

The 2003 Saturn ION

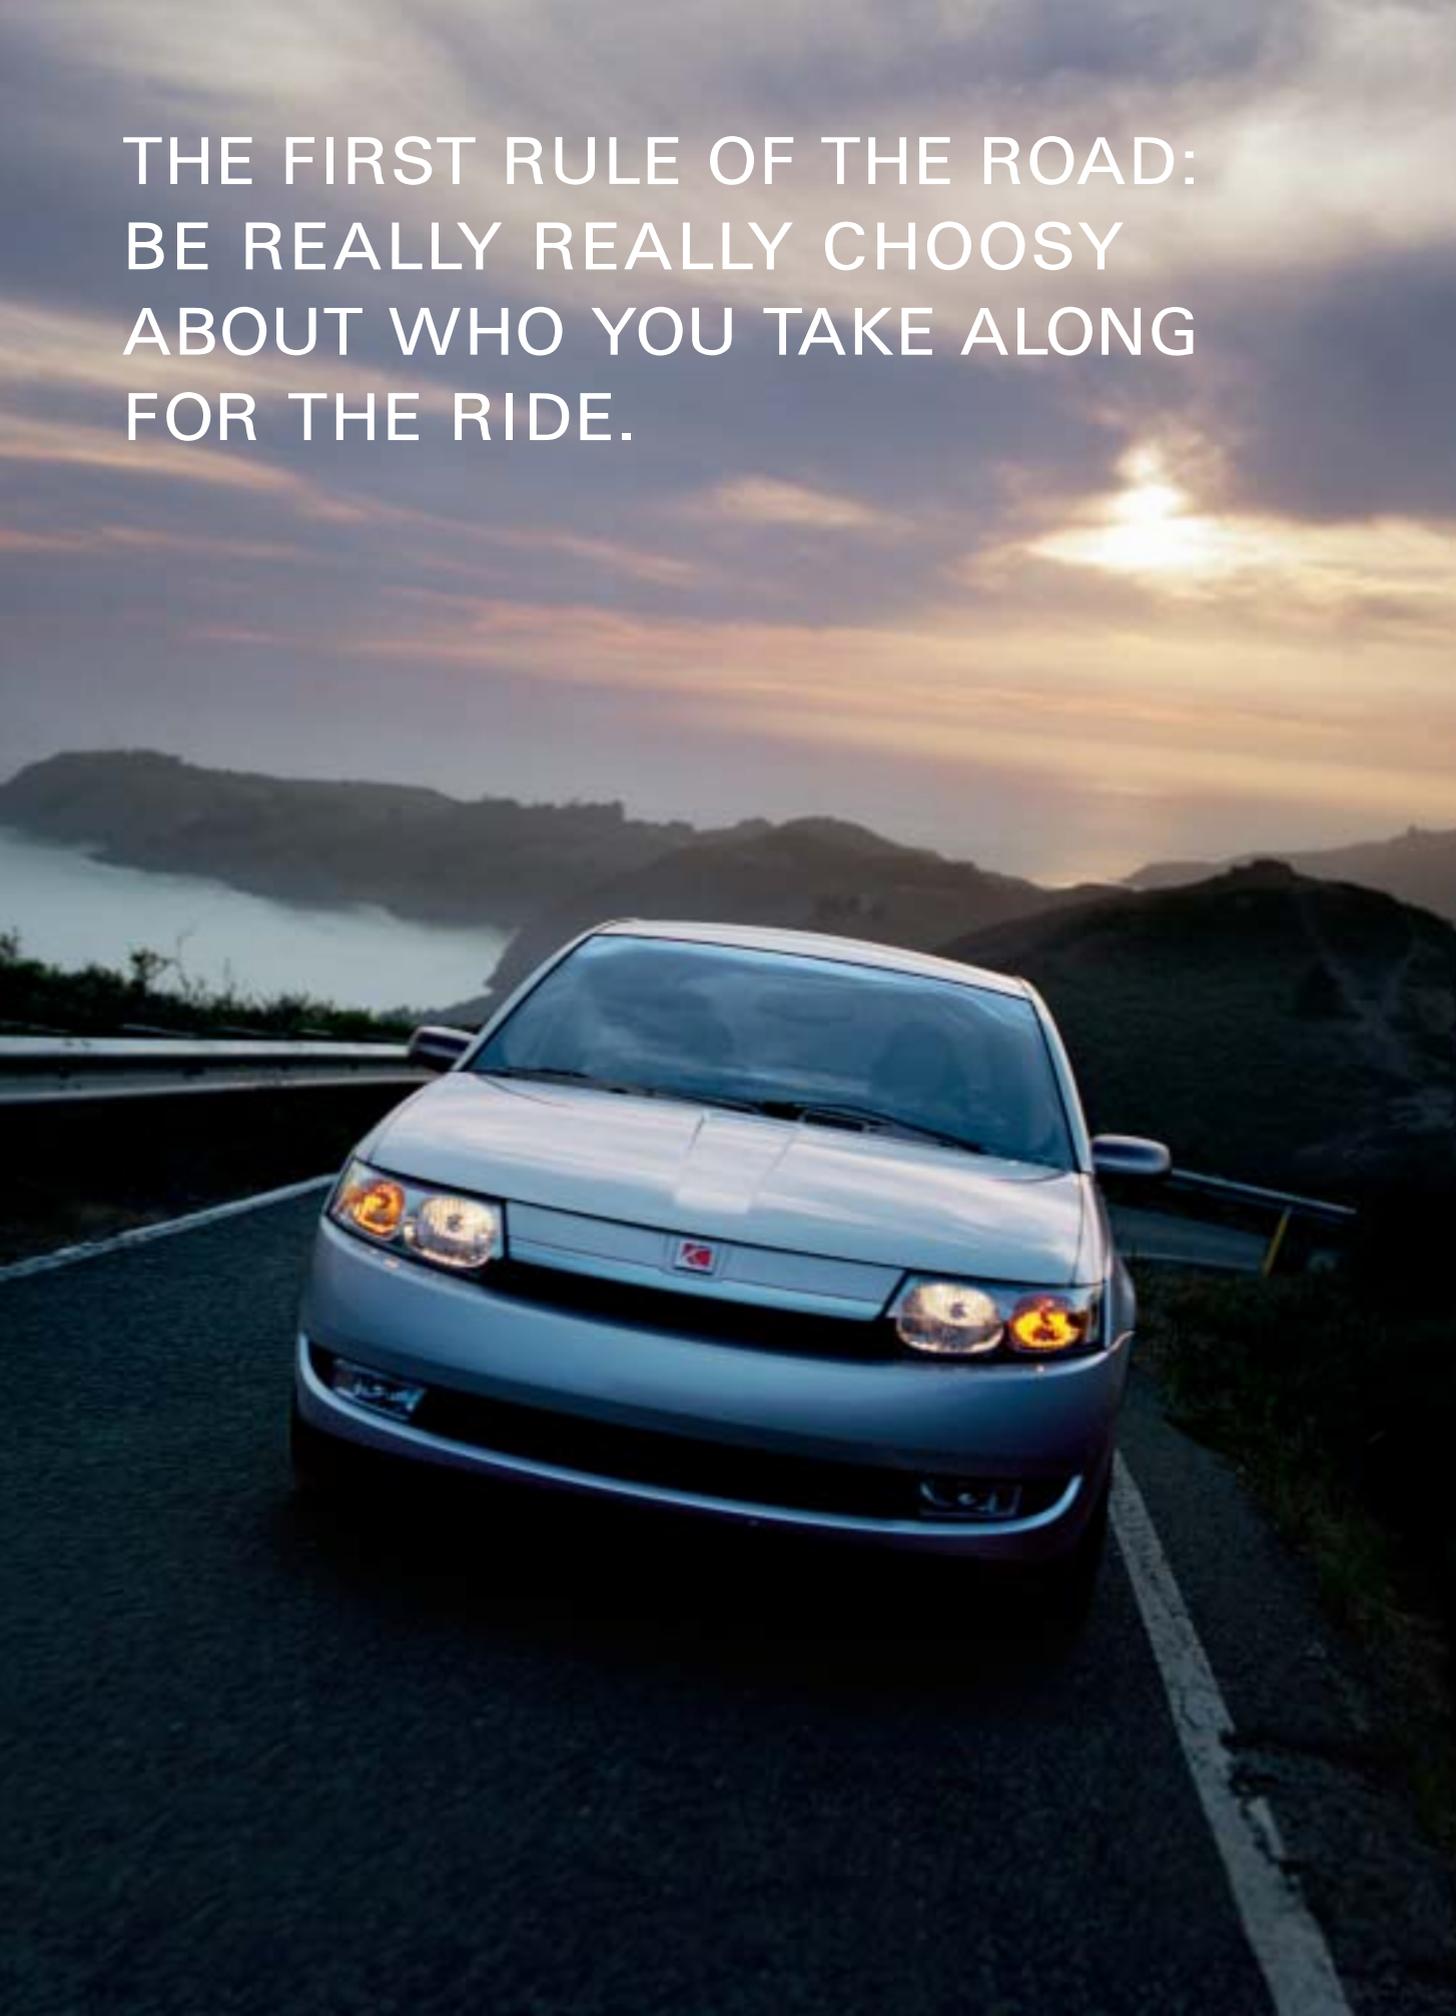

GO >

TREAT YOUR ODOMETER LIKE A RÉSUMÉ: THE MILES ADD UP TO WHO YOU ARE.

THE FIRST RULE OF THE ROAD:
BE REALLY REALLY CHOOSY
ABOUT WHO YOU TAKE ALONG
FOR THE RIDE.

It all starts with a simple decision, about which ION is right for you. Is it the sedan or the quad coupe? The streamlined ION•1, the nicely equipped ION•2, the extra-deluxe ION•3? Truly, you can't go wrong, since every ION is outfitted with a decidedly road-hungry 2.2-liter, 140-horsepower, dual-overhead-cam engine. Other standard features include electric power steering, dual power outlets, and a turn signal left-on reminder—thoughtfully designed to prevent the embarrassment of blinking your way down 50 miles of highway. Choose the mid-level ION•2 sedan or quad coupe, and you'll get another generous supply of features, like power door locks, air conditioning, height-adjustable driver's seat and a CD player. The ION•3 models are additionally packed with 16" alloy wheels, cruise control, foglamps, plus power windows, mirrors and door locks with remote keyless entry and alarm.

