Want the inside scoop on BMW?
You can find us on Facebook® at
facebook.com/bmwusa.

The BMW 3 Series Sports Wagon blends driving passion and practicality in equal amounts. Propelling you from Point A to B: a smooth inline six-cylinder engine, with vast reserves of pure BMW muscle at the ready. Distinctive exterior cues, a plush, refined interior with oversize Panoramic moonroof, and exciting enhancements transform any drive into an extraordinary experience. With its generous amount of versatile storage space, you, your passengers and your cargo always arrive in style. The 3 Series Sports Wagon: a great idea from a company committed to ideas.

BMW 328i Sports Wagon	

For more information on parts, upholstery and interior trims, see pages 40-43.

The 3 Series Sports Wagon seats five comfortably with plenty of space left for luggage and other items. But the 3 Series is first and foremost a BMW – so the most important seat is still the one behind the wheel. Under the hood of both 328i and 328i xDrive models, BMW's 3.0-liter inline six-cylinder Valvetronic engine. With a rewarding 230 hp and 200 lb-ft of torque on tap, it satisfies even the most demanding driving needs. The 328i xDrive also features the iron grip of the xDrive intelligent all-wheel-drive system, for the added confidence of optimal traction on nearly any road, in virtually any conditions. The 3 Series Sports Wagon: a most powerful way to answer the call of the road.

**LEAVE YOUR EXPECTATIONS
AT HOME.**

**BE PREPARED FOR ANYTHING.
BEHIND THE WHEEL,
YOU ALREADY ARE.**

With impressive power must come the tools to help you control it. The 3 Series Sports Wagon, with its array of innovative driving systems, makes it easy to maintain your confidence. A firm yet responsive connection to the road is essential; when the 3 Series Sports Wagon detects oversteer, understeer or skidding, Dynamic Stability Control (DSC) automatically activates precision braking and modulates power to help optimize vehicle handling. In the 328i xDrive, the power of BMW's intelligent all-wheel-drive system boosts your confidence even further. An advanced traction system designed for the most adverse driving conditions, xDrive transfers torque to the wheels with grip, helping to keep you safely on course. Wherever you go, the 3 Series has you covered.

FROM EVERY ANGLE, A SMOOTH INTERPRETATION OF POWER.

From headlights to taillights, the Sports Wagon's chiseled contours reflect the athletic nature of the BMW 3 Series. Character lines trace the graceful slope of the hood, directing your eyes down to the BMW kidney grille with its bold, sleek form, flanked by the signature quad headlights with their distinctive Corona headlight-rings that can double as Daytime Running Lights. The line ends, then curves back up at the muscular front air dam with its jewel-like foglights. The side flows back, its complex contours reflecting the nuances of unique paint colors such as Tasman Green Metallic and Blue Water Metallic. And at the rear, grace and practicality meet in the handsome, thoughtfully designed tailgate. Elegant, dynamic, functional: all integral elements of the 3 Series Sports Wagon's personality.

Harness the 3 Series Sports Wagon's spirited 230-hp engine with a transmission that's equally impressive. Choose one of two smooth-shifting 6-speeds: either the silky manual or the STEPTRONIC automatic, with Adaptive Transmission Control. And for a rewarding, racing-inspired drive, steering wheel-mounted paddle shifters are included when you combine the automatic transmission and Sport Package or M Sport Package. What else would you expect from a BMW with "Sports" in its name?

BALANCED SQUARELY AT THE FOREFRONT OF SUPERIOR DRIVING DYNAMICS.

BMW's stance on handling has always been firm: provide the most thrilling and precise connection to the road. The 328i Sports Wagon advances this concept with innovative axle technologies. In the front: increased stiffness through the extensive use of lightweight, all-aluminum components, such as tension rods, transverse control arms, swivel bearings and axle supports. In the rear: five extremely rigid, individual control arms for both rear wheels, as well as a large supporting base for track and camber. This innovative suspension delivers the solid, sporty handling that complements the 3 Series' copious power. And the vehicle's near-perfect 50/50 weight distribution offers strikingly well-balanced road feel, with responsive characteristics unmatched by any competitor.

FERCELY PROTECTIVE OF ITS OWNER.

Building on BMW's distinguished safety record, the 3 Series Sports Wagon's broad array of active and passive safety features gives you peace of mind. Crisp handling, fade-resistant braking and potent muscle help you avoid potential hazards; technologies like Xenon Adaptive Headlights help you spot them sooner. But should the unavoidable occur, the 3 Series Sports Wagon's rigid steel body and deformable crush zones help dissipate the impact of a crash, while its leading-edge system of sensors, safety-belt pretensioners, airbags and front-seat Active Head Restraints help protect you and your passengers.

Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

THE 3 SERIES SPORTS WAGON.
EVERYTHING IN ITS RIGHT PLACE.

TAKE THE WHEEL – AND TAKE CONTROL OF THE ROAD.

The 3 Series cockpit is a finely honed command center that's as practical as it is plush. The driver-oriented dashboard is the perfect example of how technology can enhance the driving experience. Take the leather-wrapped multi-function steering wheel. Designed for a firm grip, it places useful controls at your fingertips, so you can adjust the audio or make calls without taking your hands from the wheel – or eyes from the road. Paddle shifters and steering wheel heating add more comfort and fun to every drive. Beyond the steering wheel, all controls are within instinctive reach; every dial and gauge can be easily checked at a glance. A high-resolution 8.8-inch control Display is included with the Navigation and iDrive system. Designed for greater convenience when accessing or customizing various information and entertainment functions, iDrive includes a direct-selection keys for specific menus, and six programmable memory buttons that give one-touch access to your most frequently used functions. From this vantage point, virtually every driving wish is granted. Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

BECAUSE EVERY TRIP
SHOULD SOUND AS
AMAZING AS IT FEELS.

BMW believes in creating your own personal space. That's why you can configure the 3 Series Sports Wagon interior in a broad palette of colors and trims. Settle back in the eight-way adjustable front seats, then create an equally rewarding environment for your ears. Listen to your favorite music on the Harman Kardon® audio system. With 13 upgraded speakers, advanced sound processing and surround sound, you're in the middle of the music. An Auxiliary input inside the center armrest storage compartment allows you to connect digital music players and other peripherals. Add the iPod® and USB adapter to the console and you can control your music through the stereo controls. Sirius Satellite Radio offers over 100 channels of entertainment and commercial-free music nationwide. HD Radio™ receives free digital broadcasts with CD-quality sound, "multicast" FM stations, and innovative data services.

Interior features:	
Upholstery:	Saddle Brown/Black Dakota leather
Trim:	Aluminum
Additional features:	
Harman Kardon Surround Sound Audio System	
Sport Package	
Navigation system

AN ACCOMMODATING INTERIOR, FRONT AND BACK, WITH ROOM TO SPARE.

In the rear cabin of the 3 Series, you'll find much more than just ample head- and legroom. The same level of exquisite craftsmanship found in front is repeated in the back, which is designed to accommodate three passengers in comfort. Lower the center armrest, with its hidden dual cupholders, for supportive comfort for two, or flip down the 60/40 split-fold rear seats. Rear-seat passengers can also keep their cool – and privacy – with rear manual side-window shades.

Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

The image shows the rear interior of a car with brown leather seats and black seatbelts. The rear window is open, revealing a night cityscape with illuminated buildings and a bridge. The text "NO COMPROMISES. THAT INCLUDES PASSENGER AND CARGO SPACE." is overlaid on the left side of the image.

**NO COMPROMISES.
THAT INCLUDES PASSENGER
AND CARGO SPACE.**

Cargo space: the area where the 3 Series Sports Wagon really earns its keep. Need to stow groceries, suitcases, sports equipment? The 3 Series Sports Wagon's spacious layout and smart design let you fit it all in with ease. Another convenience: 60/40 split-folding seats for greater storage versatility, so you can pack longer items – like skis. Loading a few small objects? Don't bother lifting the tailgate; the rear window opens separately, for quick access. Thanks to the standard run-flats, there's no need for a spare tire – so BMW transformed the unused space under the cargo floor into a handy hidden storage area, complete with dividers. Whether it's a trip to the grocery store or a cross-country excursion, this is cargo space that goes the distance.

BMW EFFICIENT DYNAMICS: VEHICLES THAT REQUIRE LITTLE AND GIVE A LOT.

BMW was one of the first automotive manufacturers to pursue efficient driving technologies – one part of our award-winning sustainability strategy. Our commitment to EfficientDynamics means we are continuously developing innovative systems that bring us closer to our long-term goal of emissions-free mobility. However, we remain equally committed to driving pleasure, which is being pursued in different ways. First, there is the continuing optimization of conventional diesel- and gasoline-powered models. Second, BMW hybrid vehicles are already on the road. Third, the first 100% electrically powered BMW – the BMW ActiveE – is being distributed in a field trial to customers. And fourth, the fleet of BMW Hydrogen 7 vehicles impressively demonstrated the potential for combining hydrogen drive with a combustion engine.

Since 1995 BMW has been able to reduce the CO₂ emissions of its entire fleet by approximately 30 percent. BMW has rolled out more than two million vehicles equipped with EfficientDynamics. 31 models already produce less than 225g of CO₂ per mile, and BMW intends to achieve a further 25 percent reduction by 2020. BMW EfficientDynamics represents the most comprehensive package of innovative technologies currently in production, for reducing fuel consumption and emissions while simultaneously creating The Ultimate Driving Machine®.

Different paths to the same destination: unmistakable BMW driving pleasure.

In early 2010 BMW launched its first production models with hybrid drive: the BMW ActiveHybrid 7 and the BMW ActiveHybrid X6. Both models offer an unparalleled combination of increased fuel efficiency, reduced emissions and thrilling performance. The BMW ActiveE, with its innovative 100% electric drive system, introduces a whole new form of dynamic performance, paving the way for the future of emissions-free mobility. Finally, a completely new vehicle concept targeted at meeting the need for sustainable mobility in fast-growing metropolitan areas will soon become reality: the BMW i3.

BMW Vision EfficientDynamics: Vision becomes reality.

In 2014 BMW plans to debut the BMW Vision EfficientDynamics test model – a 2+2 sports car featuring groundbreaking plug-in hybrid technology that combines sports-car performance with compact-class consumption. Powered by the latest-generation, full-hybrid system, the vehicle – in concept form – generates a total of 328 hp through a 161-hp, three-cylinder turbo diesel engine with 214 lb-ft of torque, as well as a hybrid synchronous engine with front axle and fully hybrid drive system on the rear axle. With a range of up to 435 miles, its ratio of performance to fuel consumption is without equal, positioning BMW as the world's leading manufacturer of exceptionally efficient, sporty vehicles.

✈ bmwusa.com/efficientdynamics

THE BMW 3 SERIES SPORTS WAGON'S EFFICIENT DYNAMICS INITIATIVE AT A GLANCE.

Valvetronic.

Instead of using a traditional throttle, Valvetronic technology lets the engine "breathe" more easily by varying the lift height of the valves to regulate air intake. The result: improved cold starts, smoother running, and a significant drop in fuel consumption. Using revolutionary technology such as this, BMW has improved its overall average fuel economy more than any other manufacturer.

Double-VANOS.

VANOS is BMW's valve timing system that can "stelessly" vary the points in the combustion cycle when valves open and close. Double-VANOS refers to the fact that it operates on both the intake and exhaust camshafts. Electronically controlled in response to engine speed, load and temperature, VANOS reduces emissions and enhances low- to medium-speed torque, as well as fuel efficiency.

Efficient transmissions.

The 3 Series Sports Wagon channels its power through one of two 6-speed transmissions: a smooth-shifting manual, and an equally fuel-efficient STEPTRONIC automatic. The automatic transmission includes a torque converter with reduced slippage, quicker shifting, and finer adaptation to driving style and conditions.

Aerodynamics.

The more smoothly that air flows over a vehicle, the more efficiently it can operate. All BMWs are designed for a low coefficient of aerodynamic drag, which translates into quicker acceleration, more stable handling, quieter operation and greater fuel efficiency. A BMW's integrated front spoilers reduce the amount of air flowing underneath, minimizing front-end lift. This allows a BMW to hug the road at higher speeds for excellent stability.

Lightweight construction.

Our engineers use lightweight aluminum throughout our vehicles – in the front sections, for example, or for the suspension. The naturally aspirated inline six-cylinder engine in the 3 Series Sports Wagon is an aluminum/magnesium composite – the lightest in its class. Taken together, these weight savings lead to lower fuel consumption and better axle load distribution for more agility – especially in curves.

Not all BMW EfficientDynamics features are available on all models. Please see your authorized BMW center for details.

BMW EfficientDynamics
Less emissions. More driving pleasure.

BMW EfficientDynamics
Less emissions. More driving pleasure.

BMW's Valvetronic system reduces "pumping losses" in the engine, especially under part-load conditions, thereby reducing fuel consumption.

Portrait of an engineering masterpiece: the 3.0-liter engine pours on the power and quickly develops maximum torque, which continues without falting over a large rpm range – so you enjoy smooth, powerful acceleration at virtually any legal speed.

AT BMW, POWER ALWAYS COMES SPECIAL DELIVERY.

Engines are our passion. That's why a BMW engine doesn't just deliver power and performance, but does so very smoothly and efficiently. It's this refinement that makes our powerplants unique. So it comes as no surprise that we are not the only ones to call our engines refined; they have been receiving accolades and awards from the automotive press for years.

Hit the accelerator of the 328i Sports Wagon, and in 6.5 seconds¹ you're sailing past 60 mph. Its inline six generates 230 hp at 6500 rpm. And with 200 lb-ft of torque at 2750 rpm, the power pours on early and strong, and continues throughout the powerband. The result is more power at low rpms and improved efficiency.

The lightweight composite magnesium/aluminum engine block adds to the spirited acceleration and nimble handling. The camshafts are hydroformed to create a hollow structure that reduces weight and improves strength; even the exhaust manifold is made of a lightweight alloy. The result is one of the lightest six-cylinder engines of its size.

Advanced Valvetronic technology lets this powerplant "breathe" better, resulting in greater power, higher torque, quicker engine response, a smoother idle, and enhanced fuel efficiency. And no matter what type of driving you do – highway cruising, hauling goods, or hugging a winding mountain curve – BMW's Double-VANOS technology selects the best intake and exhaust valve timings to keep everything running smoothly, with lightning-quick acceleration on command and instant power delivery.

