E 350 Sport shown in optional Iridium Silver metallic paint.
Nothing less than a master's lesson in driving pleasure. The E 350 Sedan and Wagon, the potent E 550, the straightforward E 220 BlueTEC and the elegantly extreme E 63 AMG are each remarkable combinations of power and poise. For 2009, aggressive bodystyling comes standard on Sport models and our landmark 4 MATIC all-wheel drive is a no-cost option on Luxury models. Furnished with appointments including Burl Walnut wood trim, a power sunroof and a new COMAND system that includes Bluetooth® and a 6-disc CD/DVD changer, the 2009 E-Class is the only choice for those who insist upon both the bold and the boldly elegant. And you know who you are.

Equal parts sport and sophistication. Without equal.

E 350 Sport shown at left in Black paint. Please see page 49 for Endnotes.
The world’s first automobile. The supercharged engine, diesel passenger car and fuel injection. The crumple zone, multilink rear suspension and pop-up roll bar—all were created by Mercedes-Benz. Yet while these and other Mercedes-Benz firsts read like a history of the automobile, just as important are recent innovations—advances like PRE-SAFE® and BlueTEC, the world’s cleanest diesel engine—that point to its future.

Car companies make cars. We make history.
In the E-Class, elegance doesn’t just speak to performance. It shines across all five models, with 0-to-60 times that make a statement: 6.5 and 6.9 seconds² in the E 350 Sedan and Wagon and 6.4 in the E 320 BlueTEC. Want more? Just 5.4 seconds² in the E 550, and a mere 4.3 in the E 63 AMG.

Advances like Predictive Brake Priming help keep all this power in check by automatically setting the pads closer to the discs for sharper brake response any time you step off the accelerator quickly.3

Stepping on it or standing still, either way you’re in a state of bliss.

Grace that can be appreciated in the driveway. And on the highway.

² 0-to-60 times in seconds. ³ Predictive Brake Priming is a feature of the E 550 and E 63 AMG. ⁴ See your dealer for details.
4MATIC with 4-ETS — our legendary all-wheel-drive technology — comes standard on E 350 Wagons, is available on E 350 and E 550 Sport Sedans and is now a no-cost option on the E 350 Luxury Sedan. This innovation distributes power to all four wheels individually, even if only one has grip, to keep you moving on clear pavement and snowy roads alike. E 550 and E 63 AMG Sedans feature an AIRMATIC Semi-Active Suspension with our Adaptive Damping System to smooth sharp turns via electronically controlled springs that adjust to changing road conditions. Cutting agility — it’s great. So is peace of mind.

Brake Drying

When the wipers are on, the brake必me automatically contact the discs to keep them dry and more effective.

Vehicle-speed-sensitive steering

At lower speeds, you get power assists for easy handling; at higher speeds, power assist is reduced for more direct control.

Electronic Stability Program (ESP®)

Continually monitors vehicle motion to help keep you going in your intended direction, correcting wheelspin, understeer (plowing) and oversteer (fishtailing).

4-ETS

Included on models with 4MATIC, our 4-wheel Electronic Traction System brakes wheels individually and provides power to the wheel or wheels with grip.

AirMATIC Semi-Active Suspension

Adjusts to changing speeds, road conditions and cargo or passenger weight with electronically controlled springs for a level, comfortable ride.

When the wipers are on, the brake必me automatically contact the discs to keep them dry and more effective.

Each E-Class engine may have different specifications, but all share advanced, lightweight construction, as well as massive torque. Managing this power are driver-adaptive 5- or 7-speed automatic transmissions—with shift paddles on Sport models—for poised cruising and assertive passing. With horsepower ratings from an impressive 268 to an aggressive 507, the E-Class begs the question: Why wasn’t science always this fun?

