2013 Jetta SportWagen
For name’s sake.

If you think about it, the Jetta SportWagen tells you everything you need to know right in its name. We call it Jetta because it has the same comfort, style, and handling of its sedan counterpart. It earns the sport from its sleek styling, nimble handling, and enduring performance. And with up to 66.9 cubic feet of ultra-practical, stuff-hauling space in the back, it’s a wagon in the truest sense of the word. Europe loves our wagon for its smart, family-friendly style. Turns out, America does too. Eleven years and counting. That’s the Power of German Engineering.

For name’s sake.
Let’s be honest. The beauty of having a wagon is the fact that it holds so much. It makes having a family, or a hobby, or a snowboarding obsession extremely easy. With the rear seats down, you have 66.9 cubic feet of storage to play with. So you can buy the screen printer, paint, and canvases you’ve been coveting and follow your art passion anytime you want. Or you can choose from thousands of other hobbies and obsessions. The wagon is your oyster. So to speak.

The rear seats of the Jetta SportWagen fold down in what we call a 60/40 split. So you can fold just one seat down for a little extra space, or both seats down for a whopping 66.9 cubic feet of storage. We conquer you, big-screen TV. It’s way bigger than a breadbox. Which is how it swallows double-wide strollers whole. Entire palettes of flowers, bags of dirt, a shovel, and a hose slide in back in a snap. A couple of rambunctious dogs? They’ve even got space to stretch out.

Want to put a couple of bikes on the roof? How about a kayak? Thanks to the available roof rack accessories, you aren’t limited by just what you can fit inside your Jetta SportWagen. As if that actually felt limiting.

66.9 cubic feet
The wagon for grown-ups.

Back in the day, your little red wagon was simple in its construction and purpose. Put stuff inside and pull. These days, you like a little more sophistication with your wagon, but just enough to make the trip worthwhile. Which is why the Jetta SportWagen gives you a few decisions to make. Like the available touchscreen sound or navigation systems. Choose from having loads of music at your fingertips or music and directions. Then choose whether or not you’d like to have your new wagon in red. You know, for nostalgia’s sake.

Features

- Touchscreen navigation system*
- Touchscreen sound system with HD Radio™*
- AUX-in for portable audio players
- SiriusXM Satellite Radio with 3-month trial subscription*
- Bluetooth® with audio streaming**
- MDI with iPod® cable*  

*Feature available on select models.  
**Requires compatible device.
As adults, we really do need space. Space to put things. Space to relax. Space to do what we want. It’s easy to make room for a Jetta SportWagen in your life because it comes with so much of the space you crave and the stuff you need. Like heated front seats and adjustable lumbar support. Not to mention an available touchscreen sound system and a huge panoramic sunroof. So if you need some “me time” with good music and a view of the starry night above, take all the time and space you need.

**Features**
- Front seats with adjustable lumbar support
- V-Tex leatherette seating surfaces*
- 1-touch automatic window controls
- Heated front seats
- 12.7-square-foot panoramic sunroof*

*Feature available on select models.
At a filling station way, way back there, you filled up your Jetta SportWagen TDI* with clean diesel. That could have been as many as 609 miles ago,* in fact. And as your vehicle sipped fuel at the wallet-friendly rate of 42 highway mpg,* you were busy seeing the sights, or running errands, or picking up the kids, or doing whatever else you wanted to do with your freedom.

The same is true of the 2.5L in-line 5-cylinder engine. It also gets exceptional gas mileage while delivering the punch you need when you step on the gas.* For a little extra thrill, shift it into the available Sport mode, or push it over into Tiptronic® and put the power of shifting gears back into your hands.

---

Safety

ABS and HBA. The Anti-lock Braking System (ABS) helps keep the brakes from locking up during sudden stops and helps you retain control over the steering during emergency braking. Hydraulic Brake Assist (HBA) works with ABS to help you get maximum power from the brake system.

Surrounded by safety. In addition to airbags*, every Jetta SportWagen has a specially reinforced safety cage complete with anti-intrusion side beams and heat-formed B-pillars, designed to help protect you in the event of a collision. Surrounding that are crumple zones that provide space and material to help cushion and absorb the impact while the safety cage insulates you.

Intelligent Crash Response System (ICRS). After the airbags* have deployed in a collision, the ICRS automatically unlocks all doors, disables the fuel pump, and turns on the hazard lights.** That’s why we call it intelligent.

Electronic Stability Control (ESC). ESC helps prevent oversteer or understeer during an evasive maneuver by applying corrective forces to each of the wheels. In other words, it helps you maintain control when you need it most.

Lower Anchors and Tethers for CHildren (LATCH). LATCH allows you to secure child seats to your Jetta SportWagen using specific built-in anchors that connect the seat to the safety cage. When the child seat is installed and used correctly, this helps maximize the safety of the seats.

You know that German engineering you admire under the hood? It’s actually throughout the entire car. There are more than a dozen safety features specifically designed to help you prevent a collision. And even more to help protect you in the event of one. So no matter what happens, we’ll do our best to help keep you safe.

2012 IIHS Top Safety Pick. The Jetta SportWagen is one of the Insurance Institute for Highway Safety’s Top Safety Picks.† Actually, it’s one of nine 2012 Volkswagen models to get their top award. That means all nine cars scored the highest rating in all four qualifying tests.

36 instances of superior safety.
TDI shown in Platinum Gray Metallic.

No-charge scheduled Carefree Maintenance.*

Changing your oil, rotating your tires, topping off the windshield wiper fluid—do you remember to do all that stuff? Your car does. Right there in your instrument panel. Both it and your dealer will let you know when it’s time to schedule your appointment. And for three years, or 36,000 miles, we’ve got you covered. That’s why we call it carefree. Come by for a courtesy vehicle check within the first 90 days, or 6,000 miles, and ask us any questions you have while we give your Jetta SportWagen a basic checkup. Then, come by every year, or 10,000 miles, for your remaining scheduled maintenance checks. It’s that simple.

*The Volkswagen Carefree Maintenance Program covers the vehicle’s scheduled maintenance for three years or 36,000 miles, whichever comes first. Coverage during the term of the new vehicle limited warranty at no additional charge. Some limitations apply. See dealer or vehicle maintenance program booklet for details.
