details.

Standard. Optional or included with a package.
A. DRIVE-DYNAMIC MULTICONTOUR FRONT SEATS WITH 4-STAGE MASSAGE FUNCTION
Adding the Drive-Dynamic multicontour front seats provides the ultimate in seating ergonomics and comfort. Thirteen pneumatic chambers in the seat can be adjusted for an optimum seating position. Four levels of massage help fight fatigue by stimulating muscles and blood throughout the back and legs. For added control when cornering, the system also continuously monitors driving conditions and adjusts air chambers within the seat for added support on the side where you need it, helping to counteract lateral G-forces. If PRE-SAFE® senses that a collision is imminent, Drive-Dynamic multicontour front seats will inflate the outboard air chambers in the cushions and seatbacks to help hold the driver and front passenger in their positions.
Standard S600 and S65 AMG. Optional S550.

B. PANORAMA ROOF
A large dual-panel glass Panorama Roof provides both front- and rear-seat passengers with a view of the sky. The front panel can either tilt open or slide over the rear panel to open completely. Independently operated interior power sunshades cover both glass roof panels.
Standard S600 and S65 AMG. Optional S550.

C. COMFORT HEATED AND ACTIVE VENTILATED SEATS
Three levels of heating and cooling are available for front and rear outboard seats. Active Ventilated Seats are designed to keep you cool during warmer months by gently circulating air through perforations in the seat and backrest, which also helps eliminate perspiration buildup. Using both the ventilation and heating features of the seats simultaneously can help keep you warm and dry on damp and rainy days.
Standard S600 and S65 AMG. Optional S550.

D. REAR-SEAT PACKAGE
The optional Rear-Seat Package includes 8-way power-adjustable rear outboard seats with heating, ventilation and 4-zone climate control. This enables rear outboard passengers to adjust their seats to a variety of comfortable positions. The 4-zone climate control system is a luxurious touch that enables occupants to create four separate climate zones according to their preferences.
Standard S600. Optional S550 and S65 AMG.

1 Active Ventilated and multicontour rear seats optional on S65 AMG. 4-zone climate control system standard on S65 AMG.
E. AMBIENT LIGHTING
Fiber-optic lighting bathes the S-Class cabin in a soft amber glow that helps the driver find controls or items at night. The amber color was specifically selected to help reduce eyestrain. In nighttime driving, the ambient lighting prevents the driver from becoming too accustomed to the darkness, thus reducing the dazzling effect from oncoming traffic. When the door is opened, the adjustable ambient lighting is at its brightest; it then dims as the vehicle gets under way.
Standard all models.

F. VARIABLE DOORSTOP
The Variable Doorstop holds the door open at virtually any point in its swing range. This feature makes getting in or out of the car on hills easier. It also gives you more control when opening the door in tight spaces, such as parking spots or garages.
Standard all models.

G. ANALOG CLOCK
As an homage to prior S-Class generations, a large illuminated analog clock is prominently displayed on the dashboard. Constructed of elegant, high-quality materials, its design echoes the gauges of classic Mercedes-Benz automobiles. The S 65 AMG offers an exclusive IWC-design analog clock.
Standard all models.

H. NOISE-REDUCING AND INFRARED-REFLECTING GLASS
The S-Class windows are constructed using dual layers of glass and film laminates, which help lessen road and wind noise. In addition, these laminates are coated with pure silver and metal oxides that reflect up to 80% of infrared light to help keep heat out of the cabin. UV radiation is also reduced by approximately 95% while thermal radiation is reduced by up to 15% via the windscreen.
Standard all models.

I. ELECTRONIC TRUNK CLOSER
This feature allows the driver to fully open and close the trunk via a switch on the driver’s interior door panel. You can also close the trunk lid by pressing a button on the underside of the trunk lid, or open it with the SmartKey remote.
Standard S 600 and S 65 AMG. Optional S 550.

