Always on the fast track. Few cars have gripped drivers as instantly as the Golf GTI. Considering it has both defined and redefined the hot hatch for over 30 years, it’s no wonder. Fast-forward to today, and we’ve made this sporty Golf GTI lower, wider, and faster than ever before. Something you’ll get used to pretty quickly. That’s the Power of German Engineering.
Less weight.

Performance. Usually, making a vehicle stronger means adding more weight. But with the Golf GTI, we incorporated ultra-high-strength steel, which is both stronger and lighter than conventional steel. So going, turning, and stopping are all improved. And by adding new technologies that help improve handling performance, along with a wider stance, it’s a stronger performer on the track too.

Sport suspension. A high-performance suspension system—designed for the track—is not just for the track. With tighter body control, the Golf GTI can stay more level in corners and improve grip, while still managing to provide a smooth ride.

More go.

XDS® Cross Differential System. Brakes are great for stopping. And now, for turning. That’s why the Golf GTI features the XDS+ Cross Differential System in conjunction with the available VAQ front limited-slip differential lock, which uses the brakes to help transfer power to the outside wheel and improve cornering.

Driving Mode Selection. We all like having choices. With the standard Driving Mode Selection and available DCC, you can adjust the steering, engine response, and handling of your Golf GTI just the way you like it. It’s nice to be in control.
2.0T engine
The most powerful engine to ever be found in a Golf GTI is also lighter and more fuel efficient than before. Some might call it magic. We just call it 30 years of turbocharging experience.

Progressive steering.
This variable-ratio steering system provides quick response to driver input at higher speeds, while making driving easier at lower speeds. Now the only variable you have to think about is which route you want to take home.

Launch Control.
Sometimes, we can all use a little help. And to help you get going more quickly, the Golf GTI features the available Launch Control system on DSG®-equipped models to help put the power down, making the fun go up.

Performance Package.
Some of us are harder to please. That’s why we’re pleased to offer the available Performance Package, which adds an additional 10 horsepower (total output of 220 hp), a torque-sensing limited-slip differential, and high-performance front and rear brakes with GTI embossed lettering.

Let’s cut to the chase.
Performance. There’s no denying it. The heart of any sports car is its engine, which is why we decided to give this one an adrenaline boost. With the most horsepower and torque of any Golf GTI ever built for the U.S., and new performance-enhancing technologies, this hot hatch has performance that’s sure to get your heart pumping too.

*2015 GTI, 6-speed manual transmission: 34 highway/25 city/28 combined mpg EPA estimates. Your mileage will vary and depends on several factors, including your driving habits and vehicle condition. **Always obey local speed and traffic laws.
Design and quality. Quality can be hard to find. But in a Golf GTI, quality is sitting right in front of you. Under you. And all around you. From the available performance package with red brake calipers, aggressive 18" wheels, and available LED Daytime Running Lights, to the leather-wrapped sport steering wheel, the Golf GTI puts you at the center of it all. No wonder it was named one of Ward’s® 10 Best Interiors. So take a seat, and take a step up in quality.

Spend some quality time surrounded by quality.
Your very own mobile entertainment center.

Technology. We all like having the latest technologies. That’s why we gave the Golf GTI available features like an all-new touchscreen navigation system, so that hidden getaway you’re looking for no longer has to be so hidden. And Volkswagen Car-Net® connected car features* help you stay connected with your car even when you’re apart from it. If you want concert-quality sound, just turn up the dial on the available Fender® Premium Audio System. With all of the new technologies available on the Golf GTI, the best seats in the house can now be found sitting in your driveway.

*VW Car-Net services provided by Verizon Telematics, Inc. Trial or paid subscription required to access all features. VW Car-Net services require vehicle cellular connectivity and availability of vehicle GPS signal; certain services may collect location information. See Terms of Service, Privacy Policy and other details at www.vw.com/carnet/info. Always pay careful attention to the road, and do not drive while distracted. **Available on select models.
We designed it to perform here.

