Is there a bigger word for luxury?

Volvo. for life
A passion for safety and the environment – for well-being inside and outside your Volvo.
The Volvo XC90.
This is taking luxury to a new altitude—and still having firm contact with the essentials. Empowering seating position. Sovereign hide interior. Premium sound music system. Masterful V8. Innovative safety. It’s amazing how smoothly all this fits into everyday life. It’s no wonder the Volvo XC90 is one of the planet’s most award-winning* SUVs. Because whether the road of life is a highway or a dirt road known by a few, this powerful, yet conscientious, Scandinavian will take you places in style.

* The Volvo XC90 has received more than 50 international awards for its safety, design, versatility and environmental consideration.
The clean, elemental Scandinavian design, controls with the right feel, in all the right places, and materials selected and crafted to soothe your senses. Seats that cradle your body and relax your mind. Unwind, surrounded by elegant, uncluttered functionality—whether it’s for five minutes or the next five hours.
Smart is beautiful.

Rear View Information System (BLIS) (optional)
BLIS is particularly reassuring in congested traffic situations. Using two rear-facing digital cameras located in the door mirrors, it provides you with a clear view of the area behind your vehicle. As a vehicle enters your blind spot, the system alerts you with a light built into the front door post on the relevant side of the car. Together with the door mirrors, this enables you to quickly assess the feasibility of a lane change. The system is activated once the car exceeds 6 mph and reacts to almost any type of motor vehicle. It works equally well, day or night.

Volvo Navigation System (VNS) (optional)
Voice guidance and graphic navigation all the way to your destination. The new generation VNS features a hard disc drive covering maps for most of the continental United States. The system is integrated in the dashboard and is easily controlled from the steering wheel. You can choose between two operating modes: Easy and Advanced. And when VNS is not needed, the screen retracts into the dash. Also available as an accessory.

*Maps do not cover all areas or all roads, offer an error-tolerant representation, and provide only the road network. Always follow relevant regulations and road information.
The perfect place is more than a state of mind.

Entering the comfort zone of the Volvo XC90, you'll be surrounded by fine craftsmanship and intuitive consideration. Each seat is an independent sphere of superior comfort and safety. Everybody can enjoy an airy feel and elevated views, courtesy of a spacious interior and cinema-style seating. The optional Premium Soft Leather interior is supremely supple to the touch. For your ears, music comes alive with 12 Dynaudio loudspeakers and Dolby surround sound. To add some more magic for those in the back, there's an optional integrated Rear Seat Entertainment system. What's more, these exclusive surroundings comfortably accommodate up to seven travellers. After all, the perfect place should always have lots of room for friends and family.

Air control

The Electronic Climate Control (ECC) keeps the temperature consistent, and separate settings can be made for each side of the cabin to keep everyone at ease. The Air Quality System (IAQS) ensures that the air is breathable as much as possible. It continuously monitors incoming air for unhealthy gases, and if necessary, IAQS will close the external air vents. It also features an air change filter that removes various unpleasant odors and fumes from incoming air. And for passengers in the third row, a separate air conditioning unit can be fitted.
Wherever you’re seated in the Volvo XC90, careful attention has been given to your wellbeing. Some of the details are immediately obvious, while you’ll appreciate others several hours later when you reach your destination, fresh and relaxed. Because in a Volvo, design is not merely a matter of superficial styling—for us, beauty is also a matter of being functional and easy to use. No unnecessary complications, just clean and uncluttered Scandinavian design.

Rear Seat Entertainment (RSE) dual screen
With Volvo RSE dual screen, the rear seat passengers can watch a DVD film or play a game together or separately. Two 7-inch wide-screen displays are integrated in the front seat head restraints and provide excellent image quality. Wireless headphones keep things calm in the cabin and you can listen to the music or program of your choice. The RSE system is an integrated part of the car and matches the interior perfectly. It’s even crash-tested in Volvo Car Safety Center. At the moment, RSE dual screen is not available with Marstrand upholstery.

Comfortable kids
The integrated booster cushion in the rear middle seat helps position a child between 33-80 lbs at the correct position for the seat belt and offers a high level of comfort and visibility. In the seven-seat version, the middle seat slides forward to bring a child closer to adults in the front. And for more legroom, simply lift out the rear section of the center console.
Third row comfort
Two passengers sit in approximately 60 in. tall in unobstructed.

Front seat convenience
The center armrest conceals a host of conveniences. Fold back the upper section to reveal a handy storage space for CDs, sunglasses and other small items, while providing rear seat passengers with a convenient table. Double cup holders in the front of the armrest ensure that refreshments are always easy to reach. These cup holders can be concealed when not in use. For small items, there are also handy pockets in the hard work of both seat sides.

Second row amenities
Pampered by thoughtful details, rear seat passengers will be almost as happy as the driver—ever on long trips. Retractable cup holders are neatly stowed, and bats can be conveniently stored in the storage area to provide passengers comfort in the rear seat pockets, back seat pockets in the center armrest.

