It only took us a few lines to come to a powerful conclusion.

We take careful consideration to the shape of things—such as how time and technology has changed the way we interact with our world, and how our vehicles should further evolve to enhance our time spent on the road. When it came to designing the all-new Audi Q7, our next progression was clear: to craft a vehicle that not only has available advanced technologies and luxuries that make for a near perfect sanctuary but is also thoughtfully shaped to transcend trends and remain timeless.

2017 Audi Q7 3.0T Prestige shown in Graphite Gray metallic with available equipment.
Progressive lighting design incorporates an arrow look, tapering at the front, to give the vehicle focus, in either standard xenon plus headlights or available full LED headlights.

The refreshed distinctive Singleframe® grille with a unique grille bar and tooth structure further emphasizes the vehicle’s standard quattro® all-wheel drive system.

Thoughtful details like powerful wheel arches hint to the legendary Audi Ur-Quattro rally cars of the past and emphasize the vehicle’s standard quattro® all-wheel drive system. This generation Q7 exemplifies the limitless impact of imaginative design.
Every journey in your Audi Q7 should be a lavish one, whether you are headed to the supermarket or to a vacation destination. When creating an interior concept to match the bold, new exterior look, Audi designers wanted to create an environment where incredible versatility and luxury intersect. Part of designing this near-perfect interior was engineering an ergonomic space where everything you need is easily visible and accessible. Elements such as the available next-generation Audi virtual cockpit display with crisp clarity and functionality, to improved MMI® display placement; to a gear selector that provides a fixed point for the MMI control, all work together harmoniously to help make your vehicle even more of a mobile sanctuary.

The luxury of a family escape.

We have given this SUV more than a touch of opulence with the available Luxury package, which includes Valcona leather-covered individual contour front seats with ventilation and massage function, an Alcantara® headliner and power soft-closing doors.

Panoramic sunroof
The standard panoramic sunroof with tilt and sliding features provides a virtually unobstructed view to nearly every passenger while creating a sense of openness to the cabin. On the occasion you would like some shade, a power sunshade is included for your comfort.

Ambient lighting
Available Ambient lighting packages create a functional, reactive and beautifully lit cabin. Interior contour and background lighting can be customized to adjust illumination based on Audi drive select mode or individual style.

Four-zone automatic climate control
Available four-zone automatic climate control provides more of its passengers with the ability to dial in his or her ideal temperature. Additionally, the available panoramic air diffuser vent helps provide a more natural airflow.

2017 Audi Q7 3.0T Prestige shown with available Cedar Brown Valcona leather and available equipment.
Seating configurations
A split tumble-folding 35/30/35 second row and a power 50/50 split-folding third row allow for a fully configurable interior space.

As we see it, a vehicle should fit both the driver’s and the passenger’s needs. The improved interior space in the all-new Audi Q7 allows for customizable seating configurations with more headroom, legroom and shoulder room than before. The seats are easy to configure with a standard power third row for convenience. Whether the little ones are traveling, you can place car seats in any of the five LATCH-point locations, creating a flexible and luxurious travel experience for all those on board.

Power tailgate
A standard power tailgate (with programmable opening-height adjustment) can feature an available hands-free opening function, where the tailgate releases and raises or closes after you sweep your foot under the rear bumper threshold.

Third-row ingress, egress
The second-row outboard seats tumble forward to allow for quick and easy access to the third row.
A showcase of our driving desire for superior engineering.

It should be apparent from our drivetrain that we strive for engineering perfection. So you’ll experience the kind of dynamic performance and efficient powertrain that have come to expect from Audi. And with an advanced transmission and the road gripping capability of quattro® all-wheel drive applying all that power to the ground, it will feel as good as our engineering suggests.

**Start-stop efficiency system**
As an intelligent vehicle system, this effective engine management program can help lower fuel consumption as well as CO2 emissions by automatically shutting off your engine while you wait at a red light or, perhaps, during certain stop-and-go driving. Once you are ready to resume, or if other critical vehicle systems require it, the engine will restart nearly instantaneously.

**Shift-by-wire**
The eight-speed Tiptronic® automatic transmission in the Audi Q7 utilizes a shift-by-wire technology and is fully engaged by the vehicle’s onboard computer. Efficient design and computer-managed shift patterns add to the vehicle’s efficiency.

**Towing capacity**
The Audi Q7 stands as a leader with an incredible 7,700 lb max tow rating with the available Towing package on the 3.0T model. The package includes a trailer hitch receiver with brake controller pre-wiring.

