It’s Audi because we’re driven by human achievement.

More than just cars, more than just performance. Audi is about the nature of perception, determining how people will respond to and interact with innovative design. It’s about applied physics, how things glide through the air and overcome inertia through the application of power, acceleration and exhilaration. It’s about artistry, and the way materials elicit a tactile response and provoke an emotional response. It’s chemistry and how it bonds with you. It’s poetry written in metal, engineering and design. Audi is the product of learning and application of knowledge. At its best, it is a dynamic example of what humans can create when they are vested in creating something better and bolder. So Audi is not just about cars. But then again, of course, it’s also about cars.
Excessive luxury is not our goal. But we feel that luxury doesn’t mean “more,” it means “proper.” Proper design, proper fit, proper precision—what Audi thinks of as design purity. Our engineers and designers know that a baroque clock won’t tell time any better than a streamlined one, and all the distractions that surround it actually detract from the purpose of the clock itself. Unless, of course, the purpose is just to be noticed, instead of used to its greatest potential. We think the real purpose of design is simplicity, elegantly rendered. We think you’ll see and feel that concept throughout our Audi models. In the clean design lines of the exterior, the streamlined dash, and Audi MMI® interface. In our intuitive available Audi connect®—the seamless fit and finish of our materials and the unmistakable look of our Audi Singleframe® grille. They all work in concert for a pure aesthetic of timeless taste and precision.

It’s Audi because luxury tells the ornate, the garish, the gilded and the over-indulgent…

...time’s up.
It’s said that when one door closes, another one opens. It sounds as if whoever said it spent some time at an Audi research and development facility. After all, while you’ll open and close the door on your Audi thousands of times without thinking about it, we’ve obsessed about it for you, in detail. Not just about the reliability of it opening and closing, obviously, but on the proper weight that will make it more pleasing to close. What it should sound like when it is shut. How the locks should click when they are engaged. The optimal acoustic placement for the speaker port. There are the hinges too, of course. And the door itself, which is designed to take the brunt of side-collision impacts, along with several dozen other considerations that we take into account when designing our doors (to say nothing of the countless other components, processors, sensors, features and the inner workings most people will never see). Our doors are more than a symbol of welcoming you into your vehicle, they are products of Audi engineering, and our reputation hinges on them as much as our hinges help support the door.

It’s Audi because our reputation hinges on the quality of things you don’t see.

Asymmetric torque split

Sport differential

Torque vectoring

You’ll find truth in your corner. Torque vectoring is a handling feature so advanced that it seems to respond to your impulses even before you turn the steering wheel. An evolution of cross-axle lock, this system works within the Audi quattro® all-wheel drive system while utilizing Electronic Stability Control (ESC) and the Anti-lock Braking System (ABS) to help sense reduced load or wheel-slip on the inside cornering tire, helping to make turns smoother and more responsive.

As you can see, we’ve always felt that the best ideas are the ones that stick. And nowhere is that more true than with Audi quattro® all-wheel drive. Since 1980, we’ve been stuck on articulating an expanding vision of what progressive all-wheel drive technology can deliver. We didn’t simply look at it as something to use in poor conditions, but rather as a performance technology that’s built to handle roads from the Alps to the autobahn—and points beyond. You’ve seen quattro® capabilities in the way we dominated the World Rally Championship for years, in the grip you have in inclement weather, and in the variable rear-wheel-biased power you enjoy in good conditions. For more than 30 years and with five million quattro® systems installed in Audi vehicles, we have continued to refine the technology, developing a rear sport differential to help maximize performance, and torque vectoring to assist with cornering traction while helping to improve handling. We boldly stuck to what worked while the world was trying to catch up, and we built on our vision by adding to a gripping heritage of Audi Sport® performance.
It’s perfectly fine for us to admit that other engines have more cylinders, have more horsepower and have larger displacements. It’s just that we’ve made our engines lighter and more efficient than others, to optimize what we call power density. Because anyone who has driven an Audi knows unmistakable power when they feel it. It means strength that pulses with torque at the moment of acceleration, provides a true, quick response as you change lanes, and turns the most routine cloverleaf into a joyful application of performance handling. Sure, we love hitting the throttle and feeling the thrust of acceleration, but we also want our drivers to experience the balance and precision of Audi engineering. From the A3 to our track-bred line of Audi performance cars, we are in the business of engineering emotion using more compact engines that concentrate power, while using less weight to your advantage, helping improve handling to the point where others just feel heavy.

