The standard by which all others are judged. Again.

For nine generations, there has been nothing quite like the S-Class. For those who build cars and those who drive them, these singular vehicles define where the automobile is headed. And in the case of the S-Class, the destination has always been the same—the most revolutionary technology, along with detailed craftsmanship and sumptuous luxury. For 2008, highlights of that revolution include engines that are at once powerful and efficient, safety systems that can anticipate and prepare for an accident and night vision technology that employs the power of infrared light. So, take the journey the S-Class has taken from the beginning. A journey to the very best.
That point where an interior becomes a sanctuary.

Luxury has sophistication in visible immediately. Our ambient lighting uses fiber-optic technology to give the S-Class a warm glow the moment you open the door. This makes features and controls easier to find at night and highlights the craftsmanship of the cabin itself. Amid the elegant lines of the spacious interior is an array of refined appointments, including hand-finished Burl Walnut wood trim and, in the S600, an Alcantara headliner and butterfly-soft Exclusive Leather. Touch the available wood/leather steering wheel; the hand-stitching reflects the exquisite attention to detail throughout. Sophistication luxury, indeed. Then again, that’s the point.
Take comfort in over a century of craftsmanship.

Even 100 years of accolades can’t diminish our affinity for refinement. This is why we designed the power seats in the S-Class with 14 adjustment possibilities to match your preference. Passengers can also select their own ventilation choices for the standard dual zone or optional 4-zone climate control system. And battling the optional Drive-Dynamic multi-contour front seats, sculpted and equipped with inflatable cushions and headrests to provide additional support during sharp turns.

Our desire to push further means the front seats are also heated to warm you in chilly weather. As an option, they can even be ventilated to cool you in hot temperatures. And when you activate the available massage feature, the backs of the front seats massage you like a visit to the spa. After all this time, we feel this level of comfort is truly fitting.

S 550 shown with Savanna/Cashmere leather interior and optional Panorama Roof, power rear side window shades, and Rear-Seat and Premium 2 Packages.
Who says a car and a valet can’t be one and the same?

Advanced technology at your service—and in the service of absolute convenience. That’s the S-Class. You can use the Voice Control feature to enter your destination, and the COMAND® system’s color LCD screen shows you the way, along with gas stations, restaurants and points of interest on route. With a 20-gigabyte hard-drive-based Navigation System, COMAND® is always there to serve you.

COMAND® also boasts a dynamic controller that invites you to take control of pleasures like a harman/kardon® LOGIC7® digital surround-sound system. With a complimentary six-month subscription, harman/kardon® LOGIC7® offers over 150 channels, including sports, news, maritime traffic and weather reports, and 17 commercial-free music channels. Summon an array of services using the controller—and the multifunction steering wheel— from changing radio stations to answering phone calls. And enjoy more footwell space courtesy of an electric parking brake switch instead of a traditional brake lever. It’s convenience, you might say, from headroom to toe.

Please see page 51 for Endnotes.
Performance that is more powerful, more efficient, more sophisticated. That is, simply, more.

The formidable strength of the S-Class has been described as "a tidal wave of torque." Thanks to a trio of spirited engines: a 5.5-liter V-8 in the S 550, a bi-turbo V-12 in the S 600 and a 6.3-liter V-8 in the all-new S 63 AMG. On one end, the S 550 gathers 382 horsepower and 391 lb-ft of torque to accelerate from 0 to 60 mph in 5.4 seconds.

At the other, propelled by 518 horsepower and 465 lb-ft of torque, the S 63 AMG arrives at 60 mph in 4.5 seconds, making it one of the fastest Mercedes-Benz sedans. All S-Class transmissions feature driver-adaptive technology — a 5-speed automatic in the S 600 Sedan, and a pair of 7-speeds in the S 550 and S 63 AMG Sedans. The AMG SPEEDSHIFT™ version, with racing-level shift paddles, is augmented just so to realize its potential for high performance.

Happily, this tidal wave ebbs and flows at your choosing.

Please see page 51 for Endnotes.
Not so much a conversation with the road as a duet.