Please see page 49 for Endnotes.
Entertain yourself. Completely. Our all-new COMAND system now comes equipped with Bluetooth® for hands-free calling and optional navigation. And maximum pleasure. The 12 speakers of the harman/kardon LOGIC7® surround-sound system use the same Dolby® Digital 5.1 technology found at the multiplex. A 6-disc CD/DVD changer can play DVDs on the 6.5” color-LCD screen any time you’ve parked. Enjoy a wide array of formats, including MP3 files. And options like SIRIUS® Satellite Radio and an iPod®/MP3 Media Interface for connecting electronic devices mean this interior sounds entertaining before you’ve even played a note.

A host of standard features in a cabin that is anything but.

E 350 Luxury shown with Black interior and optional Premium 1 Package.
An interior. And also an invitation. To the pleasures of power seats that adjust 10 ways, remember your three favorite settings and come with firm lumbar support. To appointments like Burl Walnut or Black Birdseye Maple wood trim and available leather upholstery. The fresh air and fresher perspectives of a power sunroof or optional Panorama Sunroof. The comforts of available Heated and Active Ventilated Seats and dual- or 4-zone climate control. Like the hair-trigger response of our engines, this cabin is clearly eager to please.

An interior that does more than welcome. It beckons.
Convenience is so key, there’s no need for one. Using optional KEYLESS-GO, just touch the brakes, then a button to start your vehicle. The redesigned COMAND system integrates Bluetooth®, a 6.5” screen, a 6-disc CD/DVD changer, an SD-card slot and more. Our available new hard-drive-based Navigation System delivers real-time traffic updates, plus Zagat Survey® for finding restaurants. Optional navigation also includes a more advanced voice control system, Music Register with four gigabytes—1,000 songs—of MP3 or WMA downloads, and Gracenote® for song-title and artist information. In the E 350 Wagon, a button even opens and closes the tailgate. The real key to convenience? Innovation.

Technology that makes a difference. Not to mention sense.

- iPod®/MP3 Media Interface
- Enhanced Voice Control
- Rain-sensing wipers
- Light-sensing headlamps

Optional outlets that seamlessly connect multimedia devices like iPod® and MP3 players to the new COMAND system.*

Above for convenient and safe operation of navigation, radio, telephone and more, COMAND uses Bluetooth®.

Modulates wiper speed and frequency depending on the precipitation it detects.

The headlamps automatically light up any time you enter darkened areas like tunnels or garages.
One advance stands above all others: our predictive occupant-protection system, Mercedes-Benz PRE-SAFE®. This landmark—no other automaker offers similar technology standard—unifies disparate safety elements, from adjusting the front-passenger-seat positioning to closing the sunroof, to help secure the cabin for a collision. Using Brake Assist and Electronic Stability Program (ESP®) sensors, PRE-SAFE can detect abrupt vehicle movements that suggest a potential collision and prepare—by closing the windows, for example, or tightening the front seat belts, instantly and automatically. As the automaker with more safety firsts than many cars have safety features, we’re committed to revolutionizing safety design. Over and over again.

Safety systems that react before you do.

Please see page 49 for Endnotes.
Outside, aggressive Sport bodystyling. Inside, sophisticated style and technology, from a leather-trimmed sport steering wheel to 10-way power front seats. And the drive? Reach 60 mph in 6.5 seconds with 268 horsepower. Feel the fluid gear changes of a 7-speed automatic transmission—or a 5-speed automatic on vehicles equipped with 4MATIC.

Enjoy the harman/kardon LOGIC7® surround-sound system with Dolby® Digital 5.1 piping theater-quality audio through 12 speakers. Engineered with PRE-SAFE® to help prepare the cabin for a potential collision, the E 350 Sport Sedan is certain to deliver a singular experience.

A leather-trimmed gearshift, matching steering wheel and 10-way power front seats. Three signs of the unlimited pleasure ahead. And new 17” wheels blend substance and thrilling style. For thrills of another kind, 4MATIC all-wheel drive is a no-cost option on the sedan and standard on the wagon. Boasting 268 horsepower and 0-to-60 times of 6.52 and 6.9 seconds 2 for the sedan and wagon, both offer PRE-SAFE® to prepare for a potential collision before one occurs. The wagon also seats seven and features numerous cargo configurations.11 The finest feature of all? All the luxurious fun to come.