**TDI®**

A turbocharged, fuel-sipping variant, our TDI® clean diesel engine delivers uncompromising Audi performance with bold efficiency. Yes, it gets better mileage per gallon than comparable gasoline engines, but it also produces more low-end torque, which is best expressed in the elasticity you have when passing in the 30- to 60-mph range.

**FSI®**

The Audi FSI direct injection fuel management and delivery system directly injects fuel into the combustion chambers at precisely managed times and depths. What that means for drivers is that a fully homogenized intake charge helps increase power while also reducing fuel consumption and emissions, making efficiency more powerful.

**TFSI®**

At Audi, TFSI represents a combination of two of the brand’s core areas of expertise—direct injection and forced induction. By adding forced induction (turbocharging or supercharging) to Audi FSI direct injection, the pressurized intake charge is cooled by directly injected fuel, thus achieving efficiency and performance combined with higher compression ratios—previously only attainable by naturally aspirated engines.

It’s Audi because power is measured by strength, not size.

It’s perfectly fine for us to admit that other engines have more cylinders, have more horsepower and have larger displacements. It’s just that we’ve made our engines lighter and more efficient than others, to optimize what we call power density. Because anyone who has driven an Audi knows unmistakable power when they feel it. It means strength that pulses with torque at the moment of acceleration, provides a true, quick response as you change lanes, and turns the most routine cloverleaf into a joyful application of performance handling. 2. Obey all speed and traffic laws.

Ants can carry up to 50 times their body weight. That got us thinking about lightweight structures, smart engineering and true performance.
It’s Audi because spicy chicken is your destiny.

If you are craving an Audi, we know your tastes run a little bold. But what happens when you crave spicy chicken, or a nice vindaloo, or some pepper salsa? Well, in your Audi, you can just say the word, and we’ll help find the heat. With available Audi connect®, we’ve developed a way to seek out your destiny, even if that’s just finding the closest gas station, or the best hotel. Audi connect integrates Google™ technologies, like Google Earth™ with 3D satellite imagery, with Audi MMI® Navigation plus. It also provides Wi-Fi® connectivity for up to eight passenger devices to help you stay informed.

Plan travel from your personal computer. Send your desired destinations to your vehicle ahead of time and access your route from your vehicle later.

Simply tell your Audi what you are in the mood for, then let the cloud-processing power of Google™ speech recognition interpret your request and bring up a list of destinations in the area of your choice.

Mobile Wi-Fi® hotspot provides high-speed connectivity for up to eight passenger devices through an onboard wireless hub. Check local fuel prices, weather information and, yes, the closest Szechuan restaurant using Google™ Local Search capabilities. Think of where that might take you.

City events
Get information about current events, exciting locations and places of interest at your travel destination, current location or other chosen location instantly.

Google Earth™ with 3D satellite imagery
With Google Earth™ integration, you’ll enjoy 3D satellite imagery, including Google Maps Street View, displayed right on the Audi MMI display.

1. Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi hotspot feature is intended for passenger use only.

2. Audi MMI® Navigation plus depends on signals from the worldwide Global Positioning Satellite network. The vehicle’s electrical system and existing wireless and satellite technologies must be available and operating properly for the system to function.

3. Optional features. Features and technologies listed will not be available on all models.
It seems strange to say that, while we build strong, complex and high-performing machines, we’re naturalists at heart. Then again, it might not be that unusual, seeing how nature itself builds strong, complex and high-performing machines as well. When we developed the thinking behind our Audi ultra® lightweight technology initiative, we knew that nature would serve as an inspiration to greater structural efficiency. Take the structure of the elephant skull pictured here. It has to be lightweight, yet capable of carrying a heavy load. It’s porous, but its structure is such that it enhances its stability and strength. We do the same, for example, with aluminum. Positioned one way, aluminum materials can be flexible. Positioned another, they are strong and rigid, and give better support. We also looked to bamboo, which is strong at the conjoined areas (nodes), and flexible along its stem. Our designs allow for both rigidity and flexibility where each is most needed, and for efficiency overall.2 As we continue to develop strategies to improve the performance aspects and efficiency of our vehicles, we don’t shy away from the world around us. We boldly engage it even closer still. It’s Audi because the elegant structure of nature becomes a blueprint of efficiency. 