Both the 328i and 328i xDrive channel their power through one of two 6-speed transmissions – a smooth-shifting manual, or STEPTRONIC automatic. Combine the automatic transmission and Sport Package or M Sport Package, and steering wheel-mounted paddle shifters for smooth, clutch-free manual shifting will automatically be added.

¹ 328i Sports Wagon with manual transmission, 7.1 seconds with STEPTRONIC automatic. 328i xDrive with manual transmission, 7.1 seconds; 7.3 seconds with STEPTRONIC automatic. BMW AG test results. BMW urges you to obey all posted speed laws and always wear safety belts.

A true sensory experience – from the vehicle's point of view. The 3 Series Sports Wagon features a wide range of innovative technologies that make driving easier, and connect you to the road in uncanny ways. From Navigation system features that make finding your way more fun, to intelligent cruise control technologies that "see" upcoming traffic, the 3 Series Sports Wagon's features and options shine under any circumstances – so you can concentrate on the drive.

Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

The Active Cruise Control system uses a radar sensors in front to gauge the distance and speed of vehicles ahead of you.

Using radar measurements, Active Cruise Control automatically maintains a preset speed and distance between your vehicle and the one ahead in both traffic and highway driving.

ACTIVE CRUISE CONTROL: ANOTHER NAME FOR HIGHWAY STRESS CONTROL.

BMW gives you many ways to enjoy driving. First, you can keep your right foot firmly in control, alternating between the accelerator and the brake pedal. Second, on long stretches of highway with light traffic, you can give your right foot a rest by activating standard Dynamic Cruise Control. It keeps you at your desired preset speed, not only on level stretches, but by accelerating uphill and braking downhill.

Then there's driving in traffic. Here's where your BMW can actually help relieve stress – that is, if it's equipped with Active Cruise Control. This feature adjusts your speed automatically, decelerating when you approach a slower vehicle, and then accelerating back up to your preset speed when the coast is clear.

Using radar sensors that scan the area in front of the vehicle, Active Cruise Control gauges the speed of vehicles traveling ahead of you. As you get closer, a "vehicle ahead" icon lights up. Your BMW then automatically adjusts its speed, even braking when necessary, in order to maintain the safe following distance you've preset. When the slower traffic ahead clears, your BMW automatically resumes your previously set cruising speed. It's one more way BMW helps maintain the joy of driving – even in traffic.

Note: Active Cruise Control is not a substitute for the driver's own responsibility in adjusting speed and otherwise controlling the vehicle. After evaluating road, traffic and visibility conditions, the driver must decide whether and how the system is used.

Adaptive Headlights
create cones of light that follow the direction of the headlights.

Cornering Lights
illuminate the side of the road when turning, helping to reveal obstacles, cyclists and pedestrians.

Xenon low beams
provide improved illumination of the road, while Corona headlight-rings act as Daytime Running Lights and parking lights.

Xenon and halogen high beams
increase the range of visibility. The Automatic high beam feature senses approaching headlights and turns the high beams off, then on, as needed.

SEE NIGHTTIME DRIVING IN A NEW LIGHT.

The 3 Series headlights, set in chromed "tubes," emphasize the Sports Wagon's sharp looks and wider stance while helping you see better in the dark. Distinctive Corona headlight-rings, which circle the low beams, function as parking lights. They can also be set to function as Daytime Running Lights, via the Advanced Vehicle & Key Memory feature. Cornering Lights direct an angled beam at each front corner when turning, at low speeds, and in reverse gear. Vertically layered turn-signal lights, like the L-shaped tailights, use LED technology for quicker, heightened visibility.

When equipped with Xenon Adaptive Headlights, the road ahead is illuminated with the near-daylight brilliance and clarity of Xenon high-intensity discharge (HID) lights, while an auto-leveling feature reduces headlight glare for oncoming drivers. The Adaptive light control feature automatically swivels the lights to follow the curves of the road, using data from on-board sensors and the steering wheel angle.

Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

BMW's xDrive intelligent all-wheel-drive system continuously monitors the vehicle's status - rpm's, steering angle, acceleration - and when it detects wheelspin, sends the optimal amount of power to the axle with traction.

XDRIVE ALL-WHEEL DRIVE: THE POWER TO MASTER ANYTHING THAT CROSSES YOUR PATH.

In the 328i xDrive Sports Wagon, xDrive intelligent all-wheel drive takes all-road traction to new heights while maintaining BMW's legendary agility. On smooth, dry roads, vehicles with xDrive have the feel of their rear-wheel-drive counterparts. But hit a wet uphill curve, for instance, and even before wheelspin can occur, the xDrive system immediately recognizes any need for a change in power distribution. Almost instantaneously, xDrive can send more torque to the front axle to enhance stability. Should one wheel or axle spin faster than the other, the brakes automatically engage, as needed, to bring all wheels back in sync.

Working in conjunction with xDrive, and standard in all 3 Series models, is the latest version of BMW's Dynamic Stability Control (DSC) system. This includes four innovative automatic braking functions: **Brake Stand-By:** If you suddenly remove your foot from the throttle, DSC anticipates that you're going to want to stop quickly. It then pre-tenses the brake calipers for quicker action when you step on the brake pedal. **Brake Drying:** When it rains, your brakes get wet and can take longer to stop the vehicle. When the sensor determines that it is raining, it reacts by periodically bringing the brake pads into contact with the rotors, just enough to eliminate the accumulated moisture and help dry them, but not enough to cause brake application. **Start-off Assistant:** When stopped on an incline, DSC prevents your vehicle from rolling backwards or forwards. It even holds your car momentarily when you release the brake to start moving again. **Brake Fade Compensation:** As your brakes heat up due to continuous or repeated braking (like when you're descending a winding mountain road), the same pedal action results in less braking power. DSC senses and compensates for this by applying the brakes with more force with the same pedal action.

Augmenting the xDrive system are Automatic Stability Control (ASC) and Dynamic Brake Control (DBC), which maximizes brake force on both axles, should the system detect that the driver wishes to brake as hard as possible. And a special Dynamic Traction Control (DTC) mode can be selected at the push of a button, allowing more wheel slip and yaw angle, providing incremental traction on slippery surfaces and snow. BMW's advanced traction and stability technology ensure that no challenge faced on the road ever goes unanswered.

Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

STAY TOTALLY IN TOUCH WHEREVER YOU GO – WITH BMW CONNECTED DRIVE.

Whether you're far from home or just in the next town, BMW Assist™ offers convenience and peace of mind. There are new ConnectedDrive features that extend BMW's leadership in wireless communications. Marvel at an extensive array of new Mobile Office functions. Get a visual image of your callers. With BMW Assist, you enjoy all this – and more.

BMW Assist gives you peace of mind knowing that a friendly, response specialist is there to help you 24/7, at the touch of a button. The **Safety Plan** includes Automatic Collision Notification, Emergency Request (SOS), TeleServices, Enhanced Roadside Assistance, Door Unlock, Stolen Vehicle Recovery, Customer Relations and MyInfo. The **Convenience Plan** adds personalized Directions, Traffic and Weather reports, BMW Online and Concierge services for restaurant and hotel recommendations, with the destination address and phone number sent to your BMW. Make up to four operator-assisted calls per year with Critical Calling if your mobile phone is not available or its battery is discharged.