Third row comfort
Two passengers sit in approximately 63 in. tall in unobstructed.
Some flexibility can make the day.

No matter what you transport in your Volvo XC90, its nearly unlimited flexibility will accommodate just about anything you care to load on board. Up to seven people travel comfortably —with space left over for gear. And to further adapt the interior to your lifestyle, there are up to 64 different ways to configure the seating to suit your needs. Each passenger seat can be easily folded flush with the floor for even greater versatility in the seven-seat version; the second row of seats slides forward individually. And loading is easy—just open the liftgate section of the split tailgate for loading light objects, or let both sections open wide for heavy-duty hauling.
Bassworx®

If you like to feel the beats thumping through your body, the 8-inch sub-woofer with a built-in 140 W amplifier provides nose-tickling reproduction of the deep registers at all volumes. It’s placed behind the load compartment’s left cover panel, and cannot be combined with third row AC.

Optional

Rear headphone connectors

Allow four rear-seat passengers to listen to the radio or their favourite CD at the same time, without disturbing fellow occupants. With separate controls for headphone volume and audio source. Also with controls for changing tracks or switching radio stations.

Integrated 6-CD changer with MP3 compatibility

In place of the standard CD player, this CD changer is integrated in the center console. It’s conveniently controlled via the radio panel or the steering wheel keypad, and you can easily select one of up to six CDs while driving. You can also plug CDs with MP3 and WMA music files.

MP3 compatibility

There are a number of ways to enjoy MP3 music files in your Volvo XC90. If you’d like to connect your personal MP3 player to the audio system, there’s a standard auxiliary audio input for MP3 and WMA music files. You can also plug CDs with MP3 and WMA music files.

Every trip deserves its own soundtrack.
Every passenger deserves to hear it completely.
Symbolic of our approach to music, the new Premium Sound system sets a benchmark in car audio with new generation surround sound. Together, acoustic engineers at Volvo and Dolby have developed Dolby® Pro Logic® II to make the listening experience just as lifelike no matter where you’re seated in this spacious SUV. To power the system, a new digital class D amplifier delivers a pure and plentiful sound that’s directed via the speakers. Which brings us to Dynaudio, our Danish colleagues who designed and built the system’s 12 speakers. Known mostly by professionals, Dynaudio makes monitors for top recording studios around the globe. The end result? The Volvo XC90 sounds monumental. But then again, we have been developing car audio for decades.

High Performance
A powerfully versatile system. Each loudspeaker is fitted with a more powerful magnet and a larger coil. Coupled to the High Performance amplifier, this system provides superb transient reproduction, high power durability and low distortion for a superb listening experience. High Performance includes:
- RDS radio
- MP3 and WMA compatible CD player
- 4x40 W High Performance amplifier
- 12 High Performance speakers
- AUX input

Dynaudio Sound System
The Dynaudio Sound System is in a class of its own. The digital class D amplifier generates 5x130 watts of music. Dolby® Pro Logic® II surround sound recreates a sound that’s equally authentic at each seating position. There are 12 high-end loudspeakers specially developed by the Danish specialists, Dynaudio—their Ken Valve XC90 and a true concert hall experience. The Dynaudio Sound System includes:
- RDS radio
- MP3 and WMA compatible CD player
- 5x130 W digital class D amplifier
- 12 Premium Sound speakers by Dynaudio
- Dolby® Pro Logic® II surround sound with center speaker and digital sound processor
- AUX input

Dolby, Pro Logic, and the double-D symbol are registered trademarks of Dolby Laboratories.
Unexpected turns require good instincts.
The Volvo XC90's sense of composure is part of its breeding. It's based on a solid chassis and a body built to handle the forces exerted by an active drive. A low center of gravity, even weight distribution, multi-link rear axle, wide wheelbase, and high ground clearance add to its sure-footed road holding. And finally, a precise, smooth-shifting transmission and features like All-Wheel Drive with Instant Traction™ result in consummate handling, stability, and unsurpassed riding comfort.

Transmission
The six-speed Geartronic transmission deftly combines the convenience of an automatic with the sportiness of a manual. It automatically shifts for carefree driving, or allows you to take manual control to handle gear shifting yourself. The sixth gear is an overdrive, providing relaxed and fuel-efficient highway driving. Additionally, the special winter setting provides Ice mode to take off and maintain grip on slippery surfaces.

AWD with EBA
The anti-lock brakes are designed for optimal performance even during repetitive and intensive use. You can brake hard while steering clear of trouble. Emergency Brake Assistance (EBA) detects an attempted emergency braking and, when necessary, provides added assistance to bring the car to stop in the shortest possible distance.

TPMS
Incorrectly inflated tires increase fuel consumption and can affect handling. The tire pressure monitoring system uses sensors mounted in the tires to help you keep track of inflation pressure. When the vehicle is moving at a speed of 20 mph or faster, you will be alerted if the pressure on one or more of the tires is too low.

