The new Saab 95 Sedan
Saab has become a newly independent company. This move signals the start of a new era for us – we are all set to take our role as the unique premium brand even further. A decisive and passionate niche manufacturer with all the freedom to act faster in an ever-changing world.

We have regrouped all of our resources in the place where we originally started, Trollhättan, Sweden. By devoting ourselves fully to our unique heritage, the individualistic character of our brand will truly stand out in the future. From now on, Saab cars will be even more Saab. So you can expect cars that offer driving inspiration beyond belief. The first physical demonstration of this new era starts here and now. Try it in the new Saab 9-5 Sedan.
The new Saab 9-5 Sedan differs from any other car you’ve seen or driven. A powerful driving sensation boosted by the latest technologies. Welcome to a different and very energetic experience.

Meet the new Saab 9-5 Sedan.
Scandinavian spirit.
You can experience it in our cars.

Saab comes from Scandinavia. All of the things that surround us inspire the design of our cars: the beauty and force of nature. The innovative spirit of Scandinavian design and technology. And of course the intense shifting of the seasons. That typical Scandinavian design is created from the functional and emotional strength of the object, expressing it with natural, organic shapes. The new Saab 9-5 Sedan is our most expressive car ever.
Anything but ordinary.

When you have a different perspective on things you don’t just design a car. You build a car that is out of the ordinary – like the new Saab 9-5. So, take a good look at what it offers beneath its bold surface. And discover a unique character that offers a very exhilarating experience.
Experience

Saab EcoPower Technology™ is the power of efficiency. It is developed to combine increased respect for nature with better performance. It’s all about using resources wisely. Aerodynamics, turbocharging, weight and friction reduction are part of the formula. The result? Impressively powerful, fuel-efficient, and environmentally friendly.

Aerodynamics. Carefully balanced to help improve both efficiency and high-speed stability.

Friction reduction. A range of measures designed to improve efficiency, such as: low-friction oil, optimal transmission gearing, carefully balanced EPM (Electric Power Management) and fine-tuned programming of the air conditioning.

Weight reduction. Approximately 60 percent of the bodyshell weight consists of high-strength or ultra-high-strength steel. This helps reduce weight compared to regular steel. Several parts such as the hood are made of aluminum alloy.

Rightsizing. Saab has utilized smaller engines with more power for more than 30 years. All engines in the new Saab 9-5 Sedan are turbocharged. In certain engines, technologies such as direct injection, dual variable valve timing and twin-scroll turbochargers are utilized to further enhance response and efficiency.

Saab EcoPower Technology™ is the power of efficiency. It is developed to combine increased respect for nature with better performance. It’s all about using resources wisely. 12 mpg city/17 mpg highway (Saab 9-5 V6 engine with automatic transmission) EPA estimates. Your mileage will vary. EPA estimates for the 9-5 Sedan with a 4-cylinder engine are not available at the time of printing.

The content of Saab EcoPower Technology™ may vary depending on powertrains and equipment. The engine range may vary depending on powertrains and equipment. The engine range may vary depending on powertrains and equipment.

EPA estimates for the 9-5 Sedan with a 4-cylinder engine are not available at the time of printing. Please visit saabusa.com for the latest information.
Turbocharging increases engine torque, especially in the medium rev range. This enables us to optimize gear ratios to help reduce fuel consumption, while still offering a driving experience out of the ordinary. In certain engines, advanced features such as direct injection, combustion sensors and twin-scroll turbo technology are utilized to further enhance efficiency.

As you drive the new Saab 9-5 Sedan, your next move down the road comes naturally. You’re truly involved and can enjoy consistent road manners with instant response and feedback to your input. The 9-5 is agile and sporty beyond expectation. Behind the scenes, you are also assisted by an impressive range of electronic systems designed for active driving support. So just press the Start button, hit the road, and engage yourself to the fullest.
Flight information.

The available Pilot Head-Up Display is a perfect example of inspiration from our aircraft heritage. It displays an image of the most important information directly in your field of vision. This allows you to read the essential information without taking your eyes off what’s happening on the road ahead.

Pilot Head-Up Display: Projects information on the windshield. Such as speed, rpm, navigation, parking assistance instructions, turn signals, temperature and warning messages. Can also be adjusted to suit individual preferences.
In the driver's cockpit of the new Saab 9-5 Sedan everything is designed around you. Have a look at the aircraft-inspired instruments and you'll clearly sense our DNA. The instrument panel and center console are angled and curved around you. All the functions you use frequently while driving are in front of you, on or around the steering wheel.

