PILOT
The all-new Honda Pilot is all about creating opportunities. To travel new places or revisit a favorite. To make a new acquaintance or reconnect with an old one. To try something new or rediscover a fun pastime. And to do it all in a vehicle restyled and reimagined to make every journey both seemingly effortless and eminently enjoyable. That’s life in the Pilot.
DESIGN

The Pilot is at home wherever you park it. It’s been completely restyled with a bold, new look that makes it stand out in a crowd and sleek, clean lines that help it fit in to any environment.

The world is full of possibilities. Go explore them. The new intelligent Variable Torque Management** (i-VTM4**) AWD system helps you hit the road with the confidence you’ll stay on it (select models).

Honda reminds you to secure cargo items.
INTELLIGENT TRACTION MANAGEMENT
Sandy strands of beach. Snowy mountain roads. Muddy rain-soaked routes. Simply push a button to select the mode* that matches your driving conditions and the Pilot will optimize handling for that type of terrain (EX and above).

*Snow mode only on 2WD models. Snow, Mud and Sand modes on AWD models.

Honda reminds you to secure cargo items.
INTERIOR DESIGN

The beauty of the Pilot, aside from the obvious exquisite styling, is that you don’t have to travel far to feel like you’re getting away from it all. That’s because the Pilot is packed with upscale amenities that put you in a better place no matter where you’re headed.
INTERIOR AMENITIES

Most SUVs boast forward-thinking technology, but the Pilot ensures its innovations reach the rear seats, too. While it’s loaded with advanced features that help keep the driver in touch and at ease at all times, higher trims give rear-seat passengers extra luxuries to enjoy.

**INTERIOR AMENITIES**

**PANORAMIC ROOF**
Follow the sun, chase the moon or just stare up at the sky through a panoramic roof that provides another way to see the world (Elite).

**HEATED 2ND-ROW CAPTAIN’S CHAIRS**
Although everyone rides in style in the Pilot Elite, 2nd-row passengers enjoy the added pleasures of a pair of heated captain’s chairs.

**ONE-TOUCH 2ND-ROW SEATS**
Accessing the 3rd row is now effortless. Easy-to-reach one-touch buttons automatically slide the 2nd-row seats forward without the need to push, pull or prod (EX-L and above).
iPad® and cable are not included.

SIGNATURE LED HEADLIGHTS
The Pilot offers LED Daytime Running Lights (EX and above) with LED headlights (Elite) for a more stylish look and more illuminating performance.

BLU-RAY REAR ENTERTAINMENT
Passengers in the 2nd and 3rd rows enjoy high-definition entertainment thanks to the addition of a Blu-ray/DVD player (Touring, Elite).

INTEGRATED SUNSHADES
Let the sun shine in or enjoy the shade. The choice is yours with easily accessible built-in 2nd-row shades (EX-L RES and above).

PUSH BUTTON START
Every Pilot now comes with this feature so you can begin your everyday getaways with the push of a button.

CONNECTIVITY
There are many ways to plug and play via HDMI® (EX-L RES and above) and multiple USB ports (EX and above), or an MP3/auxiliary input jack.

MULTI-INFORMATION DISPLAY
The easy-to-read Multi-Information Display is right up front, ensuring that the information you want is always at the ready.

HD RADIO™ AND DIGITAL TRAFFIC
Stay up to date on current music trends with HD Radio (Elite) and current traffic conditions with the subscription-free Honda HD Digital Traffic (Navi-equipped models).

HondaLink® NEXT GENERATION
By making news, social media, audio books and more accessible from the Display Audio screen, you’re never far from the info you want (EX and above).
Adapt to change.

No two days are ever the same. So you need a vehicle that can quickly shift focus to match your evolving interests. The Pilot does just that with an agile interior delivering a seemingly limitless level of versatility.

MOBILITY

DUAL-POSITION REVERSIBLE CARGO LID
Flip the cargo lid up when you need a deeper space for taller items, or turn it over to keep the carpeted side clean when carrying wet or dirty items.

FLEXIBLE CARGO MANAGEMENT
Whether you want to fit a double stroller or a giant cooler, the Pilot has the cargo capacity to help meet your needs.*

*Honda reminds you to properly secure items in the cargo area.

Pilot EX-L shown with Beige Leather.
When it comes to performance, the Pilot delivers in more ways than one. Take the new 3.5-liter direct-injection V-6 EarthDreams® Technology engine, for example. It produces 280 horsepower* and 262 lb-ft of torque,* but still helped the Pilot receive an impressive 27-mpg highway rating.†

9-SPEED AUTOMATIC TRANSMISSION
The new Pilot literally leads the way as the first Honda to offer a 9-speed transmission (Touring, Elite). Race-inspired paddle shifters help you appreciate each one.

Honda LANEWATCH™
Change lanes with confidence. Honda LaneWatch uses a small camera to put your passenger-side view right in front of you on the Display Audio screen (EX, EX-L, Touring).

*SAE net. †20 city/27 highway/23 combined mpg rating for 2WD 9AT models. Based on 2016 EPA mileage ratings. Use for comparison purposes only. Your mileage will vary depending on how you drive and maintain your vehicle, driving conditions and other factors.
The new Pilot features a full suite of available technologies that can help you sense potential hazards on the road, and in some cases help keep those dangers from turning into something more.

**SAFETY**

**COLLISION MITIGATION BRAKING SYSTEM**
This innovative offering can help bring your Pilot to a stop by automatically applying brake pressure when the system determines a frontal collision is unavoidable.

**ROAD DEPARTURE MITIGATION SYSTEM**
The RDM system can determine if you cross over detected lanes without signaling and can even provide steering and braking assistance to help you stay in your lane.

**LANE DEPARTURE WARNING**
If you make an unindicated and possibly unintentional departure from a detected lane, you’ll be alerted by warnings both visual and audible.

**FORWARD COLLISION WARNING**
Audio and visual alerts will warn you if this system determines you’re at risk of colliding with a vehicle it detects in front of you.

**ACE BODY STRUCTURE**
By distributing frontal impact energy more evenly through the vehicle, the Advanced Compatibility Engineering body structure helps protect passengers.

**SIGNATURE LED TAILLIGHTS**
LED taillights are an attractive and important addition, as they clearly signal your braking intentions to vehicles behind you.

**SMARTVENT® AIRBAGS**
Front side airbags feature SmartVent technology designed specifically to help protect the driver and front passenger in the event of a side-impact collision.

**MULTI-ANGLE REARVIEW CAMERA**
Every 2016 Pilot comes with a standard multi-angle rearview camera with guidelines so you can get a better view when backing up.

---

* with Honda Sensing. EX-L with Honda Sensing, Touring and Elite. **Children 12 and under are safest when properly restrained in the rear seat. 

Pilot EX-L shown in White Diamond Pearl with accessory body side molding and illuminated running boards.
Powerful. Agile. Versatile enough to handle almost any condition. It’s no wonder Honda is the official vehicle of the NHL®.