Speed dependent steering
The optional speed-dependent power steering makes steering at low speeds effortless. Parking in tight spaces is a case in point. And at higher speeds, power assistance reduces accordingly to help provide a suitable level of road-feel and steering sensitivity.

AWD with Instant Traction™ STD V8 opt 3.2
Volvo's pre-charged, electronically controlled all-wheel drive system—AWD with Instant Traction™—means greater agility. The difference is noticeable from the second you take off—constant hydraulic pressure ensures that power is promptly distributed to the wheels with the best traction. Wheel spin is minimised to provide immediate acceleration and reassuring stability in slippery conditions. When cruising on straight and dry roads, the front wheels receive up to 95% of the power for optimum stability and fuel economy. But, during quick acceleration or in a sharp bend, up to 50% of the power instantly goes to the rear wheels depending on what's needed to achieve maximum stability and grip. The immediate response of the AWD system allows under-steering and over-steering tendencies to be compensated for, providing a feeling of total control and driving pleasure.
The Volvo XC90 V8 SPORT. Swift. Powerful. Plays well with others.

The sport variant of the multi-award-winning Volvo XC90 has it all: Compelling performance. Distinctive styling. And, of course, legendary Volvo safety. With its sports-tuned chassis, the Volvo XC90 V8 SPORT is not shy. Especially not around corners. Inside, you’ll notice special sport-upholstered leather seats with extra side support among other assertive styling touches inside and out. Obviously, this is the family car for a very fun family.
Standard Sport Accents, Exterior
- Unique chrome-finish tailpipes
- Vulcanis 19” aluminum wheels with a silver-bright or diamond-cut finish
- Color-coordinated fender extensions
- Satin-finish trim on front grille and side windows
- Front bumper bar with silver matte finish, and distinctive side sills plated in brightened stainless steel

Sport Colors, Exterior
The colors available for the Volvo XC90 V8 SPORT include:
- Passion red
- Willow green
- Black sapphire
- Titanium grey
- Magic blue
- Electric silver

Standard Sport Accents, Interior
- Sport rubber and aluminum centre console inlay
- Special watch-dial gauges
- Special sport-upholstered leather seats with color inlay
- Sport floor mats with accent piping
- Sport steering wheel with perforated leather grip and aluminum inlay
- Sport leather gearshift knob with aluminum inlay

Sport-tuned chassis
Stiffer anti-roll bars help keep the Volvo XC90 Sport flat through hard turns. Firmer shocks improve body control and amplify road feedback. The Servotronic steering has been Sport-calibrated for a more direct, meaty feel—significantly in 30-40 mph range. Overall, this vehicle feels quicker and more responsive, yet remarkably composed and purposeful.

V8 SPORT PACKAGE
- Sport-tuned chassis
- 8x19” Vulcanis alloy wheels
- Sport Exhaust
- Sport Grille
- Sport Exterior trim
- Sport Instruments
- Sport Steering Wheel
- Sport Seats and floor mats
- Aluminum Inlays

Sport-tuned chassis and steering
This coil-spring suspension setup for the Volvo XC90 Sport flat through hard turns. Firmer shocks improve body control and amplify road feedback. The Servotronic steering has been tuned for a more direct, meaty feel—significantly in 30-40 mph range. Overall, this vehicle feels quicker and more responsive, yet remarkably composed and purposeful.
“Safety is our promise. People trust us, and that’s a big responsibility. This is what we think about daily when we make our safety decisions. We have to maintain this trust—not only with words but with actions. That’s also why the safety in a Volvo always begins and ends in a real life situation.”

Ingrid Skogsmo, Director Volvo Car Safety Center

Inaugurated in 2000, the Volvo Car Safety Center in Göteborg is the world’s most advanced crash laboratory. All with the purpose to imitate traffic situations and crashes as they happen in real life. Here we recreate crashes with all kinds of vehicles and road obstacles at any angle from 0 to 90 degrees and speeds up to 75 mph. We perform realistic rollover tests and test cars in terrain as well as against genuine Swedish granite rock-faces—we can even simulate impacts with wild animals such as a 1100 lbs Swedish moose. Of course, these crash tests also incorporate advanced crash test dummies representing a wide range of sizes and ages—from infants to full-grown adults.

Every crash is thoroughly documented using high-speed cameras and analyzed into fragments of thousands of seconds. We even store crashed cars for a period for future reference. Beyond countless computer simulations, we conduct over 400...
Life-saving knowledge

Many of the safety features found in a Volvo are based on the findings from the Volvo Accident Research Team. Some recent examples are the collapsible steering column, the energy-absorbing frontal structure, Volvo's child safety equipment, the Side-Impact Protection System (SIPS) and the Whiplash Protection System (WHIPS).

