

01 4RUNNER

SR5 shown in Imperial Jade Mica with available Sport Package and available roof rack.

Since its inception, 4Runner's rugged enthusiasm has helped its owners expand their boundaries and test their limits. Class-leading ground clearance and available sophisticated 4-wheel-drive technology means there are few places 4Runner can't go. This year's models feature a new integrated front grille, taillamps and new aluminum alloy wheels. Gritty. Capable. With a variety of talents, it's no wonder the adventurous put their trust in 4Runner.

STANDARD FEATURES
SR5

- Aerodynamic multi-reflector halogen headlamps with Daytime Running Lights (DRL)
- Chrome front and rear bumpers and grille
- Color-keyed heated power outside mirrors

¹4-wheel Traction Control in 4WD only. Rear-wheel Traction Control in 2WD mode.

²The Toyota driver and front passenger air bags are Supplemental Restraint Systems (SRS). The driver and front passenger air bags are designed to inflate in a severe frontal collision. In all other accidents, the air bags will not inflate. To decrease the risk of injury from a deploying air bag, always wear seatbelts and sit upright in the middle of the seat as far back as possible from the air bag modules. Do not put objects in front of an air bag. Do not use rearward-facing child seats in any front passenger seat. The force of a deploying air bag SRS may cause serious injury or death. Please see your Owner's Manual for further instructions.
