20” 5-tri-spoke wheel and tire package
A sporty yet elegant design in anthracite with machine-polished spokes.

A6 winter wheel and tire package
This anthracite, machine-polished wheel boasts an asymmetrical design that perfectly complements the contemporary Audi A6.

Adding style and performance, these winter wheel and tire packages feature winter tires specifically engineered to help improve traction and handling in snow, ice—and even on dry roads—in temperatures below 45°F.1 See your authorized Audi dealer for details.

1 Even with appropriate tires, you must always drive in a manner appropriate for the weather, visibility, and road conditions, and you must maintain more distance from other vehicles since braking distances will be longer on ice- and snow-covered roads.