Use the time you spend in your vehicle even more effectively with BMW's **Mobile Office** feature. For example, when your vehicle is paired with a selected Bluetooth® interface, text messages and emails are transferred to your iDrive Display screen – and our system even reads them aloud to you. Thanks to Bluetooth audio streaming, you can enjoy wireless playback of your music files; your personal audio library can even be accessed via the iDrive Controller.

¹ Not all mobile phones are compatible with Mobile Office, and some compatible phones support a limited number of Mobile Office functions. For the complete list of compatible mobile phones and the details regarding which Mobile Office functions are supported by each phone, please visit bmwusa.com/bluetooth.

What's on today's agenda? Bring up the **Calendar** and **To-do List** on your iDrive screen while en route, to help you stay on schedule. Need to call your 11 o'clock appointment? Use the iDrive Controller knob to **click on the phone number** in the Calendar – and it's ringing. Meeting with several people? Conduct conference calls; the Display screen keeps you informed of the status of incoming calls. Who's calling you? If you've uploaded photos to your on-board phonebook, you'll see the caller's picture. Even missed calls are listed on the Display screen. It's never been easier to stay in touch while in transit.

Enhanced functions for the iPod® and USB adapter add to the ease and pleasure of using your iPod or iPhone. Want to know which CD that song comes from? The album cover is shown on your Display screen. Don't purchase additional cables – your iPod or iPhone's original USB cable connects to your BMW's USB port. Another rare feature: with BMW Assist and Bluetooth audio streaming, you can wirelessly play music through the BMW audio system from any Bluetooth compatible music player or mobile phone, from anywhere in your vehicle. In fact, the audio library appears on the Display screen, where you can use the iDrive Controller knob to make your selection.

MyInfo allows you to send business locations and street addresses to your BMW from Google Maps™. Destinations and phone numbers can be accessed and exported to your Navigation system for immediate route guidance, while you can call the destination with your Bluetooth linked phone.

BMW Online allows online access to up-to-date fuel prices and gas station locations; the latest weather forecasts, advisories and warnings; Dow Jones, S&P 500 and NASDAQ indices; and the powerful reach of the Google Maps database – all delivered on the Control Display inside your vehicle. Access news headlines and have them read aloud via text-to-speech technology. "Send to Mail" pinpoints your current location and planned destination, and allows you to send the information to any smart-phone or email account. Then it's just a quick hyperlink to Google Maps for your friends and family to see where you are and where you're going.

BMW Apps lets you access Social Networks, music, Plugin and Video Playback through your iPhone, and see them on the Display screen. Tune in to **Web radio** and search for stations from around the globe by name, location or genre. You can also store your favorite stations, find similar stations, display station information, and change the quality of the audio. Your favorite entries are stored on your iPhone, so you can take them with you from one vehicle to another.

Please note: ¹ Available in models manufactured as of April 2011.
² Web radio audio quality depends on the bit rate of the station, and data reception depends on your cell service. Data transfer comes over the iPhone.

Access content from your **Twitter™** and **Facebook®** accounts to stay on top of what's happening with friends and family.² The system can even read posts aloud, so you can keep your focus on the road. You can quickly post prewritten tweets that are further personalized by your BMW to let everyone know where you are and that you're enjoying the drive.

When you select **Plugin** from the BMW Apps menu, the iPhone exports a typical iPod look and control to your BMW through the video connection. You can then search for your favorite music by playlist, artist, album, song, genre or composer, just as you would on your iPhone.

Please note: The BMW App must be installed on your iPhone for the Plugin to connect.

² Requires BMW Apps option and an iPhone.

Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

HIGH PERFORMANCE WHEN IT COUNTS: IN A FLASH.

The advanced safety systems of the 3 Series Sports Wagon build on its impressive record. Passive safety begins with the extremely rigid steel "safety cage" that surrounds the occupant compartment, with deformable crush tubes front and rear. In a severe crash, impact energy is absorbed and routed around the passenger cabin.

Sensors throughout the vehicle measure both the severity of the crash and the presence of occupants. After analyzing the data, the vehicle determines the best plan for deploying safety-belt pretensioners and airbags. Six airbags are on hand to help shield occupants from harm: for the driver and front passenger, there

are dual-threshold, dual-stage front airbags and seat-mounted front side airbags. In a side impact, Head Protection System (HPS) side-curtain airbags stretch all the way from the A pillar in the front to the C pillar at the rear, helping to keep front and rear occupants' heads from hitting the side windows, and keeping debris out of the cabin.

The front seats of the 3 Series Sports Wagon include Active Head Restraints. In a rear-end impact, they quickly pivot forward, close to the backs of occupants' heads. This reduces rearward head motion, lessening the likelihood of whiplash or other head or neck injuries.

In the event of a severe impact, up to six airbags can deploy, and front-seat Active Head Restraints can pivot upward, to help protect front-seat occupants. In a side collision, BMW's Head Protection System (HPS) helps shield front and rear passengers' heads and torsos from impact and debris.

Note: These pictures of airbags are for illustrative purposes only. Depending upon the type of accident, none, some or all airbags may deploy.

The pages in this section show available colors and materials for the BMW 3 Series Sports Wagon. Use these samples to compare paint, upholstery, trim colors and combinations. Please note that these samples are representations; they are not exact reproductions. To see the actual colors, visit your local BMW center. They will be happy to show you original samples and assist you with special requests.

CITY SLICKER.

By day, the 328i Sports Wagon in Space Gray Metallic paint means serious business. By night, it mirrors the excitement of the big city. Under-scoring the drama, a sophisticated interior upholstered in supple Black Dakota Leather and brightened with Aluminum trim. If an evening at the theater is in your plans, bypass traffic jams to arrive on time with the optional Navigation system with Real Time Traffic Information. Now start the engine – and let the show begin.

328i Sports Wagon shown with the following equipment:
Exterior color: Space Gray Metallic
Interior upholstery: Black Dakota Leather
Interior trim: Aluminum
Additional equipment: Sport Package with Star Spoke (Style 286) light alloy wheels, Navigation system, Park Distance Control, roof rails

NATURE LOVER.

Take off for your weekend retreat. You're ready to be one with nature – and the 328i xDrive Sports Wagon is your surefooted travel companion. Its Blue Water Metallic exterior paint has the calming effect of sky and water; inside, the creamy Oyster/Black Dakota Leather upholstery, set off by striking Dark Burl Walnut Wood, brightens your day and lifts your spirits.

Xenon Adaptive Headlights provide brilliant clarity of the road ahead and to the side at night and in conditions with poor visibility. The dynamic auto-leveling feature adjusts for varying passenger and cargo loads, helping to keep headlight glare out of the eyes of oncoming drivers. BMW Adaptive Headlights provide optimum road illumination around corners, thanks to an electromechanical control system that directs the headlights into and around the bend as soon as the vehicle begins cornering. Also shown in the headlight cluster: vertically layered LED turn-signal indicators, included as standard, offer quicker, heightened visibility.

