REAL LIFE. REAL PROJECTS. Making a real difference. GMC vehicles aren’t made to sit in the showroom. They’re designed, engineered and built to get things done, to defy the impossible and to never say the job is over until you’ve overachieved. This is why GMC has joined with the people and organizations you’re about to meet. People who are making a difference in their communities and effecting real change. From advancing the arts to helping disabled athletes pursue their dreams, GMC is proud to present these stories of what can really happen in life when you never say never.

GMC. WE ARE PROFESSIONAL GRADE.
TERRAIN SLT-2 INONYX BLACK The distinguishing chrome accents of Terrain gleam through the streets of New York.

LIFE IS ABOUT MORE THAN LIMITATIONS.

Big thinking. Bigger dreams. And the passion to prove that those who say you can’t are wrong. The men and women of Team Force Quad Rugby live life never saying never.

Playing a sport that some would say is beyond them, Team Force makes believers out of anyone who watches them. With drive, determination and perseverance, they pursue a goal most fully functioning athletes can’t even dream of: representing their country on the stage of international play. But with logistics and capability an issue, how to make that dream into reality? They relied on the help of GMC, traveling over 700 miles from Austin to Alabama to reach the national tryouts. Proving that big obstacles can always be brought down to size if you have the right attitude. Because like the engineering behind GMC, the players know if you dream big, you’ll find you build your life for better things.

THAT’S THE SAME IDEA WE BUILD INTO EVERY GMC TERRAIN.

Designed with more ideas per square inch and engineered to understand that even conventional life demands uncommon utility, Terrain is the SUV that doesn’t let size limit its superiority.

With an unsurpassed 32 highway miles per gallon, it knows how to go the extra mile to make the most out of every inch. And with full-size capability in a smaller size, it will never be the type to be hindered by perception. GMC TERRAIN.
TERRAIN SLT-2 IN ONYX BLACK Squared-off corners, flared fenders and a prominent chrome surround grille give Terrain a bold style worthy of its professional-grade heritage.
Vehicle shown with available equipment.
GMC’s signature attention to detail shows in the available Color Touch Navigation System, where music, directions, phone, weather and more are just a touch away.

Terrain’s available sunroof adds to the comfort of the interior.

Convenient steering-wheel-mounted controls let you access the radio, Bluetooth® and cruise control with the touch of a finger.
The distinctive grille of GMC helps give Terrain a commanding presence on the road.

Terrain is the only SUV in its class with a Rear-Vision Camera standard on all models.
Terrain's available Ultrasonic Rear Parking Assist alerts you when you're getting too close to objects behind you.
32 mpg gives Terrain unsurpassed highway fuel economy in its class. 1

Based on GM 2011 Compact SUV-Crossover segment. Terrain FWD with 2.4L I-4 engine.

1
THE ATHLETES OF TEAM FORCE QUAD RUGBY

Team Force Quad Rugby pulls the best athletes from wheelchair rugby teams around the country for a chance to test their skills against the highest level of competition. With 13 members and an 8-month season, the team serves as a valuable training ground for the national team, advancing 10 players in their 6 years of existence.

Emily Shyrock unloads for practice in Austin, TX.

Team manager Carolyn Boebinger with players Emily Shyrock, Jeff Butler and Maury the dog.

The Quad Rugby Coach James Gumbert, aka “Coach Gumbie.”

Team member C.J. Brown.

Emily and Maury use Terrain’s versatile cargo capacity to go out on the town.

Coach Gumbie and C.J. discuss strategy.

Maury takes a break from practice.

Vehicles shown with available equipment.
Like the nature that inspires him, Robert Lobe believes the definition of art can’t be restrained. It can’t be confined to a canvas or seen only in a museum. To Lobe, the thought of art, the idea of art, is bigger than a gallery or an exhibition. Art happens every day and it happens all around us.

So he set out to put art where the people are.

A New York City-based artist and sculptor, Lobe uses items like rocks and tree limbs to shape sculptures that highlight the random beauty of life itself. Although his work has been displayed around the world, for his latest series, “Nature in Nature,” he wanted to bring it a little closer to home, namely Brooklyn’s own Prospect Park. But how do you move half-ton sculptures from the studio to the park? You start by never saying never. With GMC’s help, Robert had the power to haul his three sculptures to the site, the capability to navigate works of art through the hustle of the city and the bold thinking to see the project through to completion.

BUT WHAT CAN THE IDEA OF PUBLIC ART SAY ABOUT THE THINKING BEHIND THE GMC TERRAIN?

That good ideas shouldn’t be contained by convention. That compromise doesn’t have a place in art or engineering. That true inspiration can make a powerful impact. And with professional grade, even everyday life can be a work of art: GMC TERRAIN.
PART 1: SCULPTURE IN THE PARK—BROOKLYN, NY

VEHICLE SHOWN: TERRAIN

VEHICLE SHOWN: TERRAIN

The unique profile of Terrain signals this is anything but a common SUV.
The chrome grille, sculpted fenders and wide track give Terrain its muscular stance.

