THE ALL-NEW

RAM PROMASTER® CITY

RUN THE TOWN

BRING THE BIG CITY

DOWN TO SIZE

RAM COMMERCIAL

POWER

IN THE COMPACT

THE CORE OF YOUR BUSINESS LIVES IN THE DETAILS. YOU KNOW THE IMPORTANCE OF CHECKING EVERY LAST BOX. WHEN DESIGNING THE ALL-NEW PROMASTER CITY, WE TOOK THAT PHILOSOPHY TO HEART. WE PORED OVER EVERY PART OF THIS VEHICLE. FROM THE HIGH-EFFICIENCY ENGINE WITH 9-SPEED AUTOMATIC TRANSMISSION TO THE 60/40-SPLIT REAR DOORS AND TWO DISTINCT CONFIGURATIONS. ALL TO BRING YOU ONE THING: THE BEST WAY TO DO BUSINESS.

2.4L TIGERSHARK I4

When it comes to the powertrain, Ram tangles with the edge of what's possible. The ProMaster City packs a 2.4L Tigershark® I4 Gas Engine. It delivers best-in-class engine performance[1] with 178 HP and 174 lb-ft of torque, plus a 0-30 mph time of 3.7 seconds. With this under the hood, every block is yours for the taking.

The 9-speed transmission takes raw power and pairs it with efficient performance. It's a match made to endure. The engine operates longer at lower RPMs, and unique clutch technology results in smoother shifts.

The ProMaster City also features Smart Charging Technology, which reduces the load on the engine when torque is needed to accelerate the van. Load reduction translates into overall efficiency – pushing fuel economy even further.

The end result is our most capable small van yet – a smooth ride, and best-in-class horsepower and torque[1]. That's a whole list of capabilities you wouldn't want to mess with.

THE BIG PICTURE

FITS IN BACK

1,883 LB PAYLOAD

The ProMaster City proves that a small van can be hard to intimidate. With a best-in-class payload[1] comparable to most light-duty pickup trucks, the ProMaster City is geared to tackle everything on your list without an ounce of hesitation.

Best-in-class cargo capacity[1] means less time spent reloading and more time spent getting things done. Over 131.7 cu-ft of space makes room for everything you know you need, as well as all the things you might.

131.7 CU-FT CARGO CAPACITY

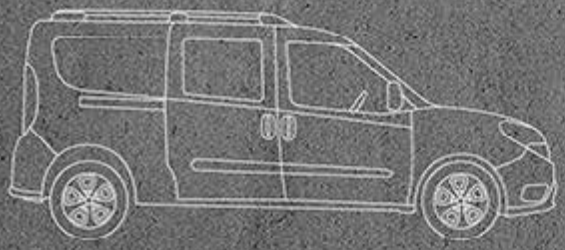
CURB APPEAL

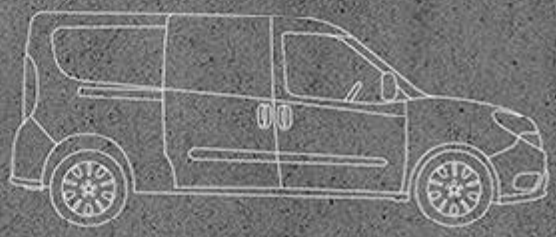
60/40-SPLIT REAR DOORS

The 60/40-Split doors were designed with deliveries in mind. The driver's-side door opens first, allowing you maximum access to your cargo and a clear path to the curb. Without the passenger rear-door obstruction seen on other vans, the field is wide open for your ambition.



5 SEATS WAGON CONFIGURATION

When you can't do it alone, The ProMaster City Wagon makes room for a full team. The van offers spacious seating for five without sacrificing space for your gear, touting 79.6 cu-ft of cargo space behind the rear seats.



2 SEATS CARGO CONFIGURATION

The ProMaster City Tradesman® is all about the work. Bring more to the job than you ever envisioned with uninterrupted cargo space. The Tradesman was built with upfits in mind, so you can shape it to your needs.