Retractable high-intensity headlight washers help keep lights clear of ice, mud, road salt and other coatings, for maximum road lighting and enhanced driving safety.

BMW's distinctive front kidney-shaped grille features a chrome surround with black slats.

Rain sensor measures the amount of rain. In "intermittent" windshield wiper mode, it automatically adjusts the wiping interval as needed. Includes **Automatic headlight control** (not shown), which activates headlights by means of a sensor that responds to darkness. The rain sensor is also integrated into the braking system as part of the Brake Drying feature.

Roof rails in black accentuate the 3 Series Sports Wagon's sporty curving silhouette while providing a flat, sturdy base for the multi-functional BMW roof rack. Add special carriers for easy, secure transport of luggage, bicycles, surfboards and more.

Door sill with BMW insignia and polished chrome inlay adds a customized touch to the 3 Series Sports Wagon.

Convenient lighting features make it easy to see inside and outside the vehicle. When the door is locked, press the remote's "unlock" button to turn on cabin lights and the illuminated door handle. When you open the door, lights shine down to illuminate the ground where you step.

xDrive badges, located next to the front wheel wells of the 328i xDrive Sports Wagon, indicate that it is an all-wheel-drive model.

Star Spoke® (Style 286) light alloy wheels and run-flat¹ performance tires.² ³In front: 17 x 8.0 wheels with 225/45 tires; in back: 17 x 8.5 wheels with 255/40 tires.

V Spoke® (Style 360) 16 x 7.0 light alloy wheels with 205/55 run-flat¹ all-season tires.

Star Spoke® (Style 284) 17 x 8.0 light alloy wheels with 225/45 run-flat¹ all-season tires.³

V Spoke® (Style 285) 17 x 8.0 light alloy wheels with 225/45 run-flat¹ all-season tires.³

¹ Run-flat tires do not come equipped with a spare tire.
² Performance tires are not recommended for driving in ice and snow.
³ Driving over rough or damaged road surfaces, as well as potholes, curbs and other obstacles, can cause serious damage to wheels, tires and suspension and may void the warranty. Please drive carefully and avoid excessive speed and driving between the wheel and the road. Be careful to avoid road hazards and reduce your speed, especially if your vehicle is equipped with low-profile tires.

Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

Three-spoke leather-wrapped multi-function steering wheel lets you keep both hands on the wheel while adjusting various comfort functions, such as the radio, CD selections and volume. Voice command (included with the Navigation system) can be used to access elements of the system.

Three-spoke leather-wrapped multi-function steering wheel lets you keep both hands on the wheel while adjusting various comfort functions, such as the radio, CD selections and volume. Voice command (included with the Navigation system) can be used to access elements of the system.

Engine Start/Stop button and remote key control the engine. First, insert the remote key into the starter switch slot. After the electronic identification system confirms that it is the correct remote key, start (or later, turn off) the engine by pressing the Start/Stop button.

¹ Foot must be on brake in order to start, with manual transmission, clutch must also be depressed.

Dynamic Cruise Control lets you set and keep to a chosen speed above 20 mph, automatically applying the brakes downhill. It is activated via the left-hand steering column switch and deactivated by applying the brakes or via the switch.²

Active Cruise Control (ACC) with Stop & Go allows the driver to preset both a desired speed and distance. When ACC recognizes slower vehicles ahead, it reduces your speed to maintain the preset distance. Stop & Go can bring you to a complete stop if traffic calls for it. When you press the accelerator, ACC resumes your speed according to your presets.²

Instrument panel features a red backlit speedometer and tachometer. Centered between the two easy-to-read analog instruments is the on-board computer (see below center) with liquid crystal display providing additional important driving information.

Navigation system features a glare-free, high-resolution monitor. Detailed maps show – and tell – the directions to your desired destination. Functions include 3-D daytime and nighttime maps, zoom, travel planner, and Assistance Window. Additionally, the hard drive offers 12 GB of space that can hold up to 2,000 songs. It also provides Real Time Traffic information on potential traffic problems and solutions.

The **on-board computer** with Check Control provides feedback on the vehicle's operating status: oil level indicator and distance to next service appointment (oil change, as well as other detailed information, such as spark plug and micro-filter status. It also provides travel information, including travel range on remaining fuel, external temperature, and more.

Voice command allows you to activate numerous Navigation system functions, record up to five minutes of notes, and make phone calls (if so equipped) hands-free. The Voice command button must be pressed before each use, so conversations won't accidentally activate the phone or other systems.

Park Distance Control uses ultrasonic sensors in the front and rear bumpers to help you judge the distance to other cars and unseen objects when parking. The beeping becomes faster as your bumper approaches the object, turning into a constant tone when the distance is less than 12 inches.

Automatic climate control system allows occupants to select a specific cabin temperature and choice of fan speeds, as well as automatic or manual airflow and recirculation. The automatic recirculation control activates whenever certain air pollutants are detected. The system also includes defrost/defog and MAX A/C functions.

BMW anti-theft AM/FM stereo CD/MP3 player includes Radio Data System, Auto-Store, and 3-channel FM diversity antenna; reads/destroys song title. **HD Radio™** receives free digital AM/FM broadcasts in clear, static-free sound, multicasted FM stations, and innovative data services.

Harman Kardon® Surround Sound Audio System with vehicle-specific equalizing and powerful 420W amplifier. The 13-speaker system includes four tweeters, four midrange speakers located in the door panels and two midrange speakers located in the roof, two bass speakers located under the front seats and one midrange center channel speaker located in the dashboard.

6-speed manual transmission delivers a precise, athletic feel. Its responsiveness is due, in part, to the enhanced synchronization of shifts from neutral to each gear. A short-ened shift lever and "throw" add to the sporty feel of the gearbox. The sixth gear drops revs at highway speeds for smooth cruising.

6-speed STEPTRONIC automatic transmission provides a choice of three modes: "Drive" with Adaptive Transmission Control, a dynamic "Sport" mode, and STEPTRONIC automatic, for the hands-on control of a manual without a clutch.³

³ When ordered with Sport Package or M Sport Package, steering wheel-mounted paddle shifters are automatically included.

Auxiliary input port lets you connect an external audio source, such as an iPod® or MP3 player.

Standard front seats, shown here with optional Dakota Leather upholstery, offer eight-way manual adjustment, including two-way headrests with Active Head Restraints feature. The front passenger seat also includes manual height adjustment.

Heated front seats are a welcome feature for driver and front passenger in cooler weather. By pressing the icon button, seat surface and backrest are heated and quickly radiate comfortable warmth in your choice of three settings.

Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

COMFORTABLE SEATING – OR MORE CARGO ROOM? ENJOY BOTH WITH EASE.