J. SPACIOUS TRUNK
The S-Class is endowed with 16.3 cu ft of trunk space, which is room enough for golf bags, luggage and whatever else you need to bring along. Useful grocery bag hooks, lashing points and even underfloor storage have all been carefully integrated.
Standard all models.
ALL-NEW 5.5-LITER V-8
Larger and more powerful, the S-Class’s new V-8 engine is one of the most advanced engines Mercedes-Benz has ever put into a production car. This 5.5-liter V-8 produces 382 horsepower at 6,000 rpm and 391 lb-ft of torque at 2,800-4,800 rpm. To help reduce engine weight and increase durability, the engine block is made of cast aluminum with a solid bedplate, a construction similar to that of winning Mercedes-Benz racecar engines. Its innovative aluminum-silicon-alloy cylinder sleeves help reduce friction by up to 50% versus conventional iron liners. It is also smoother and more efficient, thanks in part to the use of four valves per cylinder, dual overhead cams and continuously variable intake and exhaust valve timing. The result is a smooth and immediate power delivery that whisks the S 550 from 0 to 60 mph in just 5.4 seconds.¹

7-SPEED AUTOMATIC TRANSMISSION
The Mercedes-Benz S 550 is the only car in its class to have a 7-speed automatic transmission as standard equipment. The transmission’s wide range of closely spaced gears gives the driver the ideal gear ratio for virtually every driving condition, which means smoother cruising and immediate response for acceleration and passing. It also helps improve fuel efficiency during highway driving.

¹ Stated rates of acceleration are based upon manufacturer’s track results and may vary depending on model, environmental and road surface conditions, driving style, elevation and vehicle load.
AMG 6.0-LITER, BI-TURBO V-12

The S 65 AMG is the most powerful Mercedes-Benz sedan offered, unleashing a 6.0-liter, twin-turbocharged V-12 engine hand-built from start to finish by a master technician. In fact, less than 100 technicians in the world are qualified to assemble these engines. Offering supreme power and performance, this is a limited-production powerplant that sends the S 65 AMG from 0 to 60 in a heart-pounding 4.2 seconds. Helping it deliver 604 horsepower and 738 lb-ft of torque is a high-strength, balanced forged steel crankshaft with high-performance main and connecting rods, lightweight/high-strength forged aluminum AMG pistons and high-capacity fuel injectors with enlarged nozzles. Furthermore, low-temperature, high-capacity air-water intercoolers help the engine gather a stormy 22 lb/in (psi) of turbocharged power.

5-SPEED AUTOMATIC TRANSMISSION

The S 600’s 5-speed automatic was designed to handle the massive torque of its bi-turbo V-12. Responsive and dynamic, this gearbox is driver-adaptive, meaning it actually learns how you like to drive and adjusts its shift points accordingly. For sporty driving, the Touch Shift feature allows the driver to select gears by using the shift buttons on the rear of the steering wheel. And the 5-speed transmission with SPEEDSHIFT™ in the S 65 AMG gives you the advantages of racing-inspired technology, including smooth gear changes and enhanced power.

BI-TURBO V-12

A true thoroughbred, the 5.5-liter, bi-turbo V-12 in the S 600 produces 510 horsepower at 5,000 rpm and an astonishing 612 lb-ft of peak torque between 1,800–3,500 rpm. The 2-piece, die-cast engine block provides exceptional strength, as do the double-hardened polished crankshafts and lightweight/high-strength magnesium cylinder head covers. Two turbochargers — one per cylinder bank — efficiently increase peak power and deliver massive low-end torque. The combination of the high-torque V-12 engine with two compact turbochargers (rather than one large one) and an optimized turbine nearly eliminates “turbo lag.” Two liquid-to-air intercoolers yield a charge for more powerful combustion. For those who seek nothing less than 12 cylinders, this engine grants their wish with one of the best examples ever made.
A. AIRMATIC SEMI-ACTIVE SUSPENSION
For a balanced, comfortable ride, the S-Class employs electronically controlled air springs that adjust to changing driving conditions. Airmatic also lowers the ride height at higher speeds for improved aerodynamics and fuel efficiency. To help compensate for additional cargo or passenger weight, Airmatic automatically levels the vehicle.

Standard S550. Not available S600 and S65 AMG.

B. ACTIVE BODY CONTROL (ABC)
The S-Class is available with Active Body Control, arguably the most advanced automotive suspension system in production. ABC provides an ideal balance of ride comfort and handling while virtually eliminating bodyroll during cornering. For a more luxurious, composed ride, this system uses a series of sensors and electronically controlled high-pressure hydraulics to reduce the effects of roll, vibration, pitch, dive and squat. When going around a turn, ABC stiffens the outer suspension and lowers the inner suspension to help counteract the physical forces at play when a vehicle is cornering. This works to maintain consistent tire contact with the road for improved control and passenger comfort. ABC can also raise the vehicle’s ground clearance for driving on rutted or snowy roads. The S 65 AMG features AMG-modified ABC for even sportier handling.