With the help of an available programmable power liftgate, loading and unloading Terrain’s rear cargo area is incredibly easy, even in low-clearance situations.

→ TERRAIN SLT-2 IN ONYX BLACK Jeweled halogen projector beam headlamps and chrome accents gleam in the streets of SoHo.
Vehicle shown with available equipment.
Details like chrome door handles make Terrain’s interior a stylish space.

Terrain’s advanced center console with available High-Feature Navigation System gives you easy control of your interior environment, from temperature control to music selection.

- **TERRAIN SLT-2 IN JET BLACK** Technology like the available High-Feature Navigation System with Rear-Seat Entertainment that includes dual 8” seatback-mounted screens helps make your ride fun as well as enjoyable.

Control your music right from the touch-screen with Terrain’s intuitive audio system, complete with 10 gigabytes of music storage.
StabiliTrak control and the longest wheelbase in its class give Terrain a capable and confident ride.

63.9 cubic feet of cargo room give Terrain uncommon capacity.
Capability, versatility and style combine to make Terrain the perfect tool for any task.

With standard MultiFlex sliding rear seat, Terrain’s functional flexibility gives you the space you need for almost any task.

Cargo and load capacity limited by weight and distribution. Vehicles shown with available equipment.
THE TALENT BEHIND SCULPTURE IN THE PARK

Robert Lobe’s “Nature in Nature” exhibition is three separate sculptures that have been installed in Brooklyn’s Prospect Park. Lobe, a sculptor whose work has appeared around the world, created “Nature’s Clock,” “Invisible Earth” and “Antique Jenny” for specific sites on the grounds of the park’s historic boathouse, to be enjoyed by the public in a natural setting.

↓ Artist Robert Lobe.

↓↓ Assistants wait for final instructions.

↑ Robert Lobe unloads at the site of his art installation in Prospect Park, Brooklyn.

↓ Preparing the base for “Nature’s Clock.”

↓ Assembling the sculpture.

↓ Robert Lobe putting the final touches on “Invisible Earth.”

↓ Assistants help to move pieces into place.

FEATURES AND THEIR BENEFITS

PART 2

MECHANICAL FEATURES

ENGINE

24L I-4 VVT DI (LEA)

HORSEPOWER:

182 hp @ 6700 rpm
172 lb-ft @ 4900 rpm

TORQUE:

264 hp @ 6950 rpm
222 lb-ft @ 5100 rpm

2.0L V-6 VVT DI (LFW)

VARIABLE VALVE TIMING (VVT) Standard in both Terrain engines, this technology gives you the power of a high-performance engine with the low-speed response you need for situations such as trailering or climbing steep inclines. VVT constantly monitors and changes how the valves open and close to give you near-peak levels of torque across the entire range of engine speeds.

DIRECT INJECTION For precise fuel distribution and fast, efficient combustion, both Terrain engines feature direct injection technology. Simply put, this system moves the fuel closer to the point where it ignites inside the engine—in the combustion chamber. By injecting fuel at over 2000 psi, the air and fuel mix more completely. This helps the charge burn fast for increased fuel economy in its class. This capability could also give you a cruising range of up to 600 highway miles on a single fill-up.

FUEL-SAVING MODE To help you save fuel, the 2.4L I-4 engine has an Eco-Mode button that, when pressed, delivers slightly better fuel economy by holding gears longer, with only a slight decrease in acceleration.

EBS FLEXFUEL CAPABILITY To give you more choices at the pump, both Terrain engines are capable of using E85 ethanol fuel. This advanced biofuel is a mixture of 85 percent ethanol, a mostly renewable fuel that helps to reduce the need for imported oil, and 15 percent unleaded regular gasoline.

TORQUE: 222 lb-ft @ 5100 rpm
HORSEPOWER: 264 hp @ 6950 rpm

POWERTRAIN

AUTOMATIC GRADE BRAKING To prevent unwanted acceleration and reduce the need for the driver to brake during a hill descent, the 6-speed automatic with overdrive features Automatic Grade Braking. This “smart” feature monitors braking, acceleration, throttle position and even whether a trailer is connected to the vehicle. Then it commands the transmission to remain in a lower gear if the vehicle is decelerating or coasting on a downgrade to help you hold your desired speed and minimize the need for additional braking.

STRENGTH AND RELIABILITY

OIL LIFE MONITOR For long life and durability, changing your engine oil at the right time is essential. GMC engineered the mystery out of this essential service with the Oil Life Monitor. It calculates how much life your oil has left, based on how you drive. Then it updates you with a telltale on your Driver Information Center.

ONSTAR VEHICLE DIAGNOSTICS The peace of mind that comes from knowing the condition of your Terrain’s key systems is as easy as checking your e-mail. The OnStar Vehicle Diagnostics service that comes standard with your 6-month trial subscription to OnStar can run hundreds of checks of your Terrain’s engine, transmission, antilock brakes and more, then organize the information into an easy-to-read monthly report. OnStar can also run a check of your vehicle as you drive just by pressing the blue button and asking the Advisor for an On-Demand Diagnostics check. That’s peace of mind when you need it.

