WHAT IF_

YOU WERE A WAKE UP CALL FOR THE STREETS?

You'd open a lot of eyes to a bigger, bolder world. Because the Rogue® gives you everything you want in a crossover – and more – while staying true to your own sense of style. So hop in, we're burning daylight and we've got a ways to go. The 2015 Nissan Rogue®.

Nissan Rogue® SL shown in Midnight Jade with optional equipment and accessory Splash Guards, External Ground Lighting and Roof Rail Crossbars.

Start a revolution with LED lights. Rogue® serves up a stylish first impression with its signature standard LED Daytime Running Lights. Available class-exclusive LED headlights flow into sculpted, muscular fenders to create an unmistakable presence.[1] Drive it, and you'll find it's also incredibly smart. Wind tunnel testing developed aerodynamic panels around the rear pillars that sweep the breeze away, and a low aerodynamic underbody – even the muffler gets its own spoiler. The revolutionary results: an impressively quiet ride and a best-in-class 33 MPG highway.[2]

Nissan Rogue® SL shown in Pearl White with optional equipment and accessory Splash Guards.

[1] *AutoPacific* segmentation. 2015 Rogue® vs 2015 and 2014 XSUV Mainstream Midsize Class. Available feature. Claim is current at time of printing.
[2] *AutoPacific* segmentation. 2015 Rogue® vs 2015 and 2014 XSUV Mainstream Midsize Class. Automatic transmissions compared. 2015 EPA estimate for 2015 Rogue® 33 MPG highway. Actual mileage my vary by driving conditions — use for comparison only. Claim is current at time of printing.

GRAB A SEAT INSPIRED BY A 238,537-MILE ROAD TRIP.[1]

Front Zero Gravity Seats. With your comfort in mind, Nissan engineers looked to the cosmos, where astronauts float weightlessly in a relaxed posture. To help simulate this "neutral posture" when you're behind the wheel, they designed an articulated front seat shape that helps support you from the pelvis to the chest, along with seat cushions that flex in response to your unique pressure points. The result is a seat that helps reduce fatigue, whether you're in a spacesuit or not.

Power Panoramic Moonroof. More cosmic inspiration. With the available Power Panoramic Moonroof, all aboard have breathtaking vistas of sky, stars, and maybe your next destination.

Create some best-in-class envy. Go ahead and demand more. Rogue® delivers. Start with best-in-class front head room.[2] Add the EZ Flex® Seating System featuring a 2nd row that slides and reclines, letting you adjust for more cargo space, more leg room, or anywhere in between.[3, 4] Thoughtful class-exclusive 2nd-row vents help keep you comfortable.[2] Then, just sit back and enjoy tasteful touches like an available Power Panoramic Moonroof, available double-stitched leather-appointed seats, LED interior lighting, and gloss black trim with metallic accents. All designed to create a natural, relaxed, and decidedly upscale environment.

Nissan Rogue® SL shown in Almond Leather with optional equipment.

[1] One-way trip from the Earth to the Moon. [2] *AutoPacific* segmentation. 2015 Rogue® vs 2015 and 2014 XSUV Mainstream Midsize Class. Claim is current at time of printing. [3] Slide function should not be performed with the Child Restraint System occupied. [4] Passengers should not ride in the reclined position while the vehicle is in motion.

YOU'VE GOT AN ALL-ACCESS PASS.

EZ Flex® Seating System. This 2nd row is truly accommodating, thanks to Rogue®'s EZ Flex® Seating System. It slides forward for easy access and adjusts to give you a little more cargo space, more leg room or anywhere in between.[1] The seats also recline, so you can be exceptionally comfortable.[2]

Available 3rd Row. Perfect when you need to transport the team or bring extra friends along. Rogue®'s 50/50 split folding 3rd-row seat gives you added flexibility carrying passengers and their gear, and folds down to make a flat cargo floor for maximum carrying space.

