PL

AY BY YOUR RULES. Corvette has followed its own formula as an American original since 1953. The Corvette coupe, convertible and Z06 have always been a status symbol in the world hierarchy of great automobiles. As Corvette general manager Bob Grant once said, "If Corvette is a performance car — the difference is in the details." Since the debut of the current generation in 2005, the coupe, convertible and Z06 have been refined with a two-step process. Each model year brings new technology and more refined design cues. The Corvette is the only American car to be named to Car and Driver’s 10Best list seven years running. A little bit of American magic, a long list of awards and accolades, and the latest Corvette is a piece of Americana.

CAR AND DRIVER 10BEST:

"Continual development is the key to success for any automobile, and the latest Corvette makes an excellent poster car for that proposition. Back for its seventh straight appearance on our 10Best roster, the Vette lists 22 significant updates for 2008, even though it received a major makeover three years ago." — Car and Driver, January 2008

Corvette coupe in Blade Silver Metallic with available features.

2008 CAR AND DRIVER 10BEST:

"Continual development is the key to success for any automobile, and the latest Corvette makes an excellent poster car for that proposition. Back for its seventh straight appearance on our 10Best roster, the Vette lists 22 significant updates for 2008, even though it received a major makeover three years ago." — Car and Driver, January 2008

EPA fuel economy estimates of 16 MPG city, 26 highway (with manual transmission) for coupe and convertible; 15 MPG city, 24 highway for Z06. Very limited availability beginning late summer 2008. Whichever comes first. See dealer for details.
BE NAUGHTY AND CIVILIZED. Meet the 190 mph-plus on the race track equivalent of a five-layer cake — the available Custom Leather-Wrapped Interior Package (2LT, 3LZ and 3ZR trim levels) that provides rich leather two-tones on the instrument panel, door panel appers, console cover and sport seat surfaces. Three color combinations available — Sienna/Ebony, Linen/Ebony and new Dark Titanium/Ebony — plus a solid Ebony version with contrasting gray stitching. Savory richly textured appearances on the center console trim area as well as brushed aluminum door releases and shift knob. Leather wrapped steering wheel with standard integrated audio controls and new, available Bluetooth® wireless technology capability. Push-Button Start eliminates the need to handle a key. Head-Up Display projects speed, engine rpm, g-force data and more onto the windshield in both right- and left-hand drive modes. Abundant 22.4 cubic feet of cargo space in the coupe, Z06 and ZR1, plus 11.0 cubic feet in the enclosed convertible trunk.

12008 Best Resale Value Awards (Top 10: Corvette; High Performance: Corvette Z06) from Kelley BlueBook’s kbb.com. Vehicle’s projected resale value is specific to the 2008 model year. For more information, go to Kelley BlueBook’s kbb.com. Kelley Blue Book is a registered trademark of Kelley Blue Book Co, Inc. Go to gm.com/bluetooth to find out which Bluetooth phones are compatible with the vehicle. Cargo and load capacity limited by weight and distribution.
WELL TAILORED. LET HER RIP. Take on the road with precision... Available GPS navigation system provides information on-screen, verbally or via available Head-Up Display... Choose from three seven-speaker sound-system CD/MP3 options, depending on model, including Bose® Navigation Radio or Bose with in-dash six-disc CD changer and auxiliary audio input jack... Available only in the 48 contiguous United States. Required $12.95 monthly subscription sold separately after three trial months. For more information, visit gm.xmradio.com.

Call 1-888-4ONSTAR (1-888-466-7827), visit onstar.com and see page 24 for details and system limitations.

DRIVER INFORMATION CENTER provides critical operating data: available GPS navigation communicator on-screen, verbally or via Head-Up Display... standard OnStar with a one-year Safe & Sound Plan and XM Radio with three trial months on all models...
Corvette convertible in Arctic White with Beige top and available Genuine Corvette Accessories.

TAKE A POWER TRIP. With one of the most powerful convertible in the landscape — 405 standard horsepower and 404 lb.-ft. of torque. Available power top lets you drop the top in 15 seconds without leaving the driver seat.

On demand traction control that uses a multi-channel double wishbone suspension. Invented side window glass, the two back windows are both low headroom sides, Power top and hard top are bumper to bumper and work against additional noise. Large glass rear window with an integrated defogger is standard. Fully integrated traction control system or two pull straps with the hard top.

Choose from three available options. - Black and Beige. MSRP for 2009 is a base of the $53,310.
THE ECSTASY STARTS HERE. The LS3 V8 powering the coupe and convertible is the most powerful Corvette engine ever offered in a base model. Its 6.2 liter displacement puts out Big Block levels of power at 430 hp and 424 lb.-ft. — providing excellent low-end torque without a gas-guzzler tax.