Standard S600 and S65 AMG. Optional S 550.

C. ADAPTIVE DAMPING SYSTEM (ADS-II)
Part of Airmatic Semi-Active Suspension, the Adaptive Damping System lets you tailor your driving experience with two selectable driving modes — one for Sport and one for Comfort — at the touch of a button. ADS-II continually optimizes ride and handling by individually adjusting each wheel’s shock-absorber rate every time the wheel changes its direction of up-down travel.

Standard all models.

D. MULTILINK SUSPENSION
The S-Class uses a 4-wheel multilink suspension for exceptional poise and control, even under severe braking. The 5-arm rear multilink design — a Mercedes-Benz innovation — controls rear-wheel movement with outstanding precision. For more dynamic handling, the front axle assembly, 4-link suspension and steering gear are all preassembled along with the engine and transmission on an extraordinarily rigid steel frame. The use of lightweight/high-strength aluminum suspension components helps reduce unsprung weight and improve handling.

Standard all models.
E. 4MATIC™ PERMANENT ALL-WHEEL DRIVE WITH 4-WHEEL ELECTRONIC TRACTION SYSTEM (4-ETS)

For optimum traction, even in slippery conditions, the Mercedes-Benz 4MATIC permanent all-wheel drive system incorporates our advanced 4-wheel Electronic Traction System. 4-ETS can get you going even when only one wheel has grip. Sensors at each wheel monitor traction. If one or more wheels start to slip, 4-ETS can brake those wheels individually and shift power to the wheel or wheels with the most traction. It can rebalance power seamlessly and enhances the overall effectiveness of all-wheel drive.

Optional $550. Not available S600 and S65 AMG.

F. BRAKES

The S-Class is endowed with large, cross-drilled front and internally ventilated rear disc brakes to provide powerful stopping control. The S 65 AMG is equipped with 15.4" front and 14.4" rear compound disc brakes and front twin-sliding calipers. The Brake Drying feature is designed to increase stopping performance in wet conditions by intermittently (and imperceptibly) pressing the brake pads against the rotors when the windshield wipers are in use to remove excess water on the rotors. For added control in stop-and-go traffic or when parking, hill-start assist maintains braking pressure for about one second when the driver releases the brakes on an incline to stop the car from rolling backward in Drive or forward in Reverse.

Standard all models.

G. ELECTRONIC PARKING BRAKE

New for 2007, the convenient Electronic Parking Brake can be engaged or disengaged at the touch of a button. It also automatically disengages when you shift into gear and apply the gas. This feature increases the usable footwell space by eliminating the need for a mechanical brake pedal or handle.

Standard all models.
1 WARNING: THE FORCES OF A DEPLOYING AIR BAG CAN CAUSE SERIOUS OR FATAL INJURIES TO A CHILD UNDER AGE 13. THE SAFEST SEATING POSITION FOR YOUR CHILD IS IN THE REAR SEAT, BELTED INTO AN APPROPRIATE, PROPERLY INSTALLED CHILD SEAT, OR CORRECTLY WEARING A SEAT BELT IF TOO LARGE FOR A CHILD SEAT. SEE OPERATOR’S MANUAL FOR ADDITIONAL WARNINGS AND INFORMATION ON AIR BAGS, SEAT BELTS AND CHILD SEATS. 2 A small gap is left near the full-close position. For vehicles with Panorama Roof, Enhanced PRE-SAFE will not automatically close the sunroof in the event of an impending accident. 3 No system, regardless of how advanced, can overcome the laws of physics or correct careless driving.
ELECTRONIC STABILITY PROGRAM (ESP*)
This PERFORM-SAFE feature continuously monitors your vehicle’s motion to help keep you going in your intended direction. If it detects wheelspin, severe understeer (plowing) or oversteer (fishtailing), the Electronic Stability Program can brake individual wheels and reduce engine power to help bring the vehicle back under control. ESP is especially important in helping to control your vehicle during accident-avoidance maneuvers and helping to reduce the possibility of a rollover. Mercedes-Benz pioneered this important safety feature in 1995 and has continued to refine its performance ever since.

Standard all models.