Power Liftgate and Rear 77° Wide Opening Doors. Whether it's kid seats or kayaks, Rogue® gives you easy access with rear doors that swing out nearly 80°, and an available power liftgate that opens by a tap of a liftgate button, your Nissan Intelligent Key®, or a switch located by the driver.

[1]Slide function should not be performed with the Child Restraint System occupied. [2]Passengers should not ride in the reclined position while the vehicle is in motion.

KEEP AN OPEN HATCH AND AN OPEN MIND.

Room for craft and crew. With room for an object around eight feet long, Rogue® gives you possibilities you never knew you had. The clever split-folding 2nd-row seat lets you mix cargo and friends, and you'll love the handy center pass-through for long items.[1]

70.0 CU. FT.
You, a passenger and lots of cargo.[1]

39.3 CU. FT.
Five of you and your gear.[1]

Some images shown with additional accessories. [1]Cargo shown for display purposes only. Cargo and load capacity limited by weight and distribution. Always secure all cargo. Heavy loading of the vehicle with cargo, especially on the roof, will affect the handling and stability of the vehicle. [2]*AutoPacific* segmentation. 2015 Rogue® vs 2015 and 2014 XSUV Mainstream Midsize Class. Claim is current at time of printing.

Divide-N-Hide.® Single-handedly reinventing capability, the class-exclusive Divide-N-Hide® Cargo System lets you adapt in a snap.[1,2] An adjustable set of shelves and dividers gives you a variety of configurations, and it's so easy, you can do it with one hand.

Under wraps. Make a "box" that keeps valuables out of sight, and creates a shelf on top.

The layered look. Create an open space for storage underneath, and a handy shelf to keep other items separate and within easy reach.

Secret spot. A long, flat floor for big items, with under-floor storage for things you want to hide.

The lowdown. Lower your floor for added height to fit those tall items.

PLAY VIDEO

Drop. Slide. Lift. Wow! Click the button to see Divide-N-Hide® in action. Or go to **bit.ly/roguedividenhide15**

Chill out while you warm your buns. Inspired design, a great audio system, available leather-appointed seats – Rogue®'s a nice place to be. And with details like available Quick Comfort® heated front seats that focus on key areas to warm you up as soon as possible, it's toasty too. There's even available Dual Zone Automatic Temperature Control, so your front passenger can dial up the comfort just the way they like it. Because who needs that kind of chill in the air?

Advanced Drive-Assist® Display. From trip computer to turn-by-turn directions, the Advanced Drive-Assist® Display serves up info right in front of you – helping to minimize time looking away.[1, 2]

iPOD®[3]

It may not detect every vehicle or object around you. Available feature. [8]Never program while driving. GPS mapping may not be detailed in all areas or reflect current road status. Available feature.

NissanConnect℠

YOUR WORLD, AT YOUR FINGERTIPS.

With NissanConnect℠ with Mobile Apps, your Rogue® becomes your smartphone's best friend. Which means no more separation anxiety for you. Because now, your own hand-picked music, Facebook® news feed, latest tweets, and more may all come along for the ride, working seamlessly together through your smartphone and Rogue®'s 5-inch color touch-screen. And it keeps on getting better: the basic app package is complimentary for the first three years.[1]

Available on the App Store

ANDROID APP ON Google play

Your Nissan® Rogue® also keeps you in the loop with the Nissan Navigation System (featuring voice recognition),[2] hands-free text messaging assistant,[3] Bluetooth® hands-free calling and streaming audio,[4] plus an iPod®/USB input.[5]

MAKING EVERY PART OF YOUR DRIVE BEAUTIFUL.

Wouldn't it be cool if you got excellent fuel economy[1] in a roomy crossover that's lots of fun to drive? With Nissan Rogue,® you can. We got there by developing everything from exterior aerodynamics that whisper through the wind, to an advanced 2.5-liter, 4-cylinder engine, to a virtually gearless Xtronic CVT® transmission that maximizes efficiency and performance.

