This isn’t your typical electric car. It’s a Volkswagen, which also happens to be electric. Meaning it has German-engineered sporty performance, uncompromised versatile interior space, and a beloved hatch design. And since it’s got a powerful electric motor under the hood, the e-Golf* puts the “e” in efficient.**

Actual mileage will vary and depends on several factors, including driving and charging habits, weather and temperature, battery age, and vehicle condition. Battery capacity decreases with time and use. See Owner’s Manual for details.
Sleek, smart, and sophisticated. The e-Golf sports many design cues (like the iconic rear hatch) that have been distinguishing characteristics of the Golf family for over 40 years. Though very familiar in appearance, the e-Golf exhibits some unique design details of its own. The subtle blue accents, the aerodynamic alloy wheels, and the C-signature LED Daytime Running Lights. While the e-Golf makes a subtle hum, it sure does shout iconic hatch.

Designed to get you amped.

C-signature LED Daytime Running Lights (DRL). These lights bring a unique style exclusive to the e-Golf. Beautiful and bold, they’ll light up your driving spirit.

Integrated rear spoiler. As if this car won’t spoil you enough, added touches like the rear spoiler help make it more appealing, too.

16" Astona aerodynamic alloy wheels. Another way the e-Golf proves that efficiency* can still be in style. These sleek, sharp-looking wheels were specially designed for the e-Golf.

Full LED headlights with blue accents. Turn heads and illuminate the road ahead with futuristic-looking, long-lasting LED headlights. The e-Golf offers full-LED headlights in low and high beams — 100% LED**

Combined Charging System (CCS). Several ways to charge. One convenient port to plug in. The e-Golf comes with a charging system that’s compatible with many charging stations in the U.S. Charge and charge away.

Automatic headlights with Coming/Leaving Home feature. Need a little extra light when walking away from or towards your e-Golf? You can customize how long your headlights stay on after you lock or Unlock your care. These lights automatically help light the way, your way.

*126 city/105 highway EPA-estimates (2015 e-Golf, automatic transmission). 2016 EPA-estimates not available at time of publication. See www.fueleconomy.gov for updated information. Actual mileage will vary and depends on several factors, including driving and charging habits, weather and temperature, battery age, and driving condition. Battery capacity decreases with time and use. See Owner’s Manual for details. **Based on manufacturer’s published data available at time of publication comparing all-electric vehicles available in the United States.
An energizing atmosphere.

Once you’re done wondering how we fit in the batteries without sacrificing cargo space, sink into the available leatherette seating surfaces and grab the available multi-function sporty steering wheel. You’re instantly put right in the center of the all-electric action. With this kind of sophistication and versatility, you might even forget that this hatch is electric.

Climatronic® dual-zone automatic climate control.
Stay in your comfort zone behind the wheel while your passengers stay in theirs. Since the A/C compressor is electric, you can all enjoy a cool, air-conditioned cabin comfortably.

Heated front seats.
Thanks to these heated seats, you can keep warm on cold nights or chilly mornings. The three different settings will help you easily find your comfort zone.

Leather-wrapped multi-function steering wheel.
Grab the multi-function steering wheel and control your tunes, and how you communicate. It feels nice in more ways than one, especially since it’s leather-wrapped.

Uncompromised cargo space.
We designed the e-Golf to not invade the 52.7 cu. ft. of cargo space with rear seats folded and adjustable cargo floor lowered. We weren’t about to sacrifice your comfort bubble.

Unique interior accents.
The e-Golf gets extra interior details. Like the blue accents on the shift knob and the e-Golf emblem in the front of the shifter. An atmosphere that boasts it’s ready for liftoff.
Zero emissions.

Watts of fun.
Of course our electric vehicle is going to be programmed with some of the latest car technology. The available Volkswagen Car-Net® connected car suite brings you many ways to connect to your e-Golf. Take, for instance, VW Car-Net App-Connect, which can display select apps from your compatible smartphone onto your touchscreen. Once you plug your smartphone into the USB port, App-Connect lets you use your apps on the dash, using either Apple CarPlay™, Android Auto™, or MirrorLink®. Staying in touch has never been this easy.

Dashboard, meet smartphone.

STANDARD FEATURES

Volkswagen Car-Net Security & Service. Provides a seamless link from almost any of your compatible devices—your smartphone, computer, or tablet—to your Volkswagen. VW Car-Net Security & Service can call for help in an emergency, monitor speed and boundary alerts, check the status of your VW when you’re not near it, and much more.2

Volkswagen Car-Net App-Connect. VW Car-Net App-Connect lets you link your compatible smartphone with Apple CarPlay, Android Auto, or MirrorLink to see select apps on the touchscreen display of your VWs. From streaming music and mobile maps, it can be accessed on the touchscreen.

