Your sense of luxury has been set in motion with THE NEW 2017 BUICK ENVISION.

Responsive performance, intelligent innovations and a thoughtfully crafted interior ensure that Envision is a joy to drive, and a joy to share.
Welcome inside Envision.
Enter a cabin where you’ll come to appreciate what’s meant by the idea of **BEAUTY FROM THE INSIDE OUT**.

With a modern interior designed around a center console with innovative dual-winged doors, standard features like QuietTuning™ with Active Noise Cancellation and an available seven-speaker Bose® premium audio system, Envision creates a profound sense that you’re secure, connected and truly at ease.
It only takes an instant to form your first impression of the Envision. One press of the accelerator proves it has a **SPIRITED PERFORMANCE SUITED TO THE WAY YOU LIVE.**

A glance at its elegant proportions confirms the Buick is crafted to an exceptional degree of refinement. Its bold grille and jewel-like LED-accented headlamps reflect the pure driving enjoyment you’ll experience in Envision. This is your kind of luxury.
Inspiration for the Envision interior didn’t come from other vehicles. It came from the kind of places you go to relax in style. Think boutique hotels, luxurious day spas and other blissfully quiet retreats. Think understated, uncluttered design, where the quality of the finishes, the exceptional materials and the ambience of the lighting give the space a special feeling. With Envision, the result is a conversation space where up to five passengers can travel in remarkable acoustic comfort, thanks to QuietTuning—a systematic process designed to help reduce, block and absorb unwanted noise. You’ll be in the perfect frame of mind to enjoy Envision’s full complement of features.

• Premium soft-touch materials throughout, rich trim and ice-blue ambient lighting.
• Standard hands-free power liftgate, 60/40 fold-flat rear seats and a flat rear floor make loading your belongings easy.
• Standard eight-way adjustable driver and front-passenger seats with power lumbar.
• Available French stitched, leather-appointed seats.
• Available cooled and ventilated front seats.
• Available tri-zone HVAC automatic climate control system, standard sliding second-row seating with three seatback angles and available heated rear outboard seats.
• Available seven-speaker Bose premium audio system.
How does QuietTuning with Active Noise Cancellation work? By counteracting engine noise and helping to reduce outside noise with laminated glass in the windshield and front side windows. By forming a shield using inner-door sound barriers and triple door seals. By using hydraulic top engine mounts to help absorb engine noise and vibration before it gets to the cabin and by using seating materials that absorb noise.
It's something of a lost art, the art of conversation. Thanks to QuietTuning, Envision celebrates it by inviting you into a sanctuary where conversations can flourish.
What forges the connection between a car and its driver? It starts with how well a vehicle responds to driver input—the turn of a steering wheel, the press of a brake pedal, the voice command for your phone. Apple CarPlay™ integrates seamlessly with your iPhone®, and Android Auto™ works with your compatible smartphone. As you settle into the heated driver’s seat, your hands wrap around the thick leather-wrapped rim of the available heated steering wheel, and your eyes scan the gauges laid out in front of you. Now engage the Start button and feel the powerful response of Envision’s available turbocharged engine. Ready for the best feeling of all? Move the shift lever into drive. Your every move is met by an available intelligent All-Wheel Drive with Active Twin-Clutch System, helping ensure sure-footed traction.

- An efficient and spirited 2.5L engine with 197 hp is standard. Or choose the available 2.0L Turbo engine with 252 hp and 260 lb-ft of torque to turbocharge every drive.
- The available intelligent All-Wheel Drive with Active Twin Clutch automatically adjusts torque to each wheel to optimize traction and respond before slip occurs.
- Envision’s tight turning radius makes for nimble maneuvers and easy parking.
- The available HiPer Strut front suspension provides Envision with responsive steering and cornering while it helps dampen road noise and vibration.
- Safety features and driver convenience alerts that are available include Forward Collision Alert, Side Blind Zone Alert with Lane Change Alert, Rear Cross Traffic Alert, Lane Keep Assist with Lane Departure Warning, Front and Rear Park Assist and a Safety Alert Seat, while 10 air bags2 and a Rear Vision Camera are standard.