SEAT BELTS
Seat belts are arguably the most important PASSIVE-SAFE feature, so the S-Class incorporates seat belts with Emergency Tensioning Devices (ETDs) and belt force limiters. In the event of a collision exceeding a preset threshold, the ETDs use a pyrotechnic charge to instantly remove slack from the seat belts. Belt force limiters allow a slight amount of give in the seat belts. This helps to more evenly distribute the forces between the air bags and seat belts (for front-seat occupants) and helps reduce the peak seat-belt forces on the occupant.

Standard all models.

CUTTING POINTS
To aid rescue workers, the S-Class windshield and rear window are marked with cutting points for the A and C pillars. This POST-SAFE feature helps rescue workers identify areas in which it is safe to use hydraulic tools to cut away the roof of the vehicle without cutting through any undeployed safety systems.

Standard all models.

BODY STRUCTURE
At the core of the PASSIVE-SAFE system is the body of the S-Class, which forms a formidable safety structure. High-Strength/Low-Alloy and Ultra-High-Strength/Low-Alloy steel are used in important areas throughout the vehicle. Full-width front and rear crossmembers, along with a reinforced floorpan, doors and door sills, combine to provide protection in a variety of impacts. Advanced front and rear crumple zones progressively deform to help absorb the energy of an impact, while underhood components are staggered to help prevent them from stacking up in a frontal impact, thereby reducing the likelihood of intrusion into the cabin. An ellipsoidal front bulkhead helps channel some of the forces of a frontal impact under, over and around the passenger cabin.

Standard all models.

10-WAY AIR BAG PROTECTION
The S-Class PASSIVE-SAFE system features the 10-way protection of an 8-air bag system. It includes dual-stage front air bags, front and rear side-impact air bags and full-length Window Curtain Air Bags. The Window Curtain Air Bags deploy along the front and rear windows of the affected side, to help protect outboard occupants from head injury and broken glass in certain side impacts or rollovers.

Standard all models.

SIDE-IMPACT PROTECTION
Reinforced doors, side sills and floorpan are part of an integrated safety design that also includes high-strength seat structures. All of these PASSIVE-SAFE systems work in concert to help protect occupants in side impacts. Four side-impact air bags and Window Curtain Air Bags further enhance occupant protection.

Standard all models.

Please always wear your seat belt. Performance is limited by available traction, which snow, ice and other conditions can affect. Always drive carefully, consistent with conditions. Best performance in snow is obtained with winter tires. 4 Front and rear outboard seats only.
DESIGN YOUR UNIQUE S-CLASS
Customize the look of your S-Class to reflect your personal style. First choose from a variety of metallic and non-metallic exterior paints. Then combine your favorite upholstery color choice with Burl Walnut high-gloss wood trim. All exterior colors are available with all upholstery colors. The S 550 comes with hand-fitted, glove-soft leather standard and Premium Leather as an optional upgrade. The cabin of the S 600 is adorned with fine-grain Exclusive Leather, Burl Walnut wood trim and an Alcantara suede-like headliner. The S 65 AMG offers unique sport seats hand-fitted with Exclusive Leather featuring AMG badging on the front-seat backrests. Burl Walnut high-gloss wood trim is installed by expert craftsmen and has been specially treated so as to resist splintering in case of an accident. Because when it comes to the comfort and safety of our drivers, nothing is left to chance.

INTERIOR UPHOLSTERY AND TRIM

1 Leather upholstery is standard on the S 550. Premium Leather upholstery is optional on the S 550. Exclusive Leather upholstery is standard on the S 600 and S 65 AMG and not available on the S 550.
**NANO-PARTICLE PAINT: BEAUTY AT THE FOREFRONT OF SCIENCE; PROTECTION AT THE MOLECULAR LEVEL**

To keep your S-Class’s exterior looking its best for a long, long time, Mercedes-Benz went to the edge of scientific exploration: nanotechnology. Mercedes-Benz incorporates microscopic ceramic nano-particles into the clearcoat of the paint. Each ceramic nano-particle is tens of thousands of times thinner than a human hair (just 0.000001 millimeters in diameter), but when joined together they are incredibly durable. When the clearcoat is applied, the nano-particles float around freely in the liquid paint. As the paint cures, the particles cross-link into a strong, dense network, almost like an invisible chain-link fence. The resulting finish offers considerably greater and longer-lasting resistance to fine scratches—such as those caused by car washes and environmental factors—than conventional paint finishes, for an enduring deep gloss. To those who say that beauty is only skin-deep, we can only respond that it’s much, much thinner than that.