1 Features and technologies listed will not be available on all models. 2 See www.fueleconomy.gov for EPA estimates. Your mileage will vary.
It’s Audi because you I.D. our eye queue.

Even if you knew nothing about Audi, you’d still know if you were staring at one because we are unafraid to stare back. In fact, that exchange might just be love at first sight. That’s how much our iconic LED lighting technology stands out from the pack. So we had the bright idea to make our LED daytime running lights look even more intense. Now featuring a solid, sleek diode design that ingeniously reinvents our signature style, Audi LED lighting technology is once again unmistakably ours. It is an efficient, beautiful way to help you see and be seen during dawn and dusk. Look deeply into our eyes, and you’ll know the truth of our attraction.

1 Features listed are available on all models.
Get away from it all, every day, around 6 p.m., when you leave work and enter into a customized world that’s completely dedicated to your comfort and entertainment. This place, of course, is the cabin of your Audi. Optimized luxury, designed by committed craftsmen who have you in mind when they choose the leather seating surfaces, create the adjustable seats or provide the refinement of ergonomic design and a more intuitive MMI. There are small touches that help simplify the overall design, like a stylish contoured electromechanical parking brake at the foot of the center stack and an available Bang & Olufsen® retracting acoustic lens, perfectly positioned for richly detailed sound quality. And there are large statements, like a steering wheel with easily accessed controls to help you feel comfortably at ease. It is your Audi interior, where you leave the world behind, even when the world might seem in front of you on the way home.1

It’s Audi because optimized design makes your commute shine a little brighter.

1. Steering wheel. The Audi steering wheel is both an ergonomic command center and an elegant structure of performance. Easily accessed controls on the wheel give you control over your MMI® and Audi connect®, which is designed to give you effortless access to visual information on the driver information display.2
2. Audi connect and MMI. Simple voice or finger motions can help you access information, music and Bluetooth® enabled features.1
3. Electromechanical parking brake. Properly positioned in the center console, the parking brake control is another small, but telling, design cue for Audi. The parking brake control serves to enhance the overall ergonomic intent of the vehicle, while delivering easy access and simple functionality.1
4. Bang & Olufsen® Advanced Sound System. With retractable acoustic lenses and speakers positioned around the Audi specifically to optimize sound quality, Bang & Olufsen® engineers have worked tirelessly with Audi sound designers to create an immersive audio experience.1

1. Optional features. Features and technologies listed will not be available on all models. 2. Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Bluetooth® feature is intended for passenger use only.
With innovative pigments and dyes, the Thermocool technology Audi uses in select leather seating surfaces just might prevent that startling moment on hot sunny days. You know the one, when you sit down and feel, immediately, an intense, searing feeling on your leg. Now you can keep your cool. This supple leather doesn’t heat up as much in direct sunlight as traditional leather does. In fact, the difference between untreated leather and the temperature on your seat treated with Thermocool can be as much as 86°F. A perfect solution for your Audi A5 Cabriolet, TT Roadster or R8 Spyder, Thermocool technology is Audi to its core. Because it keeps its cool, you can keep yours.

It’s Audi because it’s as if we have SPF for seats.

Reduce as much as 86°F

Without Thermocool:

With Thermocool:

![Image of leather seating surfaces showing temperature difference.](image-url)
There’s a reason adventure is so appealing.

Take a moment to dive into the finer details of Audi. You’ll find a vehicle that defies conventional thinking every step of the way. From a healthy sense of adventure to a passion for the finer things in life, the Audi allroad® always stays one step ahead of its peers. It’s a stunning example of what legendary engineering, generous luxury and exceptional design can accomplish together.

The story of our collection of obsessions:

Precision. Design. Vision. These are the kind of attributes that we deliver as a company. They’re the kind of passions that go way past getting you from point A to point B. That’s because Audi knows that how you get to your destination is just part of the story. We have a collection of obsessions that make up our core identity. From a foundation of brilliant engineering, we craft more than great vehicles— we tell great stories.

There’s a reason adventure is so appealing.