Recreating reality into its smallest details

Advanced crash simulations are an important means of conducting realistic crash tests of separate components and interior safety systems. Our crash sled can recreate the exact movement the car makes the moment of collision, which is unique in the car world. This tipping affects the way occupants are restrained and is normally only possible to analyze through expensive full-scale crash tests.

Virtual crash tests

Super-computers make it possible for us to recreate and analyze different crash situations six times a day without crashing real cars. We have the technology to test new cars virtually even before they exist as prototypes, and we can incorporate extremely detailed virtual crash dummies—we’ve even developed the world’s first pregnant crash test dummy. This makes the full-scale testing very effective, and enables us to focus our resources where they are most useful.

full-scale crash tests each year. These tests are based on what our Accident Research Team discovers on the road. Since 1970, our researchers have investigated over 36,000 real-life accidents. This gives us unique opportunities to learn what works in real life and what doesn’t—knowledge that actually helps save lives.
Sweden. Other car manufacturers come here for final car testing under harsh and capricious conditions. Far, as it’s ironic, this is where we live and drive, 365 days a year. So it’s wonder Volvos are in a category of their own when it comes to active safety. Take, for example, our own proving ground Hällered with its 34 miles of test tracks—including different road types from all over the world. This is the top secret facility where we scrutinize our cars’ ability to support their driver in all imaginable (and unimaginable) situations. On tracks aimed to reveal any weak spots, we expose all new Volvo models to extreme forces and conditions during hundreds of thousands of miles. Not to mention the distances driven on ordinary Swedish roads. Here, where innovation confronts reality. Here’s also where we evaluate the interaction between the car and the driver. Because the most important safety feature in a Volvo is the driver. And the more efficiently the cars onboard systems support you as driver, the safer things are for you and your passengers.
Halogen Bi-Xenon Double your illumination—twice

Designed in a country characterized by cold and darkness for several months a year, the head-lights in a Volvo XC90 combine separate reflectors to provide even and effective illumination in all conditions. And for even better night vision, there's the option of Bi-Xenon gas discharge lights. Compared to conventional halogen headlights, Bi-Xenon headlights expand your vision range by about 230%. Driving at 60 mph, you'll be able to see 150 ft farther. Independent of the load, these headlights self-adjust to maintain the correct angle to the road—even during hard acceleration or braking.

Active Bi-Xenon Lights (ABL)* Helping you to see around bends at night, this microprocessor controlled lighting system uses data such as steering wheel angle and car speed. The motorized lights turn up to 15° in either direction when driving—to reliably light up your chosen path. You can enjoy highly effective low beam illumination on narrow, winding roads and extremely powerful high beams on the highway. A daylight sensor disengages the system during the daytime to extend its lifespan, and a high-pressure washer cleans the lenses—one at a time for uninterrupted illumination. At the touch of a button, you can either turn off the system.

*Optional

Dynamic Stability and Traction Control (DSTC)

By helping to prevent fishtails and spinouts, stability control technology like DSTC may be second only to seat belts in help protecting drivers and passengers. DSTC enhances driving stability in slippery situations by comparing the rotation of the drive wheels and—if needed—varying the power supply. The system will also help to counteract a skid by reducing the engine's power output, or braking one or more wheels. It can be set to allow a certain degree of wheel spin to provide better traction in snowy conditions.

VOLVO'S ROLL STABILITY CONTROL. A HIGH POSITION ON SAFETY TO HELP KEEP YOU ON TRACK.

When designing the first Volvo SUV, innovative thinking made it one of the safest on the road. Unlike many other SUVs, the Volvo XC90 is built on the chassis of an agile passenger car. This together with a compacted low center of gravity and all-wheel drive traction, helps make the Volvo XC90 a supremely stable and interesting drive.

Adding to safety and driving pleasure, the Dynamic Stability and Traction Control (DSTC) interacts with the vehicle's other systems such as steering, brakes and engine management to help you maintain control in challenging situations. A yaw-rate sensor detects if the vehicle is starting to spin, and adjusts the brakes and engine power to help stabilize the vehicle. DSTC works in conjunction with Dynamic Stability and Traction Control (DSTC) to help prevent fishtails and spinouts.

IN A FRONTAL COLLISION the generous deformation zones will yield in a controlled way to help absorb crash energy before it reaches the cabin. The transversely mounted and very compact engine enables optimal use of the deformation zones to help protect occupants. The occupants have a high seating position and are surrounded by an extremely sturdy safety cage, helping to keep them safe. Longitudinal steel struts help disperse crash energy away from the front to the rear of the vehicle, further helping to reduce the strain on the occupants.

Inside the vehicle, occupant protection is increased by optimising the functions of all safety restraint systems. The safety belts with pre-tensioners on all seats and force limiters on the front seats interact with other safety features—such as the deformable steering column and dual-stage adaptive airbags—to help keep the occupants out of harm’s way.