Front row seat to exhilaration.
With the advanced DriveSense™ system you can drive more smoothly in bustling city traffic, maintain a firmer footing on the pavement and enjoy a truly intense driving experience on a winding country road. Simply adjust the agility of the car with a single twist of a knob. Or leave it in Intelligent Mode and let the car manage these functions.

Twist a control knob to choose between Comfort, Intelligent and Sport settings. DriveSense™ monitors the car's handling and the driver's actions. In Sport Mode it adjusts suspension, steering, engine, automatic transmission and Saab XWD™ torque distribution for maximum agility. (Standard on Aero models)

TWist a control knob to choose between Comfort, Intelligent and Sport settings. DriveSense™ monitors the car's handling and the driver's actions. In Sport Mode it adjusts suspension, steering, engine, automatic transmission and Saab XWD™ torque distribution for maximum agility. (Standard on Aero models)

Real-time damping. Continuously adjusts the firmness of the dampers to match your driving style and the road conditions.

Torque distribution. Continuously varies torque distribution between the front and rear wheels and the left and right rear wheels to suit your driving style and the road conditions.

Variable effort steering. Adjusts steering response to suit your driving style and the speed of the car.
HiPer

The HiPer strut is a type of front suspension tuned for an outstanding driving experience in the high-performance versions of the new Saab 9-5 Sedan. The HiPer strut design increases cornering performance, improves grip and reduces torque steer.

The HiPer strut design reduces sensitivity to tracking and tugging on a bumpy or uneven road surface, thus contributing to an engaging driving experience.

The compliant ride bushings are hydraulically damped to help prevent road bumps and vibrations from being transmitted to the vehicle.

The HiPer strut suspension geometry and bushing design are optimized to help provide high lateral stiffness and high longitudinal compliance, combining improved handling with a smoother ride.

Dual path top mountings separate the transfer of spring and damper load to the body for improved insulation.

The HiPer strut design reduces sensitivity to tracking and tugging on a bumpy or uneven road surface, thus contributing to an engaging driving experience.

The HiPer strut design reduces sensitivity to tracking and tugging on a bumpy or uneven road surface, thus contributing to an engaging driving experience.
Advanced technology for less-than-advanced conditions.

The Saab XWD™ (Cross-Wheel Drive) system is active the moment you push the Start button in the new Saab 9-5 Sedan. It’s among the most advanced systems available, developed in cooperation with Swedish all-wheel drive specialist Haldex.

Saab XWD
Always ready.

The Saab XWD™ (Cross-Wheel Drive) system continuously senses your driving style and the road conditions. It then actively helps improve the car’s behavior on the road. Designed to help provide better grip, faster acceleration, more agile cornering and improved stability. In many different kinds of weather. Dry, wet or snow.

Real-time control.
The XWD™ system is uniquely integrated with the ESP® and other electronic systems to actively improve the driving experience. Twenty sensors check information 100 times every second and allow seamless shift of torque between the front and rear axles.

Efficiency.
When cruising at a steady speed only a small amount of torque is delivered to the rear wheels. This helps support directional stability and reduces fuel consumption.

Cornering.
On a twisting road, the Saab XWD™ system distributes more torque to the rear wheels, thus combining responsive curve behavior with high stability.

Grip and stability.
If the front wheels hit an icy patch during acceleration, most of the torque is diverted to the rear wheels to help improve grip and stability.

Accelaration.
When you start on a dry surface, most of the torque is distributed to the rear wheels to help avoid wheel slip and gain maximum acceleration.

Cornering.
On a twisting road, the Saab XWD™ system distributes more torque to the rear wheels, thus combining responsive curve behavior with high stability.

Grip and stability.
If the front wheels hit an icy patch during acceleration, most of the torque is diverted to the rear wheels to help improve grip and stability.

eLSD.
The electronically controlled rear limited-slip differential (eLSD) actively shifts torque between the rear wheels. It is designed to give the car a very agile feeling on winding roads. (Aero only)
Space technology.

Inside the new Saab 9-5 Sedan there's plenty of room for you and your passengers. To add even more to the aura of spaciousness, you can specify a large panorama moonroof.