Take a moment to dive into the finer details of Audi. You’ll find a vehicle that defies conventional thinking every step of the way. From a healthy sense of adventure to a passion for the finer things in life, the Audi allroad® always stays one step ahead of its peers. It’s a stunning example of what legendary engineering, generous luxury and exceptional design can accomplish together.
Shedding a new light on illumination just happened to be a design boon.

In season, no matter the month.

There’s something to be said for acting on an impulse. When the itch for adventure hits, you don’t waste any time—you just pack up your Audi allroad® and go. Of course, with so many recreational opportunities afforded by the allroad, it doesn’t take an advanced degree in mathematics to figure out that acting on every impulse could mean a very busy schedule. Luckily for you, you’ll have the benefit of an increased ride height, widened track, surefooted Audi quattro® all-wheel drive, and a potent yet efficient 2.0-liter Audi engine at your beck and call! All while the stylish and iconic available LED daytime running light technology provides your allroad with an unmistakable look. And just because you may plan on roughing it when you reach your destination doesn’t mean you and your passengers can’t indulge in a little opulence on the way. Whatever activity the calendar calls for, you can count on the Audi allroad to be ripe with readiness.1

1 EPA estimates not available at time of printing. See www.fueleconomy.gov for updated information. Your mileage will vary.2 When driving during cold, rainy, snowy or icy weather conditions, ensure that your vehicle is equipped with appropriate all-season or winter tires. Even with appropriate tires, you must always drive in a manner appropriate for the weather, visibility and road conditions.
American Warehouse

Electronic Stability Control with Off-road mode
Detecting loss of traction almost immediately, ESC helps you stay pointed in your intended direction by automatically adjusting the throttle and brakes. And when activated, the Off-road mode can sense changes in terrain, and vary ESC assistance to help optimize control.

True beauty takes its own path.
It may be its muscular silhouette that first captures your imagination, or maybe it’s the way its increased ride height tells a story of adventure off the beaten path. Whatever it is, you know it didn’t arrive here by following others. That’s why it’s possible to stare at the Audi allroad® for hours and still not pinpoint its most alluring feature. So let us offer some insight. Something we call the Tornado line draws your eye along a flowing path from front to rear. This line, combined with the flared fenders and robust aluminum roof rails, adds to its magnetic appeal. And while it may be difficult to pin down, its beauty is a product of blazing its own trail.
Craftsmanship
We’ve ensured that every stitch represents the detail that we put into every aspect of an Audi.

All cars go should be properly secured before driving the vehicle. See your owner’s manual for details.

**Cavernous Interior**
With the convenience of an available power tailgate, up to 50.5 cu ft of cargo capacity and split-folding 60/40 rear seatbacks, the question of bringing more luggage or more toys has been answered. Bring more of both.

**Blurring the lines between roughing it and pampering.**
Traditionally, one would never equate a trek into the wilderness to a relaxing day at the spa. Then came Audi allroad®, where you’ll be hard pressed to tell the difference between becoming one with nature and immersing oneself in exquisite luxury. Just imagine settling in on the supple, leather-appointed seating surfaces. From this comfortable position, you’ll notice how the simple, intuitive controls are all within an easy arm’s reach, and the available Fine Grain Ash Natural Brown Wood decorative inlays establish a serene, Zen-like atmosphere.
All-around confidence

Just like life, the road can throw you a curve. So throw one right back with the superior grip and control of quattro®. It helps provide the performance and confidence you would expect from Audi, no matter if you’re commuting in the city or crisscrossing the country. This is advanced engineering you can live with.

All-weather capability

There is a reason quattro® is considered such a friend in foul weather. Under normal driving conditions, the center differential splits torque at a ratio of 40:60 front to rear, but as conditions change and become more challenging, the ratio is optimized to help maximize grip. And with the ability to transfer the majority of available torque mechanically to the wheels with the most grip, the operation is exceptionally smooth, even under extreme conditions.

Torque vectoring

It’s a handling feature that seems to respond to your impulses before your steering input. An evolution of cross-axle locks, this system works within quattro®, while utilizing ESC and ABS to help sense traction loss from the inside cornering tire.
It’s not just a catchy name.