---

1 Vehicle user interfaces are products of Apple® and Google® and their terms and privacy statements apply. Requires compatible smartphone. Data plan rates apply. 2A NOTE ON CHILD SAFETY: Always use safety belts and the correct child restraint for your child’s age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See your vehicle Owner’s Manual and child safety seat instructions for more safety information.
LISTEN

LET YOUR VOICE BE HEARD. IT’S ALL YOU NEED TO ACTIVATE FEATURES OF ENVISION’S ADVANCED AUDIO AND INTEGRATED SMARTPHONE SYSTEMS.

The 2017 Envision offers Apple CarPlay™ and Android Auto compatibility. With Apple CarPlay™ some of the apps you love on your iPhone® come alive through Siri® or the built-in display. And Android Auto easily integrates some of the power and functionality of your Android™ phone into Envision.

We made Envision quiet because we knew you wanted to hear what makes you happy. That’s where Buick IntelliLink® comes in. It includes available audio features that let you stream files from your music apps. You can even use the “More Like This” function to instantly create a playlist of songs or artists similar to the one you’re listening to.

Vehicle user interfaces are products of Apple® and Google™ and their terms and privacy statements apply. Features vary by model year, and are subject to change. Certain features require compatible Bluetooth® and smartphone. Some devices require USB connectivity. CarPlay™ requires a compatible Bluetooth® and smartphone. Some devices require USB connectivity. CarPlay™ and Smartphone. Some devices require USB connectivity. Data plan rates apply.

INTUITIVE CONTROLS: Many of the features found on the latest version of Buick IntelliLink® can be managed three ways: using the Color Touch Radio screen, intuitive natural-language voice commands or steering-wheel-mounted controls. And there’s more that IntelliLink can do to help you organize life on the road.

BUICK INTELLILINK® offers the entertainment of SiriusXM Satellite Radio® with Travel Link, with more than 140 channels, including commercial-free music, plus talk, sports, news, weather and more. And IntelliLink’s customizable app tray allows you to organize the home screen according to your preferences.

On the 2017 Envision, the available Surround Vision Camera system uses four micro-cameras embedded in the vehicle to provide the driver with a bird’s-eye view around the vehicle. When you’re parking, checking the monitor can help you avoid obstacles in your blind spots and navigate tight spaces. And when you’re driving down the road, available cameras, sensors and radar are at work watching out for you. Available Forward Collision Alert uses the cameras and radar to detect a potential collision with another vehicle on the road in front of you. If it senses that the driver isn’t braking to avoid a collision, available Front Automatic Braking automatically engages the brakes. New for 2017, Teen Driver technology supports safe driving habits by muting the audio of the radio or any device paired with the vehicle when front-seat occupants aren’t wearing their safety belts. Plus, it gives audible and visual warnings when Envision is traveling faster than preset speeds.
Available Automatic Park Assist uses ultrasonic sensors and clear driver cues to steer Envision into parallel and perpendicular parking spaces. Sensors search for an available space. Once engaged and in reverse, the system automatically steers into the space while you control the brake and shift lever. Here are other ways Envision helps you maneuver.

REAR CROSS TRAFFIC ALERT: When you’re backing out of a parking space, available Rear Cross Traffic Alert technology uses radar to detect vehicles approaching your Envision and alerts you if detected vehicles are within 65 feet of either side of your vehicle.

FORWARD COLLISION ALERT: This available technology can help you to prevent frontal crashes by sensing when you are approaching a vehicle in front of you too quickly, and it alerts you with audible and visual warnings and vibration from the available Safety Alert Seat.

FRONT AUTOMATIC BRAKING: Available Front Automatic Braking technology senses when a crash is imminent and then can automatically brake to help you reduce crash damage or help avoid colliding with the vehicle ahead in some low-speed situations.