The versatile 3 Series Sports Wagon doesn't just offer space – it offers endless possibilities. Open the tailgate and you'll immediately notice how much cargo room BMW has created, even above and to the sides. The 60/40 split-folding rear seats let you tailor its cargo- and passenger-carrying capabilities to fit your needs at any moment. Both seats fold down to create a large, lighted storage area; a handy power socket and side nets offer added practicality. Since run-flat tires are included as standard, there's no need for a spare wheel and tire. So BMW created an additional, hidden storage space under the cargo floor, complete with dividers and tool kit. The low tailgate load-in height makes handling heavy or bulky items more manageable, and the rear window can be opened separately. A vertical luggage net helps keep the passenger and cargo areas separate – an especially useful feature when the cargo shifts during short stops. A removable cover, which shields cargo from prying eyes, lifts up automatically when you open the rear window or tailgate. Roof rails and BMW's accessory roof rack system let you store more gear on top. The rear cargo area provides 24.8 cu. ft. of storage with the rear seats in the upright position; with rear seats folded down, the cargo area can be expanded to an impressive 59.0 cu. ft. of usable space.

There's 24.8 cu. ft. of cargo space – even with three rear-seat passengers. Note the side storage nets and lashing systems designed to keep luggage immobile. Under the cargo floor, another storage space with dividers keeps items securely out of sight. Please note: European model shown. Cargo net not included.

Front cupholders are integrated into the dashboard within convenient reach of the driver and front passenger. The passenger's cupholder is shown above; the driver's cupholder is to the right of the center console.

Rear cupholders are integrated into the front of the rear-seat center armrest. When not in use, they can be stored out of sight by sliding them back into the armrest.

Comfort Access system offers convenient keyless access to your car. Simply carrying the remote key in a pocket or purse allows you to unlock the doors by touching the door handle. You can also turn the engine on or off by pressing the Start/Stop button without inserting the remote key. Foot must be on the brake in order to start with manual transmission; clutch must also be depressed.

Panoramic moonroof lifts up at the rear or slides back, with electric slide and lift control. Includes a comfort opening/closing function, and a sliding interior sunshade to shield the cabin from excessive heat.

Power seat adjustments included with eight-way power front seats allow customized comfort and convenience for driver and front passenger. The two-setting memory system automatically adjusts the driver's seat and side-view mirror positions, with individual preferences available at your fingertips.

Power window buttons with "one-touch" up/down operation and **exterior mirror adjustment** controls are located conveniently to the left of the driver, allowing access that doesn't require taking your eyes from the road.

Front armrest with integrated storage compartment folds up to allow access to a front cupholder and Auxiliary Input port shown on the preceding page.

Separately opening rear window allows quick, easy access to the cargo compartment without having to lift the tailgate.

Removable cargo cover keeps your items safely hidden from view. **Retractable vertical luggage net** divides cargo and passenger areas, keeping pets, gear and groceries safely in back.

Comfort-opening function provides easy access to the cargo compartment by raising the cargo cover automatically whenever you open the rear window or tailgate.

Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

Heated steering wheel makes gloves unnecessary for cold weather driving. A flick of the switch quickly warms the steering wheel to the perfect temperature.

Ski bag allows clean and secure transport of up to four pairs of skis and ski poles. When the ski bag is not extended, the center armrest can be left down for use or folded up to create a third seat.

Power-adjustable folding exterior side-view mirrors automatically dim when reflecting bright lights, helping to eliminate glare when driving at night.

BMW Universal garage-door opener takes the place of up to three remote-control devices. It can activate remote functions outside the vehicle, such as garage-door openers or home-lighting systems.

The **automatic-dimming inside rear-view mirror** darkens in response to the bright headlights of vehicles behind you. The easy-to-read **digital compass**, integrated into the mirror, is a convenient way to constantly keep your bearings while driving.

Eight-way power-adjustable front seats cradle driver and passengers in soft, gathered leather. Durable and easy to maintain, a leather interior adds elegance and refinement.

Lumbar support for front seats adds four-way adjustable comfort for the lower back. Lumbar support can be adjusted up/down and in/out.

BMW Assist™ Safety Plan is included for four years, providing Automatic Collision Notification, Door Unlock, Emergency Request, Roadside Assistance, Stolen Vehicle Recovery, Teleservice and more. The optional Convenience Plan offers Directions, Traffic, Weather, Critical Calling and Concierge services.

Get the latest information on BMW, standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

SPORT PACKAGE

The Sport Package injects even greater excitement into every minute spent behind the three-spoke, leather-wrapped multi-function sport steering wheel.¹ Run-flat² performance tires³ and larger wheels team up with the sport-tuned suspension⁴ to grip corners with a vengeance. Specially bolstered sport seats cradle you comfortably over long distances, while holding you firmly in place during sporty driving maneuvers.

High-gloss shadowline trim gives a purposeful look to window frames, window recess finishers, and door-sill trim strips.

Star Spoke (Style 284) 17 x 8.0 light alloy wheels with 225/45 **run-flat² all-season tires**.

Star Spoke (Style 286) light alloy wheels with **run-flat² performance tires**.³ In front: 17 x 8.0 wheels with 225/45 tires; in back: 17 x 8.5 wheels with 225/40 tires.

Three-spoke, leather-wrapped multi-function sport steering wheel lets you keep both hands on the wheel while changing the radio, CD selections and volume. Voice command (included with optional Navigation system) can be used to change radio stations and audio selection. Navigation system destinations, and (accessory) phone entries.

Eight-way adjustable front sport seats make the driving experience more enjoyable. Side bolsters can be power-adjusted to fit your back comfortably while helping to hold you firmly in place during cornering. (Eight-way power front sport seats with two-way manual headrests and thigh support require Premium Package or power seats feature.)

¹ When optional STEERING, automatic transmission and Sport Package or M Sport Package are ordered, steering wheel-mounted paddle shifters are automatically added.
² Run-flat tires do not come equipped with a spare tire and wheel. Driving over rough or damaged road surfaces, serious damage to wheels, tires and suspension parts. This is more likely to occur with low-profile tires, which provide less cushioning between the wheel and the road. Be careful to avoid road hazards and reduce your speed, especially if your vehicle is equipped with performance tires are not recommended for driving in ice and snow.
³ Performance tires are not recommended for driving in ice and snow.
⁴ Not available on 328i xDrive.

M SPORT PACKAGE

An Aerodynamic test and increased top-speed limiter hint at the performance-oriented attitude of the M Sport Package. Le Mans Blue Metallic, a paint choice exclusive to the M Sport Package, is set off by High-Gloss shadowline trim. The interior boasts sport seats, a leather-wrapped multi-function M sport steering wheel* and an Anthracite headliner. M door sills and an M footrest add an expressive visual touch. The sport-tuned sports suspension is complemented by mixed size run-flat performance tires* (Available 18-inch Star Spoke (Style 193M) light alloy wheels enhance unsprung weight).

Aerodynamic kit adds the sporty look of side skirts and an integrated rear spoiler.

Star Spoke (Style 193M) light alloy wheels with run-flat³ performance tires.⁴

In front: 18 x 8.0 wheels with 225/40 tires;
in back: 18 x 8.5 wheels with 255/35 tires.

Double Spoke (Style 194M) light alloy wheels with run-flat³ performance tires.⁴

In front: 17 x 8.0 wheels with 225/45 tires,
in back: 17 x 8.5 wheels with 255/40 tires.

Three-spoke, leather-wrapped multi-function M sport steering wheel¹ is exclusive to the M Sport Package. It offers excellent grip, thanks to its thicker rim. The integrated multi-function buttons can be used to operate the radio, CD player and a Bluetooth[®] enabled mobile phone.