We don’t just make beautiful cars. We make them with purpose. And when you consider the ultimate purpose of the Audi allroad®, it should come as no surprise that it’s equipped with rugged features that even the most hardened adventurer can appreciate. But not every day will be spent exploring long-forgotten roads. That’s why these features are meant to be just as striking in an urban landscape as they are useful on an extended camping trip.

Underbody protection

Stainless steel underbody protection not only helps serve as a barrier between your allroad and errant rocks, but adds to its timeless, artistic beauty.

Roof rails

With the standard raised aluminum roof rails, the possibilities for multiple activities open up. Whether your trip calls for a ski carrier, a bike carrier or a luggage carrier, there’s an attachment for it.

Specialized tires

With an increase in tire sidewall height, the allroad has the perfect combination of useful ground clearance and impressive all-terrain capability.

Ride height

Obstacles to your journey can be overcome easily with the increased ride height. With more than seven inches of ground clearance, there’s simply nothing to help you get stuck and lose your way.

Exterior cladding

Just in case anyone was unsure about this vehicle’s capability, the allroad features robust exterior cladding, making its intentions clear. And with an available full-paint finish, its refinement is just as apparent.

1 All roof-rack system attachment accessories require the base carrier bars. All sold separately.
We don’t anticipate your response so much as provide it.

At Audi, we believe you should be the ultimate master of your road-going domain. That’s why we created the available Audi drive select system. It gives you the ability to adjust the vehicle’s steering, throttle response and transmission shift characteristics with the utmost of ease. And with four modes to choose from, no matter what kind of road comes into question, Audi drive select will let you answer.

1. Comfort mode
   - Perfect for less-than-perfect roads, this setting aids optimized steering and a closer shift pattern to help provide a more relaxed drive.

2. Dynamic mode
   - Tighter steering and a more responsive throttle give this setting an aggressive feel and focused performance.

3. Auto mode
   - The best of both worlds, dialed to automatically adjust settings for a seamless combination of comfort and responsiveness based on your driving style and road conditions.

4. Individual mode
   - Take the turn your way—this mode allows you to adjust the steering, throttle and transmission upshifts to your style.

Transmission
- From very responsive, quick gear changes to more gradual acceleration, the transmission is at the heart of Audi drive select.

Steering
- When you turn the steering wheel, you expect the vehicle to react accordingly. Audi drive select helps give you more input on how that will feel.

Throttle-mapping
- Depending on the mode of Audi drive select you choose, the throttle can be precisely responsive or a little less so.
Under pressure over efficiency.

There is an old school of thought in the automotive world that bigger is better. More horsepower, greater displacement—these were once the hallmark of the industry. Audi, on the other hand, progressed past an antiquated notion of engine design and adopted a system that refines the driving experience. By utilizing lightweight turbocharged engines, we solved two problems at the same time: greater efficiency and more power than was produced by previous engines. And since lighter vehicles breed better performance, the result is an exhilarating driving experience at every turn.

2.0 TFSI® four-cylinder

This 2.0-liter turbocharged DOHC engine produces 220 horsepower and 258 lb-ft of torque, and combines the valvelift system, Audi FSI® direct injection and turbocharging for great power and overall efficiency.

Induction-technology turbocharger

Compressing the airflow to the engine allows more air into the cylinder and, ultimately, more power from each combustion cycle, significantly improving the engine's power-to-displacement ratio.

Exhaust gas intake

Exhaust gas from the engine spins the turbine that is connected by a shaft to a compressor that pressurizes air. The compressor forces this pressurized air into the cylinders at boosted pressures up to 17.4 psi, thus producing more power from a smaller displacement engine.

Eight-speed Tiptronic® automatic transmission

As the perfect compromise between a dedicated manual and an automatic gearbox, the eight-speed Tiptronic® automatic transmission in the Audi allroad® offers eight optimized, carefully chosen gear ratios. Selected automatically or via console-mounted shifter or steering wheel with available shift paddles, precise shifts are delivered without sacrificing the smooth action the Tiptronic® automatic. A high final drive ratio allows optimization of lower gears, yet the transmission’s upper range emphasizes fuel economy—particularly at highway speeds.

Driving to the tune you choose.