SIDE BLIND ZONE ALERT WITH LANE CHANGE ALERT: Available Side Blind Zone Alert issues a visual warning when a vehicle enters your blind zone. Available Lane Change Alert uses radar to help watch for and warn you of vehicles approaching from behind when you’re changing lanes.

LANE KEEP ASSIST WITH LANE DEPARTURE WARNING: To help drivers avoid unintentionally drifting out of their lane, available Lane Keep Assist provides gentle steering wheel turns, and if necessary, audible and visual lane-departure alerts.

These safety features are no substitute for the driver’s responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the vehicle Owner’s Manual for important feature limitations and information.
You know that moment when you realize you need an extra hand? Well, help is now here, thanks to Envision’s hands-free power liftgate. This standard feature allows you to open and close Envision’s liftgate simply by moving your foot under a sensor beneath the rear bumper. As long as your Envision’s keyless entry fob is in your possession, this convenience is always there for you when you find your hands full. And if we know you, that’s a situation you find yourself in all the time.
Available 4G LTE Wi-Fi now travels with you. Stay connected and move effortlessly from home to work to just about anywhere without losing touch. Stream movies and TV on the go, using your favorite apps on your Wi-Fi devices.

The built-in Wi-Fi hotspot supports up to seven devices, so everyone can surf, scan, create, post and game their way through any journey at 4G speed.

Any time your vehicle is on, your hotspot is available and ready to connect to your devices, so it’s easy to use. Our strong signal means you have a fast and reliable connection. And because the built-in Wi-Fi hotspot is powered by your vehicle, you’re not reliant on your mobile device battery.

Your first 3 months or 3GB of data (whichever comes first) are included with your new Buick. After that, select a plan from OnStar that’s right for you.

Not sure how much data you need for your in-vehicle Wi-Fi hotspot? Our data calculator (att.com/att/onstardatacalc) will help you estimate data usage for email, streaming music, social media and more.

*Requires a compatible mobile device, active OnStar service and data plan. 4G LTE service available in select markets. Visit onstar.com for coverage map, details and system limitations. Data plan provided by AT&T. **Data service provided by AT&T. Temporarily free for 4G LTE coverage availability.
EMERGENCY: Automatic Crash Response® This feature can connect you to an OnStar Advisor immediately after a crash to help you get the care you need, even if you can’t ask for it. Using Injury Severity Prediction technology, Advisors can help you get the right care right away.

Emergency Services: One push of the red emergency button gives you an priority connection to an OnStar Advisor who can direct emergency services to your exact location and offer critical assistance until help arrives. With OnStar, you’re never alone.

Crash Alert® In severe weather conditions or at a crisis, Advisors can provide a fast, knowledgeable resource if you need emergency assistance, evacuation routes and other resources. OnStar can also contact family members for you.

Roadside Assistance® If you’re stranded, have a flat tire or need a tow truck, just ask an OnStar Advisor to get help to your exact location to get you back on the road quickly.

SECURITY: Stolen Vehicle Assistance® If your car is stolen, Advisors working with the appropriate authorities can pinpoint its location, slow the vehicle if conditions are safe and even prevent it from being started. And with Theft Alarm Notification, if your car alarms sounds, we’ll let you know via text, email and/or a phone call. One single call puts a team into action to help recover your car quickly and safely.

NAVIGATION: Turn-By-Turn Navigation® Getting directions is as easy as pushing a button and telling an Advisor where you want to go. Directions are quickly downloaded to your car, and a voice calls out every turn. An Advisor can also help you with a database of more than 10 million points of interest. To plan routes in advance, you can send destinations to your vehicle through an Advisor or your mobile device.

AT YOUR SERVICE® Discover value on everyday purchases while on the go. Get easy access to restaurants, gas stations, retail stores and more. AtYourService offers can be accessed from your vehicle’s radio touch-screen if available, through your myBuick mobile app® or on an Advisor Advisor.