On straightaways or unyielding curves, the poise never fades. Mercedes-Benz engineered the S-Class to adapt to changing driving conditions. At higher speeds, for instance, our Airmatic Semi-Active Suspension with Adaptive Damping System lowers the vehicle. The lower center of gravity and optimized aerodynamics yield improved ride, handling and fuel economy. Active Body Control, which comes standard in S 500 and S 63 AMG Sedans and is optional on the S 550, preserves a virtually level ride during stops, starts and turns, while rack-and-pinion steering reacts with eager precision. Select Comfort or Sport settings that match your driving mood via shock-absorption rates that are modified at each wheel. Powerfully responsive, the brakes feature ingenious enhancements like Brake Drying in wet weather and Hill-Start Assist to briefly hold the vehicle in place after you release the brakes. All of which means that while the poise of the S-Class never fades, neither does your satisfaction with it.

S 550 shown in Iridium Silver metallic paint.

Technology that can anticipate an accident from a company that knows what’s coming next.

After a celebrated 65 years of safety firsts, Mercedes-Benz is the first to offer PRE-SAFE® — a system that automatically senses and prepares for a collision. Based on sensor readings from our Brake Assist and Electronic Stability Program features, this revolution in safety can tighten seat belts and adjust the front passenger seat, as well as available power rear seats, for optimum front airbag and seat-belt effectiveness. In a case where severe skidding that might result in a rollover is detected, PRE-SAFE closes the windows and vents to the added safety. S-Class models with Distronic Plus Adaptive Cruise Control also offer Brake Assist Plus and PRE-SAFE Brake, which can automatically warn, prepare, and launch braking at up to 40% of the available stopping power — before the driver has started braking. Should the potential accident be avoided, the seat belts are loosened and the other systems that have been adjusted can be manually reset to their original positions. Our position remains as it was originally: that safety always comes first.

4MATIC. Born of a grip on innovation that has never slipped.

It’s fitting that we unveiled our first all-wheel-drive vehicle 100 years ago. Because now the S 550 sedan can come equipped with our state-of-the-art 4MATIC all-wheel-drive system, which automatically distributes power to all four wheels. The result is improved stability even in uncertain driving conditions. Our landmark 4-wheel Electronic Traction System (4-ETS) helps to ensure grip. Any time 4-ETS detects wheel slip—encountering a patch of ice, for example—it brakes wheels individually so that power goes to the wheel(s) with traction, helping to keep you traveling in the right direction.

In our case, toward even more innovations.
An idea bright enough to pierce the dark.

Our Night View Assist feature sheds new light on driving after sunset. Infrared light, to be exact. This breakthrough option projects infrared light from the headlamps, reaching up to 500 feet ahead, and displays reflected objects on a high-resolution screen in crisp black and white. Warm objects such as animals and pedestrians are detectable but, surpassing competitive systems, Night View Assist can also identify cold objects, including parked vehicles or debris. Even on extremely dark nights, you can see past what low beams normally reveal. This fresh perspective aids your vision—and adds peace of mind.

Please see page 51 for Endnotes.
The 2008 S-Class

S 550 Sedan

Even before you step inside, it mesmerizes. From the V-shaped trunk lid, to flared wheel arches and LED side marker lamps, to the iconic hood ornament. Throughout the cabin, furnishings like ambient lighting, Burl Walnut wood trim and advanced, yet intuitively operated, comfort and convenience features immerse you in luxury. Use the COMAND system to perfect settings for the dual-zone climate control and harman/kardon® LOGIC7® digital surround-sound systems. Have the large color-LCD screen map directions to a new restaurant. Shift the 7-speed transmission and a 5.5-liter V-8 answers with 382 horsepower and a 0-to-60-mph time of 5.4 seconds. Round turns with thrilling agility via the Airmatic suspension with Adaptive Damping System. Increase stability with optional 4MATIC™ all-wheel drive. And drive with reassurance as our PRE-SAFE® system stands ready to prepare the vehicle should it sense an impending accident.

The S 550 Sedan. Enchanting inside. And out.

S 550 shown in Andorite Grey metallic paint.