The Audi allroad offers an eight-speed Tiptronic® automatic transmission that precisely transmits the power produced by the 2.0-liter TFSI® engine. With its wide gear ratios for smooth shifting, it doesn’t matter which gear you’re in, you can count on seamless power delivery. Available steering wheel-mounted shift paddles let you shift up or down with minimal effort, while giving you the control that performance drivers crave. A shift has been made in your favor. What you do with it is your choice.

Performance

The adage “good things come in small packages” has never been more true.

Audi adaptive cruise control

Everyone has their own comfort zone. The available Audi adaptive cruise control helps maintain a driver-selected distance between you and the vehicle ahead, and adjusts your speed appropriately to keep you moving smoothly. There are also the simple things, like parking system plus, which adds a rear view camera and rear acoustic parking sensors to help ease you into that spot. It’s another testament to the effort that Audi puts into helping ensure that you’re not the only one keeping an eye on the road.

Audi side assist

The available Audi side assist uses radar sensors and two different optical warnings to help keep the driver informed about what is approaching from hard-to-see angles behind and to the side of the vehicle.

We shed light on your blind spots.

Driver Assist

We’re solving problems before you even know you have them.
SiriusXM® Satellite Radio
Go ahead. Cross the country. We assure you, you’ll never run out of entertainment options, with over 130 channels of music, talk, sports and news.1

Audi MMI Navigation plus
Count on the available advanced navigation system to home in on your destination with stunning precision while putting a little more depth in your journey with help from Google Earth™.1

BLUETOOTH® wireless technology
Unlock your mobile phone’s potential through the MMI system. Simply pair them up and start enjoying near complete control at the touch of a button.3

Car consciousness.
We believe intelligence is key to a higher form of luxury. You can see this philosophy fully represented in the available Audi MMI® system. Simply put, it’s an intuitive system that intimately connects you to almost every facet of the vehicle. It’s the nerve center of your vehicle, allowing you to control virtually every interior function of your Audi with a simplified source control button system. From the Audi MMI Navigation plus, to the sound system, to media, MMI helps you access information with a few easy clicks. And even without it, you can pair your compatible phone with the vehicle for added convenience. With this kind of brainpower onboard, you can leave the little stuff to us, and just concentrate on how good it feels to drive.

1 See Infotainment /Technology section of the Featured Content page for important information regarding Audi MMI® Navigation plus and required SiriusXM® subscriptions.

2 Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only.

3 Requires compatible phone.

Audi media
The media function opens up a world of options when equipped with the Audi MMI Navigation plus, allowing you to control the Audi music interface, Secure Digital (SD) card slots, hard disk drive (HDD) audio jukebox or DVD, and BLUETOOTH® streaming audio.1

1 See Infotainment /Technology section of the Featured Content page for important information regarding Audi MMI® Navigation plus and required SiriusXM® subscriptions.

2 Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only.

3 Requires compatible phone.
If nothing else, you know your car is listening to you.

Don’t reach—relax. While touchscreens are seemingly everywhere, they don’t need to be in your vehicle. With available Audi connect®, you may never have to reach out again.1 Thanks to Google Voice™ Local Search, Audi connect allows you to search Google™ by simple voice commands. The crisp display is nestled farther up, closer to the windshield, so your eyes don’t have to focus and refocus between the screen and the road ahead of you. For those times when you are feeling tactile, we’ve placed toggle buttons near the gear shifter, where your hand naturally rests while you drive. So while other automobile manufacturers still want you to reach out, we’ve found a few ways for you to make information a lot more accessible while your hands are on the wheel.

**Point-of-interest search**

Get traffic information overlaid onto 3D satellite imagery to visualize a true aerial view of your route, and let the Audi Navigation plus system reconfigure your route to avoid traffic.2

**Travel info**

Get travel info for destinations near and far, including traffic, weather, parking information, and set your selection as your destination.3

**Weather information**

Current local conditions and forecasts for your destination can help you prepare for your trip.

**Local Search**

Search for parking in your area of interest, check space availability and set your selection as a destination to navigate directly to the garage entrance.

**Voice control**

If nothing else, you know your car is listening to you. Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The BLUETOOTH® Hands-Free Phone Preparation Kit is intended for passenger use only. 2 Use of Entertainment Technology services with the Factory-installed system is for information and navigation purposes only. 3 Additional fees may apply. 1 Always keep your eyes on the road and your hands on the steering wheel. 2 This system may not recognize all destinations, and let your vehicle lead the way as you explore the world around you. 3 This system may not recognize all destinations, and let your vehicle lead the way as you explore the world around you.
Optimized sound flows through strategically placed speakers around the cabin. Hear it, and you’ll instantly become engrossed in the tiniest detail and warmth of the sound.