VEHICLE MANAGER: Advanced Diagnostics® This feature can alert you when something’s going on under the hood. Diagnostic Alerts can send you a monthly report or real-time alerts available by email or text, detailing its findings. And with Proactive Alerts (if available), you can get a warning about potential issues with key components such as the battery, fuel pump, fuel pressure sensor and starter motor before they become a problem.

MYBUICK MOBILE APP® Enjoy the ultimate ownership experience through convenient control and management of your vehicle from almost anywhere. If properly equipped, you can remotely start your vehicle, locate your vehicle on a map, lock or unlock your doors, send destinations to your car, honk your horn and flash your lights. The services of the myBuick mobile app are included for 5 years on new vehicles.

To download the myBuick mobile app to your smartphone, go to the App Store of iTunes® or Google Play®.

ONSTAR SMART DRIVER® Now your vehicle can help make you a smarter driver. OnStar Smart Driver provides information about your driving behavior to help maximize your vehicle’s overall performance, reduce wear and tear, monitor fuel efficiency and help you become a better driver. You can review your report and after 90 days, you can choose to share it anonymously with participating insurance providers.

REMOTE ACCESS® With Remote Access, an OnStar Advisor can send a remote signal to lock or unlock your doors or honk your horn and flash your lights. If properly equipped, you can even use your myBuick mobile app to remotely start the vehicle from virtually anywhere.

ONSTAR HANDS-FREE CALLING® This feature is a wireless service built into your vehicle so you can easily and safely make and receive calls from the road. You must purchase calling minutes to get this service.

Since some information may have been updated since the time of printing, please check with your Buick dealer for complete details. Buick reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times.

NEW-VEHICLE LIMITED WARRANTY The warranty is for GM vehicles registered in the USA. See your Buick dealer for terms and conditions.

4 years/50,000 miles (whichever comes first): Bumper-to-Bumper Limited Warranty. The entire vehicle is warranted for repairs, including parts and labor, to correct defects in materials or workmanship. The warranty covers towing to the nearest Buick dealership, and there is no deductible for warranty repairs during the warranty period. The warranty transfers automatically with vehicle ownership during the warranty period.

6 years/70,000 miles (whichever comes first): Transferable Powertrain Limited Warranty plus Roadside Assistance and Courtesy Transportation.

6 years/100,000 miles (whichever comes first): Body and sheet metal components are warranted against rust-through corrosion.

EXPERIENCE BUICK PROTECTION Every 2017 Buick model includes a maintenance program that covers the first two visits of oil and filter changes, tire rotations and 27-point inspections for up to 2 years or 24,000 miles, whichever comes first (does not include air filters). The program is fully transferable to subsequent owners. See participating dealer for other restrictions and complete details.

AN IMPORTANT NOTE ABOUT ALTERATIONS AND WARRANTIES Installations or alterations to the original equipment vehicle (or chassis) as distributed by General Motors are not covered by the General Motors New-Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design features, materials or workmanship of any alterations by such suppliers.

ASSEMBLY Buick vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Buick vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

ENGINES Buick products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in Buick products may also be used in other GM makes and models.

TRAILERING AND OFF-ROAD DRIVING INFORMATION Please go to buick.com and carefully review the vehicle Owner’s Manual for important safety information about trailering or off-road driving in your vehicle.

A NOTE ON CHILD SAFETY Always use safety belts and the correct child restraint for your child’s age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active front air bag. See your vehicle Owner’s Manual and child safety seat instructions for more safety information.

TAKE OWNERSHIP TO THE NEXT LEVEL Create an Owner Center account to gain unrestricted access to everything you need to get the most out of your new vehicle. Receive alerts and service offers, schedule service, view vehicle-specific how-to videos and check service records. All online, anytime. Go to my.buick.com to take a tour or register your Buick today.