Please see page 51 for Endnotes.
No luxury sedan can touch the S 600 because virtually every state-of-the-art option comes standard. Like Active Body Control that counteracts roll in aggressive maneuvers. Or Distronic Plus Adaptive Cruise Control that automatically maintains your chosen following distance from the vehicle ahead and, in certain cases, can follow it to a complete stop. And these are just two reasons the S 600 moves so fluidly. A 510-horsepower bi-turbo V-12 bolts this large 5-seat sedan from 0 to 60 mph in just 4.5 seconds. The supportive calm of Drive-Dynamic multicontour front seats covered with Exclusive Leather warms, cools and even massages you. While you listen to harman/kardon® LOGIC7® digital surround-sound system, glance through the Panorama Roof to see the stars. And see clearly up to 500 feet ahead in near-total darkness using Night View Assist in combination with your low beams. When every feature is standard, excellence is the only standard.
Infused sophistication with extreme performance. Hand-built by one of AMG’s master technicians, a firebreathing V8 engine endows the all-new S 63 AMG with 510 horsepower, 465 lb-ft of torque and a 0-to-60-mph time of just 4.5 seconds. The 7-speed automatic transmission with AMG SPEEDSHIFT™ harnesses that strength seamlessly via shift points spaced more closely together. Fly through curves on the wings of a sport-tuned suspension with AMG-calibrated Active Body Control. Stop with equal confidence courtesy of 20” high-performance tires and AMG brakes that include the world’s first dual sliding front calipers. And for the total-driving enthusiast, the AMG Performance Package endows this fearsome sedan with enhancements that will redline your adrenaline. The S 63 AMG. Every detail refined. Viscerally.
Drivetrain

S 63 AMG

Engine AMG-built DOHC 32-valve V-8
Power 518 hp @ 6,800 rpm
Torque 465 lb-ft @ 5,200 rpm
Displacement 6,208-cc
Compression 11.3:1
Transmission 7-speed automatic with AMG SPEEDSHIFT ™

Acceleration 0–60 mph in 4.5 seconds.
Wheelbase 124.6"
Overall length 205.0"
Overall height 58.0"
Overall width 73.7"

In an AMG, even the interior performs.

Even cabin appointments share the motorsports glory of AMG. Side air vents and interior trim, all of wood, sit in the leather sport steering wheel. The instrument panel features our AMG RACETIMER for clocking lap times. Flanking AMG badges and needle lightning, the leather Speedometer and tachometer help accentuate your body, with features to help hold you tight during sporty driving. And all the while, the Burl Walnut wood trim preserves the distinguished elegance of the S-Class, set an IWC-design analog clock contributes its own measure of refinement.
Bi-turbo V-12 engine
The S 600 racks up such high numbers—510 horsepower, 612 lb-ft of peak torque between 1,800–3,500 rpm and a 0-to-60 time of just 4.5 seconds—because its powerplant infuses brown with brilliance. The staggering low-end torque stems from two compact turbochargers, which, with an optimized turbine, also vastly decrease “turbo lag.” Almost instantaneous acceleration justifies a charge for more powerful combination—and more powerful performance.

AMG 6.3-liter V-8 engine
The most powerful naturally aspirated V-8 in our lineup has been mated to a 7-speed automatic transmission with AMG SPEEDSHIFT™ for ready access to that enormous strength. Feel a rush of euphoria as the engine develops a massive 518 horsepower and 465 lb-ft of torque to propel the S 63 AMG from 0 to 60 in 4.5 seconds. And like all AMG engines, each is hand-built and signed by a single master technician.

5.5-liter V-8 engine
One of our most advanced engines generates 382 horsepower and 391 lb-ft of torque, with an amazing 75% of peak torque available at just 1,000 rpm. To help reduce engine weight and increase durability, the engine block is made of cast aluminum with a solid bedplate, an ideal construction for performance. Indeed, the engine’s smooth, immediate power delivery whisks the S 550 from 0 to 60 mph in just 5.4 seconds.3

7-speed automatic transmission
S 550 Sedans are the only cars in their class to have a 7-speed automatic transmission as standard equipment. A wide range of closely spaced gears deliver the ideal gear ratio for virtually every driving condition, which means smoother cruising and immediate response for acceleration and passing, and even improved fuel efficiency on the highway. With the 7-speed automatic with AMG SPEEDSHIFT™ in the S 63 AMG, you can change gears rapidly using AMG shift paddles on the steering wheel and choose from one of three driving modes (S for Sport, C for Comfort and M for Manual). With the AMG Sport Package, available on the S 550, the Touch Shift feature lets you select gears by using the shift buttons on the back of the steering wheel.

