

2016 LINCOLN MKX

The feeling of rejuvenation. It's yours for the taking, anytime you'd like. Simply slip behind the wheel of the 2016 Lincoln MKX. Embrace the quiet confidence, the comfort and the effortlessly engaging drive delivered by its new collection of remarkable features. As the most advanced Lincoln MKX yet, it influences in ways you'll find truly empowering. Ways designed to inspire extraordinary drives – and exceptional experiences. The entirely new Lincoln MKX. The feeling stays with you.

**IN THE EXHILARATING PLACE WHERE ELEGANCE AND INTENSITY CONVERGE, REMARKABLE IDEAS TAKE SHAPE.**

Ideas like the entirely new Lincoln MKX. With its gracefully modern execution of the split-wing front grille and its athletically wide shoulders, the 2016 Lincoln MKX elegantly exudes a sense of power and agility. Artfully framing the front grille, the beauty of its **adaptive LED headlamps**<sup>1</sup> extends far below their surface. For starters, LED lamps are 50% more energy efficient and rise to full intensity 10 times faster compared to conventional incandescent bulbs. Plus, the adaptive feature of these headlamps automatically expands their low-beam light pattern when you're traveling at low speeds to help in environments that might include sidewalks or pedestrians.

<sup>1</sup>Available feature.

**YOU KNOW HOW IT FEELS TO WEAR CUSTOM-TAILORED CLOTHING?  
IT'S A LOT LIKE THAT.**

A quiet confidence rises from within as you step inside Lincoln MKX. Its open and spacious, yet warmly enveloping environment is the stunning work of passionate artisans and skilled craftsmen.

The finest Bridge of Weir Deepsoft™ leather<sup>1</sup> trims the **22-way multicontour front seats with Active Motion**,<sup>1</sup> which include power head restraints and **power thigh extenders** for customizable comfort. The Active Motion feature helps reduce muscle fatigue in your legs and lower back. You'll really appreciate it on longer drives.

Careful placement of the sleek **push-button shift transmission** controls enabled the creation of a dramatic, flowing **suspension bridge** between the instrument panel and the center console. And opened up 2 levels of easily accessible storage space for your essentials.

**MYLINCOLN MOBILE APP**

Imagine if your vehicle could be ready to go before you were – warmed up or cooled down to your pre-selected settings. All it takes is your smartphone and the MyLincoln Mobile™ app,<sup>2</sup> enabled by an embedded modem.<sup>1,2</sup> You can use it to program your Lincoln MKX to start remotely at a specific time – repeating daily or weekly. Remotely lock and unlock the doors, locate where it's parked, even set up parking meter reminders, all with a few taps on your smartphone screen.

<sup>1</sup>Available feature. <sup>2</sup>Mobile app, compatible with select smartphone platforms, is available through a free download. The embedded modem is included in the Reserve Equipment Group only. Service included for 4 years. Text and data rates apply to usage. Services may be limited by mobile phone network coverage area.

### 360 DEGREE CAMERA

Get familiar with your surroundings. The 360 Degree Camera on Lincoln MKX merges the views from 4 cameras – 1 in the front, 1 on each sideview mirror and 1 in the back – to create a bird's-eye view of your vehicle and its surroundings. Displayed on the 8" color screen, it even offers visual guides to help you gauge the distance between objects and your vehicle.<sup>1</sup>

### SPLIT-VIEW DISPLAY

Get a wider perspective. With a push of the 360 Degree Camera button, you can switch to a 180-degree view from either the front or the rear camera. This wide-angle view lets you see around corners and other vehicles to check for approaching cross traffic. It can help you make informed decisions when your visibility is limited!<sup>1</sup>

FRONT VIEW CAMERA<sup>1</sup> STOWS BEHIND THE  
ICONIC LINCOLN BADGE UNTIL ACTIVATED }

<sup>1</sup>Available feature. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle.

**PARKING LINCOLN MKX IS EASIER THAN EVER THANKS TO THE ULTRASONIC SENSORS AND OTHER ADVANCED FEATURES OF ITS ENHANCED ACTIVE PARK ASSIST.\***

When you want to parallel park, the system can help by identifying spots that are the right size, then steering the vehicle into place. All you need to do is follow on-screen prompts, and operate the accelerator, brake and shifter as needed.

Pulling your Lincoln MKX out of tight parallel parking spots is also easier with this system, since it can provide steering assistance for that type of maneuver as well.

Backing into a perpendicular parking spot in Reverse is yet another instance where you'll really appreciate the steering assistance of this system.

As you maneuver in and out of tight spaces, the system emits beeping tones to alert you to objects near the front, rear or sides of the vehicle.

\*Available feature. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle.

Life can get hectic. Experience an entirely new level of poise in the 2016 Lincoln MKX. **Pre-Collision Assist with Pedestrian Detection**<sup>1,2</sup> fuses information from its camera and radar technology to help you handle various driving situations – in and out of the city. The system monitors your vehicle's proximity to other vehicles, as well as to pedestrians. If a potential collision is detected, collision warning can alert you with visible and audible warnings, so you can take action. If needed, brake support may help by applying full force when you press the brake pedal. And if the system determines a collision is imminent, active braking may automatically apply the brakes.<sup>3</sup>

Stop-and-go traffic? Take a break from all that braking with **auto hold**.<sup>2</sup> Just press a button to activate it, then come to a complete stop. You don't need to keep your foot on the brake pedal. Auto hold can keep your vehicle in place – even on a hill – until you press the accelerator. It's another way Lincoln MKX is innovating your every day.

