

**Only one car
could pull it off.**

MinipassionMini.com

There's one car in the world that will be

remembered

as long as the man who created it. Now it lives again. Brought to you by Rover with the support of John Cooper himself. Ready to take the world and your heart by storm.

Rover reintroduce the Mini Cooper. Part of the Mini line-up from the late 1960's,

but now a Special Edition personally signed by John Cooper. Celebrating a career that has made racing history. With the power, the handling and the sheer verve that out-muscled

countless larger competitors in snowbound Monte Carlo rallies.

With the legendary charisma that no one could ever forget. And a

name that has come to mean, simply, a born winner.

Now it's available to those who know what driving is really about. Powered by a 1275cc, 61PS performance engine that can take you to 60mph in just

11.2 seconds.* Performance that no other car in its class can match. From an engine that's also kinder to today's environment — with an exhaust catalyst fitted as standard, running on unleaded

fuel. Giving you the economy you've come to expect from Mini — but so much more besides.

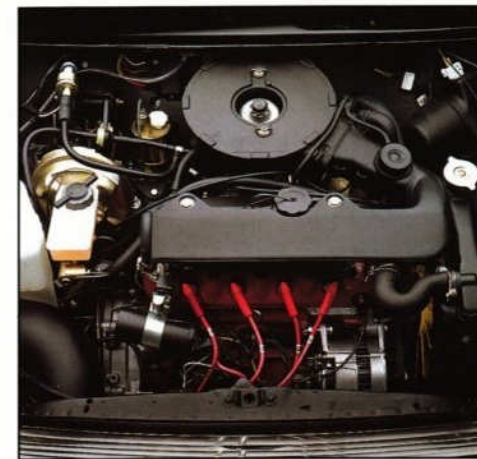

MinipassionMini.com

Halogen headlamps and twin driving lamps cutting through the night.

Take a seat — in an interior that blends sporting overtones with traditional luxury. Grip the leather bound steering wheel, with its famous badge. The instruments include, of course, a tachometer. And you'll approve of some distinctly modern additions. Such as the electronic stereo radio/stereo cassette player — good company en route. Tinted glass, and a sunroof, for when the going gets hot.

Start up the engine, and enjoy the sporty note hinting at the power under the bonnet. Drive it — and experience

handling that can negotiate Alpine hairpins as easily as Hyde Park Corner.

Follow your heart. And let the Mini Cooper take you back to the future.

The Mini Cooper is a pure racing thoroughbred. Taking the tightest bends in its stride, with alloy wheels and low profile 145/70 tyres. And announcing its

pedigree in utterly unmistakable style. The familiar two-tone coachwork. The traditional chrome

finish radiator grille, bumpers and door handles.