Quad coupe available in 2003.

A CAR. BUT ALSO, A MEANS OF ESCAPE.

Let's talk about the unbridled joy that comes with having your own ION, the sheer freedom of it. A single set of keys can take you from wherever you are, to places you've never been. And because the ION is generous on space, you can always bring a couple of friends along for the ride. Built to be roomy, powerful, and easy to maintain, the ION is the key to an ever-expanding collection of good driving memories. Its engine is designed to be quiet enough to allow all those life-changing conversations the road seems to inspire, but if you listen closely, you can hear it say *keep driving keep driving keep driving.*

The quad coupe's dual rear access doors and fold-flat front passenger seatback make it easy to load up.

FIVE ENCORES AND STILL COUNTING.

IT'S TIME TO LEAVE THE CROWD BEHIND.

It's half-past super late and you have to get up on the early side.

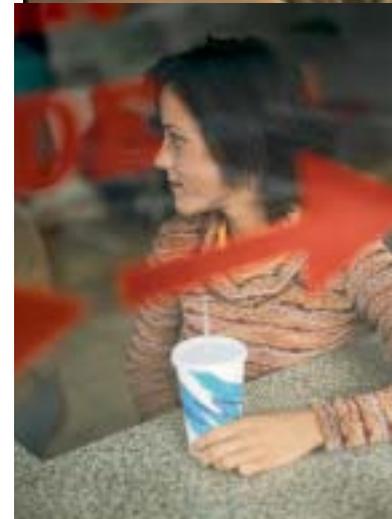

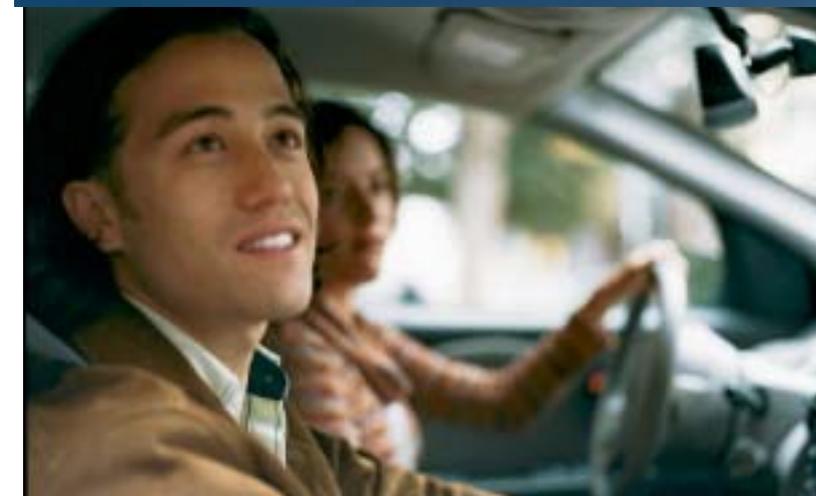

But since when does responsibility get the final say?

Ringing ears and restless mind,
start scanning the streets for a place to absorb the city quiet.

Stop for burgers and fries, ambrosia after a long night.

Back home, car in the driveway, head on the pillow, say goodnight.

Another episode of life.

It's true: Calories don't count when you're on the road.

DRIVE A COMFORTABLE CAR.
EVERYONE KNOWS UNCOMFORTABLE PASSENGERS GET MIGHTY CRANKY.

Ergonomically designed seating for all, with raised theater seats in back for a better view. Available air conditioning with built-in dust and pollen filters. Equal access to quality stereo sound, with the option of a six-disc, in-dash CD changer.¹ Simply put, the ION is democratically designed, to be welcoming to both driver and passengers. ¹Not available on ION-1.

Leather Appointments available only on ION-3.

IS IT A FUN CAR THAT'S SURPRISINGLY ROOMY? OR A ROOMY CAR THAT'S SURPRISINGLY FUN?

In some ways, the ION seems to defy the laws of logic. After all, who'd think that the sporty quad coupe could hold a bike, one of those big exercise balls, or even an eight-foot-long kayak? But it can, thanks to the unique combination of dual rear access doors, split fold-down rear seatbacks and fold-flat front passenger seatback. In addition to split fold-down rear seatbacks, the ION sedan also happens to have the largest trunk of any other car in its class.[^] Adding to the general spaciousness is the ION's center-mounted instrument cluster. Moving all the gauges from their usual place allowed us to create a smaller, sportier steering wheel, which makes it easier to get in and out of the driver's seat. The bonus: when you adjust the steering wheel, it's for comfort alone.

Other tasty, optional morsels: Leather Appointments, power sunroof,[±] auto-dimming mirror with digital temperature and compass displays, and the Saturn Advanced Audio System with 160-watt amplifier and six premium speakers.[‡]

[^]Comparison based on 2003 competitive data available at time of printing. [±]Not available at the start of production. [‡]Features not available on ION•1. See page 35 for details.