To me, safety is beautiful. Every detail in a Volvo—from the interior ergonomics and the fantastic seats, to the body’s powerful shoulders and softly rounded front—are there for safety reasons. This is functionality that goes hand in hand with distinctive design, and it sure looks good.

Steve Martin, Design Director, Volvo Car Corporation

The interior is designed to help absorb as much crash energy as possible.

Designed for life.

"To me, safety is beautiful. Every detail in a Volvo—from the interior ergonomics and the fantastic seats, to the body’s powerful shoulders and softly rounded front—are there for safety reasons. This is functionality that goes hand in hand with distinctive design, and it sure looks good."

Steve Martin, Design Director, Volvo Car Corporation

It is the interaction between the different safety systems that determines how safe a car is. Not the number of safety features itself. First, the driver must have the right conditions for well being behind the wheel. Seats, instruments, control, stability lighting all contributes to safety when they interact to support the driver. Then there’s how the car behaves on the road. The way the chassis interacts with brakes, steering and different stability enhancing systems not only determines how far the car is to driver—it is also crucial to help the driver maintain control in challenging situations. Finally, if an accident can’t be avoided, you and your passengers are surrounded by a wealth of interacting protective systems. Hopefully you’ll never have to experience them in action. But it can be reassuring to know they’re there to help protect you.

Designed for life.
IN A ROLL-OVER
The Roll-Over Protection System (ROPS) is activated by a gyroscope sensor. The safety belt pretensioners are activated at all seats to help keep occupants in their seats even if they are displaced. At the same time, the Inflatable Curtain (IC) deploys to help protect the heads of the occupants. IC remains inflated for several seconds to help provide extended protection in all rows of seats and help keep the occupants inside the cabin, regardless of whether the windows are up or down. And to help keep the vehicle from turning over, leaf springs and strategically placed safety bars are reinforced in what is a high-strength roof. The energy-absorbing interior helps provide additional protection.

IN A REAR IMPACT
The rear deformation zones will help absorb as much as possible of the crash energy before it reaches the cabin. Even behind passengers in the third row there’s a good deal of space to help provide effective protection. The fuel tank is designed to withstand a rear-end collision of sufficient force to prevent fuel from entering the cabin. Also the exhaust system and spare wheel are designed to not affect the energy absorption.

In the cabin, the head restraints not only help protect the neck and spine, but also help protect the head from glass shatters. In the front seats, Volvo’s unique Whiplash Protection System (WHIPS) is integrated in the seat belt. This system is activated by a collision of sufficient force from behind. Independent research has shown that WHIPS is one of the most effective in the world. Since its introduction in 1998, it has helped reduce injury from consequences by more than 50%.

IN A SIDE IMPACT
The high seating position can help contribute to occupant protection. To help protect all occupants in a side impact, the door and side structure in the Volvo XC90 is composed of a complex framework of high-strength and ultra-high-strength steel. And in the front seats, you’ll find strong, rigid side-impact tubes. These transfer the loads from the side of the vehicle into the center, where a steel box is deformed. The side airbags in the front seats help protect the occupants’ chest and hip, irrespective of seating position. The Inflatable Curtain (IC) adds protection for the heads of the occupants, including the ones in the third row. IC also helps keep the occupants inside the vehicle, both in the front and the rear.

Protection systems for other road-users
Safety in the Volvo XC90 also encompasses other road users. An additional lower cross-member at the front is positioned to help activate the other car’s own safety systems. The front structure and hood are designed to help reduce the risk of injury to a pedestrian. The hood is designed to help reduce the risk of head injuries. The front structure and hood are designed to help reduce the risk of injuries to pedestrians in the case of a collision.

Environmental care—part of the Volvo commitment to safety and your well being.

To choose a Volvo model on the basis of its overall environmental performance, see our Environmental Product Information (EPI) guide at www.volvocars.com/EPI
At Volvo, the well being of people is at the core of every decision we make. And just like safety, we believe that environmental care requires a holistic approach from the very start. This is why Volvos are built in some of the cleanest automotive plants in the world.

**Air quality control**
A cabin filter prevents dust and pollen from entering the car through its ventilation system. For even cleaner air, there’s the option of the Interior Air Quality System (IAQS). This continuously monitors incoming air for certain unhealthy gases such as carbon monoxide, ground-level ozone and nitrogen dioxide. If necessary, IAQS will temporarily close the external air vents. It also features an active carbon filter that removes various unpleasant odors and fumes from incoming air.

**Testing of materials for harmful substances**
To make life more comfortable for people with allergies or asthma, upholsteries and interior textiles comply with the Oeko-Tex Standard 100. This is an international benchmark ensuring that textiles and leathers are tested for certain allergy inducing or harmful substances. Several interior metal details are tested with regard to contact allergies, and comply with the same standards for nickel leakage as high-quality jewelry.