E 550 Sport Sedan
Beyond abundant luxury — leather upholstery, 4-zone climate control, a harman/kardon® LOGIC7® surround-sound system with Dolby® Digital 5.1 and more — this sedan is about sheer performance. Racing-inspired Sport bodystyling comes standard, and a remarkable 382 horsepower flies you to 60 mph in only 5.4 seconds. Razor-like handling helps edge you through curves and around vehicles. The AIRMATIC® Semi-Active Suspension with our Adaptive Damping System assists by automatically adjusting to changing road conditions. And Comfort and Sport settings give you the luxury of choice.

Zero to 60 mph in 6.6 seconds. 2 400 lb-ft of torque. Blistering off-the-line acceleration. It’s not our latest high-performance engine. It is our latest entry in the race to create fuel-efficient vehicles. A BlueTEC V-6 has nearly 60% more torque than a comparably sized V-6 gasoline engine, while traveling up to an astonishing 675 highway miles on a single tank of gas. 12 The E 320 Sedan 13 makes the most of BlueTEC—taking a Sedan that’s already an unmatched combination of performance and poise and making it even better. For drivers. And the planet.

3.0-liter turbocharged V-6 engine
Up to 675 highway miles per tank
30% more efficient than gasoline vehicles

Armed with a hand-built V-8 that produces 507 horsepower and redlines at 7,200 rpm, the E 63 AMG is designed to invigorate. As you charge through seven gears using an AMG SPEEDSHIFT transmission with shift paddles drawn from professional racing, feel the AMG-calibrated AIRMATIC suspension with Adaptive Damping System stand up to sharp turns. Or the AMG high-performance brakes—4-wheel, perforated and multipiston—stop its 18” AMG wheels. Amenities like AMG Premium Leather sport seats up front mean you’re armed with one more good thing: a trip to 60 mph in 4.3 seconds—in first class.

---

Please see page 49 for Endnotes.
**3.5-liter V-6 engine**

The Audi overhead cam (DOHC) V-6 in E 350 models is efficient and exhilarating. It commands 268 horsepower and 258 lb-ft of peak torque to keep your adrenaline flowing. Continuously variable timing on both the intake and exhaust valves coupled with a variable intake manifold help the DOHC V-6 provide 100% of its peak torque from 2,400–5,000 rpm, ensuring immediate response with every throttle input.

**BlueTEC clean diesel technology**

The breakthrough powerplant in the E 320 BlueTEC reduces soot and emissions from prior diesels — without sacrificing power. An oxidation catalytic converter and diesel particulate filter efficiently lower hydrocarbon and particulate emissions, and Selective Catalytic Reduction and DeNOx catalytic converters reduce nitrogen oxides. The result is simply the cleanest production diesel engine available.

---

**5.5-liter V-8 engine**

One of our most advanced engines generates 382 horsepower and 391 lb-ft of torque, with an amazing 75% of peak torque available at just 1,000 rpm. To help reduce engine weight and increase durability, the engine block is made of cast aluminum with a solid bedplate, an ideal construction for performance and durability. Indeed, the engine’s smooth, immediate power delivery whisks the E 550 from 0 to 60 mph in 5.4 seconds.

---

**7-speed automatic transmission**

The Mercedes-Benz E-Class is the only car in its class to have a 7-speed automatic transmission as standard equipment. A wide range of closely spaced gears delivers the ideal gear ratio for virtually every driving condition, which means smoother cruising and immediate response for acceleration and passing, and even improved fuel efficiency on the highway. Clearly, our passion for advanced engineering isn’t limited to our engines. (Not available on vehicles with 4MATIC all-wheel drive.)