FOLLOW THE MAP ONLY TO THE DEGREE THAT YOU FEEL LIKE IT.

Spontaneity taps you on the shoulder and announces, it's time to go.
Call your fellow-adventurers, promise stacks of memories for their mental in-boxes.

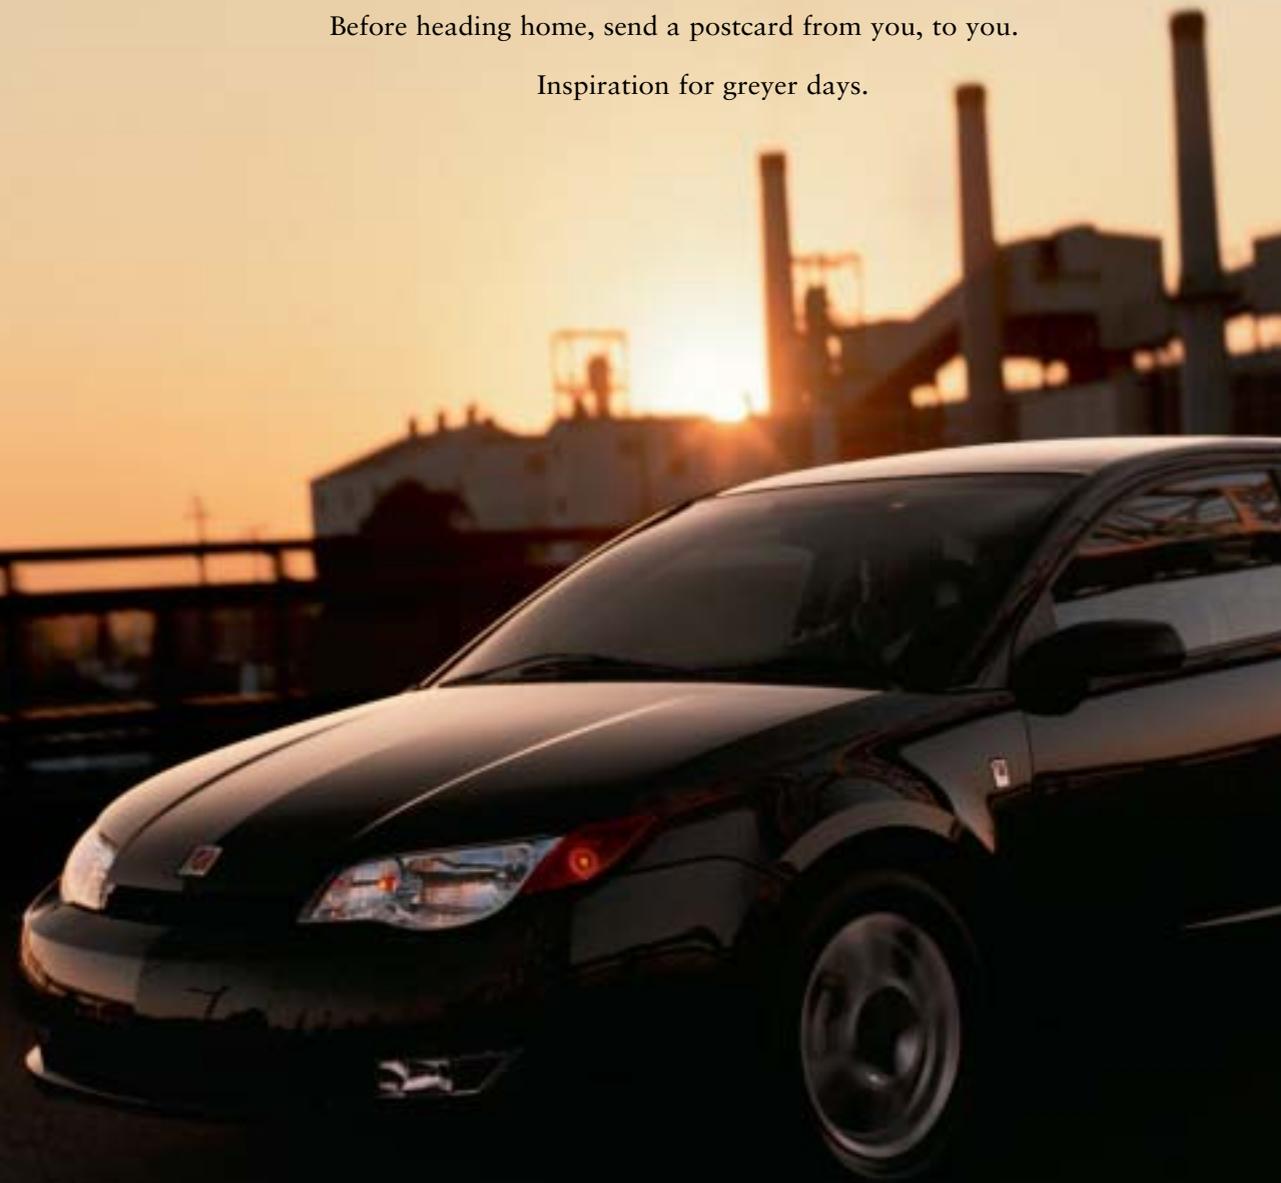

Pile in the car, find the nearest on-ramp,
and put some miles between you and your front door.