The 9-5 Sedan offers the Advanced Park Assist System, that can help you find a street parking space that fits your car and helps guide you into the parking slot.
SmartBeam.
A clearly enlightening idea.

If you are fascinated by bright ideas, you’ll find an abundance of them in the new Saab 9-5 sedan. For example, take a look at the Bi-Xenon cornering headlights. It’s an intelligent new headlight system designed to sense speed, oncoming traffic and steering direction. It then swivels the beam for better visibility when cornering, and automatically switches between high and low beam.* Clearly safer and very convenient.

Dynamic cornering light.
Turns the light in the direction you are steering. Helps improve vision on twisting roads.

Automatic high/low beam.*
Switches to low beam when you meet another car or approach a slower-moving vehicle from behind. Switches to high again when there is less risk of glare.

*Automatic high and low beam, not in combination with Lane Departure Warning.
Signature lighting.
The front and rear lights have integrated LED lighting that creates the typical signature of the new Saab 9-5 Sedan. (Front LED lighting not in combination with halogen headlights.)

Bi-Xenon headlights.
Provide 100 percent more light, which is more daylight-like compared to halogen illumination.

Stay sharp.
Stay focused.
Welcome to our safety lab.

Our real-life safety approach means we study real accidents to help improve the safety of our cars. In the new Saab 9-5 Sedan we’ve integrated our award-winning safety knowledge. As well as a range of advanced driving assistance systems to help improve collision avoidance even further.

SAHR 3.
Saab innovated SAHR – the world’s first active head restraint system – to help reduce the risk of serious neck injuries in rear-end impacts. In the front seats of the new Saab 9-5 Sedan you’ll find the third generation SAHR 3.

Roll-over sensing system.
Designed to be activated if an imminent rollover is detected by the system’s sensor. Deploys the curtain air bags and the safety belt pre-tensioners.

Lane Departure Warning.
Designed to detect and warn if you unintentionally cross the lane markings at speeds above 37 mph. (Optional)
There really are a lot of buzz words when it comes to equipment for sound and vision. In the new Saab 9-5 Sedan you can have every one of them. But you don’t have to understand them. The handling of the Saab 9-5’s infotainment system is easy and intuitive. So just try it, listen and enjoy the impressive results.

Relax and listen to all the buzz...
The infotainment system in the new Saab 9-5 Sedan offers a lot of possibilities. Store your music on the jukebox hard drive. Plug in and control your iPod®, MP3 player or USB memory to enjoy the harman/kardon® Surround Sound System. Your Bluetooth™-enabled mobile phone can be connected with the hands-free system. And of course, you can choose an impressive navigation system with the large color touchscreen.
Comfort zone.

In the new Saab 9-5 Sedan your rear-seat passengers are very well taken care of with legroom for them to really stretch out. With everyone comfortable, they can indulge in the 9-5’s tantalizing extras.

Tri-zone climate system. The tri-zone climate system allows the driver, front-seat passenger and rear-seat passengers to choose different temperature levels, independent of each other. (Optional)

Rear-seat audio. Enables the rear-seat passengers to enjoy their own music through wireless headphones. They can listen to a second radio in the car that is not being used by the passengers up front. (Optional)

Rear Seat Entertainment. Allows the rear-seat passengers to enjoy movies and music and to connect external sources, such as a game console, video camera or TV tuner. Includes two 8” displays, wireless headphones and a remote control. (Optional)

In the new Saab 9-5 Sedan your rear-seat passengers are very well taken care of with legroom for them to really stretch out. With everyone comfortable, they can indulge in the 9-5’s tantalizing extras.
U-rail CargoTrack.

Keep your luggage in place.

In the new Saab 9-5 Sedan there is plenty of room for things you want to bring on a longer journey. However, most people generally only use a small portion of the compartment. So we developed a flexible cargo management system – the optional U-rail CargoTrack. It helps to keep things in place during spirited driving. An unconventional approach to performance. But this is no ordinary Sedan.

Luggage compartment:

Maximum 18.1 cu. ft. in addition, but not more than 700 lbs. can be safely loaded without exceeding luggage capacity shown below.
Saab Genuine Accessories continue where the car ends. They are specially designed and tested for your car to ensure optimum functionality, safety and quality. Explore the range of Saab Genuine Accessories at saabusa.com/accessories and see how you can equip your car to suit your needs. Reflect your personal style, enhance your travel comfort and optimize its versatility for every occasion.