14 speakers

When even a German lullaby is an ode to sound engineering.

It would be an interesting challenge, a note-perfect Brahms’ Lullaby delivered through the tuned speakers of an Audi concert radio system versus the exhalation of the passing lane. Either way, performance wins. But it goes way beyond the gentle tones of a German composer. Audi sound engineers don’t simply make the cabin acoustics sound perfect for your music, they make the drivetrain sing. Or, if not sing, then put it in harmony with every other element of the driving experience. From the sound of a shutting door, to the click of a turning knob, to the full integration of an available Bang & Olufsen® Sound System, there’s an orchestra of engineering that fills your cabin with faithfully rendered, thrilling sound. Whatever it is you are looking for, Audi sculpts sounds in a way that matches your mood, even when you need soothing while in traffic.

Bang & Olufsen® Sound System

Dedicated to the idea of “honest music reproduction,” Bang & Olufsen® is a sound engineer’s dream. Through an available 505-watt, 14-speaker system perfectly integrated within your Audi, Bang & Olufsen® is set on transcending the limits of audio technology. By automatically adjusting volume and timbre balance to changing ambient noise levels, and offering richly tuned acoustics, you’ll hear the truth about how good life can sound in your Audi.
A brilliant indication you are on the right trail.

Distinct and brilliant, available LED taillight technology will be the first indication to other outdoor enthusiasts that they are finally headed in the right direction. And, as if that were not enough to hurt their map-reading egos, the mesmerizing design of the Audi allroad® comes to an irresistible climax around two perfectly sculpted exhaust tips, invoking jealousy to go along with the steady stream of profanity issuing, perhaps, from those who are less directionally inclined. At least you’ll give them a lot to think about while they try to keep up with you.

LED taillight technology

Sleek and stylish, these rear light-emitting diodes are brighter and longer-lasting than conventional bulbs, and also illuminate faster than traditional brake lights, which can help give the driver behind you more time to respond.

> These are supplied and warranted by their manufacturer. High-performance tires are designed for optimum performance and handling in warm climates. They are not suitable for cold, snowy or icy weather conditions. If you drive under those circumstances, you should equip your vehicle with all-season or winter tires, which offer better traction under those conditions. Be mindful you can also recommend selecting standard wheels if your vehicle has been designed for optimum performance and handling. Tire performance and handling are enhanced by regular maintenance in using your vehicle in proper tire condition, which includes proper tire inflation pressure (keeping recommended tire pressure). Please also remember that the ride can differ depending on the choice of tires. It may provide a more comfortable ride than other choices. Finally, these tires may wear more quickly than other choices.

Decorative inlays options will vary based on model and interior color combination. See your dealer for details.
**Technical Specifications**

**Engineering | Performance**

- **Engine type**: Four-cylinder
- **Engine block/cylinder head**: Cast-iron/Aluminum-alloy
- **Displacement (cc)/Bore and stroke (mm)**: 1,984/82.5 x 92.8
- **Horsepower (@ rpm)**: 220 @ 4,450–6,000
- **Torque (lb-ft @ rpm)**: 258 @ 1,500–4,300
- **Compression ratio**: 9.6:1
- **Valvetrain**: 16-valve DOHC with valvelift system
- **Induction/Fuel injection**: Turbocharged/TFSI®
- **Acceleration (0–60 mph)**: 6.4 seconds
- **Top track speed**: 130 mph

**Transmission | Drivetrain**

- **Eight-speed Tiptronic® automatic transmission with Audi quattro® all-wheel drive**

**Body | Suspension | Chassis**

- **Fully galvanized steel unibody with aluminum hood and multistep anti-corrosion protection**
- **Front/side impact protection**: Inflateable knee airbags
- **Front/rear disc/solid brake**: 12.6/11.8

## Accessories

### Splash guards

Help protect the vehicle's finish with custom-fit splash guards. Made of tracks-resistant rubber. Available in sets of two for front or rear.

**Front-mount bike rack**

Mode of anodized aluminum, this rack features a quick-clamping device that can be secured with the included locks®.