5-speed automatic transmission
The S 600’s 5-speed automatic was designed to handle the massive torque generated by the engine. The gearbox is even driver-adaptive: it learns how you like to drive and adjusts its shift points accordingly.

Power
Airmatic Semi-Active Suspension

For a balanced, comfortable ride, the Airmatic system employs electronically controlled air springs that adjust to changing driving conditions. The system also lowers the ride height at higher speeds for improved aerodynamics and fuel efficiency. To help compensate for additional cargo or passenger weight, Airmatic automatically levels the vehicle.

Standard S 550. Not available S 600 and S 63 AMG.

Adaptive Damping System (ADS-II)

Part of the Airmatic Semi-Active Suspension, ADS II lets you tailor your driving experience with two selectable driving modes — one for Sport and one for Comfort — at the touch of a button. ADS II continuously monitors road and handling by individually adjusting each wheel’s shock-absorption rate every time the wheel changes its direction of up-down travel.

Standard S 600 and S 63 AMG.

Agility

Active Body Control (ABC)

Arguably the most advanced suspension system in production, ABC provides an excellent balance of ride comfort and handling ability. A series of sensors and electronically controlled high-pressure hydraulics counteracts the effects of roll, vibration, pitch, dive and squat. And in a turn, ABC stiffens the outer suspension and lowers the inner suspension for improved control and passenger comfort.

Standard S 600 and S 63 AMG.

Electronic Parking Brake

The convenient Electronic Parking Brake can be engaged or disengaged at the touch of a button. It also automatically engages when you shift into gear and apply the gas. This feature increases the usable footwell space by eliminating the need for a mechanical brake pedal or handle.

Standard all models.

4MATIC™ all-wheel drive with 4-Matic Electronic Traction System (4-ETS)

For optimum traction, even in slippery conditions, this all-wheel-drive system incorporates our advanced 4-wheel Electronic Traction System. 4-ETS can get you going even when only one wheel has grip. Sensors at each wheel monitor traction. If one or more wheels start to slip, 4-ETS keeps those wheels individually and maintains power to the wheel or wheels with traction, keeping you cruising along.

Optional S 550. Not available 4MATIC and 4MATIC AWD.

Please see page 51 for fotos and Multilink suspension.

It’s the key to the exceptional grace and control of the S-Class. The rear multilink design— a Mercedes-Benz innovation — controls each wheel movement with outstanding precision. For more dynamic handling, the front suspension geometry and transmission are in extremely rigid rigid subframes. Standard on all models.

Multilink suspension.

Please see page 51 for Endnotes.
10-way air bag protection

The S-Class features the 10-way protection of an 8-air bag system. It includes dual-stage front air bags, front and rear side-impact air bags and full-length Window Curtain Air Bags. The Window Curtain Air Bags deploy along the front and rear windows on the affected side to help protect outboard occupants from head injury and broken glass in certain side impacts or rollovers that exceed the deployment threshold.

15 Standard all models.

Cutting points

To aid rescue workers, the S-Class windshield and rear window are marked with cutting points for the A and C pillars. This feature helps rescue workers identify areas in which it is safe to use hydraulic tools to cut away the roof of the vehicle without cutting through any undeployed safety systems.

Standard all models.

Body structure

A range of precision safety elements work together to protect you and your passengers in the event of a collision. High-strength and ultra-high-strength/low-alloy steel in important areas of the vehicle form an exceptionally rigid barrier. Advanced front and rear crumple zones deform progressively to help absorb the energy of an impact. A front bulkhead also helps channel some of the forces of a frontal impact away, over and around the cabin.

Standard all models.