Sport front seats offer optimum lateral support during sporty driving maneuvers, and long-distance comfort when traveling. (Eight-way power front sport seats with two-way manual headrests and thigh support require Premium Package or power seats feature.)

¹ When optional STEPTRONIC automatic transmission and Sport Package or M Sport Package are ordered, steering wheel-mounted paddle shifters are automatically added.

² Not available on 328i xDrive.

3 Run-flat tires do not come equipped with a spare tire and wheel.

4 Driving over rough or damaged road surfaces, as well as curbs, ditches and other obstacles, can cause serious damage to wheels, tires and suspension parts. This is more likely to occur with low-profile tires, which provide less cushioning between the wheel and the road. Be careful to avoid road hazards and reduce your speed, especially if your vehicle is equipped with low-profile tires. Performance tires are not recommended for driving in ice and snow.

Xenon Adaptive Headlights automatically swivel to follow the curves of the road. The system uses data from on-board sensors and the steering wheel angle to determine the car's direction, then adjusts the headlights accordingly. The system offers outstanding nighttime vision.

Cornering Brake Control increases vehicle stability by proportionating the braking force while turning. When you brake in a turn, the pressure comes off the rear wheels, which causes the vehicle to swerve inward (oversteer) (1). Cornering Brake Control counteracts this action by asymmetrically adjusting brake pressure (2), creating stabilizing counter-torque (3), independently of the ABS system.

BMW's door anchoring system includes reinforcing bars with hook-like members within each door. In a serious side impact, the bars hook the door to the body, locking them together to make a more rigid passenger cell. When the pressure is released, the anchoring system is designed to disengage so that the doors can be opened (unless further damage from the impact prevents them from opening).

In the event of a collision, BMW's supplemental restraint system (SRS) with advanced technology for the driver and front passenger seats determines which **airbags** to deploy for optimal protection. The system also includes front seat-mounted side-impact airbags. **BMW's Head Protection System (HPS)** is designed to help protect passengers in both front and rear compartments.

Note: Pictures of airbags are for illustrative purposes only.

BMW restraint system for the driver and front passenger combines three-point safety belts, automatic safety-belt pretensioners, seat bolsters that help prevent occupants from sliding forward, and Active Head Restraints. This system helps provide optimum restraint in a collision.

Impact-absorbing bumpers and compressible "crush tubes" front and rear help absorb the force of an impact in collisions up to nine mph, minimizing damage to the vehicle's body and simplifying repairs. Only at higher impact speeds do structural supports begin to deform, dissipating impact energy to help protect occupants.

Dynamic Stability Control (DSC) with **Dynamic Traction Control (DTC)** features **Brake Drying**, **Brake Stand-by**, **Brake Fade Compensation** and **Start-off Assistant**. DSC is a braking control system that helps to stabilize a vehicle when it senses a loss of control. If the system senses over- or under-steer, it responds with counter-measures to help keep the vehicle under control.

Run-flat tires allow speeds of up to 50 mph and travel from 30 to 150 miles after loss of air pressure, depending on the total vehicle weight. Reinforced sidewalls help prevent the tires from collapsing or loosening from the rim. In the event of a decline in tire pressure, the driver is warned by the **Tire Pressure Monitor**. Please see the Owner's Manual for more information regarding these tires and their load weight ratings.

Lightweight construction is used throughout the 3 Series Sports Wagon. In both the 328i and 328i xDrive, the five-link rear suspension includes cast-aluminum upper transverse arms. In the front section of the 328i, aluminum is used extensively for suspension components, including forged-aluminum lower arms and the steering knuckle, as well as the subframe and the steering rack.

EQUIPPED WITH THE BEST IDEAS. ORIGINAL BMW ACCESSORIES.

BMW Roof Box 460, and 18-inch Star Spoke (Style 199) light alloy wheels.

Driving a BMW is always a special experience – and it can be further enhanced with Original BMW Accessories. Benefit from innovative solutions that combine striking design and inspired functionality. BMW Accessories are available in many categories: exterior, interior, mobile communications, transportation and storage. Each is designed and manufactured to meet the same demanding quality standards as your BMW.

To find out more about these and other accessories, contact your preferred authorized BMW center. There you will find a wide selection of quality items, as well as a special brochure detailing the entire range of Original BMW Accessories to fit your 3 Series Sports Wagon. Or visit our website at shopbmwusa.com to view the full selection.

Lockable bicycle holder for trailer tow hitch transports up to three bicycles.

Snap-in Adapter enables hands-free phone calls and charges the phone.

Stainless-steel pedal pads, illuminated door sills and tailored floor mats add elegant accents.

CRAFT YOUR OWN BMW – AT BMWUSA.COM/BYO.

At BMW, we want you to create your own Ultimate Driving Machine®. That's why BMW offers one of the widest model ranges of any luxury automotive manufacturer. And each BMW model offers its own universe of personalizing possibilities.

It's easy to get the latest information on your favorite BMW model. Simply visit bmwusa.com and click on the BMW model of your choice. Select "**Features & Specs**" to see all the standard features and available options and packages, as well as technical specifications.

Then create the exact BMW model that fulfills your needs by clicking on "**Build Your Own**" – or just visit bmwusa.com/byo. Here you'll be able to select from among the many interior and exterior colors and trims, personalizing options and value-added packages. Build a BMW model that reflects your style, then view it in 360° detail. At the press of a button, see payment and financing options, get a same-day quote, download a product brochure and even schedule a test drive. BMW makes it easier than ever to make your ultimate driving dreams come true, at bmwusa.com.

We believe that a premium ownership experience should feature performance and luxury, as well as safety and convenience. We believe you should be able to drive a BMW to its potential, while enjoying peace of mind and reduced cost of ownership. That's the idea behind **BMW Ultimate Service**¹, a suite of comprehensive programs and services that are included in every new BMW vehicle.

GOING BEYOND ENGINEERING: THE HIGH-PERFORMANCE BMW OWNERSHIP EXPERIENCE.

BMW Maintenance Program is one of the most comprehensive maintenance programs in its class. We cover all factory-recommended maintenance during the New Vehicle/SAV Limited Warranty coverage period. This includes scheduled oil service and inspections. Also covered is the replacement of items that are subject to normal wear and tear, such as brake pads, wiper blade inserts and engine drive belts. And, thanks to BMW's advanced engineering, most owners enjoy a well-balanced maintenance schedule with flexible routine service intervals that can save you time. When your vehicle requires attention, your authorized BMW center ensures that it receives only genuine BMW parts – your assurance of exacting quality standards.

For more details on BMW Ultimate Service and the BMW Maintenance Program, visit your authorized BMW center or log on to bmwusa.com/ultimateservice.

BMW Assist Safety Plan² is a four-year program that lets you enjoy peace of mind knowing that a friendly response specialist is there to help you, 24/7, at just the push of a button. The Safety Plan includes Automatic Collision Notification, Emergency Request, Enhanced Roadside Assistance, Door Unlock, Stolen Vehicle Recovery and Customer Relations. Included in the BMW Assist Safety Plan, MyInfo allows you to send push messages and street addresses with the associated text numbers from the Google Maps™ website directly to you. BMW's destination can be sent to your navigation system for turn-by-turn directions. With the BMW Navigation system and your mobile phone linked to your BMW via Bluetooth[®] technology, BMW's Mobile Office feature³ transfers text messages and emails to your iDrive Display screen and reads them aloud to you. A Calendar and To-do List can also appear on your Display screen while en route. Running late? Click on the phone number in the Calendar to call your appointment. For a list of tested mobile phones, visit bmwusa.com/bluetooth.