**Fuel efficiency**
To increase fuel efficiency and reduce carbon dioxide emissions, all Volvo engines have advanced electronic management systems and low internal friction. Other contributors to fuel economy include efficient transmission systems, aerodynamic body design, the use of various grades of steel to reduce body weight, and a trip computer displaying current and average fuel consumption.

**Emission control**
Volvo engines meet stringent international emission requirements. The V8, for instance, is the first of its kind to comply with California’s LEV II. Advanced emission control technology eliminates between 95 and 99% of the carbon monoxide, hydrocarbons and nitrogen oxides in exhaust fumes. The emission control system is designed to provide full effect as rapidly as possible after cold starts when emissions are at their highest. Right down to the fuel filler door, the fuel system is designed to reduce emissions through evaporation, whether the car is being driven or is parked.
Dynaudio Sound System
For a consummate listening experience, the sound system combines Dolby® Pro Logic® and the clarity of Dynaudio speakers for a full range of authentic music reproduction for everyone in the car. Included in the V8 SPORT Technology Package.

Volvo Navigation System (VNS)*
The Volvo Navigation System can guide you anywhere with precise audio and visual directions. A liquid crystal 6.5-inch display shows your location on a map and plots the best route. Controls are conveniently located on the steering wheel. All map-based information is stored on the system’s hard disk. Also available as an accessory.

*Maps do not cover all areas or all routes within an area. Also constant expansion and rebuilding of the road network mean that the digital map database is not always the latest road information. Always follow relevant regulations and road information.

Park assist camera
Increase your field of vision behind the car when parking. A camera mounted in the tailgate allows you to see what's behind the car through the navigation system's screen. It is activated automatically when reverse gear is selected. The park assist camera is only available in combination with Volvo Navigation System.

Rear Seat Entertainment (RSE) dual screen
With Volvo RSE dual screen, the rear-seat passengers can watch a DVD film or play a game together or separately. 7-inch displays in the front seat head restraints provide excellent image quality. Wireless headphones enable you to listen to the music or program of your choice. Sound is also provided through the vehicle's rear speakers. The DVD player and the AUX socket in the front center armrest are easy to reach.

Factory-installed options.
The sense of quality and care—and knowing that you get the Volvo that suits your lifestyle. Customize your vehicle with the options that best meet your demands and desires, and you'll soon be behind the wheel of your individually tailored Volvo XC90.
Volvo's accessories help you make your Volvo XC90 even more suited to your personal needs. They are the only ones that have been tested to meet Volvo's exacting safety, quality and environmental requirements. You can also rest assured they're a perfect match to the technology and design of your Volvo.

FOR DRIVING FREEDOM
- Integrated Navigation system
- Moon roof wind deflector
- Park assist, front and rear
- Parking assistance camera
- Volvo Hands free with BlueTooth

FOR YOUR ENTERTAINMENT
- Rear Seat Entertainment system with Dual DVD players
- Satellite Radio
- Volvo iPod Aux Adapter
- Volvo USB and iPod music player

FOR YOUR LEISURE
- Bike carrier, roof mounted

See the 2008 Volvo XC90 brochure for a complete list of Genuine Volvo Accessories.
INTERIOR DESIGN. SANDSTONE BEIGE
Start creating your Sandstone Beige interior here. The top of the dashboard is always in dark Espresso, while other interior sections are in Sandstone Beige. Select the seat upholstery of your choice, available in different materials and matching color combinations. The front center armrest and interior door panels are color-coordinated with the seats and upholstered in matching material.

INTERIOR DESIGN. OFFBLACK
The beauty of Offblack is that almost all interior sections share the same black nuance, further accentuating the aluminium interior details. Door pillars and roof lining are in contrasting Quartz. Add to this seat upholstery in your favorite material and color—elegantly contrasting with Chestnut, or just confident Offblack. The front center armrest and interior door panels are color-coordinated with the seats and upholstered in matching material.

Sandstone Beige interior, with Leather Sandstone Beige upholstery (C910), Dark wood inlays, leather-clad steering wheel and gear knob (3.2, V8).

Offblack interior, Marstrand Offblack (C000) (3.2)

Sandstone Beige interior, Marstrand Sandstone Beige (C010) (3.2)
The Volvo XC90 offers exclusive interior options to go with your personality. All our leather and fabric upholsteries are approved by Oeko-Tex. This means they’re tested for certain allergy-inducing and harmful substances. Make your choices to compose your own interior styling.

- Sport leather, Offblack (CBSB) (V8 Sport)
- Sport leather, Calcite (CBQX) (V8 Sport)

Offblack interior,
- Leather Offblack (C900) (3.2, V8) (Executive Package)
- Premium Soft Leather Offblack (C700) (Executive Package)
- Premium Soft Leather Chestnut (C70R) (Executive Package)
Aluminum running boards and foot steps
Provide a more striking impression while matching the front and rear skid-plates. What’s more, they protect the door sills on uneven surfaces and make it easier to get in and out—especially when leading the roof. Dimensioned for a load of 660 lbs. For extra convenience, additional steps can be added.