Electronic Stability Program (ESP®)

This advanced continual monitoring of your vehicle’s motion helps keep you going in your intended direction. It detects wheel skids, swerves underline or oversteer, and corrects the problem. ESP® Green Control’s control software limits speed and automatically applies the brakes to individual wheels and reduces engine power to help maintain vehicle control. It significantly helps you control your vehicle during accident-avoidance maneuvers.

Standard all models.

Brake Assist (BAS), Brake Assist Plus (BAS Plus) and PRE-SAFE® Brake

Research shows that drivers seldom apply the brakes hard enough, soon enough in emergency situations. BAS monitors pedal application speed to sense emergency situations and delivers maximum stopping power. BAS Plus uses Distronic Plus Adaptive Cruise Control’s radar to detect whether your vehicle has suddenly moved too close to the one ahead and prepare the brakes for hard braking by the driver. PRE-SAFE® Brake can automatically initiate partial braking and also activates PRE-SAFE systems that prepare the cabin for a likely collision. BAS Plus and PRE-SAFE® Brake are well prepared—they can apply up to 33% of the available stopping power to slow the vehicle down.

Standard all models.

PRE-SAFE® Protection

Our PRE-SAFE® system acts automatically to prepare for a possible accident using sensors from two of the vehicle’s active safety systems: Brake Assist and our Electronic Stability Program. It senses detect vehicle movements that indicate an accident is likely, it takes measures to help secure the cabin. PRE-SAFE® can lighten the front seat belts and adjust the front passenger seat for optimum head protection. It optimizes air bag deployment and raises the front headrests from the folded position to help protect vehicle occupants. If sensors detect severe skidding that indicates a rollover is probable, PRE-SAFE® closes the Windows and sunroof.

Standard all models.

ESP® Electronic Stability Program

This advanced continual monitoring of your vehicle’s motion helps keep you going in your intended direction. It detects wheel skids, swerves underline or oversteer, and corrects the problem. ESP® Green Control’s control software limits speed and automatically applies the brakes to individual wheels and reduces engine power to help maintain vehicle control. It significantly helps you control your vehicle during accident-avoidance maneuvers.

Standard all models.

**Amenities**

**Distronic Plus Adaptive Cruise Control**
- This radar-based advance monitors the vehicle ahead and adjusts your speed to help maintain your chosen following distance. Long journeys become more pleasant, as there is less need to adjust the cruise control setting. And in stop-and-go traffic, Distronic Plus can automatically stop and bring the S-Class to a complete stop when the vehicle ahead stops; then start you moving again with a tap of the accelerator.

**Distronic Proximity Warning System**
- If the vehicle ahead suddenly slows or abruptly stops and calculated closing speed indicates that you haven’t applied sufficient braking power, the Distronic Proximity Warning System issues an audiovisual warning.

**Standard S 600. Optional S 550 and S 63 AMG.**

**Hands-Free Communication System**
- Make calls, receive calls and even access select phone books through the COMAND system in one of two easy ways. Using an approved compatible phone, you can connect to the Hands-Free Communication System via a range of accessory Multi-Handset Interface (MHI) cradles or an accessory Bluetooth® interface module.
- With the cradle, your phone connects to the vehicle’s external antenna, while the Bluetooth interface services your needs wirelessly. When your Bluetooth-compatible phone is synched up to the system, just leave your phone in your pocket and enjoy hands-free conversations over the soundsystem.

**Bluetooth-compatible phone, Bluetooth interface module and MHI cradles sold separately. Please see your dealer for details.**

**Standard all models.**

**Keyless Go**
- A leap in ease and efficiency, this option lets you open or lock any door or the trunk while leaving your vehicle’s SmartKey in your pocket. To start the vehicle, simply step on the brake pedal and push the Start button, inserted into the vehicle’s ignition. You can also start the vehicle in the conventional way by removing the Start/Stop button and inserting the SmartKey in the ignition.

**Standard S 600 and S 63 AMG. Optional S 550.**

**Night View Assist**
- Using infrared technology, this innovation detects and displays nearby and rearward objects. When activated, it displays the captured image on a black-and-white screen in the instrument cluster. Unlike other systems that identify only warm objects like animals but not cold ones like debris, ours detects both. And with the image on a high-resolution screen, you always get a clear, sharp picture of what’s ahead.