COMPONENTS

TRACTION CONTROL SYSTEM To make the most of available traction on many road surfaces, traction control measures and compares the speed of your wheels. If it senses one or more wheels starting to spin, such as on a slippery surface, the system applies individual brakes and manages engine power to slow the wheel down and maintain traction, so you can move forward with a better sense of control.

ALL-WHEEL DRIVE (AWD) An intelligent AWD system is available for extra traction and the ability to adapt to changing road conditions. This system sends the maximum amount of torque needed and adjusts the torque as required to help you maintain control. Thanks to its efficient design and direct injection engine technology, Terrain also offers best-in-class AWD highway fuel economy as well as best-in-class AWD highway cruising range.

FULLY INDEPENDENT SUSPENSION For precise control and a high level of refinement, GMC Terrain is engineered with a four-wheel independent suspension. As the name implies, each wheel can act independently to maintain road contact, which helps you stay in control. On the highway, this suspension offers the best of both worlds: a steady, smooth ride with a precise feel for the road.

SELECT PACKAGE

AVAILABLE TRAILERING PACKAGE In addition to its stable, precise ride and exceptional maneuverability, Terrain has an unsurpassed trailer weight rating of 3500 lbs with the available 3.0L V-6 or up to 1500 lbs with the standard 2.4L I-4. That means a model with the 2.4L I-4 engine can comfortably handle a jet ski or a motorcycle, while the 3.0L V-6 can pull larger single-axle camping and boat trailers.

3 The peace of mind that comes from knowing the condition of your Terrain’s key systems is as easy as checking your e-mail. The OnStar Vehicle Diagnostics service that comes standard with your 6-month trial subscription to OnStar can run hundreds of checks of your Terrain’s engine, transmission, antilock brakes and more, then organize the information into an easy-to-read monthly report. OnStar can also run a check of your vehicle as you drive just by pressing the blue button and asking the Advisor for an On-Demand Diagnostics check. That’s peace of mind when you need it.

6 The Torque-Shift® 6-speed automatic with overdrive offers strong, consistent acceleration at just about any speed.
STEERING

RACK-MOUNTED ELECTRONIC POWER STEERING This system automatically gives you extra steering boost when you need it for parking and tight maneuvers, and less assistance for highway driving in 2.4L Terrain models. Because this system delivers assist electronically, there is no need for a power steering pump or mounting hardware.

BRAKING

ANTILOCK BRAKING SYSTEM (ABS) For confident stops in a variety of conditions, every Terrain features four-channel antilock brakes. When the brakes are applied, ABS can detect impending wheel lock-up, and then pulse that wheel’s brake to prevent it.

HILL START BRAKE ASSIST To prevent your Terrain from rolling backward while on a hill or steep incline, Hill Start Brake Assist takes over as soon as you lift your foot from the brake. This system holds full brake pressure for up to 1.5 seconds if it senses potential “rollback,” giving you time to carefully move your foot to the accelerator and pull away smoothly.

DESIGN

ALUMINUM WHEELS Every Terrain model has standard aluminum wheels to reduce weight and enhance fuel economy. SLE and SLT-1 models come standard with 17” wheels. SLT-2 models feature 18” wheels with the top-of-the-line chrome-clad aluminum that completes the chrome exterior accents. All V-6 models can move up to a brilliant 19” chrome-clad wheel.

SPACIOUS DESIGN Terrain’s exterior is designed to give you an extremely comfortable and accessible interior. The edges of the body are pushed to the limits for a bold, signature GMC presence. From the inside, the dimensions afforded by this bold profile give Terrain ample leg and head room and up to 64 cubic feet of available cargo space with the second-row seats folded down.

PROJECTOR BEAM HEADLAMPS For a bright and focused beam that gives confidence-inspiring visibility, Terrain features integral projector beam headlamps. This technology uses a concave lens that works in conjunction with an ellipsoidal reflector surface to provide a very smooth and uniform light pattern.

LOW STEP-IN HEIGHT Giving convenient access and entry is Terrain’s first priority. While the upper door opening is set high for clearance, the floor is at a lower, car-like height, making it easy for drivers of all sizes to enter and exit. Also, the rocker panels are integrated with the door, which creates a larger opening that is protected from splashes, dirt or winter road salt, helping to keep your clothing cleaner in foul weather.

LOW LIFT-OVER HEIGHT Loading and unloading Terrain is easy thanks to a load floor set at a low, comfortable height, which takes away much of the back and shoulder strain of moving large or heavy items in and out of your vehicle.

PROGRAMMABLE POWER LIFTGATE Helping you take advantage of its easy cargo access, Terrain offers an available programmable power liftgate. It opens and closes with the touch of a button to the height you select. Electronic obstacle detection can stop and reverse liftgate motion to prevent damage.