Standard all models.

*S550 shown in Pewter metallic paint.*
To enhance the S-Class experience, we offer three exclusive *designo* editions. Each features the soothing touch of glove-soft, hand-fitted Nappa leather and lustrous *designo* wood trim that is individually selected for harmonious appearance and hand-finished to give you true Old World craftsmanship. You’ll also find our exclusive interior treatment, with Nappa leather covering the dashboard, doors and console while Alcantara on the pillars, sun visors and ceiling creates its own soft ambience. And whether you choose the elegant Mystic White Edition, the enticing Espresso Edition or the sophisticated Graphite Edition, you’ll be surrounded by a unique expression of your own personal style.

The cool sophistication of *designo* Mocha Black metallic paint sets the stage for an engaging experience within. Find enchantment in soft *designo* Armagnac Brown Nappa leather hand-fitted to the seats, center armrests and door-trim inserts of the cabin. Lustrous Natural Maple wood trim is the perfect complement to this rich motif, while the plush *designo* floor mats are finely tailored with black leather borders.

Shimmering *designo* Mystic White metallic paint presents an irresistible invitation to the world of elegant style. Once you’re inside, supple Porcelain Nappa leather, applied by hand throughout the cabin, welcomes your touch. Hand-finished Black Piano Lacquer wood trims the doors, console, steering wheel and overhead assist grips to stunning effect. *designo* floor mats trimmed in black leather treat every guest to a final touch of indulgence.

Beneath a rich *designo* Graphite metallic exterior, you’ll find a tasteful blend of luxurious textures. Take in the elegance of *designo* Corteccia Nappa leather applied by hand throughout the charcoal cabin and enjoy the look of Matte Oak wood trimming the doors, console, steering wheel and beyond for added visual flavor. Exclusive *designo* floor mats are edged in black leather.

A. iPod® INTEGRATION KIT
Your music. Your Mercedes-Benz. Taking your personal music collection with you wherever you go has never been easier. Mercedes-Benz offers seamless integration of your iPod into the audio system of your S-Class. With an interface that is compatible with any dock-connector-equipped iPod device, the iPod Integration Kit even allows your iPod to charge itself while playing. Steering-wheel controls and a visual display of the track information make your iPod a perfect fit with your Mercedes-Benz. Control your iPod via steering-wheel mounted buttons:
- Navigate within the current iPod music menu.
- Fast-forward and Rewind.
- Volume Control, Select, Change Menu.
- Display of current iPod selection.

B. DOOR SILL PANELS (NON-ILLUMINATED)
These high-quality front and rear door sill panels are made from brushed stainless steel. Panels feature chrome-backed Mercedes-Benz lettering with inlay. Four per set.

C. CHROME MIRROR HOUSINGS
These high-sheen exterior chrome mirror housings perfectly complement the range of coordinating exterior refinements. Two per set.

D. CHROME HEADLAMP RINGS
Add extra flair to the distinctive look of your S-Class with this set of chrome headlamp rings. Two per set.

ACCESSORY ALUMINUM-ALLOY WHEELS
Mercedes-Benz accessory aluminum-alloy wheels are a stylish way to express your individuality and make a statement. Engineered to the highest standards, each accessory wheel puts a unique spin on your S-Class.

E. DENEBOA 19" 9-TWIN-SPOKE

F. ERIDANUS 18" 5-TWIN-SPOKE

The brochure of genuine Mercedes-Benz accessories is available at your Mercedes-Benz dealership.

1 iPod is a registered trademark of Apple Computer, Inc. All iPod devices are sold separately. Feature not available with iPod Shuffle. See dealer for details. 2 Not available S 65 AMG.