---

**7-speed automatic transmission with AMG SPEEDSHIFT MCT**

Harness the phenomenal force of the E 63 AMG in the highest degree possible. Change gears rapidly using the AMG aluminum shift paddles on the steering wheel. Then choose any of three settings (S for Sport, C for Comfort and M for Manual) custom-tailored to the performance attributes of the AMG V-8 as well as whatever driving mood you’re in.
AIRMATIC Semi-Active Suspension

For a balanced, comfortable ride, the AIRMATIC system employs electronically controlled air springs that adjust to changing driving conditions. The system also lowers the ride height at higher speeds for improved aerodynamics. To help compensate for additional cargo or passenger weight, AIRMATIC automatically levels the vehicle.

Standard E 550 Sport Sedan and E 63 AMG. Not available E 350 Sedan, E 350 Wagon and E 320 BlueTEC.

Adaptive Damping System (ADS-II)

Part of the AIRMATIC Semi-Active Suspension, found on V-8 models, our Adaptive Damping System lets you tailor your driving experience with three selectable driving modes — two for Sport and one for Comfort — at the touch of a button. ADS-II continually optimizes ride and handling by individually adjusting each wheel's shock-absorption rate every time the wheel changes its direction of up-down travel.

Standard all models.

Brakes

The E-Class's internally ventilated disc brakes deliver powerful, nearly fade-free stopping control. They also come equipped with Predictive Brake Priming. This dynamic feature sets the brake pads closer to the discs when the driver quietly releases the accelerator, for faster brake response. One of many other features is Brake Drying, which helps increase stopping performance in wet conditions by intermittently (and imperceptibly) pressing the brake pads against the rotors when the windshield wipers are in use in order to remove water on the rotors. Standard all models.

Multilink suspension

The E-Class uses a 4-wheel multilink suspension for exceptional poise and control, even under severe braking. The 5-arm rear multilink design — a Mercedes-Benz innovation — controls rear-wheel movement with outstanding precision. For more dynamic handling, the front axle assembly, front suspension and steering gear are all preassembled along with the engine and transmission on an extraordinarily rigid steel subframe. The use of lightweight/high-strength aluminum suspension components helps reduce unsprung weight and improve handling.

Electronic Stability Program (ESP®)

This advance continually monitors your vehicle’s motion to help keep you going in your intended direction. If it detects wheelspin, severe understeer (plowing) or oversteer (fishtailing), ESP can brake individual wheels and reduce engine power to help bring the vehicle under control. Mercedes-Benz pioneered this safety landmark in 1995 and has continued to refine its exacting performance ever since.

Protection

Mercedes-Benz safety philosophy

At Mercedes-Benz, safety goes well beyond engineering vehicles that help protect you in an accident. Our safety philosophy takes a proactive approach to many aspects of driving safety: active safety systems, such as the Electronic Stability Program and Brake Assist, help you avoid a potentially dangerous situation. Pre-Safe® enables the vehicle to anticipate and make adjustments to prepare for certain potential collisions; passive safety features include airbags and seatbelt tension, and post-collision features like automatic engine cutoff prevent the vehicle from starting after a crash. No other automaker has a more complete view of safety than the one that invented crumple zones and other safety advancements.

Electronic Stability Program (ESP®)

Mercedes-Benz originated this landmark system, and it’s still the only manufacturer to offer it standard. ESP® can detect wheelspin, oversteer and understeer and help bring the vehicle under control. ESP® is a key component of the Mercedes-Benz Safety System. ESP® can help you keep your vehicle firmly on the road and maintain control of the vehicle, even in dangerous or challenging situations.