CONSOLE AND CENTER STACK Terrain’s interior groups important functions close together and places them in easy reach. The console, cupholders and center stack are bathed in warm red ambient lighting for an inviting look that is soothing to your eyes at night. The center console also features a deep storage well with both an auxiliary 12-volt power port and a USB port. You can store a laptop, charge portable electronics, as well as connect your iPod® or MP3 player to your Terrain’s audio system, all from a secure location away from prying eyes.

STORAGE FEATURES To help you organize your most important items, Terrain offers a variety of convenient spaces and places to keep them. The interior features an oversize glove box, a console large enough for a laptop, a smaller compartment under the center armrest and two-tier storage in the doors.

SEATING

60/40 MULTIFLEX REAR SEATING To provide the rear seat room of a full-size SUV, Terrain offers the innovative and easy-to-use MultiFlex rear seat system. This seat slides fore and aft nearly 8” to offer best-in-class rear leg room of up to 39.8”. The second-row seatback is split 60/40 and can recline for your comfort or fold down on either side (or both) for loading large objects.

HEATED FRONT SEATS To help you feel warmer faster on cold mornings, Terrain offers available heated seats on both cloth and leather-trimmed models, which can be activated when you use the available remote start. Both the cushions and seatbacks have heating elements, which spread the warmth evenly for added comfort.

CARGO AND LOAD CAPACITY (LIMITED BY WEIGHT AND DISTRIBUTION) 

1 Cargo and load capacity limited by weight and distribution. *Not compatible with all devices.
INTERIOR

STANDARD CONNECTIVITY AND TECHNOLOGY

BLUE TOOTH® FOR PHONE CONNECTIVITY For easy, hands-free operation of your mobile phone, Bluetooth connectivity is standard in every Terrain. This system links your compatible Bluetooth device to the Terrain’s audio system controls. Steering-wheel-mounted radio controls allow you to start a call and control volume, then dial with voice commands and listen to your call through the audio system.

USB CONNECTIVITY For the ultimate in convenience, all Terrain models feature USB ports that allow you to access or recharge various portable electronic devices. You can activate and manage your compatible iPod® or MP3 player to see your playlists on the sound system screen and operate either device to hear your own sound mix by using the audio system controls.

STEERING-WHEEL-MOUNTED RADIO CONTROLS Play your audio system with your fingertips, while you keep your eyes on the road. With the USB® interface connected, these available fingertip controls can also manage most music search features of compatible MP3 and iPod® players.

ENTERTAINMENT

COLOR TOUCH RADIO SYSTEM This standard entertainment system makes your Terrain an even more integral part of your life. It is based on a simple, intuitive 7” touch-screen Color Interface Display that makes it easy to find your most important information quickly. Not only does it include AM/FM/CD/SiriusXM® capabilities, it also gives you a customizable home page and both USB® and auxiliary inputs for your iPod® and MP3 player.

COLOR TOUCH NAVIGATION SYSTEM To keep your passengers entertained on the go, this available system includes the Color Touch Radio System and adds important navigation and information capabilities, such as a built-in gyro compass and secure digital mapping to help you find your way. It also features 3 months of NavTraffic® and Local Forecast feature [in areas with this broadcast capability]. The Color Touch Navigation System also offers a secure digital card reader linked to Photoviewer to review pictures from your cameras or smartphones in the LCD display, as well as display album art [if available] when listening to music from your iPod.®

HIGH-FEATURE NAVIGATION SYSTEM WITH REAR-SEAT ENTERTAINMENT The High-Feature Navigation System® features a 7” LCD DVD center-stack display with advanced mapping capabilities in either 2-D or 3-D views, with voice recognition capability for navigation and real-time updates from NavTraffic®. The built-in hard drive features pause-and-play live radio functions and up to 10 gigabytes for your own music storage. Like the Color Touch Radio, the Rear-Vision Camera also displays through this screen. The Rear-Seat Entertainment System offers video gaming and DVD playback for rear-seat passengers that can play independently of each other. The twin seatback-mounted 8” flip-up LCD video screens can pivot 205 degrees for comfortable viewing by passengers of all heights. Each screen also includes a video input jack to connect various gaming systems or other electronic devices, as well as a pair of wireless headphones and a wireless remote control.

PIONEER® PREMIUM SOUND The available Pioneer Premium audio makes it possible to hear your favorite music just as the artist intended. With the help of eight strategically placed speakers, this available sound system fills the interior with 250 watts of distortion-free sound.

SiriusXM SATELLITE RADIO® Enjoy SiriusXM Satellite Radio in your Terrain with a 3-month trial subscription to the XMPremier Package. Only SiriusXM brings you more of what you love, all in one place. Get over 130 channels including commercial-free music, plus the best in sports, news, talk, comedy and entertainment. With NavTraffic® and the Local Forecast feature, you’ll get live traffic and weather updates as they occur, right on your vehicle’s available navigation system. Welcome to the world of SiriusXM.