</thead>
<tbody>
<tr>
<td>Integrated Restraint System:</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>- Driver and front passenger are each provided with an adaptive dual-stage front air bag, side-impact air bag and 3-point seat belt with an Emergency Tensioning Device (ETD) and adaptive belt force limiter.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>- 2nd-row outboard passengers and 2nd-row center passenger are each provided with a 3-point seat belt with an ETD, belt force limiter and side-impact air bag.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Window Curtain Air Bags:</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>- In a side impact exceeding a preset threshold, a multichamber air bag deploys along the front and rear side windows on the affected side of the car.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>- Integrated rollover sensor automatically deploys the ETDs and, if deemed necessary, the Window Curtain Air Bags in the event of a detected rollover.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Adaptive dual-stage front air bags are deployed in response to frontal impact severity exceeding a preset deployment threshold.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>PRE-SAFE® helps prepare occupants for a possible collision before it occurs. If PRE-SAFE senses a possible accident based on brake pedal application pattern, steering-wheel input pattern or Electronic Stability Program (ESP®) activation level, it will take action to help protect you better depending on the situation, including:</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>- Electronically tensioning the front seat belts.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>- Adjusting the front passenger seat (and rear seats, with Rear-Seat Package) for potentially more favorable air-bag and seat-belt effectiveness.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>- Inflating outboard side bolsters and seat cushions of front seats on vehicles equipped with multicontour seats.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>- Closing the sunroof (if vehicle is about to spin out of control) and shutting the windows (not applicable for Panorama Roof).</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>- If no collision occurs, PRE-SAFE releases the front seat-belt tensioners, and occupants may readjust their seats, the windows and the sunroof.</td>
<td></td>
<td></td>
<td></td>
</tr>

1 iPod is a registered trademark of Apple Computer, Inc. All iPod devices are sold separately. Feature not available with iPod Shuffle. See dealer for details. 2 Tele Aid equipment is standard on all S-Class models. First year’s Tele Aid Security & Care service provided at no additional cost with subscription. Subscription and acquaintance call required for service to be active. System operates only where cellular and GPS coverage are available, and requires adequate power supply. Owner must authorize vehicle tracking by providing passcode and a valid stolen vehicle police report number. PIN code required to activate Remote Door Unlock. See dealer for details of telematics services. 3 WARNING: THE FORCES OF A DEPLOYING AIR BAG CAN CAUSE SERIOUS OR FATAL INJURIES TO A CHILD UNDER AGE 13. THE SAFEST SEATING POSITION FOR YOUR CHILD IS IN THE REAR SEAT, BELTED INTO AN APPROPRIATE, PROPERLY INSTALLED CHILD SEAT, OR CORRECTLY WEARING A SEAT BELT IF TOO LARGE FOR A CHILD SEAT. SEE OPERATOR’S MANUAL FOR ADDITIONAL WARNINGS AND INFORMATION ON AIR BAGS, SEAT BELTS AND CHILD SEATS. 4 OCCUPANT CLASSIFICATION SYSTEM (OCS) IS DESIGNED TO TURN THE FRONT PASSENGER’S FRONT AIR BAG OFF WHEN THE SYSTEM SENSES THE WEIGHT OF A TYPICAL CHILD 12 MONTHS OLD OR LESS, PLUS THE WEIGHT OF A STANDARD APPROPRIATE CHILD RESTRAINT. SEE OPERATOR’S MANUAL FOR IMPORTANT ADDITIONAL INFORMATION ON THIS SYSTEM, AND FOR FURTHER INFORMATION REGARDING THE TRANSPORTATION OF CHILDREN HEAVIER THAN A TYPICAL 12-MONTH-OLD.

5 Programming subject to change. Not available in Alaska, Hawaii or Puerto Rico. While the SIRIUS network of satellite and terrestrial antennas provides nearly seamless service throughout the contiguous U.S., SIRIUS service may be unavailable or interrupted for a variety of reasons, including environmental or topographic conditions; in certain locations such as tunnels, parking garages or within or next to large buildings; or near other technologies that can interfere with the SIRIUS signal. SIRIUS, the dog logo and SIRIUS stream names and logos are trademarks of SIRIUS Satellite Radio. 6 Lower aspect ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions. 7 Not available S 65 AMG.
TELE AID®
Tele Aid puts a variety of services at system subscribers’ fingertips with three simple buttons: the SOS button, the Wrench button and the i-button.
• SOS button: In case of an emergency, push the SOS button for a Tele Aid Response Specialist who can notify police, paramedics or other emergency personnel of your vehicle’s location. SOS is automatically triggered in the event of an air-bag or seat-belt Emergency Tensioning Device (ETD) deployment.
• Wrench button: If you need Mercedes-Benz Roadside Assistance, push the Wrench button. Service personnel will help you identify the trouble and dispatch Roadside Assistance if necessary.
• i-button: Push the i-button to contact the Customer Assistance Center or to be connected to your Mercedes-Benz dealer. You can also reach the Concierge Service, receive Route Assistance and access Tele Aid’s Enhanced Traffic Information service.\(^1\,2\)

