HondaVAC®

With a long reach and removable waste bin, this built-in vacuum makes it easy to clean the entire interior (SE, Touring Elite).

POWER SLIDING DOORS
Dual power sliding doors maximize utility without compromising on style (EX and above).

TRI-ZONE AUTOMATIC CLIMATE CONTROL SYSTEM
The perfect way for everyone to choose their own temperature (EX and above).

COOL BOX
Keeps drinks and snacks chilled while you drive (EX-L and above).

STEERING WHEEL-MOUNTED CONTROLS
Change the music or answer a phone call with your hands on the wheel.*

SMART ENTRY
Unlock and lock your Odyssey without fishing for your keys (EX and above).

ULTRAWIDE REAR ENTERTAINMENT SYSTEM
Enjoy split-screen viewing with an ultrawide 16.2-inch screen and wireless headphones (Touring Elite).

2ND-ROW WALK-IN FEATURE
For easier access to the third row, just pull the lever and the 2nd-row seat moves forward to create extra space.

*For use in mobility. Some states have restrictions on use of handheld electronic devices while operating a vehicle. For safety reasons, always launch your audio application or perform any other operation on your phone or audio device only when the vehicle is safely parked.
FOLLOW THE LEADER
The Odyssey didn’t get to where it is today by standing still. Our signature family vehicle continues to deliver innovative technology, tasteful styling and impressive performance.

3.5-LITER V-6 ENGINE
There’s no reason a minivan shouldn’t be exciting to drive. That’s why the Odyssey puts 248 horses at your disposal with a powerful 3.5-liter V-6 engine.

27-MPG HIGHWAY RATING*
The Odyssey is an efficient performer thanks in part to Variable Cylinder Management™ (VCM™), which gives you power when you need it and less fuel consumption when you don’t.

*19 city/27 highway/22 combined mpg rating. Based on 2017 EPA mileage ratings. Your mileage will vary depending on how you drive and maintain your vehicle, driving conditions and other factors.
TECHNOLOGY THAT WORKS FOR YOU

Even the most attentive of drivers can get distracted. That’s why we’ve equipped the Odyssey with driver-assistive technology designed to help protect you and your most precious cargo.

Honda LANEWATCH™
Signal right and a small camera displays live video from your passenger-side mirror, helping make it easier to change lanes (EX, EX-L, Touring).

BLIND SPOT INFORMATION SYSTEM (BSI)
BSI uses radar sensors to detect the presence of vehicles to the side of and behind the Odyssey, to assist you during lane changes. Warning indicators alert you if the system detects a vehicle in your blind spot.
SAFETY:

YOUR SAFETY IS OUR PRIORITY

Every Odyssey is equipped with advanced safety features designed to help protect you and your passengers, mile after mile.

FORWARD COLLISION WARNING (FCW)®
The FCW system can sense the presence of vehicles in front of you, and if it calculates that you’re at risk of colliding with a detected vehicle, it activates audible and visual alerts (EX-L and above).

LANE DEPARTURE WARNING (LDW)®
A small camera searches for lane markings on the road. If it detects the driver making an unindicated lane departure, visual and audible alerts will signify the departure (EX-L and above).

MULTI-ANGLE REARVIEW CAMERA
Every Odyssey is equipped with a rearview camera. Navigation-equipped models include three different angles.

TIRE PRESSURE MONITORING SYSTEM (TPMS)®
Because lost tire pressure can dramatically affect a vehicle’s performance, TPMS is designed to alert you if air pressure becomes significantly low in any tire.

VEHICLE STABILITY ASSIST™ (VSA®) WITH TRACTION CONTROL
VSA helps you stay on course in the event of an understeer or oversteer condition by braking individual wheels and/or reducing engine power to help restore your intended course.

ADVANCED COMPATIBILITY ENGINEERING™ (ACE®) BODY STRUCTURE
The ACE body structure is a Honda-exclusive body design that enhances occupant protection and crash compatibility in frontal collisions.

*Government 5-Star Safety Ratings are part of the National Highway Traffic Safety Administration’s (NHTSA’s) New Car Assessment Program. Model tested with standard side airbags (SABs). For additional information on the 5-Star Safety Ratings Program, visit www.safercar.gov.

†VSA is not a substitute for safe driving. It cannot correct the vehicle’s course in every situation or compensate for reckless driving. Control of the vehicle always remains with the driver.
Powerful. Agile. Versatile enough to handle almost any condition. It’s no wonder Honda is the official vehicle of the NHL.³°