LS3 is based on the legendary GM small block V8. It is a high-revving, high-output engine that makes generous use of LS7 components and technology. It’s available with dual-mode exhaust system reduces restriction and allows output to 436 hp and 428 lb.-ft. of torque while producing a more aggressive exhaust note.

EPA fuel economy estimates of 16 MPG city, 26 highway (with manual transmission).

ALUMINUM LS3 V8...

- 6.2 Liter of displacement...
- 430 hp @ 5900 rpm...
- 424 lb.-ft. of torque @ 4600 rpm...
- High-flow cylinder heads and composite intake manifold...
- LS7-style high-flow injectors...
- Sequential fuel injection...
- Large diameter pistons...
- High compression ratio of 10.7:1...
Corvette Z06 in Velocity Yellow Tintcoat, an extra-cost color, with available 10-spoke spider chrome aluminum wheels.

Corvette LS7 in True Velocity Yellow Tintcoat, with 10-spoke spider chrome aluminum wheels.
**Corvette Z06 was co-developed with the C6.R Corvette race car.** In effect, a rolling laboratory of racing technology and exotic materials. | Major components: C7 Corvette Z06: 7.0L V8, 435 hp at 6,000 rpm, 445 lb-ft at 5,600 rpm; 17" x 9" forged aluminum wheels and connecting rods. | A forged steel crankshaft with six bolt main bearings and a high-profile cam with the largest lift ever on a production GM small block V8. | By-snap oil system prevents oil starvation on high-g corners. 

**Corvette Z06 achieves its excellent power-to-weight ratio in part because of the lightweight yet strong aluminum frame combined with a magnesium, high-performance structure and engine cradle.** | A low 3,180-lb. curb weight. | A fine example of American motorsports... 

**A low 3,180-lb. curb weight.** | **THE RECORD: FIVE-TIME GT1 CHAMPION AT LE MANS...** | **winner of six consecutive American Le Mans Series Manufacturers’ Championships, enabling five consecutive ALMS Drivers’ Championships for Corvette racing drivers, including Ron Fellows, Johnny O’Connell, Olivier Beretta and Oliver Gavin...since 1999, 63 victories in 90 races (through the 2007 season), including first overall in the 2001 24 Hours of Daytona...powered by the C6 small block V8 that enjoys legendary status in American motorsports...**

2008 AUTOMOBILE Magazine All-Star: *It’s not like there’s a car waiting in the wings to usurp the Corvette’s title of Supreme Sports Car: Bang for the Buck, but Chevy acts as if there is. And that’s why the Corvette is, once again, an unequivocal All-Star.*
ROCK, PAPER, SCISSORS...MISSILE.

The new Corvette ZR1 represents another significant benchmark in the storied history of Corvette. With 638 SAE hp, 604 lb.-ft. of torque and a power-to-weight ratio that would make a race car envious, the ZR1 is easily the fastest production Corvette of all time as well as the fastest US production car in history. Based on the Z06, the ZR1 extends the envelope with a 6.2 Liter LS9 V8 engine featuring a four-lobe Eaton® Twin Vortices Series™ supercharger with intercooler. Extensive use of visible carbon fiber on the roof, roof bow, rocker extensions and front splitter. Brembo brake system features carbon ceramic rotors that are almost 50 percent lighter than equivalent cast-iron units. 19-inch front/20-inch rear aluminum wheels in a 20-spoke pattern. Standard Michelin Pilot Sport PS2 tires are engineered to operate at speeds well in excess of 205 mph. The bottom line: an incredible power-to-weight ratio of 5.2 lbs. per horsepower and a test-track top speed of 205 mph.

THE MOTHER OF ALL ‘VETTES:

“Finally loosed from hiding, the supercharged Corvette ZR1 vaults the stairway to sports car heaven.”

— AUTOMOBILE Magazine
Corvette ZR1 in Cyber Gray Metallic with available features.
IMPORTANT INFORMATION

CHEVY Designed and engineered with quality | The best coverage in America on every car, light-duty truck, SUV and crossover we build:

NEW VEHICLE LIMITED WARRANTY. GM vehicles registered in the U.S. and Canada are covered for a limited time under the terms of the GM New Vehicle Limited Warranty. Repairs will be made to correct any vehicle defect, and most warranty repairs will be made at no charge. In addition, rust-through corrosion on body structures, powertrain or other suppliers.

A NOTE ABOUT ALTERATIONS AND WARRANTIES. Modifications or alterations to the original equipment on the vehicle will not be covered by the General Motors New Vehicle Limited Warranty. The special body company, equipment, equipment, specifications, models and availability. A NOTE ABOUT CHILD SAFETY: Always use safety belts and the correct child restraint for your child's age and size. Even in the rear seat, child restraint systems are required by law. Use side-impact air bags only if the restraint system is used correctly. When properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant in the front seat of any vehicle equipped with an active air bag. See the Owner's Manual and child safety seat instructions for more safety information.