**TFSI® V6 engine**
The 333-horsepower 3.0-liter TFSI® V6 engine is paired with FSI® direct injection and is belt-driven supercharging that delivers a magnetic clutch for greater efficiency and counter-rotating four-vane rotors that force air on-demand through dual intercoolers at boosted pressures. It is this combination of engineering achievements that allows for nearly instantaneous buildup of 325 lb-ft of torque directly off the engine speeds.
At Audi, we believe you should be the ultimate master of your road-going domain. That’s why we created the available Audi drive select system. It gives you the ability to adjust the vehicle’s driving characteristics with the utmost of ease.

When equipped with standard suspension, the drive select system includes five modes, and when equipped with available Audi adaptive air suspension, the system adds two extra modes that raise the vehicle’s suspension height to adapt to more demanding offroad conditions.

When almost any kind of road comes into question, Audi drive select will let you answer.

- **Comfort mode**
  Perfect for those long highway stretches, this setting adds optimized suspension and steering and a closer shift pattern to help provide a more relaxed drive.

- **Dynamic mode**
  Tighter steering, a firm suspension and a more responsive throttle help give this setting an aggressive feel and focused performance.

- **Auto mode**
  The best of both worlds, this option is dialed to automatically adjust settings for a seamless combination of comfort and responsiveness based on your driving style and road conditions.

- **Individual mode**
  Drive your way—this mode allows you to adjust the steering, suspension, throttle and transmission upshifts to your style.

- **Offroad mode**
  Similar to Auto mode, Offroad mode will optimize all adjustable vehicle settings for the reduced traction environment of off-pavement excursions.

- **Allroad and Offroad/Lift modes**
  When equipped with the available Audi adaptive air suspension, these modes will raise the suspension height by +25 mm or +60 mm for increased ground clearance when driving offroad.

**Adaptive air suspension**

Depends on your preference, the available adaptive air suspension sets the height of the vehicle based on the vehicle’s speed and your drive select preference. You can change the ride height levels in four modes, including Standard, Allroad (+25 mm), Offroad/Lift (+60 mm), Dynamic (-15 mm) and loading (lowers the rear of the Q7 by -55 mm).

**quattro® all-wheel drive**

There is a reason quattro® has been known as the all-wheel drive standard since its inception. It has helped us win races around the world—on lots of them. More than just a performance-enhancing technology, it has also become the proven foul-weather friend. Under normal driving conditions, the center differential splits torque at a ratio of 40:60. Front to rear transmission performance on dry roads is optimized for maneuverability, while on more challenging, the ratio is optimized to help maintain grip. This translates to tighter and more confident driving experience.

**All-wheel steering**

This available steering system with speed-dependent control helps give the vehicle a tighter turning radius at low speed for increased maneuverability and more precise steering at higher speeds, such as highway lane changes. This helpful system offers increased driver confidence, providing you with improved control in almost any situation.

**Counter steering**

Counter steering the rear wheels results in a tighter turning radius when driving under 31 mph.

**Parallel steering**

When all four wheels turn the same direction, this results in precise lateral tracking at highway speeds.
Senses working overtime.

You’ll find that we’ve developed available driver assistance technologies that work together to help keep you aware of your surroundings. Our optional night vision assistant uses infrared technology to help detect pedestrians or large animals. And standard Audi pre sense® basic closes the side windows and panoramic sunroof, tightens the front safety belts and prepares the brake system for a quicker response and more during an unusual or emergency maneuver.1

Collision avoidance assist
In the event that a sharp maneuver is needed, the available Audi pre sense plus includes Collision avoidance assist that helps the driver when turning into the adjacent lane. The system computes a suitable path for the vehicle and provides steering inputs to help the driver stay on the intended path.1

Available Audi pre sense city
At speeds of up to 52 mph, the standard Audi pre sense city helps detect cornering and stationary vehicles and pedestrians, warning the driver of a possible collision, and when needed, helps initiate emergency braking.1

Vehicle exit assist
As part of available Audi pre sense rear, Vehicle exit assist notifies the driver when other vehicles are approaching from behind when the vehicle doors are opened. By utilizing two radar sensors in the rear bumper, the system warns the driver of approaching vehicles through a brightly illuminated LED light strip in the door and acoustic warnings.1

Rear cross traffic alert
Included with available Audi pre sense rear, Rear cross traffic alert helps warn the driver of approaching vehicles when reversing out of a perpendicular parking space by using sensors on the right and left rear bumper. In case of critical situations, the system will give a warning tone and a brake jolt will be applied.1

[1] The function described is not available in all markets. Please see your own owner’s manual for further details and important limitations.
Night vision assistant
This available system uses thermal imaging technology to help detect what lies ahead. Pedestrians and large animals up to 300 feet in front of the vehicle can be highlighted, while objects over 900 feet ahead can be shown within the available Audi virtual cockpit display.