Side decor
Running along the bottom of the doors and wheel arches, the side decor gives the Volvo XC90 an even more exclusive appearance. It’s painted in the same color as the vehicle and features an integrated metallic lower moulding.

Front bumper bar
Integrated in the front bumper to give the vehicle an even more powerful stance. Painted in Silverstone to match the other exterior styling details. Alternatively, it can be painted in the same color as the vehicle.

Silver crossbars
An aerodynamic design element that complements the aluminum roof rails and the Volvo XC90 design. These aluminium crossbars also allow you to exploit the roof’s load-carrying capacity to the full.

Roof protector ribs
These ribs protect the roof and give the car a more assertive appearance. What’s more, you can carry up to 77 lbs directly on the ribs by distributing the weight evenly.

Exterior design.
It’s muscular without being aggressive. Purposeful lines hint of a truly versatile character, while its refined dynamic looks reveal a more sophisticated side. Rounded shapes interact with distinctively sculpted sections, creating a confident Scandinavian style. Add to this a stance that leaves no doubt as to the intentions of this Volvo SUV. And to further emphasise the adventurous spirit of the Volvo XC90, there are a number of specially designed styling options available as retailer installed accessories.
Atlantis 7x18  alloy wheels
235/60/18 tires
(Silver Bright, Optional)

Antaeus 7x17  alloy wheels
235/65/17 tires
(Silver Bright, Standard 3.2)

**TECHNOLOGY PACKAGE (V8 SPORT)**
- Active Bi-Xenon Headlights
- Sirius™ Satellite Radio
- Dynaudio Sound System

**TECHNOLOGY PACKAGE (V8 SPORT)**
- Active Bi-Xenon Headlights
- Sirius™ Satellite Radio
- Dynaudio Sound System

---

*Requires Premium Package—3.2.
Volvo XC90 specifications.

**ENGINE**

**8-cylinder engine**

- Eight-cylinder engine
- 4.4-liter all-aluminum engine
- 60-degree V-configuration
- Double overhead camshafts, 32 valves
- Variable Valve Timing (VCT) and Variable Intake System (VIS)
- Electronic engine management system
- Three-way catalytic converter with heated oxygen sensor

**Volvo XC90 V8 AWD (311 hp)**

- Engine type: 4.4-liter V8 engine
- Max power output: 311 hp at 5850 rpm
- Max torque: 325 ft./lbs. at 3900 rpm
- Top speed: 118 mph
- Fuel consumption, mpg, highway/city, auto: 21/15
- Environmental classification: ULEV II
- Transmission: Six-speed Geartronic automatic

**6-cylinder engine**

- Six-cylinder in-line engine
- 3.2-liter all-aluminum engine
- Double overhead camshafts, 24 valves
- Variable Cam Timing (VCT), Variable Intake System (VIS) and Cam Profile Shifting (CPS) on the intake camshaft
- Electronic engine management system
- Three-way catalytic converter with heated oxygen sensor

**Volvo XC90 3.2 FWD/AWD (235 hp)**

- Engine type: 3.2-liter in-line six-cylinder engine
- Max power output: 235 hp at 6200 rpm
- Max torque: 236 ft./lbs. at 1500-4500 rpm
- Top speed: 118 mph
- Fuel consumption, mpg, highway/city, auto: 22/17 (FWD 23/18)
- Environmental classification: ULEV II
- Transmission: Six-speed Geartronic automatic

**DRIVELINE AWD**

- Electronically controlled all-wheel drive (AWD) with Instant Traction™
- V8 and 3.2-liter: six-speed Geartronic automatic
- Power is continuously distributed to all four wheels by Volvo’s pre-charged electronically controlled AWD with Instant Traction™
- This ensures even weight distribution and maintaining stability in all conditions
- The accepted gear ratio is required for an optimal driving performance
- This also allows manual gear shifting on the fly for the driver, or for the halting acceleration in engine braking
- A special winter setting makes it easier to move off and maintain grip on slippery surfaces

**CHASSIS**

- Front suspension with spring struts (McPherson), anti-dive and anti-lift function
- Multi-link independent rear suspension attached to a steel sub-frame
- Stabilizer bars front and rear
- DSTC (Dynamic Stability and Traction Control) and RSC (Roll Stability Control)

The Volvo XC90’s all-road capability is based on generous ground clearance (8.6 in), a comparatively low center of gravity and an advanced all-wheel drive system that makes optimum use of the drive torque. The three-way catalytic converter with heated oxygen sensor helps to reduce emissions and improve fuel efficiency.

**STEERING**

- Power-assisted rack and pinion steering
- Tilt and telescopic steering wheel column
- 2.8 turns lock to lock
- Turning circle 40 ft.