Pre-Safe®

Mercedes-Benz originated this landmark system, and it’s still the only manufacturer to offer it standard. Pre-Safe® can detect certain vehicle movements that indicate an accident is possible. Pre-Safe® takes action to help protect the vehicle’s occupants. Electric tensioners tighten the seat belts of the front-seat occupants. Pre-Safe® adjusts the occupied front passenger’s seat to a more favorable position for airbag and seatbelt effectiveness. In the event of severe skidding, which indicates that a rollover is likely, Pre-Safe® will close the sunroof and windows. If no accident occurs, the tensioners release and you simply readjust your seat, open the sunroof and continue on your way.

Airbag system

Our 8-airbag system offers 10-way protection, including dual-stage front airbags, front and kneebag side-impact airbags and full-length Window Curtain Airbags along the sides of the vehicle. (E 350 Wagon/Coupe/Cabriolet includes a sunroof. Pre-Safe® adjusts the seat position of the front passenger if an accident is detected, and Window Curtain Airbags help protect outboard occupants from head injury and broken glass in certain side impacts or rollovers that exceed the deployment threshold.)

Active Front Head Restraints

In the case of a rear impact exceeding a preset threshold, the Active Front Head Restraints move forward and slightly upward, reducing the distance between the head restraint and the front-seat occupant’s head. This action helps limit the continued motion of their heads, thus reducing the possibility or severity of whiplash-type neck injuries.

Brake Assist (BAS)

Research has shown that drivers rarely apply the brakes hard enough, soon enough during an emergency situation. BAS monitors pedal application speed to sense emergency braking and, in such cases, can deliver maximum stopping power.

Body structure

A range of precision safety elements work together to protect you and your passengers in the event of a collision. While high-strength low-alloy steel is important areas of the vehicle helps to form an exceptionally rigid structure, advanced front and rear crush zones help progressively to absorb the energy of an impact. A front bulkhead also helps channel some of the forces of a frontal impact under, over and around the cabin. Standard all models.

Integrated Restraint System

Our 8-airbag system offers 10-way protection, including dual-stage front airbags, front and kneebag side-impact airbags and full-length Window Curtain Airbags along the sides of the vehicle. (E 350 Wagon/Coupe/Cabriolet includes a sunroof. Pre-Safe® adjusts the seat position of the front passenger if an accident is detected, and Window Curtain Airbags help protect outboard occupants from head injury and broken glass in certain side impacts or rollovers that exceed the deployment threshold.)

Active Front Head Restraints

In the case of a rear impact exceeding a preset threshold, the Active Front Head Restraints move forward and slightly upward, reducing the distance between the head restraint and the front-seat occupant’s head. This action helps limit the continued motion of their heads, thus reducing the possibility or severity of whiplash-type neck injuries.

Standard all models.
Amenities

Bluetooth®

New center for easy mastery over audio, video, hands-free calling and optional navigation functions. Our upgraded Cockpit Management and Drive (COMAND) system lets you not only change stations, choose tracks and adjust the volume, but also make calls, because now you can come equipped with Bluetooth® connectivity. Beyond traditional music sources, there’s also available SIRIUS Satellite Radio and an 18-channel weather data. For compressed audio files, the Music Register offers four galleries of CD downloading capability. Further customize your music with the available iPod®/MP3 Media Interface to explore the contents of compatible electronic devices. All on a 6.5” color-LCD screen, all accessed via steering wheel or head-wall controls. Standard on all models.

iPod®/MP3 Media Interface

Standard all models.

Head-Unit Controls.

Navigation System

Using a hand-held device to the new COMAND system and GPS satellite’s ability to locate your destination and suggests Points Of Interest along the way — totes, ATMs, Mercedes-Benz dealerships and more — in more vivid detail than ever before. It can also issue real-time traffic reports and even find real-time accidents using "Zagat Survey" Maps and other visual aids appear on-screen, voice instructions play through the audio system. Add it up. You simply enjoy the journey. Optional on all models.