Average 28 MPG[1] Combined

Eco Mode. Saving made simple. Push the dash-mounted button, and Rogue®'s all-new Eco Mode automatically adjusts to help improve your fuel economy.

Nissan Rogue® SL shown in Arctic Blue Metallic with optional equipment and accessory Splash Guards, Chrome Rear Bumper Protector, and Roof Rail Crossbars.

WHETHER IT'S RAIN, SLEET, OR TURN OF ROAD.

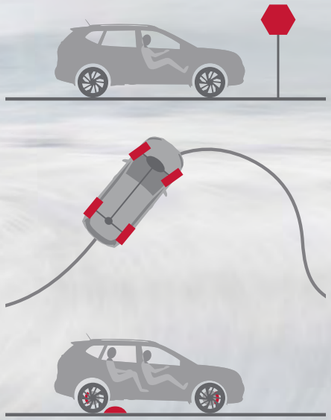
Intuitive All-Wheel Drive. It's so responsive, it can adapt to changing conditions 30 times faster than the blink of an eye. Snow, rain-covered pavement or tight turn, the system automatically sends power to the wheels that need it most. Even in ideal conditions, Rogue®'s AWD has a purpose – our passionate engineers also tuned the system for responsive, agile performance. Getting a grip has never been more fun.

Confidence-inspiring Dynamic Technologies. Whether it's stop-and-go traffic, your favorite on-ramp or even just an annoying speed bump, Rogue® uses advanced technology to make every drive feel more comfortable, confident and enjoyable. And that's a beautiful thing, too.

Active Engine Braking. As you're slowing for a corner or coming to a stop, this system uses the CVT transmission to apply engine braking. Much like shifting to a lower gear in traditional transmissions, it helps give smoother deceleration and a more confident feel when braking.

Active Trace Control. A turn for the better. This innovative technology helps improve performance when you take a corner. It reads the cornering situation and, if needed, can brake each wheel individually to help you steer through the turn with confidence.[2]

Active Ride Control. What bump? Active Ride Control smooths them out by automatically applying braking and adjusting engine torque.



Click the button to see how Nissan's CVT transmission keep you in the sweet spot. This video breaks it down for you. Or go to **bit.ly/NissanCVT15**

PLAY VIDEO

[1]2015 EPA fuel economy estimate for 2015 Rogue® 28 MPG combined. Actual mileage may vary with driving conditions – use for comparison only. [2]Active Trace Control cannot prevent accidents or loss of control. It is the driver's responsibility to be in control of the vehicle at all times. Cargo and load capacity limited by weight and distribution. Always secure all cargo. Heavy loading of the vehicle with cargo, especially on the roof, will affect the handling and stability of the vehicle.

NISSAN AROUND VIEW® MONITOR[1]

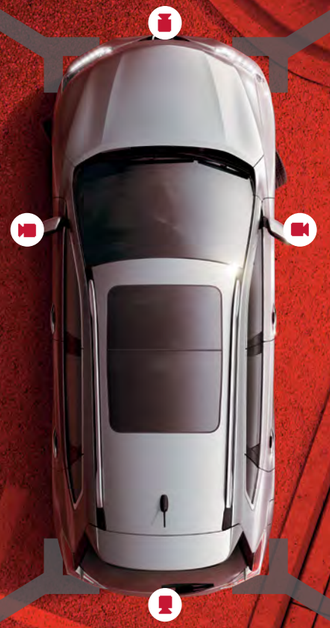
IT'S GOT YOUR BACK. AND THE REST OF YOU, TOO.