Behind the wheel, you can enjoy steering that’s both responsive and reassuring at all speeds. The optional speed-dependent power steering provides progressive less power assistance as the faster you drive. Higher steering precision and reduced road feedback are easily enjoyed benefits. At lower speeds, added power assistance makes the car even easier to maneuver, for instance when parking.

**BRAKES**

- Power-assisted anti-locking ventilated disc brakes (ABS)
- EBA (Emergency Brake Assistance)
- EBD (Electronic Brake Distribution)
- Diagonally split braking system

**FUEL TANK**

- 21 U.S. Gallons

The Sportswagon—flexible, compact and full of zest.

Volvo S80
The premier sedan, meticulously engineered for superior driving comfort.

Volvo XC90
The versatile SUV that takes you anywhere with grace.

Volvo C70
A convertible when you want it.

The all-new Volvo C30
The compact and charismatic SportsCoupe.

The all-new Volvo V70
The genuine family wagon—highly competitive yet comfortably versatile.

The all-new Volvo XC70
The rugged yet stylish all-roader.

Every moment in a Volvo is a moment designed to celebrate life. A life full of twists and turns, joy and drama, the little things as well as the big ones. Of course, to live life to its fullest isn’t just about you caring for others.is important as well.

For almost eighty years we have helped save lives on roads around the world. Nevertheless, when it comes to improving automotive safety, we will never be satisfied. And while we’re seeking new solutions, our existing safety systems are preventing many accidents from happening and providing some real protection when they do.

Our passion for life means looking after our children’s children, too. Which is why we try to balance the needs of our company with those of society. With this bigger picture in mind, we develop engines and technology that have less impact on mother earth. This approach also explains why we pay so much attention to your immediate environment in the car. Simply put, we care about you—and the whole circle of life.
Taking care of your ownership needs.

It's a simple idea; one point of contact for all your car ownership needs, whether it's finding the right financing or who to contact in an emergency.

Get the most out of owning your Volvo.

Volvo Overseas Delivery.

Volvo Overseas Delivery offers a unique way to buy your new custom-built car as well as a unique way to see more of Europe. And when you're done traveling, bring the pleasure of driving a Volvo back home. Purchase any new Volvo as part of the Volvo Overseas Delivery Program and enjoy all this—and more:

- Attractive pricing on US models.
- Two complimentary round-trip tickets with Scandinavian Airlines.
- One free hotel night in Gothenburg, Sweden, the home of Volvo.
- An exciting Volvo Factory Tour or a visit to the new Volvo Brand Experience Center.
- An exclusive VIP delivery experience at the Volvo Factory Delivery Center.

Volvo Car Finance North America

If you purchase your Volvo through Volvo Car Finance North America, you'll take advantage of services designed to make financing simple and convenient. For details, visit volvofinance.com or call 1-877-770-8234.

On Call roadside assistance

Whenever you need us, we're just a phone call away. Our nationwide network of retailers and authorized service providers are ready to assist. Whether you require roadside assistance or new and used parts information for your new or used Volvo, please call 1-800-63-VOLVO, day or night. Your complimentary four-year membership activates the moment you become a Volvo owner.

Volvo new car warranty

Your new car warranty provides comprehensive coverage for four years or 50,000 miles, whichever occurs first. Additional warranties cover corrosion, seat belts, the supplemental restraint system, emission systems, genuine Volvo replacement parts and genuine Volvo accessories. Should you encounter any problems with your Volvo, simply contact your local retailer for assistance. When you've owned your Volvo for three years, standard factory warranties expire. To purchase the additional protection of a 5-year, contact your local retailer.

Volvo service

The best way to ensure superior performance year after year is to bring your Volvo to your authorized retailer for regular maintenance. Our service advisors and factory-trained technicians are uniquely qualified to maintain your automobile. With the aid of advanced Volvo diagnostics, they follow all prescribed factory maintenance outlined in your service interval manual. Genuine Volvo Service is our ongoing commitment to you: to keep your Volvo performing smoothly long after other cars have given up.

Volvo mobility program

The goal of the Volvo Mobility Program is to assist persons with physical disabilities or hearing impairment achieve independence. For those with exceptional transportation needs who require the comfort and safety of a specially adapted Volvo, the program provides assistance. To learn more, please contact the Volvo Mobility Program Headquarters at (800) 803-5220 or visit www.volvocars.us/mobility. TTY users are invited to call 1-800-833-0312.

Personal shopper

The Volvo Personal Shopper is dedicated to providing you with a whole new level of shopping convenience. Whether you need help identifying the Volvo model that best suits your lifestyle, detailed information on any Volvo model, or a comparison against the competition, Volvo is there to help. We can arrange a Volvo Test Drive at your nearest Volvo Retailer. To learn more, visit www.volvocars.us/mybagsarepacked or call the Volvo Personal Shopper at 1-800-550-5658 (U.S. only).

Can you think of a better way of traveling overseas and making your souvenir part of an unforgettable experience?