Active lane assist
Operating at speeds above 38 mph, this available system helps detect when the vehicle begins to leave the lane without signaling. Through gentle, corrective steering efforts, it helps the vehicle remain in the lane and vibrates the steering wheel as an additional warning. This way, Audi active lane assist complements the driver’s decision-making process and helps to further solidify the bond between driver and machine.

Traffic jam assist
Included with available Audi adaptive cruise control with stop & go function, Traffic jam assist combines acceleration, braking and steering guidance, allowing for maximum driving comfort when braking at speeds between 0–37 mph in congested traffic.

Head-up display
With easy-to-view, accurate visual information right at eye-level, this available feature displays important driving information and even pedestrian collision warnings when equipped with the optional night vision assistant.

Traffic sign recognition
This available camera-based system detects traffic signs and displays them in the instrument cluster or available Audi virtual cockpit, and even evaluates various driving conditions, such as school zones and updated speed limits.

Head-up display
With easy-to-view, accurate visual information right at eye-level, this available feature displays important driving information and even pedestrian collision warnings when equipped with the optional night vision assistant.

Parking system plus
Helping to make parking an easier task, the standard parking system plus features front acoustic parking sensors in addition to the standard rear acoustic parking sensors. For added benefit, the rear view camera offers selectable guidelines for parking in parallel or perpendicular spaces.

Having another layer of protection is no accident.

While we don’t like to make light of potential risks on the road, our engineers were tasked with doing just that. Complementing the advanced occupant safety cell in airbag technology designed to respond differently based on seat position, and specially constructed crumple zones that give way upon impact to help mitigate potential injury in a collision. When you add all of this to the rigidity of laser seam-welded joints that help enhance each Audi we make, it becomes pretty clear: Helping diminish the impact of an unavoidable event doesn’t happen by accident.

ABS and ESC
Computerized technology that works in sync with the Anti-lock Brake System (ABS). Electronic Stability Control (ESC) helps minimize almost any loss of stability, applying brake pressure to individual wheels and reducing throttle input to help maintain control, or override, when the vehicle needs it.

Six airbags
Designed to work in conjunction with our safety belts and properly adjusted head restraints, our airbag system is a comprehensive safety measure. Our front-impact airbags offer extra protection for both driver and front passenger, and available rear-passenger thorax side airbags.

What we’re made of is a source of inner strength.

Clearly, there’s strength in numbers—especially in this case. In what some may consider a revolutionary philosophy, the Q7 model’s implementation of ultra-lightweight technology through aluminum hybrid construction developed by Audi engineers uses a variety of materials that together are both lightweight and resilient, helping provide better handling, enhanced efficiency and increased towing capacity.

up to 474 lbs weight savings

- extruded aluminum
- cast aluminum
- sheet aluminum
- ultra-lightweight steel

1. EPA estimates not available at time of printing. See www.fueleconomy.gov for details. Your mileage will vary and depends on several factors, including your driving habits and vehicle condition.
2. Maximum tow rating. Other accessories and options may reduce maximum towing capacity. See vehicle owner’s manual for details.
Your central command for the information age.

Sure, the handheld device of mobile devices is impressive, but then, they don't handle like your Audi. Luckily, Audi connect® offers your favorite familiar functionalities, with the means to help you get to where you want to go! The next generation of Audi connect offers three available options—Connect CARE, Connect PRIME and Connect PLUS. Each option provides assistance and security services to help you in emergency situations, at no additional cost for 10 years after the purchase of your new vehicle. Connect PRIME offers a collection of robust features like Google Voice Search®, Audi Semi-Dynamic Route Guidance with INRIX XD® Traffic to help you navigate and stay informed. And for fun updates and entertainment, Connect PLUS keeps your passengers connected even on the go through an in-vehicle Wi-Fi® Hotspot with a 6GLT® connection.** Both Connect PRIME and Connect PLUS features are offered complimentary for a one-month trial period, and after that, stay connected by visiting myAudiConnect.com.

