THIS IS FLEX

It’s not your average ride

So get ready to experience it.

The design is simple: stacked forms in perfect proportion. Like modern architecture on wheels.

Deep grooves stream down the bodysides, seeming to move forward, even when Flex is standing still.

And always surrounding it: curious stares and a barely audible “WHAT’S THAT?” as Flex cruises by.
But most of all, Flex raises questions. Here are some answers...

Actually, it’s a crossover.

2 in front, up to 3 in the middle, 2 in back.

Loaded with technology like available voice-activated communications and entertainment.

A 3.5L V6. 6-speed auto. 24 mpg on the highway.¹

It’s got you covered. 6 airbags, including a 3-row Safety Canopy® System. Even a rollover sensor. All standard.

¹EPA-estimated 17 mpg city/24 hwy. FWD.

Inside here, craftsmanship abounds — from the sparkling chrome accents, to the careful stitching on the leather-wrapped shifter. Even the clock, which glows an ice blue, is carefully designed and flanked by horizontal lines like the grooves that define the outside.

Listen. Nothing... but peace.

The fact of the matter: Flex is one quiet crossover, thanks to engineers who carefully applied sound-deadening insulation, specified a 6-mm-thick windshield, and selected road noise-quieting tires.

So keep your eyes — and ears — open. There’s a lot more thoughtful attention to come.
IT TINGLES SPINES
like the electric buzz of night

It’s all in how Flex moves. It hunkers down and puts a limit on lean, so it grabs the corners without the ungainliness of less lithe vehicles.

A new, fully independent rear suspension helps by soaking up bumps and potholes.

A 3.5L V6 with 262 hp and 248 lb.-ft. of torque provides enough gusto to quicken your heart rate.

It’s paired with an uncommonly efficient 6-speed automatic transmission, a combo that promises one of the best EPA ratings in the class1 — up to 24 mpg on the highway.

Change it up.

1Large Crossover class.
In addition to standard front-wheel drive, Flex offers the confidence of available automatic All-Wheel Drive (AWD). This intelligent system distributes up to 100% of the available torque to the tire or tires with the most traction. After all, Flex doesn’t believe in spinning its wheels.

On top of that, every Flex includes Traction Control to prevent wheel slip during acceleration, as well as this brilliant technology: Ford’s AdvanceTrac® with RSC® (Roll Stability Control™). It’s the only system in the industry that uses 2 gyroscopic sensors to monitor both yaw and roll motions to provide side-slip control and roll stability control. It’s always on and always working. Just follow its lead.

\(^1\)Remember that even advanced technology cannot overcome the laws of physics. It’s always possible to lose control of a vehicle due to inappropriate driver input for the conditions.
IT OPENS EYES  
and lifts spirits

In here, you’ll forget you’re actually in at all.

An optional multi-panel Vista Roof™ welcomes the sky for all 3 rows to enjoy. Over the front seats, a sliding moonroof breathes in the fresh air. The 2nd and 3rd rows each get their own overhead windows. With panoramic views like this, Flex may soon become your personal skylight lounge. Just sit back and soak in the city.
The provocative exterior of Flex and those cool grooves travel inside, creating an inviting “horizon line” that opens your view like the great outdoors. In other words, wide-open glass above; instrumentation below. Uncluttered. Crisp. Contemporary.

For a more personalized driving domain, choose available Ambient Lighting. It’ll brighten the front cupholders, footwells and 2nd-row control center in any of 7 hues to match your mindset. Happy. Mellow. Or anything in between.
Step inside Flex with your compatible, paired Bluetooth®-enabled phone or plug in a portable digital media player. It’ll know you’ve arrived. Press a button on the steering wheel, speak your mind (say, “call the office”), and it follows your commands. The magic? Ford’s exclusive SYNC™ system.¹ Developed in association with Microsoft,® SYNC is an available voice-activated, customizable media system that lets you make calls, take calls, change up music and more — all while keeping both hands on the wheel. To connect your digital media player, just plug it into the USB port. Visit SyncMyRide.com for the latest information about exciting new features.

