A Jetta for everyone.

Back in the late ’70s, America met a new Volkswagen. It answered the call for an affordable sedan while remaining distinctly German. Bigger than a Beetle and different than a Golf, a new star was born. To say that the Jetta is popular is an understatement. It has not only become the best-selling VW in America; it’s also the best-selling German-engineered car in America.* Millions of cars and six Jetta generations later, there are even more Jetta models to choose from than ever. Because when America calls, Volkswagen listens. That’s the Power of German Engineering.

Choices

It’s more accurate to call it an embarrassment of riches, really. Five Jetta models, each with something special to offer on top of all of their inherent Jetta style. Exceptional value? Check. Outstanding fuel efficiency? Check. Remarkable performance? Check. Incomparable fun? Check. And the beauty of it is that you can get all of these features, and more, in a Jetta.

The price is surprisingly affordable for a sedan this admirable. Perhaps that’s why it’s the most popular Volkswagen model in the U.S.

With 201 hp, this Jetta boasts a little more get-up-and-go for the next time you get-up and go. Which is probably why you see so many of them on the road.

A 200-hp turbocharged engine puts a little more oomph in your Jetta. Did you want the heart of a GTI wrapped in the body of a Jetta? You got it.

You’re going places. And when your Jetta gets up to 699 miles per tank, you can really go far. Like get the heck out of Dodge far.

Introducing the turbocharged hybrid that’s also a Jetta. Or the first Jetta that’s also a turbocharged hybrid. Depending on your perspective.
The sedan people love to love.

It’s simple, really. You need a car. It makes life so much easier and more pleasurable to have your own transportation. What you want, well, that’s another story. A gorgeously sculpted sedan with daring angles and smoothed curves can sure be nice. Some real power when you step on the gas, that’s a must. The thing is, all those German cars you’ve coveted for years were always just a tad out of reach. Until now.
More adventurous.

The very thought that the Jetta TDI can drive up to 609 miles on one tank is impressive all by itself.** But the fact that it’s exceptionally fun to drive with its 236 lb-ft of torque and turbocharged clean diesel engine is worth getting home about. Which is something you can do when you take it on long drives to faraway places. Like from Los Angeles to Napa Valley in time to hit the wineries when you get there. Or from Maryland to Maine, sampling every crab cake and lobster roll along the way. The fact that it’s 90% cleaner than previous diesel engines might encourage you to get up and go more often than you expect, however. Your Jetta encourages spontaneity.

Jetta TDI Clean Diesel
How Volkswagen does hybrid.

Sure, there are other hybrids out there. If you drive already, you can usually find them. But with its turbo engine, this one is anything but slow. And if you climb behind the wheel, you’ll experience how good it feels to drive one. Which is definitely a bonus when you’re going to work, or driving around town running errands, or any of the other daily scenarios you find yourself in. That’s where hybrid trumps: when stop-and-go meets get-up-and-go. Of course, it’s also great on the highway. We could have made it look and feel like the other hybrids on the road. But then it wouldn’t be a Volkswagen.

Angel, meet devil.

Sometimes, don’t you want to drive fast? Like zip around corners and blast down a straightaway, leaving a little rubber in your wake? This kind of behavior is usually frowned upon in grocery store parking lots, but that’s okay, your Jetta is built for both. We fitted a zesty, high-performance engine under the hood and wrapped it with the 4-door Jetta design, plus a few parts that make it uniquely Jetta GLI. So you can still accomplish all those life things you need to do, while living all those fun things you’re meant to do.

- 200-hp turbocharged engine with 207 lb-ft of torque
- 6-speed manual or 6-speed DSG automatic transmission
- 4-corner independent sport suspension
- Speed-sensitive electro-mechanical steering

- Red brake calipers
- 18-inch alloy wheels
- Leather-wrapped, multi-function sport steering wheel
- Fender® Premium Audio System

We thought of that.

The trick to making a car comfortable is making it feel intuitive. When you reach down to adjust your seat, there's available lumbar support. When you're cold, there are available heated front seats. When you want to feel the sun, there's an available power-folding glass roof. When you want to see the stars, it's a moonroof. And when you want to pick up some friends and go, you can. In fact, you may even discover things to do in your Jetta that we didn't realize. We thought of that too.

Features

- Most rear legroom in its class
- V-Tex leatherette seating surfaces
- Heated front seats
- Power-folding glass roof
- Driver and front passenger seats with adjustable lumbar support
- Touch automatic window controls

*Based on model-year-2010 competitive compact car. **Passenger side on some models.
Sure, no problem.

You’re offered to drive to dinner on Saturday and now there’s a fifth person coming along. Will that work? Should you buy that enormous box of diapers at the big-box store? Will it fit neat to the giant stroller in the trunk? What about that trip to the mountains coming up—will the snowboards fit in there too? You have enough to worry about. Let the Jetta take care of all this for you.

Features

- 10.5 cubic feet of trunk space
- 60/40 split-folding rear seats
- Rear-seat-through with integrated cupholders®
- Center console armrest with storage compartment®
Ground control. This is your cockpit. You are the captain. Depending on your model, you can press a few buttons and it will start the car, guide you anywhere the roads go, and allow you to answer and make calls. Press a few more and it will play almost any kind of music you like, from your collection on your iPod® or the one streaming to you from a satellite up in space. About the only thing it can’t do is drive itself. But that would take the pleasure of driving away from you, and that hardly seems fair.

Features

- Fender Premium Audio System™
- Bluetooth® with audio streaming™
- Keyless access with push-button start™
- Touchscreen navigation™

- SiriusXM Satellite Radio with 3-month trial subscription™
- AUX-in for portable audio players
- Media Device Interface (MDI) with iPod cable™
- Touchscreen sound system™

*Requires compatible device. **Feature available on select models. †See back cover for important information on this feature.
Changing your oil, rotating your tires, topping off your windshield washer fluid—do you remember to do all that stuff? Your car does. Right there in your instrument panel. Both it and your dealer will let you know when it’s time to schedule your appointment. And for three years, or 36,000 miles, we’ve got you covered. That’s why we call it Carefree. Come by for a courtesy vehicle check within the first 90 days, or 6,000 miles, and ask us any questions you have while we give your Jetta a basic checkup. Then, come by every year, or 10,000 miles, for your remaining scheduled maintenance checks. It’s that simple.