With access to text messages, email and streaming audio, it's easier than ever to keep in touch with your friends, family and the corporate world.15

With Google Voice Search®, your compatible smartphone and SmartWatch.15

Use your MMI connect® app, or log in to your myAudi account to access vehicle owner's manuals, or use the Parking Features package to help remember where you parked.19

With Google Street View®, your Audi can help you get to where you want to go.1 The next generation of Audi connect offers three available options—Connect CARE, Connect PRIME and Connect PLUS. Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only.

See pages 24–25 for important information regarding MMI® navigation plus.

Always pay careful attention to the road, and do not drive while distracted. Not all features available on all operating systems. Standard text and data usage rates apply. These features require compatible device, operating system, and mobile apps. See mobile device and app providers for terms and privacy. “Android Auto” is a trademark of Google Inc. “Apple CarPlay” is a trademark of Apple Inc.

The available Audi virtual cockpit operates in two distinct modes—Classic and Infotainment—creating a personal experience that fits your style and preferences.

**MMI® all-in-touch with handwriting recognition**
Developed by the Audi Human Machine Interface (HMI) team, available MMI all-in-touch illustrates why making something simple to use can be so complex. The MMI team designed a system so advanced, it can read almost anyone’s handwriting—even if you choose to write with your non-dominant hand.

**MMI® navigation plus with voice control**
Count on the available advanced navigation system with voice commands to help home in your destination with stunning precision while putting a little more depth in your journey with help from Google Earth™.

**BLUETOOTH® wireless technology**
Unlock your compatible mobile phone’s potential through the MMI system. Simply pair them up and start enjoying near-complete control at the touch of a button.

**MMI® smartphone interface**
Connect your compatible smartphone via USB connection directly on the MMI display. Control Google™ Android Auto or Apple® CarPlay apps via your MMI controls.

**Audi virtual cockpit**
The available Audi virtual cockpit is another testament to the progression of the new Q7. The cockpit is an innovative, fully digital instrument cluster shown on a 12.3-inch display, delivering vibrant, life like images at 60 frames per second. There are two unique modes for viewing vital data: Classic mode offers a crisp, clear view of a traditional speedometer and tachometer, while maximizing navigation or other infotainment visuals.

**Redefining the all-access pass.**
Going backstage just got a lot more immersive—and intuitive. The available intelligent MMI® system offers a wealth of easily accessible information with a unique twist, or, technically, a touch. You’ll have simple access to information such as music files, contact information and destinations. The possibilities are much bigger when you input to available Audi connect®, an innovative infotainment system infused with the power of Google™ technology. With this kind of access, you could say there is no greater stage.
When we set out to compose a truly inspiring sound system, we didn’t just want you to hear every note. We wanted you to experience them. From perfectly sculpted high notes to a crystal clear mid-range to deep-diving lows, the available Bang & Olufsen® 3D Advanced Sound System helps to deliver an authentic and multidimensional arrangement of thrilling sound that you can feel as much as hear. So whether you’re in the mood to be soothed, engaged or inspired, you can expect an immersive experience that can only be matched by the exhilaration of driving your Audi.

A different feel to hearing.

Bang & Olufsen® 3D Advanced Sound System

The passion of Bang & Olufsen® matches well with Audi. Just consider the exclusive collaboration to create the Bang & Olufsen® 3D Advanced Sound System on the all-new Audi Q8. Using conventional surround sound technology, Bang & Olufsen® introduce additional dimensions, such as the BeoCore amplifier with ICEpower® and Acoustic Lens Technology to provide an unrivaled entertainment experience. This meticulously rendered sound is amplified through 23 speakers and an impressive 1,920 watts and 5.1 Surround Sound.

High-performance tires are designed for better performance and handling in warm climates. When driving in cold, snowy or icy conditions, consider using 'all-season' or 'winter' tires, which offer better traction under those conditions. We suggest you use the Audi-recommended winter or all-season tires specified for your Audi. High-performance tires also have a lower aspect ratio that aids performance and handling. However, if you drive on rough roads or through potholes, it is possible to experience road noise, vibration, and jounce. This can cause discomfort and may be more noticeable with lower-profile tires. Be careful to avoid road hazards and reduce your speed, especially if your vehicle is equipped with low-profile tires. Please also remember when making turns, your car may feel less stable and more prone to摆头. These tires may wear more quickly than other choices. It is important that the inflation pressure is regularly checked and maintained at recommended levels.

Airbags are supplemental restraints only and will not deploy in all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age.

Maximum towing rating. Other accessories and options may reduce maximum towing capacity. See vehicle owner’s manual for details.