It brings the best in audio fidelity to your ears only

Flex is the first vehicle in North America to offer a factory-installed SONY® audio system with surround sound and SONY DSP processing.² This amazing system uses the latest Dolby® Automotive Entertainment Program technology to bring the home theater performance of Dolby Pro Logic® II into your vehicle.³ 390 watts of continuous power, 12 high-quality speakers and 2 amplifiers work together to deliver SONY’s certified, unique, rich sound.

Clearly, it’s like nothing you’ve ever heard before.

¹ Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Microsoft is a registered trademark of Microsoft Corporation. The Bluetooth word mark is a registered trademark owned by the Bluetooth SIG, Inc. ² SONY is a registered trademark of SONY Corporation. ³ Dolby and Pro Logic are registered trademarks of Dolby Laboratories.
A single glance, and suddenly you become the most informed, up-to-date person you know.

This available voice-activated Navigation System integrates direction guidance with amazing functions including SIRIUS Travel Link™ and a convenient Reverse Camera System. And it all displays on an intuitive, easy-to-read, 8” touch-screen monitor with bold, colorful graphics. For travel directions, just enter or say your destination. Then get on your way, without worrying about the roads. Thanks to the innovative SIRIUS Travel Link, you can access real-time traffic info, find the lowest gas prices, and even see what’s playing at the local theater. And that’s not all.

1 Real-time traffic monitoring available in select markets. Some features are unavailable while driving. Service not available in Alaska or Hawaii. See your Ford Dealer for details. “SIRIUS,” the SIRIUS dog, “SIRIUS Travel Link” and related marks are trademarks of SIRIUS Satellite Radio Inc.

Gas prices, locations and details
Save money and time with Travel Link’s surprising fuel price information. It includes over 120,000 stations nationwide, sorted by gas price, distance and name. It even shows you the route to the selected station.

Weather, sports, movies and more
Get a variety of local and national weather details, even radar maps and 5-day forecasts. Or tap into sports scores and upcoming schedules, plus obtain movie listings, schedules and more.

Personal photo gallery and music storage
Leave home but take what matters — family. Display your own photos on-screen, or split the screen to show shots and other info, like songs from SIRIUS Satellite Radio stations or from the 10-gig jukebox.
See that 2nd-row lounging room? It’s enough to make a limo green with envy.

Simple truth: Flex has the most expansive 2nd-row space in its class. Relax.
IT GIVES YOU THE OPTION

to truly chill out

Pop in a beverage at room temp; pull it out later at a cool 41°. The secret is an available compressor-driven refrigerator, conveniently located in the center console between the 2nd-row bucket seats.

It not only chills; it freezes. Down to 23°. That’s c-c-c-cold.
IT LIBERATES YOU

with power at your fingertips

No keys? No problem. Integrated into Flex’s driver-side door pillar is a marvelously convenient innovation: our newest SecuriCode™ keypad. Your touch lights it up. Enter your code and the doors unlock and the interior lights turn on.

Suddenly you’re free from bulky pockets.
Push the available power folding button, and the 2nd-row bucket seat magically flips up out of the way for instant access to the 3rd row.

IT UNLIMITS YOUR OPTIONS with comfort for up to 7

With room this large and luxurious, the challenge is finding space to describe it.

So this’ll be brief. There’s a comfortable 6- or 10-way power driver seat up front. In the middle, a 60/40 split bench (to seat 7). Or choose a pair of optional reclining bucket seats and available console. In the rear, a 50/50 split bench. It all fits.
When you’re backing up slowly, sensors from the standard Reverse Sensing System alert you with audible signals to certain objects behind the vehicle that may not be visible, so you can avoid contact. Flex also features a Reverse Camera System as part of the available voice-activated Navigation System. It uses a tiny, state-of-the-art camera to deliver a full-color image to your 8" screen. So you can see exactly where to go. And where not to go.
Just like your rib cage, Flex’s structure is designed to protect what’s inside. Thanks to extensive computer-aided engineering tools, it provides outstanding crashworthiness.

