Windstar LIMITED

Limited shown in Estate Green Metallic and Mineral Grey Metallic.

## What a way to tell them you've arrived.

In style. In luxury. In comfort. To say that Windstar Limited is just a minivan is a definite understatement. Why, just opening the doors to its supple, two-tone leather quad seating surfaces should be proof enough of that. But then add the fact that they're 6-way power adjustable driver and front passenger heated seats with driver-side memory setting and lumbar support, and are reclinable to boot, and it's pretty much clinched. Still, with Windstar, the pampering doesn't stop there. Further refined touches say as much. Such as a classically designed wood and leather-wrapped steering wheel. Distinctive instrument cluster accents. Plush carpeting underfoot. There's even the convenience and safety of heated power mirrors with integrated safety signals and the confidence that comes with power adjustable pedals. Add the exceptional sound of an AM/FM stereo with a 6-disc in-dash CD player and digital clock and you can't help but conclude that Windstar Limited is anything but limited.

Limited shown in Premium two-tone Medium Parchment Leather trim.

# Hard as it might seem at times, you *can* find inner peace.

Just thinking about the optimum comfort and luxury of leather-trimmed, 7-passenger seating would be a start. Then consider the power controls that customize your seat position to fit your driving style, and the fact that both front seats are heated. What could be better? Distinctive easy-to-read instruments and controls help you appreciate everything. Add to that the thoughtful leather-wrapped steering wheel, front and rear temperature and audio controls, and the generous storage, and suddenly you're in your element.

- 1 How convenient is that? Windstar Limited's **memory feature** remembers and resets the position preferences of seats and outside mirrors for two totally different drivers. You've got enough on your mind already.
- 2 Sounds like an open-and-shut case. Windstar's **remote keyless entry system** unlocks the driver door, passenger door and opens and closes the rear power sliding doors with a push of a button. And its **SecuriLock™** coded-key passive anti-theft system acts as an engine immobilizer.
- 3 Audiophiles listen up! Windstar's **AM/FM stereo with a 6-disc in-dash CD player** is music to your ears. And one "sound" decision.
- 4 Windstar offers an optional **AutoVision® Video Entertainment System** with remote. For 2003, the family could think it's the most popular show on the road.

windstar LIMITED

windstarSE

SE shown in Light Parchment Gold Metallic.

## Who's kidding whom? Windstar is as much for you as it is for them.

Sure they'll love the available AutoVision<sup>®</sup> Video Entertainment System and 6-disc in-dash CD player and rear audio controls. Heck, they'll even love the fact that everyone who's anyone, and everyone who's anyone's gear, can pile in and car-pool with them to soccer. But you'll love its power adjustable pedals, its sporty low-back quad bucket seats, the confidence of 4-wheel ABS, and the convenience of heated power mirrors with built-in safety signals. In fact, if you'd ever admit it, you might even say you love the pampering of the leather-wrapped steering wheel. And no one would argue with that.

windstar SE

SE shown in Medium Graphite Cloth.

## Considering everything it has to offer, the word “mini” hardly seems appropriate.

It's big on comfort, big on space, big on convenience, big on... well, does that seem “mini” to you? It's just like Windstar, though, to be more than what's expected. Its stretch-out, lay-back quad bucket seats in wear-and-tear-tough cloth can pamper your family one day, and be reconfigured to accomplish a weekend project the next. The overhead console is home to Windstar's conversation mirror, temperature readings, compass, map light and such. It's also handy storage for things like sunglasses and remotes. And the back seat doesn't take a back seat to anything. Rear temperature controls and audio tuning respect individuality. And that's pretty big, too.

- 1 Power adjustable accelerator and brake pedals can be positioned for up to three different drivers – not just for comfortable seating, but for improved driver control. So, who's got the Windstar tonight?
- 2 Every Windstar comes with built-in child seat anchors to make installing a child safety seat a snap, and you more assured about doing it.
- 3 The conversation mirror will let you keep an eye on things in the back. A little glance lets them know you care. And that's what Windstar is all about.

windstar LX

LX Deluxe in Silver Frost Metallic.

## When was the last time something like going on vacation was really a vacation?

Say so long to "Are we there yet?" Windstar is stocked with kid-friendly, attention-absorbing features and options like the AutoVision® Video Entertainment System, or an AM/FM stereo with single CD and cassette player. And then there's the key to squelching that famous "he's bugging me" complaint with a seemingly infinite number of seating options and ample personal space. It all adds up to Windstar not just being the right way to get there, but the only way to get there (at least if you plan on keeping your sanity).

# If it took any better care of you, you might be tempted to call it “Mom.”

- 1 Available 1st-row **side-impact airbags\*** deploy in a millisecond, readily helping to protect you and your front passenger in certain side-impact collisions.
- 2 Available heated **power mirrors with integrated safety signals** keep things in focus when snow or ice obscures the view. Integrated turn signals clue in other drivers as to where you're going.
- 3 Windstar handles the pressure just fine, thank you. With its standard **Low Tire Pressure Warning System**, it alerts the driver when tire pressure is low.
- 4 Windstar's standard 4-wheel **anti-lock braking system** provides an extra measure of handling ability over slick or uneven pavement by reducing wheel lockup in sudden braking. Now, just imagine what that does for steering control, not to mention driver confidence.
- 5 No fumbling with keys, no fighting with locks. With Windstar's available **keyless entry keypad**, just enter your code and you're in. Nice and easy, nice and secure.