Arrive at the boardwalk and ride the coaster, flirt with whoever's in charge of Skee-Ball,[®]
get your fingers sticky with cotton candy.

Head for the beachside parking lot, watch the sunset—it's okay to be corny about it.

Before heading home, send a postcard from you, to you.

Inspiration for greyer days.

On the road to Santa Cruz 7AM

Remember the day you got your driver's license? Pure freedom, in all its wallet-sized, hologrammed, laminated glory.

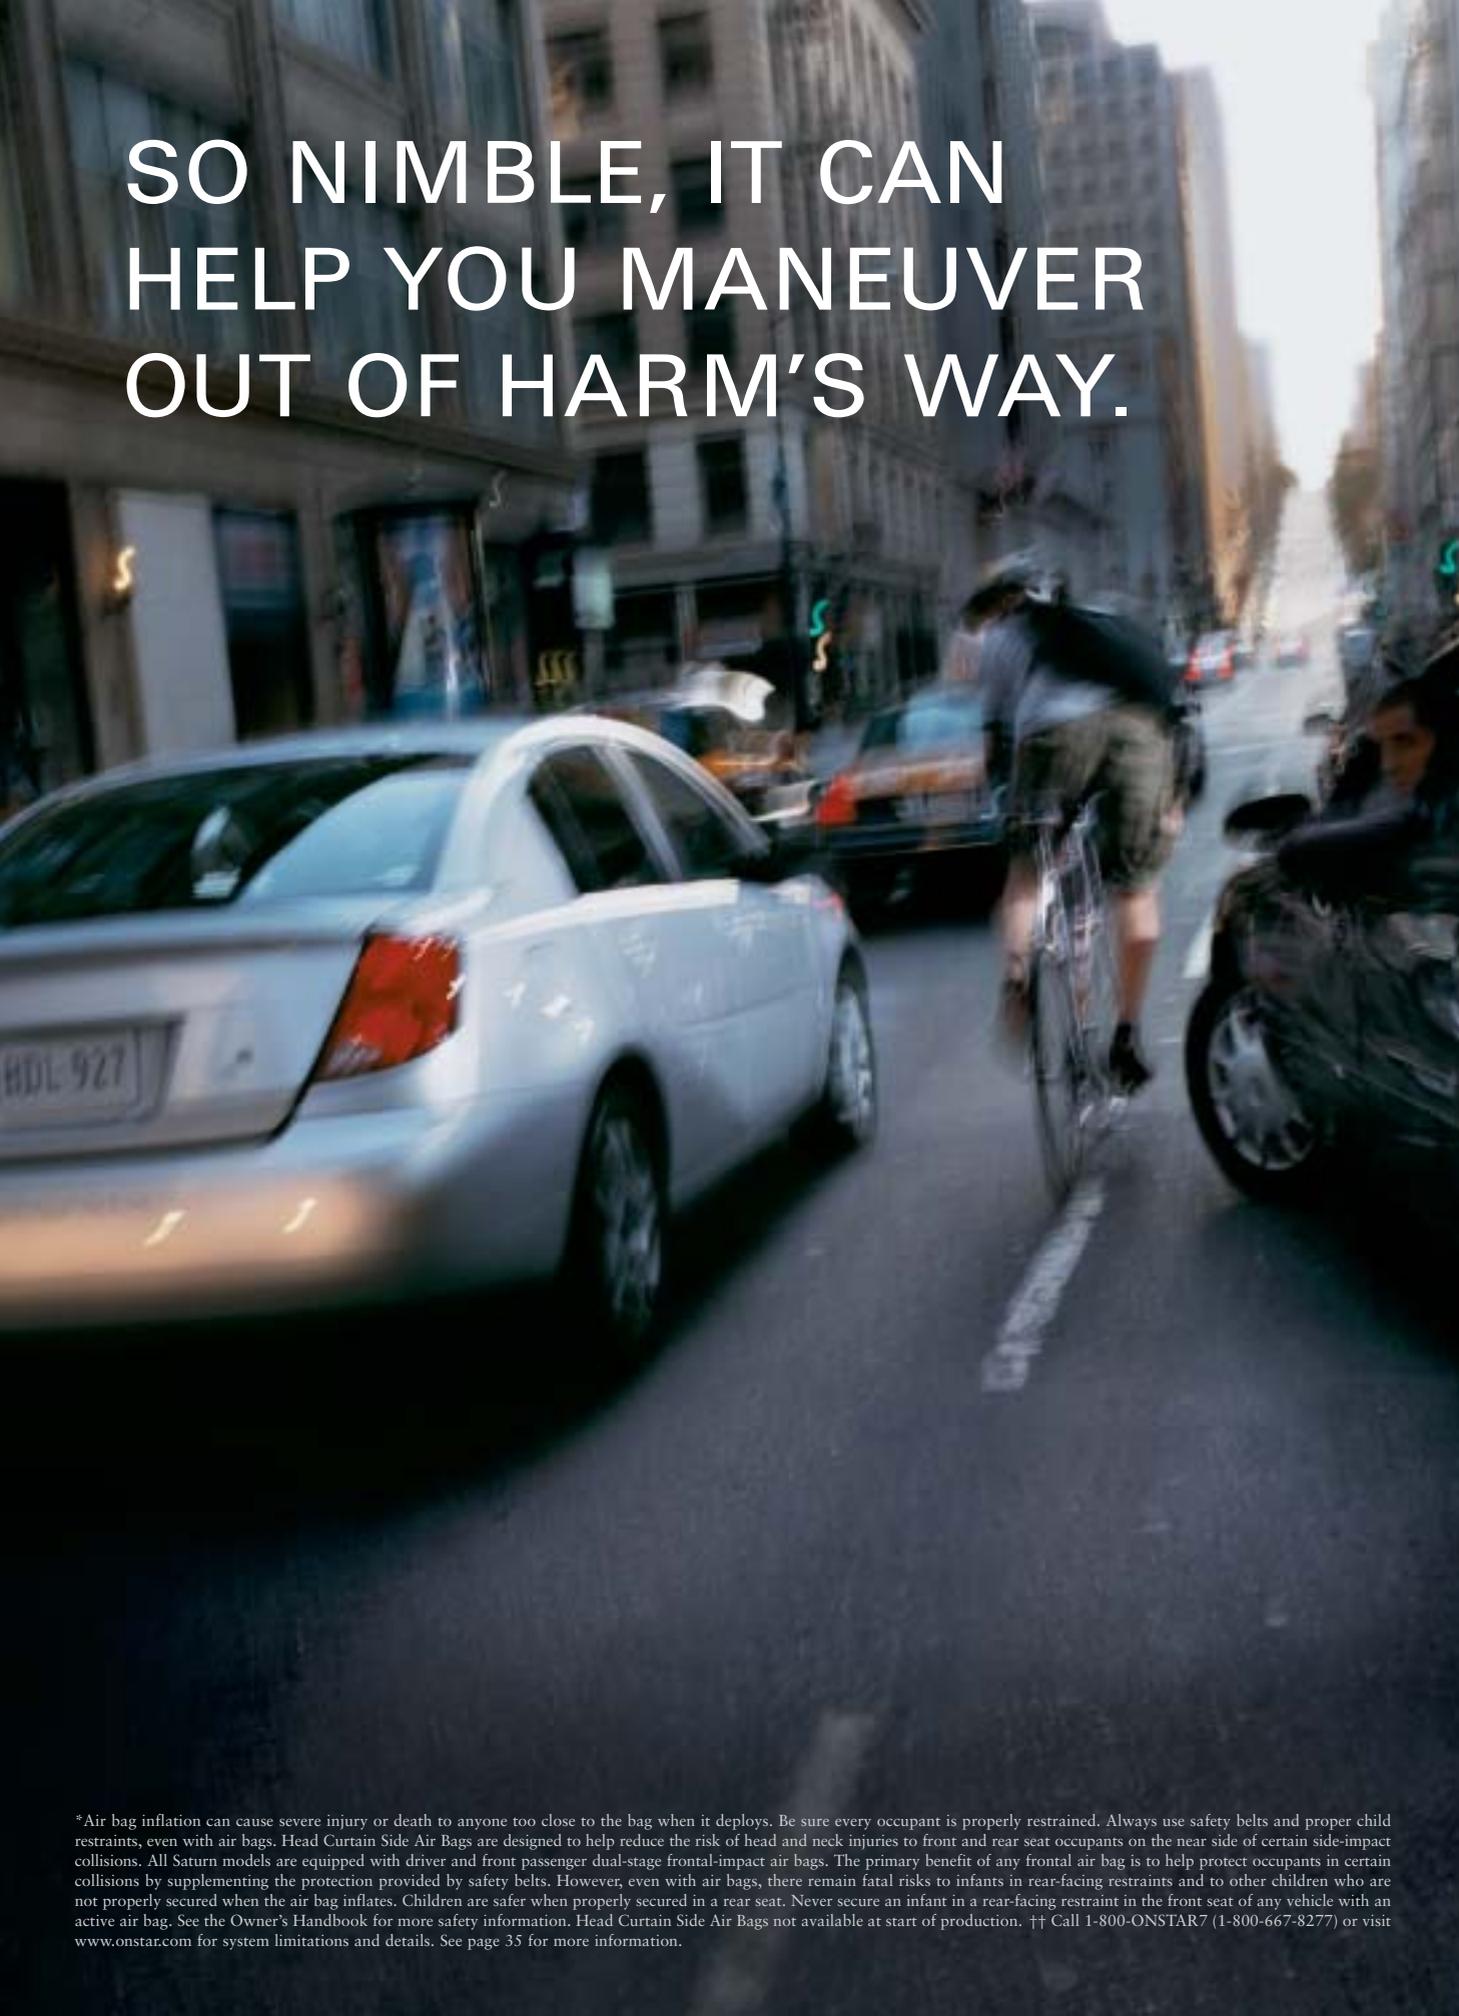

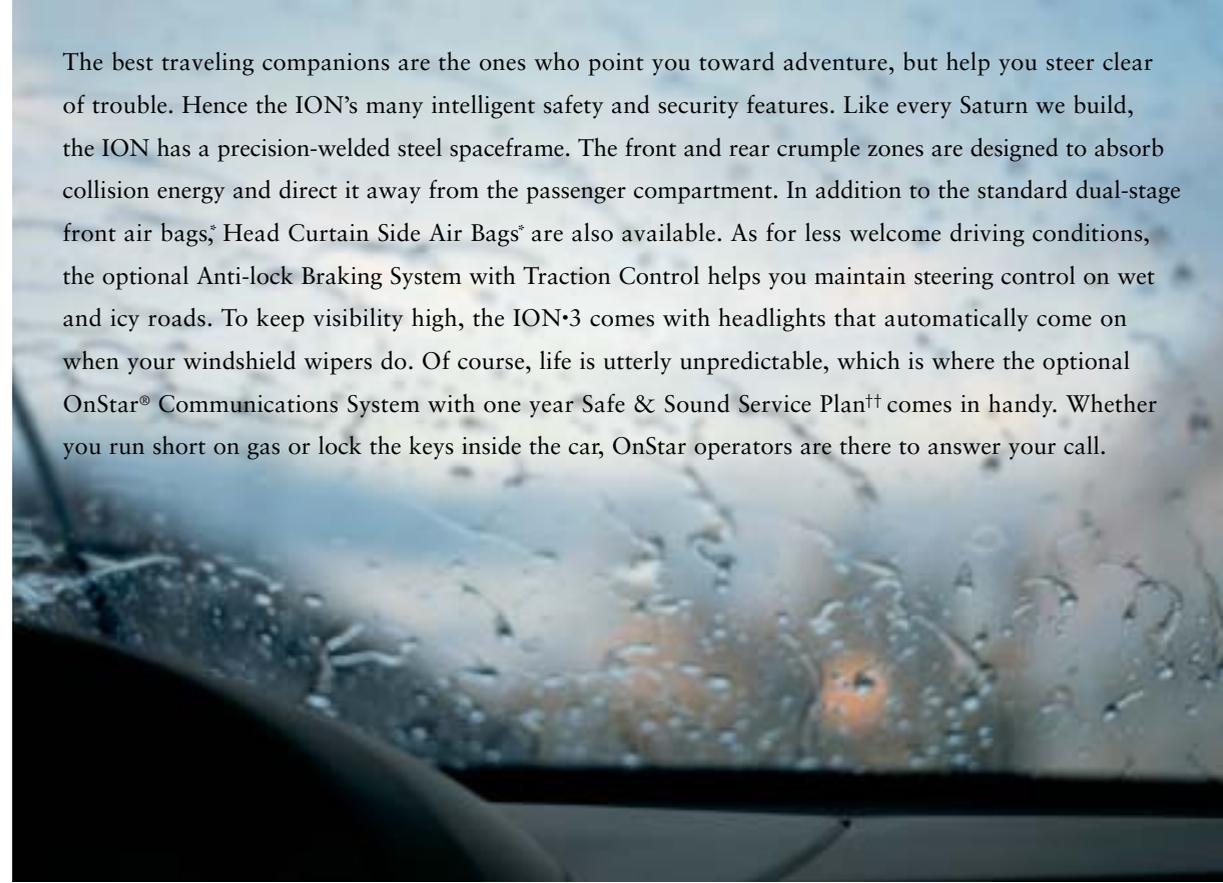

THE ION IS A
ROAD-LOVING CAR.
IT CRAVES ASPHALT
AS INTENSELY AS
WE CRAVE OXYGEN.

You can park it, but the ION is infinitely happier pushing toward the highway. And that's not just because there's a 140-horsepower engine under its hood. It's also how the engine works in tandem with the standard German-engineered five-speed manual