Mud flaps. Designed and engineered custom molded mud flaps fit directly behind your wheels and provide superior protection from tire splash and mud. Specifically tooled for your vehicle. Available for front and rear.

Scratch protection/seating mat. Rolls out from the luggage compartment to protect the bumper. Easily removed for use as a waterproof seating mat.

Storage tray/ashtray. Fitted in the center console for smaller items, coins, etc. Can also be used as an ashtray equipped with lighter.

Cargo mats. Black textile or rubber mats. Match the interior mats. Protect the carpeting from dirt, wear and tear.

Interior mats. Black rubber mats or versatile textile mats matching the interior. Protect the carpeting from dirt, wear and tear.

Saab Genuine Accessories.

Ally.
Can offer a wide range of financing and leasing plans tailored to suit your individual requirements.

No-Charge Scheduled Maintenance. For the first three years or 36,000 miles, all standard maintenance on a 2011 Saab vehicle, such as tire rotations and oil changes, at no extra charge when serviced at an authorized Saab dealership.

Four-Year/50,000-Mile Limited Warranty. If any part of your Saab vehicle covered under this warranty is found to have a manufacturing defect in materials or workmanship occurring during normal use, the manufacturer will make the appropriate corrections free-of-charge (parts and labor), with no deductible, for four years or 50,000 miles.¹

Courteous Transportation Program. Connecting with the Transferable Bumper-to-Bumper Limited Warranty coverage period, alternate transportation and/or reimbursement of certain transportation expenses may be available under the Courtesy Transportation Program² if your vehicle requires warranty repairs. Several transportation options are available. Refer to your Owner’s Manual for details, including reservation of rights, or consult your dealer.

Saab Genuine Accessories. Fine-tune the 9-5 to exactly suit your needs. Find out more at your Saab dealer or at saabusa.com/accessories.

Roadside Assistance Program. Response, security and convenience of the 24-hour Roadside Assistance Program is available for a period of four years or 50,000 miles.³

Corrosion Protection. Saab vehicles are designed and built to resist corrosion. All body and sheet metal components are warranted against rust-through corrosion for ten years/unlimited miles. Application of additional rust-inhibiting materials is not required under the corrosion coverage and none is recommended. See your Saab dealer for terms of this limited warranty.⁴

Road-i-eNewsletter. Sign up for the latest news, exciting offers and exclusive materials from Saab at saabusa.com.

¹ Whichever comes first, provided the service is performed within 2,000 miles of the recommended service interval. See dealer for details.
² Whichever comes first. See dealer for details.
³ Saab reserves the right to unilaterally modify, change or discontinue Courtesy Transportation at any time and to resolve all questions of claim eligibility pursuant to the terms and conditions described herein at its sole discretion.
⁴ Roadside Assistance is not part of or included in the coverage provided by the New Vehicle Limited Warranty. Saab reserves the right to modify, change or discontinue the Roadside Assistance Program at any time without notification.
⁵ All the above items are not covered for damage due to accident, misuse, alteration, inadequate or improper maintenance or non-saleability. Other coverages are not extended or altered due to this Supplement. An extended Saab Vehicle Service Contract is available through your dealership. Universal provides extended warranty contracts for Saab. Your Saab dealer can provide further information.

Be a part of our universe.
Your individual choice.

Start your personal choice by finding out which Saab model suits you best. Making it even more personal is easy and inspiring. On the following pages you’ll get an introduction to all the possibilities. Once you’ve found your car, you can tailor it exactly as you like with options and accessories. Go ahead and get inspired, then design your own car at saabusa.com.
Our top-of-the-line model with sport exterior, distinctive interior details and matching equipment level. In short, it offers the most intense Saab driving experience. So experience the perfection. And get ready to tackle hills, corners and bends with a new intensity.

**Sport chassis.**
Tuned and lowered to give the Aero models enhanced stability. Firmer springs and shock absorbers mean improved body control, cornering and braking.

**Sentronic 6-speed.**
Automatic transmission that can be shifted manually with paddles on the steering wheel.

**Turbo.**
Among the various engine alternatives, the Aero is specified with our most powerful turbo engine. It produces 300 hp/295 lb.-ft. and combines the extremely high torque with refinement across the rev range.
Have a seat.