\*Always wear your safety belt and secure children in the rear seat.

## PERSONAL SAFETY SYSTEM™: SIX TECHNOLOGIES DESIGNED FOR YOUR COMPREHENSIVE PROTECTION

In a front crash, **dual stage airbags** are properly deployed with the help of **crash severity sensors**. Depending on the severity of the impact, it's determined how much energy is needed to deploy the airbags. **Safety belt pretensioners** act to tighten the belts to ensure that the passenger is held securely in their seated position. The **driver's seat position sensor** relays data to the airbag's computer as to how far away the driver is seated from the steering wheel. The **safety belt usage sensors** determine if the driver and front passenger are belted. This information helps select the inflation rate and timing of the airbags. If a severe accident occurs, **safety belt energy management retractors** limit the belt forces to a predetermined maximum and then "hand off" to the deploying airbag. In an accident, this electronic coordination is carried out in a split second. Actually quicker. All in all, the Personal Safety System is one of the most sophisticated vehicle safety systems available to you today.

- 1 The available reverse sensing system offers the security of knowing you'll be alerted to objects directly behind the vehicle. Using a series of beeps, it helps you gauge your distance.
- 2 The standard Low Tire Pressure Warning System constantly monitors all four wheels in order to tell you if any of the tires have lost appropriate air pressure.
- 3 Standard 4-wheel ABS brakes help maintain steering control in hard braking situations to help avoid a possible accident.
- 4 Windstar's built-in LATCH child safety seat system makes attaching a child's safety seat a snap, and you less frustrated and more assured about doing it.
- 5 Windstar's on guard to help protect you and your front passenger in certain side-impact collisions. Ready to deploy in a moment's notice, available side-impact airbags are mounted in the front seats and protect both the head and chest.
- 6 Once Windstar is locked, its perimeter anti-theft system monitors the doors, hood and liftgate against anyone but you entering them.
- 7 Its "safety cell" unitized body construction helps Windstar absorb collision impact by transferring collision forces throughout the passenger compartment.
- 8 Windstar's dual stage front airbags<sup>®</sup> make sure just the right amount of airbag pressure is used in the event of a severe frontal crash.
- 9 Windstar's SecuriLock™ passive anti-theft system immobilizes the engine until your specially coded ignition key gives the signal.
- 10 Here's a nice choice. With Windstar's available self-sealing tires, even small punctures avoid flats.
- 11 Available All-Speed Traction Control helps maintain traction and steering control on a variety of slippery surfaces by using anti-lock braking system components to monitor wheel slippage.

## SPECIFICATIONS

## STANDARD FEATURES

### Safety/Security

Personal Safety System™ for driver and front passenger – With dual stage airbags, safety belt pretensioners, energy management retractors, safety belt usage sensing, driver's seat position sensing, crash severity sensing, and restraint control module

4-wheel anti-lock braking system (ABS)

Autolock – Doors lock automatically when driving

Belt-Minder™ safety belt reminder

Brake/shift interlock

Bumpers – 5-mph energy-absorbing

Low Tire Pressure Warning System

Power window lockout feature

Rear upper and lower child safety seat anchors for outboard seating positions

"Safety cell" unitized body construction

SecuriLock™ – Passive anti-theft system

Side intrusion door beams

Warning lights – Low fuel level, fuel cap off, low oil pressure, low washer fluid, brake system, ABS, charging system, high beam indicator and tire pressure loss warning

### Mechanical

3.8L OHV V6 engine with split-port induction

4-speed electronic automatic transaxle with overdrive lockout

4-wheel power front disc/rear drum brakes with ABS

100,000-mile tune-up interval\*\*

Battery saver

Front-wheel drive

Fuel tank – 26-gallon capacity

Power rack-and-pinion steering

Stabilizer bar – Front

Stainless steel exhaust system

Suspension – Front: independent MacPherson strut; rear: torsion beam

### Seating

7-passenger seating

### Interior

Accessory delay for power features

Air conditioning

AM/FM stereo with digital clock and 4 speakers

Cupholders – Up to 13 (depending on series)

Dome lights – Front and rear

Floor mats – Front and rear

Power door locks – With child safety locks on rear sliding doors

Power front windows – With one-touch-down driver's side feature

Power points – 1st row passenger side and rear cargo area

Shoulder belt height adjusters – 1st row

Tilt steering column

### Exterior

Antenna – Concealed in glass

Bodyside moldings

Power 3rd-row flip-open windows

Power mirrors

Rear defroster

Solar tinted glass

Windshield wipers – Front and rear interval

\*\*Always wear your safety belt and secure children in the rear seat.

\*\*Under normal driving conditions with regular fluid and filter changes.