SECURITY AND CONVENIENCE

REAR-VISION CAMERA SYSTEM Make it easier to back up to a trailer or negotiate a tight space. This standard system uses the 7” radio display to show real-time video from the rear view. It can also help identify obstacles or moving objects that could interfere with your vehicle.

REMOTE KEYLESS ENTRY One touch is all it takes to lock or unlock your Terrain or to flash its lights and sound its horn. It works at a range of up to 195 feet to unlock your doors for fast entry. The convenient key fob also controls the available programmable power liftgate.

REMOTE VEHICLE START Warm up your Terrain for up to 10 minutes without leaving the door. This available feature is capable of starting your vehicle from up to 195 feet away, so your Terrain will begin warming to your preset temperature until you start the vehicle with your ignition key. Uplevel models can begin heating or cooling your Terrain based on exterior temperature. It can also turn on your heated seat and activate your rear defroster.

ULTRASONIC REAR PARKING ASSIST This system, standard in SLT-2 models, sends out ultrasonic waves from the rear bumper that function like radar to alert you to certain objects, buildings or people within range of your rear bumper. The closer you are, the faster it beeps, to give you a clear signal that can help you operate the vehicle with maximum care.

DIRECTIONS & CONNECTIONS

DIRECTIONS & CONNECTIONS PLAN Non-stop communication and never-ending demands on your time place a premium on the ability to sort and focus the information of greatest importance to you. To place this capability at your fingertips, every Terrain has a 6-month trial subscription to the OnStar® Directions & Connections Plan, standard.

HANDS-FREE CALLING WITH VOICE-ACTIVATED DIALING Available OnStar Hands-Free Calling is built into your Terrain. Just push a button, call out the number and you’re free to keep your eyes on the road. It’s reliable because it is specifically designed for better connectivity and fewer dropped calls in areas with limited cellular reception.

TURN-BY-TURN NAVIGATION Drive with more confidence and certainty. OnStar Turn-By-Turn Navigation is built into your vehicle. It’s simple—all you have to do is push the blue button and ask the Advisor to download directions to your Terrain. Turn-By-Turn is also smart because an automated voice calls out every turn just as you need it.

ONSTAR eNAV WITH GOOGLE™ MAPS AND ONSTAR eNAV WITH MAPQUEST.COM™ MAPS Want to get a head start on a trip? Start by checking out your destination on Google Maps or mapquest.com. With OnStar eNav, just click the “Send” link on the Web site, and it will be sent to your vehicle. When you’re ready to head out, simply retrieve the destination and directions will be downloaded to your vehicle based on your location. With nothing to type on the screen and no maps to hold, it’s simple.

DESTINATION DOWNLOAD Looking for a destination in your navigation system? OnStar will do it for you. Simply press your blue OnStar button, and you will be connected with a trained Advisor who will download your directions to your Terrain’s screen-based navigation system. You can also have destinations downloaded on the go—no need to pull over and type in a new address. It’s an enhancement to navigation that makes screen-based systems easier and faster to use.

ONSTAR RGM.COM (http://onstar.com) for coverage map, details and system limitations. OnStar acts as a link to existing emergency services, not a replacement. Services vary by subscription.

*To go to gm.com/bluetooth to see which Bluetooth® phones are compatible with the vehicle. \*not compatible with all devices. \*requires a subscription, sold separately by SiriusXM after the trial period. SiriusXM Radio service only available in the 48 contiguous United States and the District of Columbia. For more information and to view Customer Agreement, visit siriusxm.com. \*Map coverage available in the United States, U.S. Virgin Islands, Puerto Rico and Canada. navTraffic requires a monthly subscription after introductory trial service, sold separately by SiriusXM. NavTraffic only available in select markets. For more information, visit siriusxm.com/navtraffic. \*Map coverage for Puerto Rico and the Virgin Islands available on separate disc. Coverage not available for portions of Canada. \*visit onstar.com for coverage map, details and system limitations. OnStar acts as a link to existing emergency services, not a replacement. Services vary by subscription.
SAFETY

VEHICLE SECURITY

STOLEN VEHICLE ASSISTANCE If your Terrain is ever stolen, OnStar can help locate it after verification with law enforcement. OnStar can use built-in GPS technology to help to locate it, prevent it from restarting with Remote Ignition Block or, if the vehicle is in use, engage the Stolen Vehicle Slowdown technology to help police recover it quickly and safely.

ROADSIDE ASSISTANCE If the unexpected happens on the road—you’re stranded, run out of gas or have a flat tire—one push of the OnStar button can immediately connect you to an Advisor, ready to help you any hour of the day or night. OnStar can use GPS technology to find your location and connect you to a service provider. No guessing about where you are or what to do.

REMOTE DOOR UNLOCK It’s happened to everyone. But there is an easy solution. If you get locked out of your Terrain, OnStar can help. After verifying your account, an OnStar Advisor can send a signal to your Terrain that usually unlocks the doors within minutes.