TELE AID SECURITY & CARE SERVICE
You’re already driving a very safe car. Now the Tele Aid Security & Care service enhances your sense of security by providing emergency notification services, connection to Roadside Assistance, Remote Door Unlock, Stolen Vehicle Recovery, i-Operator’s Manual, Anti-Theft Client Alarm Notification and more. Keep your annual subscription up-to-date and enjoy the peace of mind that comes from knowing you and your family have an added measure of security and care. With an active Tele Aid subscription, you may be eligible for a discount from your insurance provider.

TELE AID LUXURY & CONVENIENCE PACKAGE\(^2\)
The Tele Aid Luxury & Convenience Package builds on the services of the Tele Aid Security & Care service and adds access to premium services that enhance your in-vehicle experience every time you get into your Mercedes-Benz. Upgrading to the Tele Aid Luxury & Convenience Package is as easy as pressing the i-button and speaking with a Tele Aid Response Specialist.
• Personal Concierge acts as your personal assistant on the road. The Tele Aid Concierge Service offers you the gift of time and convenience by fulfilling your requests for nearly “anything, anytime, anywhere” at the touch of a button. You can also use the Online Concierge, which allows you to access your Personal Concierge via your computer or even your PDA from the convenience of your home, office or anywhere Internet access is available.
• Enhanced Traffic Information provides up-to-the-minute details on traffic conditions along your route.\(^3\)
• Route Assistance connects you to a trained specialist who has the resources to locate and help you reach your destination.

24-HOUR ROADSIDE ASSISTANCE
The first of its kind, the Mercedes-Benz Roadside Assistance Program is still the only one that remains in effect for the life of the vehicle. Our Roadside Assistance technicians draw on years of experience and training to get you back on the road as quickly as possible.\(^4\)

---

1 Tele Aid equipment is standard on all S-Class models. First year’s Tele Aid Security & Care service provided at no additional cost with subscription. Subscription and acquaintance call required for service to be active. Service operates only where cellular and GPS coverage are available, and requires adequate power supply. Owner must authorize vehicle tracking by providing passcode and a valid stolen vehicle police report number. PIN code required to activate Remote Door Unlock. See dealer for details of telematics services.
2 Concierge Service available only with Tele Aid Luxury & Convenience Package. Enhanced Traffic Information and Route Assistance use is included as part of the Tele Aid Luxury & Convenience Package and is available at an additional per-use charge when used with the Tele Aid Security & Care service. See dealer for details.
3 Performance of the automated voice system varies depending on the noise level in and around the vehicle. Enhanced Traffic Information is based on available broadcast data, not available in all areas and only provided for routes that have been personalized on the Tele Aid website (up to five routes) or are within a specified radius of your vehicle’s present location. See Tele Aid section of MBUSA.com for available cities.
4 Vehicle must be accessible from main roads. Roadside Assistance repairs may involve charges for parts, service and towing. Depending on the circumstances, these services may be provided by an outside service, courtesy of Mercedes-Benz Roadside Assistance. For full details of the Roadside Assistance Program, please see your dealer.
**MERCEDES-BENZ WARRANTIES**

Our New Vehicle Limited Warranty runs for 48 months or 60,000 miles, whichever comes first. And anytime during the new vehicle warranty coverage, you can also purchase a Mercedes-Benz Extended Limited Warranty that will provide additional protection when the New Vehicle Limited Warranty expires.1

**THE MERCEDES BENZ MAINTENANCE SYSTEM**

Now we’ve made caring for your vehicle easier than ever. With the Mercedes-Benz Maintenance System, the service intervals are all fixed and predictable — they’re every 13,000 miles or one year (10,000 miles or one year for AMG models).2 Your vehicle will even remind you about one month before service is due, so an automatic display on the dashboard also tells you which type of maintenance service is due.

**THE NO-CHARGE SERVICE WELCOME**

Getting proper care for your Mercedes-Benz is easiest when you go to the people who know your vehicle — and you — best: your Mercedes-Benz Center’s Service Department. To help you get acquainted, just bring your vehicle in for a no-charge first visit between 6,100 and 3,000 miles, where your dealer will perform a diagnostic check as well as answer any questions you may have. It’s part of our no-charge Service Welcome, which also provides your first tire rotation at no charge anytime before 6,500 miles.3

**24-HOUR CUSTOMER SERVICE**

Our Customer Assistance Center is one-stop service for answers. Whether you need to know how to use your audio system, find the nearest Mercedes-Benz dealer, to help them set up a test drive for you.