**Standard S 600. Optional S 550 and S 63 AMG.**

**Parktronic System**
- When parking, ultrasonic sensors in the front and rear bumpers detect nearby objects within the system’s field of view. Audible signals and illuminated displays, visible in both the instrument cluster and rearview mirror, help you maneuver with confidence. This system helps you avoid obstacles that might be outside your field of vision when parking in tight spaces. Park assist feature is included with standard Distronic Plus Adaptive Cruise Control on the S 600.

**Bi-Xenon headlamps with Active Curve Illumination**
- See better around corners at night thanks to these advancements that turn along with your steering wheel. They provide a clearer view into curves by increasing available illumination by up to 90% over conventional fixed headlamps. Bi-Xenon headlights deliver superior visibility over halogen headlamps because their lights, within a much closer to natural sunlight.

**Please see page 31 for details.**

**Rear View Monitor**
- New parallel park or back into a parking space with ease. When you’re reversing, a wide-angle camera mounted discreetly in the trunk lid captures an image of what’s behind your vehicle and displays it on the COMAND screen.

**Please see page 51 for Endnotes.**
COMAND system:  
Take charge of your S-Class with a system that’s both advanced and intuitive. COMAND offers precise control of the audio, climate, navigation systems, front- and rear-seat entertainment and numerous vehicle settings on an 8-inch color wide screen. This wide display is conveniently located within your line of sight so you don’t have to take your eyes off the road. All this easy-to-use audio features, the Hands-Free Communication System and the Navigation System are easily accessible. And the surround-sound system invites you to watch DVDs anytime you’re in Park, with the surround sound system through the powerfully clear audio system.

harman/kardon® LOGIC7® digital surround-sound system:  
The digital surround-sound system fills the cabin with 600 watts of beautifully balanced sound. Fourteen optimally placed speakers deliver an enthralling surround-sound experience from WMA, XM Satellite Radios, the standard six-disc CD changer, and even digital audio formats. An integrated microphone monitors vehicle acoustics and adjusts frequency response to deliver the optimum sound experience.

Memory card slot:  
Bring aboard your digital music with this PCMCIA card and insert it into your S-Class. Scroll through your PC onto a widely available memory card formats such as SD and Compact Flash. (PCMCIA adapter card required. Sold separately.)

Climate control:  
The four-zone climate control system, standard on the S 550 and S 63 AMG, delivers comfortable and precise heating and cooling to the cabin. When set to the Auto-position, this system can even monitor sunlight intensity and react accordingly. An automatic 4-zone climate control system comes standard on the S 600 (optional on the S 550 and S 63 AMG). It takes the conditions even further so that all passengers can create their individual comfort zones.

Next generation Navigation System:  
Using GPS technology and a 320-gigabyte hard drive to store maps, Points Of Interest and more, this virtual copilot provides detailed driving directions with navigational speed and a friendly voice. Use it on your destination. Then use gas stations, hotels, restaurants and Mercedes-Benz dealerships along your route on the COMAND system’s large color-LCD screen. Data for the contiguous U.S., Canada and Mexico comes standard, with periodic updates available at your authorized Mercedes-Benz dealer.

It fine-tunes the conditions even further so that all passengers can create their individual comfort zones.

Ambient lighting:  
As an homage to prior S-Class generations, a large illuminated analog clock is prominently displayed in the dashboard. Constructed of elegant, high-quality materials, this design achieves the grace of classic Mercedes-Benz automobiles. The S 63 AMG offers an exclusive RDC design ambient lighting.

SRIRUS Satellite Radio:  
Keep a comprehensive subscription to SRIRUS with over 130 channels, including up to 37 channels of sports, talk, entertainment, traffic, weather and data. SRIRUS also includes up to 100 commercial-free channels, featuring 60 music channels and special broadcasts of the biggest sports – NFL, NHL, NBA, NASCAR, and over 50 college sports teams – round out what is one of your favorite cable television appointments. (Standard on all models.)

Panorama Roof

A large dual-panel glass Panorama Roof provides both front- and rear-seat passengers with a view of the sky. The front panel can either tilt open or slide over the rear panel to open completely. Independently operated interior power sunshades cover both glass panels.