Mercedes-Benz Faks©

Three buttons conveniently located in the center put a multitude of services at vehicles subscribers’ fingertips: • SOS button: Push in an emergency for a call to the Customer Assistance Center or your Mercedes-Benz dealer, receive assistance as needed. • Wrench button: For Mercedes-Benz Tele Aid Response Specialist who can notify police or other emergency personnel of your vehicle’s location. The system also automatically activates if you are in a seat-belt or air-bag Emergency Tensioning Device deploys. • Call button: For Mercedes-Benz Roadside Assistance. Services personnel will help you identify the trouble and take appropriate road-side assistance as needed.”

External Voice Control

New more powerful than ever. This digital surround-sound system fills the cabin with 510 watts of beautifully balanced sound. Twelve optimally placed speakers and theater-quality, 5-channel Dolby® Digital deliver an enthralling surround-sound experience from a variety of music sources, including the standard in dash CD changer and MP3 input. Dynamic Bass Control helps maintain sound balance in varying driving conditions. Optional on all models.

SIRIUS Satellite Radio

Enjoy a month’s subscription to SIRIUS with over 100 channels including 6 channels of commercial-free music, news, talk, entertainment, traffic, weather and data. SIRIUS is home to live play-by-play broadcasts of the biggest sports — NFL, NASCAR,® NBA and games from over 60 college sports teams. SIRIUS is sure to be one of your favorite cabin appointments.”

Panorama Sunroof —
A large dual-pane glass Panorama Sunroof provides both front and rear-seat passengers with a view of the sky. The front panel can either tilt open or slide over the rear panel to open completely. A large dual-panel glass Panorama Sunroof provides both front- and rear-seat passengers with a view of the sky. The front panel can either tilt open or slide over the rear panel to open completely. A large dual-panel glass Panorama Sunroof provides both front- and rear-seat passengers with a view of the sky. The front panel can either tilt open or slide over the rear panel to open completely.

Active Curve Illumination —
Bi-Xenon headlamps with Active Curve Illumination improve visibility when parking in tight spaces. When parking, ultrasonic sensors in the front and rear bumpers detect nearby objects within the system’s field of view. Audible signals and illuminated displays, visible in both the instrument cluster and center console, help you maneuver with confidence. This system helps you avoid obstacles that might be visible only in your peripheral vision when parking in tight situations.

Distronic Adaptive Cruise Control —
Available on the E 320 BlueTEC, E 350 Sedan, E 550 Sport Sedan and E 63 AMG. Not available all other models.

SmartKey in your pocket. To start the vehicle, simply step on the brake pedal and push the Start button, located on the gearshift lever. You can also start the vehicle the conventional way by inserting the SmartKey in the ignition. A leap in ease and efficiency, this option lets you open or lock any door or the trunk while leaving your vehicle’s smartfob in your pocket.

PARKTRONIC system —
When parking, ultrasonic sensors in the front and rear bumpers detect nearby objects within the system’s field of view. Audible signals and illuminated displays, visible in both the instrument cluster and center console, help you maneuver with confidence. This system helps you avoid obstacles that might be visible only in your peripheral vision when parking in tight situations. Optional and available in all E-Class Sedans. Not available E 350 Wagon.

If you feel like limiting the amount of sunlight coming in, independently operated interior power sunshades cover both glass roof panels. Optional all E-Class Sedans. Not available E 350 Wagon.
**Color and Trim**

Design an E-Class all your own.

Choose from a variety of metallic and non-metallic exterior paints. Then add your favorite available upholstery color.

To keep your vehicle’s exterior looking its best for a long time, Mercedes-Benz uses nanotechnology—specifically, microscopic ceramic nano-particles. Each ceramic nano-particle is tens of thousands of times thinner than a human hair, but when joined together they are incredibly durable. When the ceramic is applied, the nano-particles float around freely in the liquid paint. The resulting finish offers considerably greater and longer-lasting resistance to fine scratches—such as those caused by car washes and environmental factors—than conventional paint finishes, for an enduring deep gloss. With this many smart choices, there’s bound to be a design combination for you.

*Interior upholstery and trim, MB Tex and leather*
