

2015 CC

Das Auto.

In some cases, looks do matter. It's why we made the CC. Because we thought you might like a car that's not just loaded with features, but is also loaded with sophistication and style. And with its sporty performance, it looks like heads will turn a lot quicker when you pass by. That's the Power of German Engineering.

V6 Executive 4MOTION[®] shown in Island Gray Metallic

Laser seam welding. Unlike most cars that have visible spot welds which need to be covered, the CC uses an advanced laser seam welding process for a seamless roof design.

Frameless door design. These sleek, frameless doors are perfectly framed by the sleek roofline. And they give the CC its distinct coupe-like profile.

Integrated rear spoiler. The elegant profile of the CC is further enhanced by the rear spoiler that melds perfectly with the body. Beauty is more than sheet-metal deep.

Street art.

Quality. Every once in a while you see something on the street that really captures your attention. And sometimes, even your imagination. That was our goal when we made the CC. And it's why we spent so much time making sure that everything about the CC exudes quality. From the sleek exterior styling details to the finely crafted interior, the CC has a level of quality that elevates the art of design. And it's how the CC steals glances and hearts all at the same time.

LED Daytime Running Lights (DRL) and LED taillights

Elegant instrument panel

4-door coupe design

Bi-Xenon headlights

Premium multi-function trip computer*

Headlight washer system*

*Feature available on select models.

You have to see it.

Easy Open trunk access. Sometimes you've got your hands full. That's why we offer this available feature, which allows you to automatically open the trunk of your CC hands-free by simply waving your foot under the bumper.

Rearview camera. Backing up or parallel parking is easier with a rearview camera that shows what's going on behind you. So when you're in reverse, you always know what's coming.

Volkswagen Car-Net® connected car features. Want the status of your vehicle's doors, windows, and trunk? Find a great restaurant? VW Car-Net lets you connect with your car and the outside world through your computer or compatible smartphone.*/**

To believe it.

Technology. The CC proves that style and substance don't have to be mutually exclusive. With a standard navigation system, rearview camera, and VW Car-Net connected car features, the CC is loaded with features you'll appreciate using every day. And with an available 600-watt Dynaudio® premium sound system, you'll get to hear how the CC brings all this technology together beautifully.

Executive shown in Truffle and Black Two-Tone leather

Active ventilation control. Whether it's hot or cold outside, the CC has you covered. The front seats with available active ventilation control provide both cooling and heating functions.

Driver's seat massage function. Make any day a better day with this available driver's seat massage function. It's how the CC can help take you away on every getaway.

Leather seating surfaces. You'll notice the second you sink into the available supple leather seating surfaces and eye their two-tone design. The lap of luxury just got more luxurious.

Inner beauty that's easy to see.

Interior. Sit inside the CC and you'll see that its beauty runs more than just skin deep. From the rich materials used throughout the cabin to the fine details everywhere you look and touch, it's clear that the CC isn't just beautiful to look at, it's also a beautiful experience once you get inside.

In-dash analog clock

Interior ambient lighting*

Touchscreen navigation system*

V-Tex leatherette seating surfaces

Climatronic® dual-zone automatic climate control

Leather-wrapped, multi-function steering wheel

12-way power-adjustable front seats including 4-way power lumbar support

Power rear sunshade*

*Feature available on select models.

The fast.

Performance. Whether you go with the standard 200-hp turbocharged engine or the available high-output 280-hp V6, the CC puts the power in your hands. And with an autobahn-tested suspension and available 4MOTION all-wheel drive, the CC shows how powerful performance and sporty handling can live together in perfect harmony.

And the luxurious.

R-Line shown in Candy White

3.6L V6 engine

Feel free to exercise all that power. With 280 hp, this available V6 engine makes the CC one of the most powerful sedans in its class. And lets you pass more time in the passing lane.

280
HORSEPOWER

265
LBS./FT OF TORQUE

2.0T engine

Don't let its size fool you. This standard turbocharged engine produces 200 hp, which will turn every road into an expressway.* See, big things do come in smaller packages.