**Ski and snowboard rack**

Extra carrying capacity (13 cu ft) comes in a smart size: 55" long, 23" wide, 14" high®.

**Premium fabric floor mats**

Three standard and six accessory mats are made of long-life fabric to help protect the vehicle’s interior from the elements. Mats are black with silver piping and available in a set of four.

**All-weather cargo mat**

Cuts off the audi® arrival®. Textured material helps control load shifting. Raised lip helps contain items and protect cargo area, targeting front claim.

**Small cargo carrier**

Elevates carrying capacity to 48 cu ft. Deluxe attachment (shown) uses aluminum bars hold securely. Standard attachment (shown) holds two sets of ski or two snowboards. Deluxe attachment holds up to three sets of ski or four snowboards®.

**Fork-mounted bike rack**

Fits bicycle, keeps locks open and close easily. Rubboured-cushioned aluminum holders hold securely. Standard attachment (shown) holds two sets of ski or two snowboards. Deluxe attachment holds up to three sets of ski or four snowboards®.

**All-season cargo rack**

Rearview camera—Standard availability®. On optional equipment®. On optional equipment®. This device that can be secured with the included locks®.

## Featured Content

### Audi Genuine Sport and Design Accessories

Audi offers a wide range of accessories that can enhance the look and feel of your Audi vehicle. From exterior enhancements like chrome door sills and windshield trim to interior enhancements such as leather seats and custom-fit floor mats, there’s something for every Audi enthusiast. Our accessories are designed to complement your vehicle’s style and performance, while also providing practical benefits. Whether you’re looking to add flair to the exterior or comfort to the interior, Audi Genuine Sport and Design Accessories have you covered.

### Audi Genuine Alloy Wheels

Audi Genuine Alloy Wheels are crafted from high-quality materials and feature a unique design that sets them apart from the rest. They’re available in a range of styles and finishes to match your vehicle’s aesthetic. These wheels are not only visually appealing, but they also offer superior performance and stability. They’re designed to withstand the rigors of everyday driving and provide a smooth, quiet ride. Audi Genuine Alloy Wheels are a great way to enhance the overall look and performance of your vehicle.

### Audi Connect®

Experience seamless connectivity with Audi Connect®. This advanced technology provides real-time traffic updates, hands-free calling, and remote vehicle control. With Audi Connect®, you can access a variety of services and applications directly from your vehicle, without the need for a smartphone. Whether you’re planning a route or checking the weather forecast, Audi Connect® has you covered.

### Audi Navigation Plus

Navigate with confidence using Audi Navigation Plus. This advanced system provides turn-by-turn directions, points of interest, and real-time traffic updates. With Audi Navigation Plus, you can easily find your way to your destination and arrive on time. The system is designed to be user-friendly and intuitive, making it easy to use even while driving.

### Audi Parking System Plus

Stay safe and secure with Audi Parking System Plus. This advanced parking assistance system uses ultrasonic sensors to detect objects in front, rear, and side. With Audi Parking System Plus, you can avoid collisions and park more easily, even in tight spaces.

### Audi Pre Sense System

Experience advanced safety features with Audi Pre Sense System. This system uses multiple sensors to detect potential collisions and automatically applies the brakes to help reduce impact severity. Audi Pre Sense System is available in select Audi models, providing an extra layer of protection to help keep you and your passengers safe on the road.

### Audi Virtual Cockpit

Immerse yourself in a cutting-edge display with Audi Virtual Cockpit. This advanced system provides real-time information about vehicle speed, fuel level, and navigation directions. With Audi Virtual Cockpit, you can stay informed without taking your eyes off the road.

### Audi Driver Assistance Systems

Enhance your driving experience with Audi Driver Assistance Systems. These advanced systems use multiple sensors to detect obstacles, pedestrian, and other road users. With Audi Driver Assistance Systems, you can maintain a safe following distance, avoid collisions, and stay alert on the road.

### Audi Intelligent Light System

Experience the perfect balance between style and function with Audi Intelligent Light System. This advanced lighting system adjusts the beam pattern of your headlights based on the road ahead, enabling you to see farther and more clearly. With Audi Intelligent Light System, you can enjoy a safer and more enjoyable driving experience.