What if parallel parking was easier? A rearview monitor is great when backing up – but when it comes to parking, it's nice to see more than just what's directly behind you. That's why Rogue® offers a class-exclusive Around View® Monitor with Moving Object Detection.[1, 2, 3] Four cameras give you a virtual 360° bird's-eye view of your vehicle, with selectable split-screen close-ups of the front, rear, and curbside views, so you can get a better look.[4] And since all obstacles aren't stationary (shopping carts, we're talking to you), Moving Object Detection helps keep an eye around your Rogue® and can warn you about moving objects detected in your vicinity.[3]

[1]Available feature. Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings and turn to look behind you before moving vehicle. [2]*AutoPacific* segmentation. 2015 Rogue® vs 2015 and 2014 XSUV Mainstream Midsize Class. Available feature. Claim current at time of printing. [3]MOD cannot completely eliminate blind spots and may not detect every object. MOD operates at vehicle speeds below 5 mph. Always check surroundings and turn to look behind you before moving vehicle. [4]Virtual composite 360° view.

RIGHT ON THE NOSE

In Drive, the display gives you both a front and overhead view, so you know just how far to pull up – without going too far.



COMPLETE THE PICTURE

Located under your driver's side mirror, this camera helps round out your virtual 360° bird's-eye view, whether you're in Drive or Reverse.[4]

SPARE YOUR WHEELS

In Drive or Reverse, you can push the camera button to switch out the overhead for a side view. A great help for seeing how close you are to the curb.

NO MORE BUMPER CARS

In Reverse, the display helps you see what's directly behind you, while the overhead view helps with shorter objects otherwise hidden below your window.

NISSAN SAFETY SHIELD® PHILOSOPHY

INNOVATION THAT LOOKS OUT FOR YOU.

Wouldn't it be cool if you had the confidence you need for every part of your drive? The Nissan Safety Shield® is a comprehensive approach to safety that guides the engineering and development of every vehicle we make.

MONITOR

Smart technologies are designed to help monitor conditions. Like a warning to let you know you're straying from your lane, or a system that helps ensure you're travelling on properly inflated tires.

Tire Pressure Monitoring System (TPMS) with Class-exclusive Easy-Fill Tire Alert[1, 2, 3] TPMS lets you know when a tire is low. And Easy-Fill Tire Alert takes the guesswork out of filling your tires, with a beep of the horn when you've reached the correct pressure.
Available Forward Collision Warning[4]
Available Blind Spot Warning[5]
Available Lane Departure Warning[6]
Available Moving Object Detection[7]

RESPOND

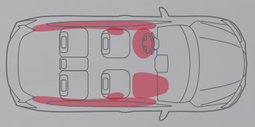
Whether you need to hit the brakes hard or maneuver around an unexpected obstacle, these standard technologies help you respond to a potentially harmful situation.

Vehicle Dynamic Control[8] helps you maintain your steered path.
Traction Control System helps reduce wheelspin in low-traction situations.
Anti-lock Braking System helps you maintain steering control around obstacles while braking heavily.
Electronic Brake force Distribution sends extra force to the rear brakes when you have additional weight of passengers or cargo in the back.
Brake Assist helps apply maximum braking force if it detects hard braking and senses you are in an emergency situation.[9]

PROTECT

When a collision is unavoidable, Nissan's Zone Body construction helps absorb the impact while the advanced seat belt and air bag systems help protect passengers.

Six Standard Air Bags[10]
LATCH System (Lower Anchors and Tethers for CHildren)



6 Standard Air Bags.[10] Nissan Advanced Air Bag System has dual-stage supplemental front air bags with seat belt and occupant-classification sensors.[10] In addition, Rogue® features front seat-mounted side-impact supplemental air bags,[10] and roof-mounted curtain side-impact supplemental air bags.[10]

Available Around View® Monitor.[11] Lets you get the big picture with four cameras to help you maneuver with more confidence.

snug-e-kids™ Nissan safety engineers have dedicated thousands of hours to evaluating hundreds of child restraints in Nissans. The result: an industry first, The Snug Kids® Child Safety Seat Fit Guide. This guide lists child seats that fit the rear seats of Nissan vehicles, as well as offers invaluable tips on correct installation. Look for the latest Fit Guide at **NissanUSA.com/SnugKids.**