<sup>1</sup>Available feature. <sup>2</sup>Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. <sup>3</sup>While Pre-Collision Assist with Pedestrian Detection may be especially helpful in unexpected situations, it does not replace the driver and has limitations; which include nighttime, low and harsh lighting conditions, vehicles moving in a different direction, and certain weather conditions.

*ADAPTIVE CRUISE CONTROL<sup>1</sup>  
automatically adjusts  
your vehicle's speed to  
maintain your choice of  
4 preset gaps from the  
vehicle in front of you.*

Every now and then, we need a little nudge in the right direction. Fortunately, the **Lane-Keeping System**<sup>1,2</sup> can alert you with steering wheel vibration if it detects you drifting out of your lane, and can then apply steering wheel torque to help direct you to steer back into it. The **Driver Alert System**<sup>1</sup> also uses a forward-facing camera to detect road lane markings, then emits a chime and displays a coffee cup icon in your gauge cluster if it detects that you've come too close to – or crossed – the lane markings too many times.

It can be easy to miss when a vehicle has entered your blind spot. Just as the name suggests, **BLIS**<sup>®</sup> (**Blind Spot Information System**)<sup>1</sup> helps keep you aware of things that may be out of your line of view. The system alerts you with a light in the corresponding sideview mirror if its radar sensors detect a vehicle. **Cross-traffic alert**<sup>1</sup> notifies you with a beep and a warning light in your sideview mirror if it detects a vehicle approaching either side as you're slowly backing out of a space.

<sup>1</sup>Available feature. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle.  
<sup>2</sup>Lane-Keeping System does not control steering.

# POWERFUL PRESENCE

ADAPTIVE HID HEADLAMPS<sup>1</sup> SWIVEL AS YOU STEER TO ILLUMINATE YOUR PATH

INTELLIGENT ALL-WHEEL DRIVE<sup>1</sup> }  
CORNERS WITH CONFIDENCE }

Lincoln MKX adapts so you don't have to. Because road conditions are always changing, **Lincoln Drive Control<sup>1</sup>** featuring **continuously controlled damping (CCD)** uses sensors to read the road – and your driving inputs – every 2 milliseconds, then quickly adjusts the firmness and damping at all 4 wheels to help keep your vehicle in harmony with the road. The system also lets you select between 3 drive modes – Comfort, Normal or Sport – to match your driving style. And **electric power-assisted steering (EPAS)** automatically adjusts your steering for different driving situations. At the same time, **Torque Vectoring Control** adjusts the speed between your front wheels for enhanced cornering and agility.<sup>2</sup>

Sometimes it really pays to go with the flow. Unlike the fixed ratio you get with a mechanical steering setup, **adaptive steering<sup>1</sup>** is designed to keep pace with changes in your driving style. It dynamically adjusts the ratio between your steering wheel and road wheels to deliver impressive steering performance and responsiveness. When you're traveling at lower speeds, the ratio is lowered, helping your vehicle feel very agile and fluid, and even making it easier to park. As your speed increases, the ratio increases, helping your vehicle feel taut and stable as it responds precisely to your inputs.

## YEARNING FOR MORE MOMENTS OF QUIET CONTEMPLATION? LINCOLN MKX PROVIDES.

From the **acoustic-laminated glass** featured in its windshield and front doors to its upgraded engine mounts, **sound absorption materials** in trim panels and spoiler-integrated antenna, the hush is in the details. Engineers and designers painstakingly refined everything from the tuning of its tires to the aerodynamics of its sideview mirrors, even employing the vehicle's speakers in their quest for quiet. By sending precisely chosen sound waves through the speakers, **active noise control** cancels out unwanted noise, while at the same time refining engine sounds. The result is a thoroughly calming ambience.

Comforting details continue your day on the right note. Each time you slip behind the **leather-wrapped steering wheel**, the convenient **memory**<sup>1</sup> feature discreetly recalls your preferred placement of the **power<sup>1</sup>-tilt and -telescoping steering column**. Enjoy the visual harmony of its graceful interior lines accented by **genuine wood<sup>1</sup> or aluminum<sup>1</sup>** trim. And personalize the scene in your choice of 7 hues offered by **ambient lighting**<sup>1</sup>, which illuminates the footwells, cupholders and controls. It's easily changed to match your mood.

Sensors inside the vehicle detect your key fob as you approach, triggering a seamless series of welcoming events that bring your Lincoln MKX to life.

Designed to delight all around, its LED exterior lamps gracefully rise to full illumination and certain models feature a signature headlamp light-up sequence.<sup>1</sup>

A luminous welcome mat featuring the Lincoln logo is cast upon the ground from beneath each of the pedestal-mounted sideview mirrors, silently greeting you.

As you let yourself inside, note the warm glow of the LEDs in the door handle pockets, the intensity of which has been fine-tuned for each exterior color.

The cabin puts on its own show of welcome with an ambient lighting sequence<sup>1</sup> that switches to your chosen color after you start the engine.
