

ARNAGE FINAL SERIES

A FITTING END. A NEW CHAPTER.
THE PERFECT EMBODIMENT OF 90 YEARS
OF BENTLEY HERITAGE.

Ten years of class leading luxury. Ten years of effortless power.

With an illustrious bloodline stretching back to one of the most exciting eras of motoring, when the legendary Bentley Boys ruled the track at Le Mans, Arnage is the Grand Tourer handbuilt with a rare passion and dedication. A name truly synonymous with Bentley.

Now the Arnage Final Series. A car that embodies all the refinement, the character and the potency for which Arnage stands, and one that celebrates the end of a glorious era.

Limited to an exclusive run of just 150 cars worldwide.

SHAPED BY HAND, BY HISTORY,
BY PRIDE.

Arnage are remarkable cars handbuilt by extraordinary people. The craftsmen and women at Crewe are a world apart; their skills unmatched and the cars they build without parallel. Nowhere does more than 90 years of tradition manifest itself so perfectly than in the Arnage Final Series.

Each one is a true individual, and can be personalised to your exact requirements with all the timeless resources of Mulliner, where the coach-builders, cabinet makers, upholsterers and electronic experts ensure your vision is brought beautifully to life.

As with every Arnage, quality and luxury are paramount. So details such as the 6 metres of wood veneer and the 17 premium grade leather hides used to create the luxurious interior are standard. Naturally, the exterior is similarly perfect; the immaculate paintwork the result of 120 different processes, culminating in a 10-hour polish by hand.

Through a combination of commitment and timeless tradition, Arnage Final Series is destined to become a true British classic.

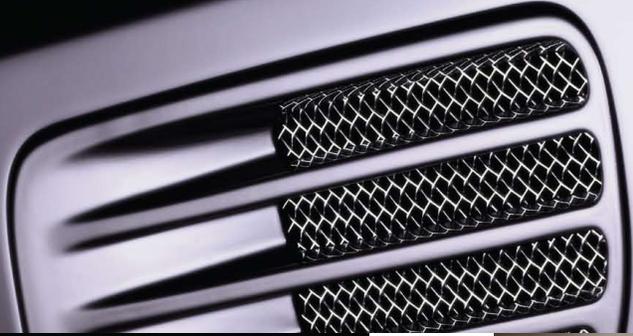

**A RARE BLEND OF EFFORTLESS
POTENCY AND UNIQUE FINESSE.**

Muscular lines and a powerfully impressive body, Arrage Final Series sets a commanding figure, with the debuting Flying 'B' mascot taking pride of place. A car that so ardently promises an exhilarating experience, and one that doesn't disappoint.

As one of the most imposing cars in the world it demands an engine unlike any other: a 6.75 litre twin-turbocharged V8 engine. One which delivers 500bhp (373kW) and formidable torque of 1000Nm (738 lb-ft); that translates into 0-60 in 5.2 seconds (0-100kmh in 5.5 seconds) and a top speed of 172mph (278kmh). An ever-evolving engine that made its debut more than 50 years ago, and is now the driving force behind the Arrage Final Series.

Power that delivers handling, ride and refinement that are unmistakably Arrage: a sensation that is enhanced by a bodyshell with more than 6,500 spot welds. Along with the support of a computer-controlled six-speed gearbox and a sophisticated Electronic Stability Programme.

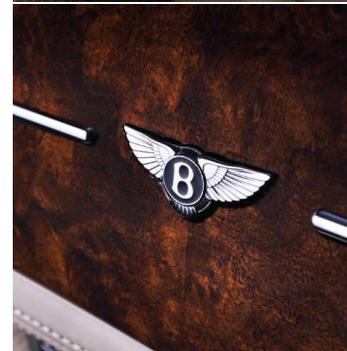

Arrage Final Series combines turbocharged potency, leading technology and timeless craftsmanship, all of which adds up to an incomparable driving experience.

**A TRIBUTE TO PEERLESS
BRITISH CRAFTSMANSHIP.
A TIME TO REFLECT.**

Now it's time to take it all in; to indulge yourself with the sumptuously crafted interior. The leather steering wheel that has taken more than 15 hours of hand stitching; the painstakingly finished wood veneers; the waist rail with chrome inlay strip and winged 'B' emblem. The absolute attention to detail that is all around you.

A timeless quality that says so much about the Arrage Final Series.