Standard S 600. Optional S 550 and S 63 AMG.

Drive-Dynamic multicontour front seats with 4-stage massage function

Indulge in an optimum seating position on every drive courtesy of 11 adjustable pneumatic chambers in the seat. Then feel four levels of massage stimulate your back muscles. They not only soothe, they help fight fatigue. This system also adjusts air chambers within the seats to hold you snugly through curves and turns — or even in the event of a potential accident.

Standard S 600 and S 63 AMG. Optional S 550.

Heated and Active Ventilated Seats

Three levels of heating and cooling are available for front and rear outboard seats. Active Ventilated Seats are designed to keep you cool during warmer months by gently circulating air through perforations in the seat and backrest, which also helps eliminate perspiration buildup. Using both the ventilation and heating features of the seats simultaneously can help keep you warm and dry on cold and rainy days.

Standard S 600 and S 63 AMG. Optional S 550.

Noise-reducing and infrared-reflecting glass

The S-Class windows are constructed using dual layers of glass and film laminates, which help lessen road and wind noise. In addition, these laminates are coated with pure silver and metal oxides that reflect up to 80% of infrared light to help keep heat out of the cabin. UV radiation is also reduced by approximately 95%, while thermal radiation is reduced by up to 15% via the windshield. Standard all models.

Electronic Trunk Closer

This feature allows the driver to fully open and close the trunk via a switch on the driver’s interior door panel. You can also close the trunk lid by pressing a button on the car’s remote or open it with the SmartKey remote.

Standard S 600 and S 63 AMG. Optional S 550.

Power rear side window shades

Advanced and helpful, this feature affords rear passengers as much or as little shade as they desire. Even the triangular corner of the rear window can be blocked. Just by touching the shade switches, your needs are met.

Standard S 600 and S 63 AMG. Optional S 550.

Rear-Seat Package

The Rear-Seat Package includes 8-way power-adjustable rear outboard seats, 4-zone climate control, rear-seat entertainment, and a large dual-panel glass Panorama Roof providing both front- and rear-seat passengers with a view of the sky. The front panel can either tilt open or slide over the rear panel to open completely. Independently operated interior power sunshades cover both glass panels.

Standard S 600. Optional S 550 and S 63 AMG.

Color and Trim

Design your unique S-Class to reflect your personal style. First choose from a variety of metallic and non-metallic exterior paints. All exterior colors are available with all upholstery colors. The S 550 comes with hand-fitted, glove-soft leather standard and Premium Leather as an option. The sport seats of the S 55 AMG are hand-fitted with fine-grain Exclusive Leather and a suede-like Alcantara headliner. The sport seats of the S 63 AMG are hand-fitted with AMG Premium Leather. All three S-Class Sedans feature high-gloss Burl Walnut wood trim, which is assembled by expert craftsmen and has been specially treated to resist splitting in case of an accident. When it comes to the comfort and safety of our drivers, nothing is left to chance.

Nanoparticle paint
To keep your vehicle’s exterior looking its best for a long time, Mercedes-Benz uses nanotechnology — specifically, microscopic ceramic nano-particles. Each ceramic nanoparticle is tens of thousands of times smaller than a human hair, but when packed together they are incredibly durable. When the clearcoat is applied, the nanoparticles float around freely in the liquid paint. The resulting finish offers considerably greater and longer-lasting resistance to fine scratches — such as those caused by car washes and environmental factors — than conventional paint finishes, for an enduring deep gloss.