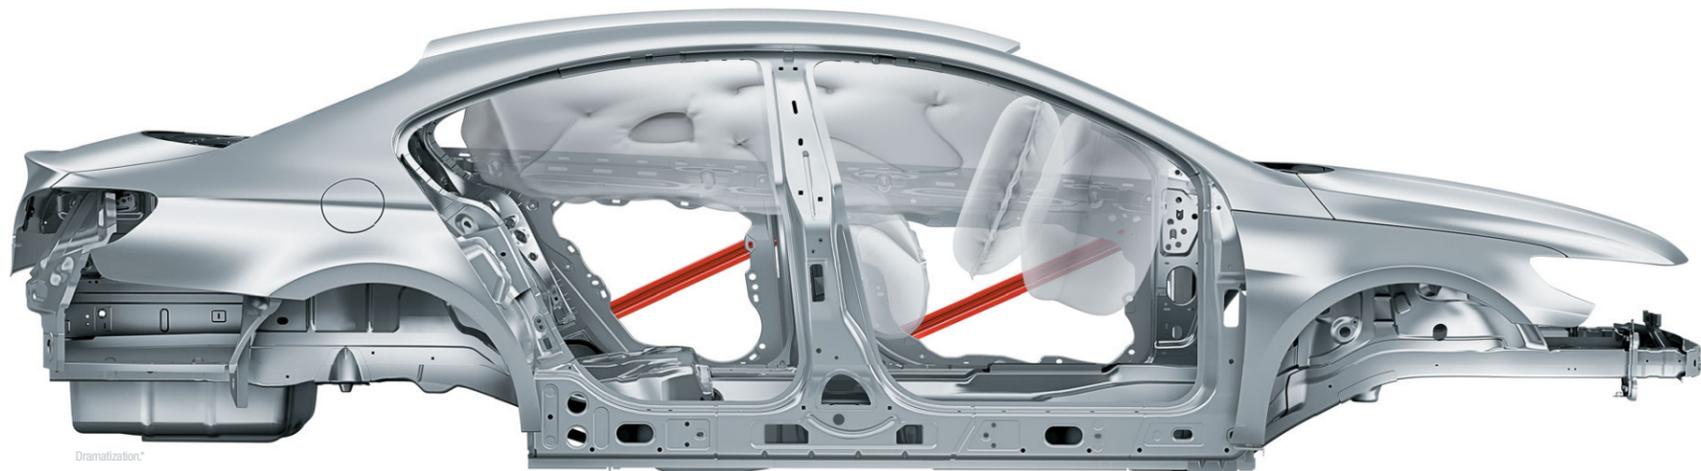

200
HORSEPOWER

207
LBS./FT OF TORQUE

*Always obey local speed and traffic laws.

We go the extra mile here.

Safety. We've always felt that safety should never be a luxury. That's why we built the CC with a host of standard features designed to help you avoid a collision and help protect you if one becomes unavoidable. Because there's nothing like the luxury of knowing you're driving a car that invests so much in you and your passengers.