**SIGN AND DRIVE SERVICE**

In the unlikely event that a breakdown covered by your MBUSA New Vehicle Limited Warranty occurs more than 100 miles from your home, leaves your vehicle inoperable or unsafe to drive and requires overnight repairs at a Mercedes-Benz Center, you’ll be reimbursed up to $300 per day for any documented expenses — for up to three days — for meals, lodging and substitute transportation.

**TRIP INTERRUPTION BENEFITS**

In the unlikely event that a breakdown covered by your MBUSA New Vehicle Limited Warranty occurs more than 100 miles from your home, leaves your vehicle inoperable or unsafe to drive and requires overnight repairs at a Mercedes-Benz Center, you’ll be reimbursed up to $300 per day for any documented expenses — for up to three days — for meals, lodging and substitute transportation.

**ALTERNATE TRANSPORTATION PROGRAM**

When you bring your vehicle into an official Mercedes-Benz Center for servicing during the warranty period, ask about your dealer’s Alternate Transportation Program — so you can maintain your busy schedule while your dealer maintains your vehicle.4

**EUROPEAN DELIVERY PROGRAM**

It’s more than just a new car; it’s a driving adventure. With our factory delivery program, you can enjoy a honeymoon with your new Mercedes-Benz as you savor the delight of driving it in the land where it was built — while you enjoy a 7% savings on many models.5 Enjoy it as a brief trip or as the starting point of your own self-planned European adventure. You can also take advantage of the optional Rally Package, which takes you through the Black Forest and the Alps, then on to Munich, staying at luxurious, historic hotels all along the way.

**MERCEDES-BENZ FINANCIAL**

Mercedes-Benz Financial offers a wide and impressive array of flexible and convenient financing options. To determine whether purchasing or leasing is right for you online. You can even send the particulars to your local dealer, to help them set up a test drive for you.

**MBAUSA.COM**

Whether you need to locate the closest Mercedes-Benz dealer, want to know about financing and leasing options or would like more information about our exclusive European Delivery Program, MBUSA.com can help. This comprehensive website covers virtually every aspect of Mercedes-Benz ownership. You can also use MBUSA.com to pursue the automated catalog of Mercedes-Benz accessories, or set up an Online Portfolio to save all of your automotive preferences. Quick, easy and always at your service, MBUSA.com puts a world of information just a mouse-click away.

- Model Selector: Find the perfect Mercedes-Benz based on performance, price and bodystyle.
- Photos and Videos: Mercedes-Benz photos, wallpaper, screen savers, racing footage, TV commercials and more.
- Build Your Own: Build your dream Mercedes-Benz online. You can even send the particulars to your local dealer, to help them set up a test drive for you.
- Purchase Inquiry: Schedule a test drive, order a brochure, learn more about a model and explore financing and leasing options.
- Locate a Dealer: Finding your nearest dealer is easy with detailed maps and driving directions.
- Owners Online: This exclusive online resource offers owner benefits that extend beyond your vehicle. Access your Mercedes-Benz financial account, configure your Tele Aid System, get vehicle maintenance tips and find answers to frequently asked questions. Plus, you’ll receive exclusive offers and promotions, and advance notice of what’s new and exciting at Mercedes-Benz.

---

5 These are your dealer’s warranty details as well as ours, conditions and pricing vary based on extended warranty options. Savings vary after the first year. 8 Distance covers the first. Requires use of 229.5-spec oil and high-performance fleece oil filter. Driver is responsible for any damage or personal injury if you’re not careful. The transmission is fully automatic. If you have a manual, see your owner’s manual. The drive can transfer the power to the rear wheels only when traction is lost. “AMG” is an engine designation only. 11 European manufacturer’s recommendations are based on performance, price and bodystyle. 8 First year’s Tele Aid Security & Care service provided at no additional cost with your MBUSA New Vehicle Limited Warranty. Tele Aid System, get vehicle maintenance tips and find answers to frequently asked questions. Plus, you’ll receive exclusive offers and promotions, and advance notice of what’s new and exciting at Mercedes-Benz.