REMOTE HORN AND LIGHTS Say you’re in a large parking area and you just can’t remember where you parked. Just call the toll-free number and OnStar will honk your horn to help locate your vehicle or contact an OnStar Advisor, ready to help you locate your Terrain.

DRIVER CONFIDENCE

AUTOMATIC CRASH RESPONSE If your Terrain is in a crash, built-in sensors can automatically send an alert to OnStar. An OnStar Advisor is immediately connected to your vehicle to help you. Even if you aren’t capable of responding, the Advisor can use GPS technology to locate you and request that emergency help is sent right away.

CRISIS ASSIST During severe weather or other natural disasters, OnStar can offer assistance and help you navigate your way to safety. Just push the red OnStar emergency button and our specially trained Crisis Assist Team moves quickly to help you. OnStar can pinpoint your location and provide up-to-date information from public safety authorities, request that help be sent to you or even contact family members or loved ones.

EMERGENCY SERVICES LINK If someone in your Terrain needs emergency help, the OnStar emergency button gives you a priority connection to a specially trained Advisor at any time, day or night. OnStar uses GPS technology to pinpoint your location and request police, fire or medical support be sent to you right away. The Advisor can also stay with you until help arrives.

ONSTAR REMOTELINK APP OnStar RemoteLink offers an amazing level of control and connection with your vehicle. After downloading and registering the app, GMC owners with an eligible vehicle can use their iPhone® or Android-based mobile devices to control their vehicle from their phone and perform specific commands—like unlocking their doors—remotely. You can lock/unlock your doors from any distance, start your vehicle remotely,1 flash your lights and sound your horn to help locate your vehicle or contact an OnStar Advisor. Roadside Assistance or your preferred dealer. To learn all about the great features available, go to onstar.com.

HEAD CURTAIN SIDE-ImpACT AIR BAGS These air bags deploy from the roof rail like a protective curtain for outboard passengers and can be activated by either roolver sensors or side-impact sensors.

SIDE-ImpACT AIR BAGS To help protect the thorax and pelvic regions of the driver and outside front passenger in a side-impact collision, Terrain includes standard side-impact air bags mounted on the driver and outside front-passenger seats.

ELECTRONIC CHILD SAFETY LOCKS To prevent young children from opening the rear doors unexpectedly, Terrain includes a one-touch electronic safety door lock switch. Simply pushing this button in the center console sends an electronic signal to the rear doors, blocking interior door handle function. The button is backlit in amber when the doors are locked and turns to red when unlocked to help you determine the locks are deactivated.

FORDWARD COLLISION ALERT AND LANE DEPARTURE WARNING These systems, available on SLT-2 models, use sophisticated digital imaging technology to help you avoid a crash. Forward Collision Alert provides an audible and visual signal if you are rapidly approaching another vehicle and it appears that a collision may be imminent. Lane Departure Warning alerts you if you happen to wander from your lane without using your turn signal.

LATCH CHILD SEAT ANCHORING SYSTEM Make it easier to properly install a child seat. LATCH stands for Lower Anchors and Top tethers for Children. It means that a LATCH-equipped child seat will install to specially designed retainer hooks in your Terrain. LATCH also enables a child seat top tether strap to be attached that helps limit movement in a forward crash to help reduce the chance of injury.

REINFORCED STEEL SAFETY CAGE DESIGN Terrain’s robust body-frame integral structure is engineered to help maintain the integrity of the passenger compartment in the event of a collision.

STABILITRAC STABILITY CONTROL SYSTEM To help you stay in control when the road is loose, snowy, icy or wet or uneven, StabiliTrak uses a network of vehicle sensors to monitor how your Terrain is responding to your steering and braking commands. If the system determines your vehicle is not responding properly, it can pulse the brakes or reduce engine power to help you stay on the path being steered.

TIRE PRESSURE MONITORING SYSTEM Properly inflated tires are important to your comfort, vehicle control and economy. This system uses tiny sensors inside the wheel to “broadcast” tire pressure to your vehicle, which alerts you to their status and inflation level through the Driver Information Center. If you subscribe to OnStar Vehicle Diagnostics, this information is part of the monthly e-mail update. If you have the RemoteLink app for your iPhone, you can check this status instantly.

1Roadside service provided by Cross Country. 2Requires factory-installed remote start. 3Air bag inflation can cause severe injury or death to anyone too close to the air bag when it deploys. Always use safety belts and the correct restraint for your child’s age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner’s Manual and child safety seat instructions for more safety information. 4Does not monitor spare tire. RemoteLink requires active OnStar subscription.

Dual-stage Frontal Air Bags To help reduce the risk of injury to the driver and front-seat passenger, the Terrain is equipped with two front dual-stage air bags with the Passenger Sensing System. This feature uses sensors within the front-passenger seat to detect the weight of an occupant. If the occupant is under a certain weight, the system turns off the air bag to protect the occupant.