Please see page 51 for Endnotes.
Take high style to new heights with our exclusive designo appointments.

designo Graphite Edition

Beneath a rich designo Graphite metallic exterior you’ll find a harmonization of luxurious features. Take in the elegance of designo Corteccia Nappa leather trimmed in Graphite wood trimming the doors, consoles, steering wheel and beyond for a subtle visual flavor. The front-seat backrests feature the signature designo metal plate. Exclusive designo floor mats are edged in Black leather.

designo Mystic White Edition

Shimmering designo Mystic White metallic paint presents an irresistible invitation to the world of elegant style. Grace your interior with supple Porcelain Nappa leather, expertly hand-trimmed throughout the cabin, welcomed your touch. Hand-stitched Black Piano Lacquer wood trims the doors, console and steering wheel to striking effect. The front-seat backrests feature the signature designo metal plate, while designo floor mats trimmed in Black leather treat every guest to a final touch of indulgence.

designo Espresso Edition

The same application of designo Mocha Black metallic paint sets the stage for an engaging performance within. Find enchantment in soft designo Sand Nappa hand-fitted to the seats, center armrests and door-trim inserts of the cabin. Lustrous Natural Maple wood trims, a Natural Maple wood-trimmed steering wheel and Seat stitching throughout underscores the hip elegance. The front-seat backrests feature the signature designo metal plate. From the Cashmere Beige headliner to Black-leather-trimmed designo floor mats, this shot of espresso delivers a rush of luxury that’s practically addictive.

designo Espresso Edition

Engineered to the highest standards, each of our accessory wheels puts a unique spin on your Refine the formidable luxury of the S-Class to match your personal preferences. Mercedes-Benz Accessories The S-Class will always be the benchmark of sophistication. Now it can also be a reflection of your individual style.

Mercedes-Benz makes sure that every package is to exacting Mercedes-Benz standards for a high level of quality. So ask your dealer for the massive Alaraph 20" 10-spoke wheel, both give your vehicle a bold lift on every drive — or yet another touch of style with a set of four chrome door-handle inserts.

Our exterior chrome mirror lettering with inlay.

Keep the carpet of your S-Class in top shape

In conjunction with your S-Class Sedan’s Multi-Handset Int erface (MHI) cradle and Lettering with inlay.

feature chrome-backed Mercedes-Benz amounts of water, mud and melting snow.

Easy to clean, they come four mats to a set.

Deep channels in the floor mats trap large

and are available in Black, Grey or Beige.

Mercedes-Benz Financial Services
Mercedes-Benz Financial offers a wide and impressive array of flexible and convenient financing options. To determine whether purchasing or leasing is right for you and to estimate the monthly payment of your next Mercedes-Benz, visit MercedesBenzFinancial.com.

Our Customer Assistance Center in your one-stop source for answers. Whether you need to know how to use your audio system, find the nearest Mercedes-Benz dealer, get pricing or information about personal and automotive accessories, just call 1-800-FOR-MERCEDES or press the Tele Aid button in your vehicle.

Mercedes-Benz Limited Warranties

Our New Vehicle Limited Warr anty runs for 48 months or 50,000 miles, whichever comes first. And anytime before 6,500 miles.

Our New Vehicle Limited Warranty runs for 13,000 miles or one year (10,000 miles or one year for AMG-Inspired models) and offers much more. Keep your annual subscription active for at least a year, if you want full protection of your vehicle. With an active Tele Aid subscription, you may be eligible for a discount on your insurance.

Sign and Drive service

Multi-Handset Interface (MHI) and Bluetooth Connectivity.

In conjunction with your S-Class Sedan’s Bluetooth connectivity, the MHI cradle helps you enjoy all the assets of hands-free communication and navigation services — or the detailed phone book for friends, family and even your favorite music.

Touch the Bluetooth interface module, and an Online Concierge for accessing your system subscriber’s fingertips: emergency services, roadside assistance, even concierge services as hands-free audio and navigation use. Or consider the Bluetooth interface module, which allows you to make and receive calls, and even text from your vehicle at any moment, without taking your phone out of your pocket.

Door sill panels.海滨和阳光，为您的S-Class添上一抹生动的色彩。这些面板上的字母以嵌入式的形式出现，保持了内饰的简洁和协调。

All-weather floor mats

Keep the carpet of your S-Class in top shape despite virtually any weather conditions. Deep channels in the floor mats trap large amounts of water, mud and melting snow. Gravel, dirt or other debris are not available in Black, Grey or Beige.

Service & Support

Tele Aid

Three buttons put a multitude of services at the system subscribers’ fingertips: emergency services (MHI button) and customer services (Wrench button). With an active Tele Aid subscription, you may be eligible for a discount from your insurance provider.