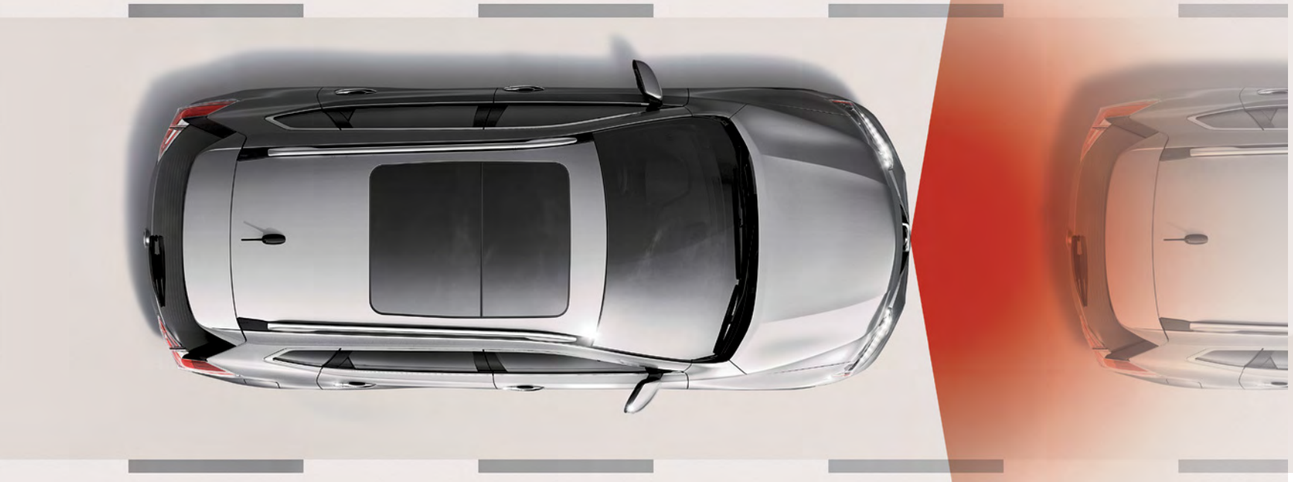
[1] *AutoPacific* segmentation, 2015 Rogue® vs 2015 and 2014 XSUV Mainstream Midsize Class. Claim current at time of printing. [2]TPMS is not a substitute for regular tire pressure checks. [3]Vehicle must be on for the Easy-Fill Tire Alert to operate. [4]FCW is intended to warn you before a collision occurs; it cannot prevent a collision. Speed and other limitations apply. See Owner's Manual for details. [5]Blind Spot Warning is not a substitute for proper lane change procedures. The system will not prevent contact with other vehicles or accidents. It may not detect every vehicle or object around you. [6]LDW operates only when the lane markings are clearly visible. Speed limitations apply. See Owner's Manual for details. [7]MOD cannot completely eliminate blind spot and may not detect every object. MOD operates at vehicle speeds below 5 mph. Always check surroundings and turn to look behind you before moving vehicle. [8]VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. [9]Brake Assist is only an aid to assist the driver and is not a collision warning or avoidance device. It is the driver's responsibility to be in control of the vehicle at all times. [10]Air bags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. All children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents; see your Owner's Manual for more details. Inflated air bags shown for illustration purposes only, actual coverage area may differ. Air bags deflate after deployment. [11]Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings and turn to look behind you before moving vehicle.

NISSAN SAFETY SHIELD TECHNOLOGIES™

GET AWAY WITH JUST A WARNING.