---

*Maximum trailer weight ratings are calculated assuming a base vehicle, except for any option(s) necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your GMC dealer for additional details. 
1 Requires a subscription, sold separately by SiriusXM after the trial period. SiriusXM Radio service only available in the 48 contiguous United States and the District of Columbia. For more information, visit siriusxm.com. 
2 Requires a subscription, sold separately by SiriusXM after the trial period. SiriusXM Satellite Radio includes the trial month(s) of service and a quad-band antenna. 
3Visit onstar.com for details and system limitations.

GMC ACCESSORIES FOR YOUR TERRAIN

Make Terrain your very own with available accessories created specifically to match its distinctive style, as well as yours. All of these items have been tested to meet GMC’s original equipment standards for performance and appearance. Their cost can be applied to your purchase, installed by your GMC dealer and covered under GM’s New-Vehicle Limited Warranty. Just ask your dealer.

MOLDED SPLASH GUARDS

Custom-molded splash guards fit directly behind the wheels. Rear guards feature the GMC logo.

PREMIUM ALL-WEATHER FLOOR MATS

These precision-designed mats fit the floor exactly. Their deep-ribbed pattern collects rain, mud, snow and other debris for easy cleaning. Nibs on the back help keep them in place. Available in Ebony with an embossed GMC logo on front mats only.

PROTECTION PACKAGE (VQG)

- All-weather floor mats
- Custom-molded splash guards

ROOF RACK CROSS RAIL PACKAGE

Carry a load on the roof of your Terrain with these roof-mounted luggage cross rails that add both function and style and can accommodate up to 220 lbs.

ACCESSORY WHEEL

Roll with the best. This custom wheel features a brilliant, durable chrome finish and is available with matching lugs and GMC center caps.

LF671 19” CAST CHROME SIX-SPOKE WHEEL (SED)

HITCH TRAILERING PACKAGE

This Hitch Trailering Package comes with a hitch assembly that mounts directly to your vehicle. Includes the trailering harness.

CARGO CONVENIENCE PACKAGE (VQR)

- Cargo organizer
- Cargo security shade
- Cargo net

TERRAIN SLT-2 IN CARBON BLACK METALLIC

Shown with available dealer-installed accessories: 19” cast-chrome wheels, Roof Rack Cross Rail Package and Hitch Trailering Package.
GM CERTIFIED SERVICE
To help your Terrain live up to its performance promise, GMC Certified Service—found exclusively at your GMC dealer—is there. With all the engineering excellence in Terrain, GM-trained technicians have the expertise to care for all of it.

TRAILERING AND OFF-ROAD INFORMATION
Please carefully review the Owner’s Manual for important safety information about trailering or off-road driving in your vehicle.

IMPORTANT WORDS ABOUT THIS CATALOG
We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximate based on design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your GMC dealer for complete details. GMC reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times.

FLEET ORDERS
Some standard content may be deleted with fleet orders. See dealer for details.

ENGINES
GMC products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in GMC products may also be used in other GM makes and models.

GMC.COM
See more of Terrain on our Web site: gmc.com/terrain. More photos and information; hot links to related subjects; convenient dealer locator; pricing guide, spec out your own vehicle. Or call 1-800-GMC-8782.

AN IMPORTANT NOTE ABOUT ALTERATIONS AND WARRANTIES
Installations or alterations to the original equipment vehicle [or chassis] as distributed by General Motors are not covered by the General Motors New-Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations [or any effect of the alterations] to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design features, materials or workmanship of any alterations by such suppliers.

NEW-VEHICLE LIMITED WARRANTY
All GMC light-duty vehicles come with a fully transferable, no-deductible 5-year/100,000-mile [whichever comes first] Powertrain Limited Warranty. GMC vehicles registered in the U.S.A. are also covered for 3 years or 36,000 miles [whichever comes first]. Coverage includes tires and towing to your nearest GMC dealership. Repairs will be made to correct any vehicle defect and most warranty repairs will be made at no charge. In addition, rust-through corrosion will be covered for 6 years or 100,000 miles [whichever comes first]. See dealer for details.

ASSEMBLY
GM vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce GMC vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

GMMOBILITY.COM (1-800-323-9935) GM Mobility offers financial assistance for eligible adaptive equipment to make automotive travel easier for persons with disabilities or special transportation needs. To learn more about special GM Mobility offers, visit gmmobility.com.

GMCREDMEMBERSERVICEST.COM Did you know about the family of reward credit cards that can help you get a great deal on a new GM car, light-duty truck, SUV or crossover? With a GM reward card, you accrue earnings on every credit card purchase to use toward the purchase or lease of an eligible new GM vehicle. With three cards to choose from, you’re sure to find one that suits you.

NAVTRAFFIC
Included with every Terrain are 3 trial months of NavTraffic. It enhances Terrain’s GPS navigation system by showing continuously updated traffic data while you’re driving. Available in over 100 markets, NavTraffic displays information on construction, road closures and accidents so that you can get to your destination faster, plus average traffic speed and estimated drive time in select markets. For more information, visit siriusxm.com/navtraffic.