Dramatization.*

PASSIVE

Safety cage

Adaptive airbags**

Intelligent Crash Response System (ICRS)†

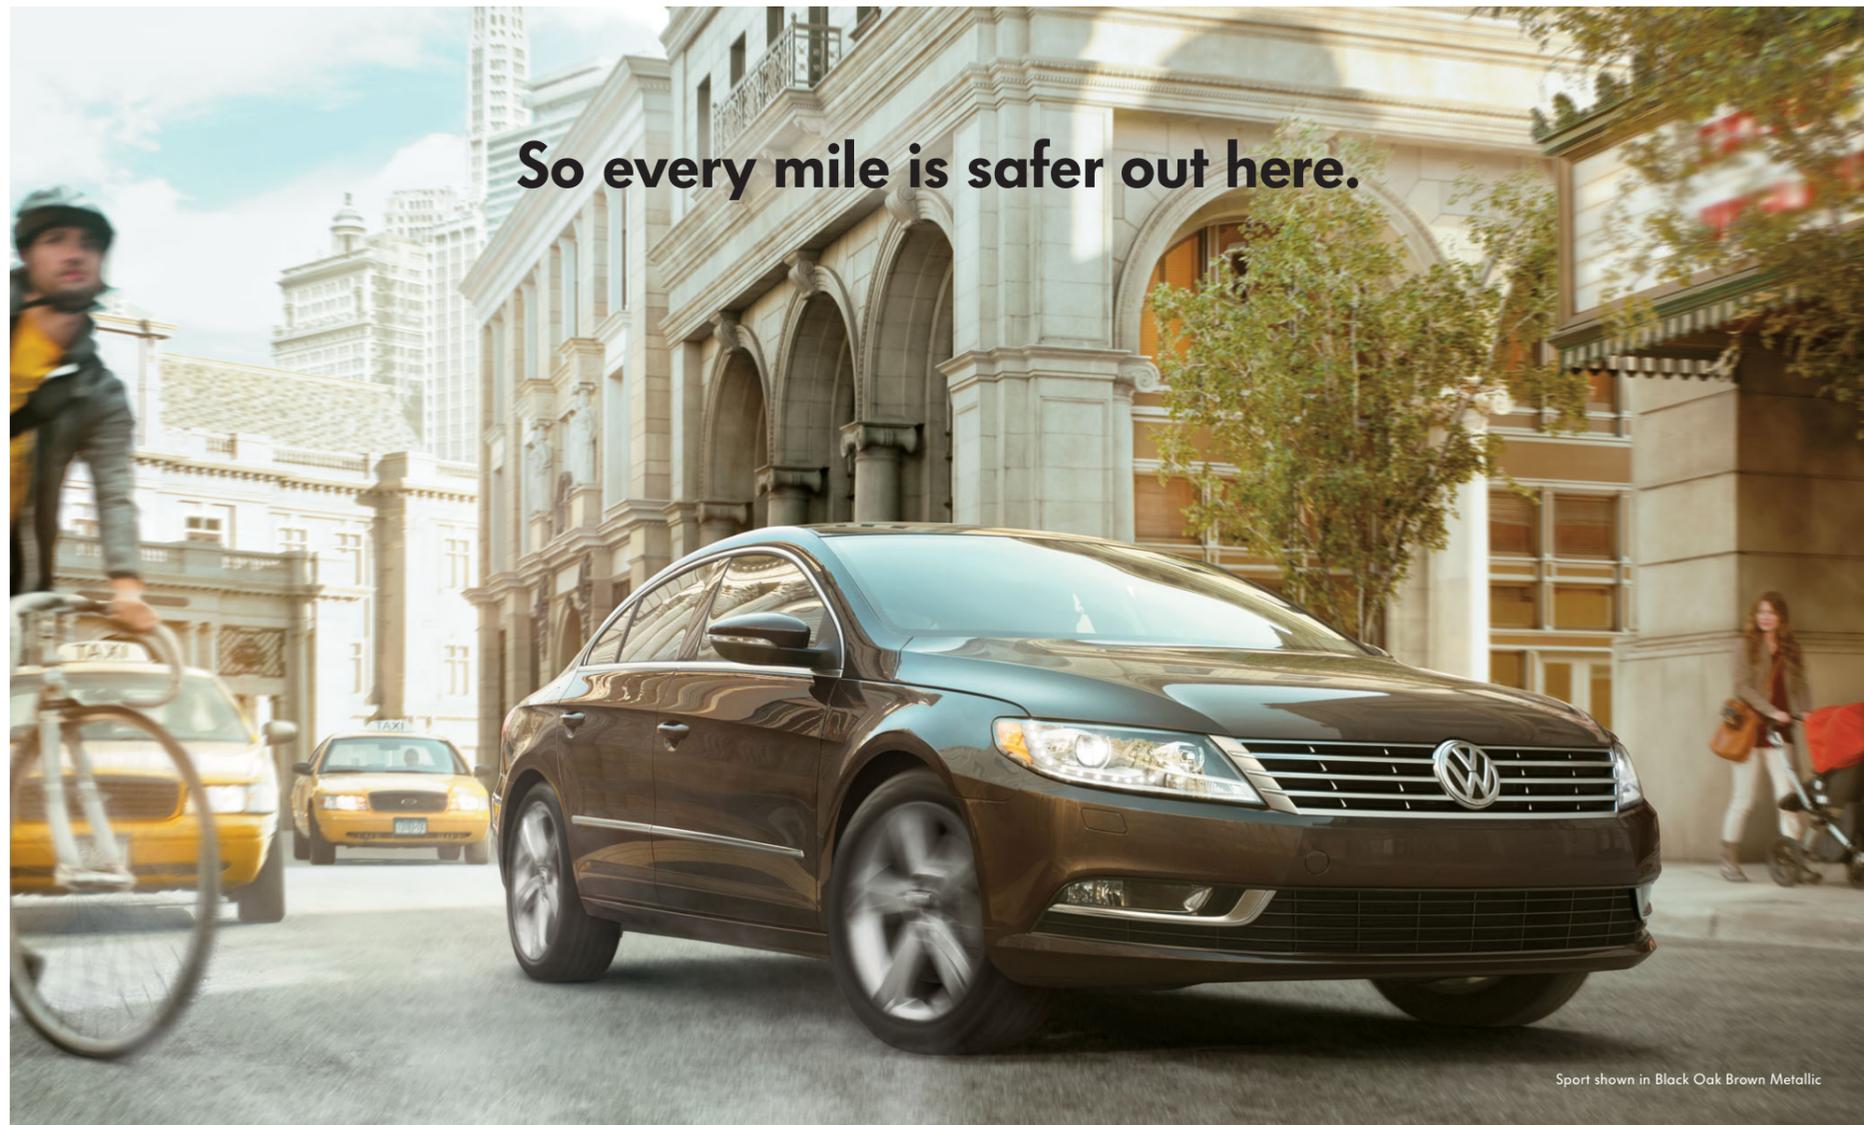

ACTIVE

Seven stability-enhancing systems

Tire Pressure Monitoring System (TPMS)

Brake disc drying

So every mile is safer out here.

Sport shown in Black Oak Brown Metallic

Safety cage with advanced thermoformed steel B-pillars. Our safety cage not only helps protect you in front, side, and rear impacts, but the CC is also reinforced on top with specially formed and incredibly strong B-pillars.

Adaptive airbags. Our airbags are designed to adapt to crash severity, and special sensors in the doors deploy the Side Curtain Protection® airbags faster in the event of a side impact.** We're thinking ahead, from every angle.

Intelligent Crash Response System (ICRS). The Intelligent Crash Response System can automatically disable the fuel pump, unlock all the doors, and turn on the hazard lights in the event of a collision that activates the vehicle's airbags.†

Seven stability-enhancing systems. Electronic Stability Control (ESC) can help the CC maintain control by applying corrective forces at each wheel when you need it. It helps regulate and control.

Tire Pressure Monitoring System (TPMS). The CC is sensitive, especially when it comes to its tires. To help stay efficient and safe, the Tire Pressure Monitoring System can alert you to a loss of tire pressure.

Brake disc drying. When it's raining outside, this system wipes water off the disc brakes to help them remain dry and retain their full stopping power. And it's activated by simply turning the windshield wipers on.

*This is a dramatization and does not depict what will happen in an accident. All bags will not inflate simultaneously in real-world accidents, and if multiple bags do deploy, they will be in various stages of inflating/deflating and will never all be inflated at the same time. Airbags are supplemental restraints and will not deploy under all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age. **Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age. †The Intelligent Crash Response System (ICRS) will only activate in a collision where the airbags deploy or safety belt pretensioners activate. Not all collisions cause airbags to deploy or safety belt pretensioners to activate.

Volkswagen navigation depends on the signals from the worldwide Global Positioning Satellite network. The vehicle's electrical system, and existing wireless and satellite technologies, must be available and operating properly for the system to function. The system is designed to provide you with suggested routes to location addresses, destinations, and other points of interest. Changes in street names, construction zones, traffic flow, points of interest, and other road system changes are beyond the control of Volkswagen of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested navigation route. Periodically, the mapping is updated and a new DVD will be required in order to maintain the latest navigation information available to us. These will be available for purchase from time to time at additional cost. For further information regarding any Volkswagen model, please call 1-800-DRIVE-VW or just look us up at vw.com. VW15CCBUS