Safety and Driver Assist. Life is unpredictable. That’s why the Golf GTI was built to perform in more ways than one with features like our signature Intelligent Crash Response System (ICRS) and advanced cage. Along with the latest technologies like an Automatic Post-Collision Braking System and an available Forward Collision Warning. As impressive as these systems are, we hope it’s one performance you never have to see.

Automatic Post-Collision Braking System

Dramatization. **

Adaptive airbags. Our airbags are designed to adapt to crash severity, and sensors in the doors deploy the Side Curtain Protection® airbags faster in the event of a side impact. We’re thinking ahead, from every angle. †

Forward Collision Warning. The available Forward Collision Warning system can help you detect what’s coming. If you approach an object too quickly, the system provides visual and audible warnings. Just another way we’re looking out for you.

Tire Pressure Monitoring System (TPMS). The Golf GTI is sensitive, especially when it comes to its tires. To help stay efficient and safe, the Tire Pressure Monitoring System alerts you to a loss of tire pressure so you know when to put more air in.

Seven stability-enhancing systems. Almost every car has stability control nowadays. But very few car companies go to the length we do to help you maintain control. Control freaks, rejoice.

Park Distance Control (PDC). Even when you can’t see an object you’re approaching while parking, the available PDC can, and it alerts you with beeps so you can tell how close something is to your car. Sometimes, we all just need a little space.
Golf GTI Specs

Performance

- 2.0L TSI engine with 220 hp (10-hp increase; available on 2-Door only)
- VAQ front limited-slip differential lock; front and rear brake upgrade
- 60/40-split folding rear seat with center armrest and pass-through adjustable lumbar support; 8-way partial power-adjustable passenger top sport seat including manual-adjustable 12-way power-adjustable driver's top sport seat including power-adjustable lumbar support; 8-way partial power-adjustable sport seats including manual-adjustable 12-way power-adjustable driver's top sport seat including power-adjustable lumbar support
- Sport suspension with independent front MacPherson struts and rear fully independent suspension
- Electromechanical progressive power steering system with variable assistance
- 2.0L TSI, 16-valve, DOHC, in-line 4-cylinder turbocharged engine with intercooler and FSI direct fuel injection
- 6-speed DSG® automatic transmission with Tiptronic® and Sport mode and with steering wheel-mounted paddle shifters
- 6-speed manual transmission
- Dynamic Chassis Control.

Technology

- Adaptive Cruise Control
- Dynamic Chassis Control
- Electrically adjustable heated side mirrors (4-Door only)
- Bi-Xenon high-intensity headlights with LED Daytime Running Lights (DRL) and Adaptive Light Control system
- Heated windshield washer nozzles
- LED foglights
- 3 12V power outlets, 1 in front center console, 1 in center armrest, and 1 in cargo area
- Climatronic® dual-zone automatic climate control
- Climate manual single-zone climate control with pollen filter
- Outside mirrors; heated; illuminated; driver’s side: motorized and passenger’s side: manual
- Air conditioning; automatic; air cleaner; pollen filter; ESC; EDL, and Engine Braking Assist (EBA)
- Intelligent Crash Response System (ICRS) will only activate in a collision where the airbags deploy
- Anti-lock Braking System (ABS), Electronic Brake-pressure Distribution (EBD), and Brake Assist (BA)
- Driver and passenger front and side thorax airbag supplemental restraint system
- Child-safety rear door locks
- Immobilizer III theft-deterrent system
- Crash-optimized front end
- Hydraulic Brake Assist (HBA)
- Automatic Post-Collision Braking System
- Tire Pressure Monitoring System

Exterior Colors

- Pure White
- Reflex Silver Metallic
- Candy White Metallic
- Turbo Red
- Night Blue Metallic
- Deep Black Pearl

Interior

- Tinted Black Leather
- Black Cloth