You really have a lot to choose from. Sport or Comfort seat? Ventilated, heated or all of it? Check out the options here to get an overview, then visit saabusa.com for the details.

Comfort seats.
Front seats with electrically adjustable lumbar support and seating height as standard. Driver’s seat adjustable in six directions.

Sport seats.
With pronounced extra side support and adjustable thigh support. Front seats with electrically adjustable lumbar support and seating height as standard. Driver’s seat adjustable in six directions.

Leather-appointed upholstery.
Leather-appointed upholstery refers to leather seating surfaces.

Interior colors and upholstery.

Design your car at saabusa.com.

- **Model Turbo4**
  - **Turbo 4-cylinder turbo, in-line, aluminum block and cylinder heads, transverse**
  - **Displacement**: 2.0L (121.9 cu. in. (1998 cc))
  - **Bore & Stroke**: 3.4 in. (86 mm) x 3.4 in. (86 mm)
  - **Compression ratio**: 9.5:1
  - **Power**: 220 hp @ 5,300 rpm
  - **Torque**: 258 lb.-ft. (350 Nm) @ 2,500 rpm
  - **4-valves per cylinder**
  - **Dual overhead camshafts with variable cam phasing**
  - **Twin-scroll turbocharger**
  - **EPA-estimated fuel economy (city/hwy)**: NA

- **Model Turbo6**
  - **Turbo 6-cylinder turbo, aluminum block and cylinder heads, transverse**
  - **Displacement**: 2.8L (170.4 cu. in. (2792 cc))
  - **Bore & Stroke**: 3.5 in. (89 mm) x 2.9 in. (74.8 mm)
  - **Compression ratio**: 9.5:1
  - **Power**: 300 hp @ 5,500 rpm
  - **Torque**: 295 lb.-ft. (400 Nm) @ 2,000 rpm
  - **4-valves per cylinder**
  - **Dual overhead camshafts with variable cam phasing**
  - **Twin-scroll turbocharger**
  - **EPA-estimated fuel economy (city/hwy)**: 17/27

### Brakes
- **Front disc diameter**: 11.7 in (296 mm), vented
- **Rear disc diameter**: 11.5 in (292 mm), solid
- **Front disc diameter**: 13.3 in (337 mm), vented
- **Rear disc diameter**: 12.4 in (315 mm), vented

### Dimensions
- **Overall length**: 197.2 in. (5,009 mm)
- **Overall width**: 83.2 in. (2,113 mm)
- **Overall height**: 57.7 in. (1,466 mm)
- **Wheelbase**: 111.7 in. (2,837 mm)
- **Curb weight**: 4,156–4,354 lbs. (1,885–1,975 kg)
- **Max tow capacity**: 3,748–4,409 lbs. (1,700–2,000 kg)
- **Cargo capacity**: 18.2 cu.ft. (513 L)
- **CD value**: 0.28
- **Fuel tank capacity**: 18.0 gal (68 L)

### OnStar® Safe & Sound plan
- **Automatic Crash Response**
- **Emergency Services**
- **OnStar Vehicle Diagnostics**
- **Stolen Vehicle Assistance**
- **Remote Door Unlock**
- **Roadside Assistance**
- **Crisis Assist**
- **Remote Horn And Lights**

**OnStar. Safely connecting you in ways you never thought possible.**

Please note:
Visit OnStar.com for vehicle availability, coverage map, details and system limitations. Services vary by model and condition. OnStar acts as a link to existing emergency service providers.

**Always On.**

Today we're more connected than ever. OnStar® provides a safe way to keep you connected in your vehicle, whether you're heading to a new restaurant, a quick diagnostic check or an emergency connection to help. The Saab 9-5 Sedan comes standard with 12 months of OnStar Safe and Sound plan coverage. Learn more at onstar.com.
Wheels.

Alloy wheel 5-spoke Blade 17" × 7" (Standard)
Alloy wheel 5-spoke Curve 18" × 8" (Standard)
Alloy wheel 14-spoke Rotor 18" × 8" (Standard)
Alloy wheel 10-spoke Turbine 19" × 8.5" (Optional)
Alloy wheel 10-spoke Edge Glossy Black 19" × 8.5" (Accessory)
Alloy wheel 10-spoke Edge Silver 19" × 8.5" (Accessory)
Alloy wheel 10-spoke Turbine Panther Black 19" × 8.5" (Accessory)

Exterior colors.