GMC OWNED CENTER
A complimentary, one-stop resource to enhance your GMC ownership experience. It’s easy to sign up. Just go to gm.com/gmownercenter/gmc.

ONSTAR
OnStar is a core asset of your Terrain. Benefiting from more than a decade of innovative development, it is both a highly advanced technology—fully integrated within the vehicle—and a warm human service. Standard on all Terrain models are 6 months of the OnStar Directions & Connections Plan, including the convenience of available Hands-Free Calling. It also includes Automatic Crash Response, Stolen Vehicle Assistance, link to Emergency Services, Roadside Assistance, Remote Door Unlock, OnStar Vehicle Diagnostics, Crisis Assist and Remote Horn and Lights. OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Visit onstar.com for coverage maps, details and system limitations.

HANDS-FREE CALLING
Available OnStar Hands-Free Calling capability is built into your Terrain. It’s there when your cell phone is unavailable, its battery is low, you can’t reach it easily or you left it home or in the office. Your Hands-Free Calling system is the right choice whenever you need an easy way to make and receive calls—at the touch of the phone icon on the rearview mirror or the steering-wheel-mounted controls. Voice-activated dialing is convenient because you don’t have to dial when you are at the wheel. And Hands-Free Calling is reliable because it’s specially designed for better reception and fewer dropped calls in areas of limited cellular reception.

ONSTAR TURN-BY-TURN NAVIGATION
Standard on all Terrain models are 6 months of the OnStar Directions & Connections Plan that adds innovative, easy-to-use Turn-by-Turn Navigation plus Information and Convenience Services and Driving Directions. With Turn-by-Turn Navigation you simply tell the OnStar Advisor your intended destination, and directions will automatically be sent to your Terrain. If you drive off-course, the system can reroute you to your intended destination. An automated voice then guides you turn-by-turn until you arrive at your destination. Turn-by-Turn Navigation is further enhanced with eNAV, allowing you to send Google Maps and MapQuest directions directly to your vehicle. No need to print out directions; just call them up with simple voice commands.

SIRIUSXM SATELLITE RADIO
SiriusXM Satellite Radio is standard on all Terrain models. It includes 3 trial months of service. SiriusXM Satellite Radio makes your drive come alive with commercial-free music channels from virtually every genre, artist-dedicated channels, live performances and more. Tune in to live play-by-play from the biggest sports, exclusive entertainment from top personalities, compelling talk, hilarious comedy, world-class news, local traffic and weather and family-friendly programming. Welcome to the world of satellite radio. Visit siriusxm.com for details.

NAVTRAFFIC
Included with every Terrain are 3 trial months of NavTraffic. It enhances Terrain’s GPS navigation system by showing continuously updated traffic data while you’re driving. Available in over 100 markets, NavTraffic displays information on construction, road closures and accidents so that you can get to your destination faster, plus average traffic speed and estimated drive time in select markets. For more information, visit siriusxm.com/navtraffic.

GMC CERTIFIED SERVICE
To help your Terrain live up to its performance promise, GMC Certified Service—found exclusively at your GMC dealer—is there. With all the engineering excellence in Terrain, GM-trained technicians have the expertise to care for all of it.

A NOTE ON CHILD SAFETY
Always use safety belts and the correct restraint for your child’s age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner’s Manual and child seat safety instructions for more information.

COMMITMENT PLUS
From the owner orientation—and full tank of gas—you receive when you take possession of your Terrain to the 24-Hour Roadside Assistance, Courtesy Transportation and Travel Benefits, Commitment Plus is a portfolio of owner privileges that lasts throughout your warranty. For expert guidance or use of roadside assistance or other services, call 1-800-GMC-8782.

TRAVEL BENEFITS AND ROADSIDE ASSISTANCE
Available around the clock: trip routing services, a program for reimbursement for trip disruption due to necessary warranty repairs, towing, flat tire change, jump-starts and more for 5 years or 100,000 miles (whichever comes first).

COURTESY TRANSPORTATION
Available at participating dealers: shuttle service, reimbursement of certain public transportation or fuel expenses for overnight warranty repairs and courtesy rental for overnight work repairs. See your dealer for details.

GMC OWNER CENTER
A complimentary, one-stop resource to enhance your GMC ownership experience. It’s easy to sign up. Just go to gm.com/gmownercenter/gmc.
REAL LIFE. REAL PROJECTS. Making a real difference. GMC vehicles aren’t made to sit in the showroom. They’re designed, engineered and built to get things done, to defy the impossible and to never say the job is over until you’ve overachieved. This is why GMC has joined with the people and organizations you’re about to meet. People who are making a difference in their communities and effecting real change. From advancing the arts to helping disabled athletes pursue their dreams, GMC is proud to present these stories of what can really happen in life when you never say never.

GMC. WE ARE PROFESSIONAL GRADE.