Composition Media touchscreen sound system. The e-Golf is now in touch. Literally. With its advanced touchscreen sound system, you can control your media, settings, and the Volkswagen Car-Net App-Connect® feature, which can sync up compatible smartphones and display content on the dash. Be in command with one fingertip.

Rearview Camera System. Hindsight is now foresight. The rearview camera helps you see and avoid obstacles when backing up, and it can make parking easier.

Keyless access with push-button start. The key fob does the job. Leave it in your pocket. You can automatically unlock the door of your e-Golf as you grip the door handle. Then, you’re inside, with the press of the brake and the push of the start button, your engine turns on and you’re ready to go.

AVAILABLE FEATURES

Discover Pro 8” touchscreen navigation. This system has features specifically for your e-Golf, like charging location info and Range Monitor, which gives you range visualization on a map as well as battery stats.

e-Manager mobile app. You can operate the A/C from your phone, which is cool. You can also monitor battery charge status, and it can help you locate the nearest EV charging station.

Volkswagen Car-Net Guide & Inform. With an available 4-year trial subscription to SiriusXM Traffic™ that offers real-time traffic information, you get your info front and center.

Park Distance Control (Park Pilot). This feature displays a graphic on the touchscreen system, helping display how close you may get to another object or vehicle when you’re parking or leaving a spot.

Staying in touch has never been this easy.

Volkswagen Car-Net Security & Service. Provides a seamless link from almost any of your compatible devices—your smartphone, computer, or tablet—to your Volkswagen. See www.vw.com/privacy for details. 4-year trial subscription for SiriusXM Traffic applies to original owner only.
Give the city a jolt of energy.

Want to know why the e-Golf drives a lot like the Golf? The e-Golf has a powerful electric motor that delivers an impressive 199 lb-ft of torque. That’s more torque than the BMW i3.* It’s how Volkswagen feels electric cars should feel. And since you can get up to 83 miles on a single charge,** you’ll be making plenty of trips.

8 kW AC electric motor
This electric motor delivers power straight to the wheels when you hit the pedal. And since there aren’t any moving pistons or cylinders, the all-electric 115 horsepower is ready once you hit the start button. That’s more horsepower than the Nissan Leaf.†

Up to 83 miles per charge.**

Three selectable levels of regenerative braking.
When you hit the brakes, or simply lift your foot off the pedal, the e-Golf converts the energy into electricity to help recharge its batteries. The higher the regenerative level you select, the more the car will slow down when you lift your foot off the pedal.

DC Charging†‡ Time to take charge. This gives you DC charging capabilities, which means you’ll have access to some of the fastest charging stations out there.

STANDARD FEATURES
Three driving modes. Start the car and you’ll experience e-Golf performance in Normal mode. Switch to Eco mode for a happy medium of performance and efficiency. Or to help maximize your range, put it into Eco+ mode for more conservative battery usage. So pick a mode. Any mode.

### e-Golf Specs

#### PERFORMANCE
- 85 kW (115 hp) synchronous electric motor
- 115 lb-ft (159 Nm) of torque
- 26.2 kWh lithium-ion (Li-ion) battery
- 2.2 kW on-board charger
- Condensed Charging System (G3) with DC charging capability
- T3 50 kW on-board charger
- Dual-speed power steering

#### TECHNOLOGY
- e-Golf design-integrated LED Daytime Running Lights (DRL)
- Heated power side mirrors with integrated turn signals
- 15" ambricoar Antracita Key wheels with all-season low-rolling resistance tires

#### SAFETY
- 3-point safety belts for all seating positions, including safety belt pretensioners for driver and front passenger
- Driver and passenger front and side thorax airbag supplemental restraint system
- Crash-optimized front end

#### EXTERIOR
- LED headlights with blue accents
- Automatic headlights with Coming/Leaving Home feature
- 3 driving modes: Normal, Eco, and Eco+
- Independent front turn/brake light bulbs
- LED Daytime Running Lights (DRL)

#### INTERIOR
- Leather-wrapped, multi-function steering wheel, height-adjustable with telescopic
- Self-dimming interior rearview mirror with on/off switch
- Color multi-function trip computer
- Climatronic® dual-zone automatic climate control
- Rain-sensing windshield wipers
- Front Park Distance Control (Park Pilot)