BMW Ultimate Service starts with the **New Vehicle/SAV Limited Warranty**,¹ providing you with coverage for the first four years or 50,000 miles, whichever comes first. Additionally, you have 12-year, unlimited-mileage warranty protection against corrosion and rust perforation.⁴ The **BMW Maintenance Program** and **BMW Roadside Assistance** also come standard, with **BMW Assist**² offered as an option.

For the ultimate in coverage, add the optional **BMW Assist Convenience Plan**.⁵

You'll enjoy unlimited access to personalized Directions, Traffic and Weather reports, as well as our Concierge feature, which can send a destination address and phone number, such as a restaurant or hotel, right to your BMW. You can make up to four operator-assisted calls per year with Critical Calling if your cell phone is not available, or if the battery is discharged. BMW Online allows access to up-to-date fuel prices and the latest weather forecasts, as well as Bloomberg's stock indices and the powerful reach of the Google Maps database – delivered to the iDrive Display right inside your vehicle.

BMW's unique **TelService**, included in the BMW Assist Safety Plan, continually monitors specific parts that are subject to wear and tear – including the engine oil, micro-filter, spark plugs, brake linings and various fluids – as well as services that require attention at regular intervals, such as vehicle service inspections. This data is automatically transmitted to your authorized BMW center, which will then call you

to schedule a service appointment. You don't have to keep track of when your vehicle requires routine maintenance. An added benefit: any needed maintenance service parts will already be on hand, so your BMW is serviced and returned to you as quickly as possible. And because they use only Original BMW Parts, you can rely on expert fit and long-lasting BMW quality. For more details on TelService, visit bmwassist.com.

BMW Roadside Assistance is provided free of charge for the first four years – with no mileage limit. Call **1-800-532-4BMW (4269)** for friendly on-the-road help, 24/7, anywhere in the United States, Canada and Puerto Rico. This includes everything from flat-tire changes, emergency gasoline and lock-out service, to towing, alternative transportation and even trip-interruption benefits. This service also provides valuable trip-routing advice.

THE MOST EXCITING PLACE IN AMERICA TO DRIVE A BMW.

The BMW Performance Center in Spartanburg, SC.

Just beyond the foothills of the Carolinas' Blue Ridge Mountains lies the \$12 million BMW Performance Center. This sprawling, modern complex houses the world-famous BMW Performance Driving School, as well as the Zentrum Museum, BMW Boutique, BMW Delivery Center, and a Corporate Conference Center. Nearby is BMW's only manufacturing facility in the U.S., where models, such as the SAV⁶, are built for export worldwide. It's a unique place where BMW enthusiasts can spend days – or, in the surrounding area, an entire vacation.

BMW Virtual Center. If you get the sudden urge to shop for a BMW but your authorized BMW center is closed, there's good news – the BMW Virtual Center is open 24 hours a day! Log on to bmwusa.com/bvc and choose the model that interests you. Configure the BMW of your dreams, and see what the monthly payments would be. You can even send the specifications to your authorized BMW center, apply for financing or request a test drive – all online!

BMW Financial Services. Arranging to buy or lease a BMW is easier than you may think. Your authorized BMW center offers leasing and financing to suit your personal needs through BMW Financial Services⁷. Start the process at our website, where you can build your "dream vehicle," get an estimate on a monthly lease or financing payment, submit a credit application to BMW Financial Services and get approval – all online!⁸ To find out how BMW Financial Services can help you behind the wheel of your robotic BMW model, log on to bmwusa.com/le or call toll-free, **1-800-532-4BMW**.

BMW Magazine. A fascinating view of the latest events and products in the world of BMW, including travel reviews, personally profiles and the latest BMW technologies. Sent to new owners and lessees several times a year, you can also read articles from **BMW Magazine** on the BMW website at bmwusa.com under the "Media Gallery & Library" heading. "Media Gallery & Library" heading found in the "Experience" section.

BMW Welt: The BMW Welt ("BMW World") delivery and brand-experience center in Munich is bold proof of BMW's passion for design. When you take advantage of the BMW European Delivery Program⁹, this is where you will meet your new BMW – in a personalized process that is highly dramatic and totally unforgettable. You might also realize substantial savings that just may pay for your trip! While you're here, marvel at the historic BMWs in the Museum, learn about our engineers' newest innovations in the technology and Design Atelier and take a tour of the plant to experience firsthand the state-of-the-art methods used to create a BMW. Then comes the unique experience of driving your new BMW on the roads it was designed for. To learn more, visit bmwusa.com/europeradelivery.

¹ See your authorized BMW center for details on these limited warranties.
² The BMW Maintenance Program covers factory-recommended maintenance services as determined by the Service Interval Indicator for all new eligible MY 2004 and later BMW vehicles. Specific additional items that need replacement due to normal wear and tear are also covered. The maintenance coverage period is for the first 4 years or 50,000 miles, whichever comes first. Exclusions from coverage include gasoline, gasoline additives, windshield wiper fluid and additives, battery, tires, wheels, wheel alignment and tire balancing. All work must be performed by an authorized BMW center. See the Service and Warranty Information booklet for specific terms, conditions and limitations. Further information can also be obtained from your authorized BMW center.
³ BMW's Mobile Office feature is available on BMW vehicles equipped with the BMW Mobile Office. The Mobile Office feature is a software-based system that allows you to use your mobile phone to access BMW's Mobile Office. BMW Performance Center Delivery.

You'll always remember the fun of taking delivery of your new BMW – with BMW Performance Center Delivery. After enjoying dinner and an overnight stay at a first-class hotel, we'll take you and your companion to the BMW Performance Center where a Product Specialist will give you an in-depth introduction to your new BMW. Then at the BMW Performance Driving School, you'll get tips from a professional driving instructor as you explore the dynamic capabilities of a similar model. It's exciting, it's enlightening – and it's all compliments of BMW with your new vehicle.

To learn more about the BMW Performance Center, call 888-345-4269 or visit bmwusa.com/performancecenter.

Driving Machine®

BMW and the environment.

BMW is a strong proponent of the environment and social responsibility. We launched BMW EfficientDynamics back in 2000 – the philosophy of providing greater power with increased efficiency and fewer emissions. This has resulted in significant benefits today – for our customers, the climate and the environment.

That year, ecological sustainability was also declared one of BMW's core strategic principles; it is now firmly anchored in our entire production chain. It starts with the development of fuel-saving and alternative vehicle concepts, continues with environmentally friendly production processes, and ends with innovative recycling methods. This effort has been recognized worldwide; in 1999, BMW AG – the parent company of BMW of North America and BMW Manufacturing Co. in Spartanburg, SC – was the first automotive company to be represented on the Dow Jones Sustainability Group Index. It has remained on the Index ever since; moreover, since 2005, BMW has been voted the world's most sustainable automobile manufacturer. At BMW, we strive for and achieve high performance in all we do.