The features discussed are not substitutes for attentive driving. Always check surrounding traffic, and use turn signals. Please see your owner’s manual for further details and important limitations.

---

**Q7 3.0T Prestige**

**Featuring highlights**

- **Exterior**
  - 20" 10-spoke design wheels (Gray/Polished finish) with 285/45 all-season run-flat tires
  - Full LED headlights

- **Interior/Seating**
  - Ambient LED interior lighting package
  - Four-zone automatic climate control with a dash air vent
  - Aluminum-optic/Passer vent trims
  - Twelve-way power front seats including four-way power lumbar adjustment
  - Ventilated front seats
  - Second-row side and tailgate window sunshades

- **Infotainment/Technology**
  - Audi virtual cockpit (12.3” LCD fully digital instrument cluster with two visual modes: Classic and Infotainment)
  - BOSE® 3D Sound System with 19 speakers, BOSE® Advanced Staging Technology, 15-channel amplifier and 558 watts

- Cold Weather package
  - Heated front seats and sunroof sliding frame
  - Heated rear seats

---

**Q7 3.0T Prestige Specials**

- Wheels
  - Standard
  - Optional

---

1. Tire performance may vary based on driving conditions, road surface temperature, tire pressure, and other normal wear factors. For best performance, tires should be inflated to recommended levels. Also, tires should be in good condition with no cuts, bruises, or bulges. Avoid driving on potholes, speed bumps, curbs, or other rough surfaces, as this may cause tire damage. Improper maintenance of tires can lead to reduced performance, increased wear, and even tire failure. For best performance and longevity, it is recommended to follow the tire manufacturer’s recommendations and to rotate tires at regular intervals.

2. Airbags are supplemental restraints only and will not deploy in all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age.

3. Maximum tow rating. Other accessories and options may reduce maximum towing capacity. See vehicle owner’s manual for details.

4. The features discussed are not substitutes for attentive driving. Always check surrounding traffic, and use turn signals. Please see your owner’s manual for further details and important limitations.

Audi Genuine Accessories
Add distinction, versatility and the ultimate in self-expression with Audi Genuine Accessories.
Whether you load the cargo carrier with climbing gear or add a set of stylish new wheels, we offer accessories to help enhance every facet of your lifestyle. When purchased from an authorized dealer, all pieces are backed by your vehicle’s 4-year/50,000-mile limited warranty, or for 12 months/12,000 miles from the accessory purchase date, whichever is sooner. If you’re looking to personalize or help protect the vehicle you love, we have a solution designed by Audi that works for you.

Audi Genuine Sport and Design Accessories
For a bolder appearance or a fetching touch, we have a solution that simply makes every ride more enjoyable—and more yours.
• Stylish wheel designs
• quattro® decals
• License plate frames

Audi Guard Car Care Products
Your Q7 deserves the very best, and this is it—the only car care line designed specifically for Audi.
• Leather care
• Bird remover
• Wind protection

Visit parts.audiusa.com to see the full line of Audi Genuine Accessories.

Audi Genuine Sport and Design Accessories
For a bolder appearance or a fetching touch, we have a solution that simply makes every ride more enjoyable—and more yours.

01 Fork-mount bike rack
Pursuing your favorite pastime just got easier. Made of anodized aluminum, this bike rack features a quick-clamping device that can be secured with the included lock.

02 All-weather floor mats
No matter where the day takes you, the all-weather floor mats feature a rugged design that helps protect your vehicle’s floor and carpeting from the elements. Black mats are available in sets of two for front or rear. Front mats feature the Audi Q7 logo.

03 Compact cargo carrier
Extra gear won’t take up valuable cargo space with our aerodynamic carrier that offers a generous 10.5-cu-ft capacity. Size: 76” long, 26” wide, 15” high.

04 20” 5-arm Flip Wheel
This progressive, muscular, five-spoke design is the perfect match for a powerfully elegant vehicle.

05 20” 10-double-spoke wheel and tire package
With a distinctive two-tone design, this wheel is sure to draw attention to the already imposing Q7.

06 Audi entertainment mobile
Convenient and fun rear-seat entertainment system includes 10” touch screens that can be operated independently, or mirrored to show the same content. Allows for photo and video viewing, gaming and use of apps. Includes two USB ports, remote control, integrated SD card reader, headphone jack and HDMI ports to connect to video game consoles and televisions. The Wi-Fi® enabled system secures easily to the front-seat headrests and can be used outside the vehicle.