Part of this is Flex’s class-exclusive SPACE (Side Protection And Cabin Enhancement) Architecture™ — an energy-absorbing design with a hydroformed cross-car beam between the door frames to strengthen each bodyside.

A strong roof crossmember adds strength. At the front, an energy-absorbing structural member, front bumper plate, and tunnel rails assist in front impacts.

As you’d expect, all of this is in addition to features like 6 airbags, including dual-stage front, front-seat side, and the Safety Canopy® System featuring 3-row side-curtain airbags and a rollover sensor, plus a collapsible steering column, Tire Pressure Monitoring System and more. All standard equipment on every Flex model.

There’s really only one way to look at safety: seriously and carefully. At Ford, we do it every day, developing systems that will help protect you and your passengers on today’s always-changing, distraction-filled roads. The results of our commitment? Ford has received more 5-Star crash test ratings than any other automaker in U.S. history. And that means the world to us.

Genuine Ford Accessories will be warranted for whichever provides you the greatest benefit: 12 months or 12,000 miles (whichever occurs first), or the remainder of your Bumper-to-Bumper 36-month/36,000-mile New Vehicle Limited Warranty. Contact your local Ford Dealer for details and a copy of the limited warranty. Ford Licensed Accessories (FLA) are warranted by the accessory manufacturer’s warranty. Contact your Ford Dealer for details regarding the manufacturer’s limited warranty and/or a copy of the FLA product limited warranty offered by the accessory manufacturer.
When master designer and star of “Overhaulin’,” Chip Foose, and New York City-based urban legend, Funkmaster Flex, caught a glimpse of Ford’s latest release, they knew they had to get their hands on it.

Check out their interpretations. But sorry, we’re not giving these up. You’ll have to create your own.
Drive quality.
When you hear the solid closing of the door, you’ll understand. Ford is in a dead heat with Toyota when it comes to quality.1

Drive green.
An efficient 6-speed transmission and impressive 24-mpg fuel economy2 make Flex one of the friendliest ways to transport 7 people.

Drive safe.
Ford has more 5-Star crash test ratings3 than any company in U.S. history. With 6 standard airbags, Flex is ready to pass the test.

Drive smart.
Available Ford SYNC™ communications and entertainment, SONY® premium audio, voice-activated navigation, even a refrigerator. Clever.

Drive one.

---

New Vehicle Limited Warranty

We want your Ford Flex ownership experience to be the best it can be. So under this warranty, your new vehicle comes with 3-year/36,000-mile Bumper-to-Bumper Coverage, 5-year/60,000-mile Powertrain Warranty Coverage, 5-year/50,000-mile Safety Restraint Coverage, and 5-year/unlimited-mile Corrosion (Perforation) Coverage — all with no deductible. Please ask your Ford Dealer for a copy of this limited warranty.

Roadside Assistance is extended to 5 years or 60,000 miles, so you have the security of knowing that help may be only a phone call away should you run out of fuel, lock yourself out of the car, or need towing. Your Ford Dealer can provide complete details on all of these advantages.

- Get the ride you want. Whether you plan to lease or finance, you’ll find the choices that are right for you at Ford Credit. Ask your Ford Dealer for details or check us out at fordcredit.com.
- Get Ford Motor Company quality in your auto insurance. Our program offers industry-leading benefits and competitive rates. Call 1-877-367-3847, or visit us at fordvip.com for a no-obligation quote. Insurance offered by American Road Services Company (in CA, American Road Insurance Agency), a licensed agency and subsidiary of Ford Motor Company.
- For a purchase or lease, the Ford Extended Service Plan (ESP) gives you “Peace-of-Mind” protection designed to cover key vehicle components and protect you from the cost of unexpected repairs. Ask your dealer for a Ford ESP, the only service contract backed exclusively by Ford and honored at all Ford Lincoln Mercury dealerships.