transmission, allowing you to optimize control for an all-out feel for the road. If you prefer an automatic, the sedan is one of the few cars in its class to offer an optional five-speed transmission, which provides smooth, intuitive shifting on fast-moving freeways and winding mountain passes. Meanwhile, the quad coupe has an optional VTi variable transmission, which allows genuinely seamless acceleration. Every ION is additionally equipped with front and rear stabilizer bars for a crisp, sporty ride. Oh, and since speed often comes with bumps, the ION's front and rear suspension systems have been specially designed to keep passenger jouncing to a minimum.

SO NIMBLE, IT CAN
HELP YOU MANEUVER
OUT OF HARM'S WAY.

The best traveling companions are the ones who point you toward adventure, but help you steer clear of trouble. Hence the ION's many intelligent safety and security features. Like every Saturn we build, the ION has a precision-welded steel spaceframe. The front and rear crumple zones are designed to absorb collision energy and direct it away from the passenger compartment. In addition to the standard dual-stage front air bags*, Head Curtain Side Air Bags* are also available. As for less welcome driving conditions, the optional Anti-lock Braking System with Traction Control helps you maintain steering control on wet and icy roads. To keep visibility high, the ION•3 comes with headlights that automatically come on when your windshield wipers do. Of course, life is utterly unpredictable, which is where the optional OnStar® Communications System with one year Safe & Sound Service Plan†† comes in handy. Whether you run short on gas or lock the keys inside the car, OnStar operators are there to answer your call.