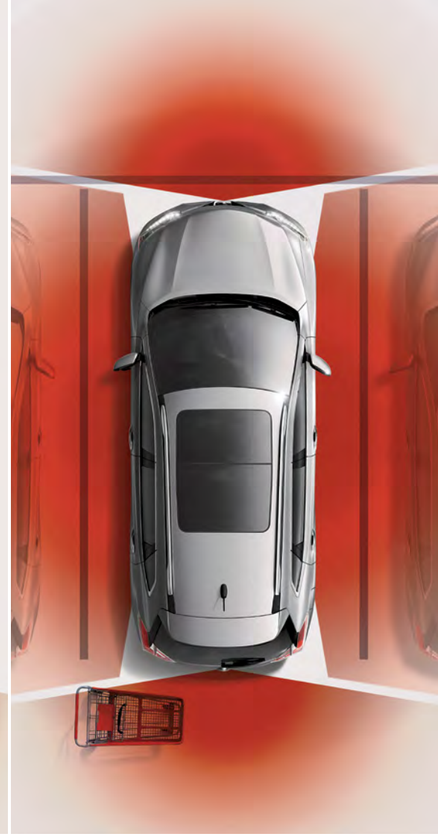
Wouldn't it be cool if you could always drive with that proverbial pound of prevention? With available Nissan Safety Shield Technologies,™ you've got a safety suite of advanced systems on the lookout for everything from errant shopping carts to intrusive big rigs, ready to give you the heads up when trouble rears its head. And we think that kind of knowledge beats an ounce of cure – every time.



Forward Collision Warning. Whether it's rapidly slowing traffic ahead, or someone making a surprise merge into your lane, you can get caught off guard in a potentially dangerous situation. How about a little help? With Forward Collision Warning, a sensor on the front of Rogue® constantly monitors the vehicles ahead in your lane and, when the system detects a potential risk, gives you an audible warning and a visual signal on the instrument panel.[1]

Blind Spot Warning. If another vehicle is detected in the blind spot area, an indicator appears in the driver's or front passenger's door and on the Advanced Drive-Assist® Display. Put your turn signal on, and the indicator flashes with a warning chime to alert you.[2]

Lane Departure Warning. If Rogue® detects that you're straying from your lane, the Lane Departure Warning system will give both a visual and audible alert. The system is so smart, it's designed to stop the warnings whenever your turn signal is engaged.[3]



Moving Object Detection. When the Around View® Monitor is in use and detects something moving by the vehicle, it gives you a visual and audible alert.[4]

Click the button to see how Rogue®'s Around View® Monitor with Moving Object Detection helps you get in – and back out – more easily. Or go to **bit.ly/roguemod15**

BUYING/OWNING

Nissan Motor Acceptance Corporation. Whether you're buying or leasing, you'll find attractive rates and flexible terms to make your purchase more accessible.

College Grad Program. Ask about our special new vehicle pricing available to individuals up to two years after graduation.

Active and Reserve US Military Program. Ask about eligibility for our fixed discount on new vehicle pricing available to those serving our country.

New Vehicle Limited Warranties. Protection for your new Nissan includes 3-year/36,000-mile (whichever occurs first) basic coverage and 5-year/60,000-mile (whichever occurs first) powertrain coverage. Terms, conditions and exclusions apply. See Warranty Information Booklet for complete details.

Security+Plus.® For additional peace of mind, a variety of extended service plans lets you tailor the coverage to your driving habits.

Maintenance+Plus.® This extended plan ensures your Nissan will receive up to 17 different services and over 33 different inspection items at each visit, using the most up-to-date diagnostic equipment available.

Genuine Nissan Parts. When it comes time for service, any necessary replacement parts will be made using Genuine Nissan new or remanufactured parts, or Nissan-approved parts. And they're the only parts to carry Nissan's factory-backed limited warranty.

Nissan Mobility Assist. This program offers reimbursements toward the purchase and installation of certain mobility assistance products for program-eligible Nissans. Go to NissanUSA.com/mobility for more info.

Nissan's environmental action plan focuses on several key areas. Increasing production of Zero Emission vehicles, including the 100% electric LEAF.® Improving fuel efficiency through our PUREDRIVE™ measures. And reducing the environmental impact of manufacturing, as seen at our new, energy-efficient, low-emissions paint plant in Tennessee. For more information, log on to NissanUSA.com/green