*Air bag inflation can cause severe injury or death to anyone too close to the bag when it deploys. Be sure every occupant is properly restrained. Always use safety belts and proper child restraints, even with air bags. Head Curtain Side Air Bags are designed to help reduce the risk of head and neck injuries to front and rear seat occupants on the near side of certain side-impact collisions. All Saturn models are equipped with driver and front passenger dual-stage frontal-impact air bags. The primary benefit of any frontal air bag is to help protect occupants in certain collisions by supplementing the protection provided by safety belts. However, even with air bags, there remain fatal risks to infants in rear-facing restraints and to other children who are not properly secured when the air bag inflates. Children are safer when properly secured in a rear seat. Never secure an infant in a rear-facing restraint in the front seat of any vehicle with an active air bag. See the Owner's Handbook for more safety information. Head Curtain Side Air Bags not available at start of production. †† Call 1-800-ONSTAR7 (1-800-667-8277) or visit www.onstar.com for system limitations and details. See page 35 for more information.

WINDOWS DOWN, STEREO UP.

RESPONSIBILITY WILL LOOSEN ITS GRIP EVENTUALLY.

Pour some cereal. Out of milk, set out for the store.

In the mood for a drive, pick up some friends and push out of the neighborhood,

through the city, as close to the water as the road allows.

Reach the limits of land, but decide to keep moving, take the car ferry, see what's on the other side.

Treat yourselves to snack bar coffee, juice, cinnamon rolls.

All part of a balanced breakfast.

You never know when adventure is going to knock on your door and ask you to take it for a ride.

BUYING AN ION. LET THE FUN BEGIN.

Pretty exciting, the thought of treating yourself to a hefty dose of that new car smell. And the one thing we don't want is to turn your ION shopping experience into a bad trip. So feel free to ask all about the engine, the features, the financing, or even the easiest way back to the freeway. We'll give you straight answers, the kind that don't make you feel like we're wasting your time with some kind of runaround. After all, we both want the same thing—the perfect match between you and your car. Maybe that good attitude is how Saturn got the top award in two separate J.D. Power and Associates studies—#1 Nameplate in Sales Satisfaction and #1 Nameplate in Customer Satisfaction With Dealer Service.[‡]

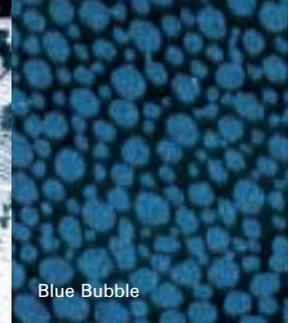

Sometimes, your subconscious will tell you that it's time to buy a car. For instance, when you find yourself inexplicably drawn to online car sites. In which case, you might want to check out saturn.com. You'll find in-depth information about all our vehicles, right down to the sticker price.

Cargo net, floor mats, spoiler, ski rack: the ION is available with lots of different accessories. For a complete list of retailer-installed accessories, check saturn.com.

BE SUBTLE. OR IF YOU PREFER, TOTALLY NOT SUBTLE AT ALL.

Some people like beaded seat covers. Others dream about a full-on shag interior. How you choose to make an ION your own is entirely up to you, but your Saturn retailer can help you get a head start with optional personalized exterior roof rails, interior trim kits and key fobs. Available patterns are shown above and can be combined with any exterior color. Not available at start of production.

THE BEST PART ABOUT WASHING OFF PAST MILES, IS THAT IT LEAVES ROOM FOR FUTURE ONES.

*For every stop, there's a go.
For every road that leads you away
from home, there's one to bring you
back. And for every ION we build,
there's someone who's ready to round
up their friends and go for a drive,
ready to start creating amazing
joyful crazy memories. Keep driving.
Keep searching for places you've
never been. Keep looking for
adventure in places you'd never
expect to find it. The all-new ION.
Have fun out there.*

Moneyback guarantee: All vehicles from Saturn include our 30-day/1,500-mile moneyback guarantee, so you can buy with confidence. If you are not completely satisfied, for any reason, just return the vehicle to your Saturn retailer within 30 days of delivery or 1,500 miles (whichever comes first) to select another or to receive a full refund. See retailer for limitations and restrictions. Warranty: 3 years/36,000 miles (whichever comes first, except normal maintenance). No deductible. Original equipment tires are also covered under this warranty. If you want to know more about the Saturn "Bumper to Bumper" New Car Limited Warranty, please visit your Saturn retailer. 24-Hour Roadside Assistance: Every Saturn owner is automatically enrolled in Saturn's 24-Hour Roadside Assistance Program. If you experience a problem, you can dial toll-free 1-800-553-6000, and Saturn advisors will arrange towing service or other assistance. If the problem is covered under warranty, Saturn will pay for the cost of the towing service. Coverage begins at the moment of purchase and continues throughout the term of your car's "Bumper to Bumper" New Car Limited Warranty. Owner Assistance: If you need help or just have a question about your Saturn, you can call your retailers and ask for the Customer Assistance Liaison, who will personally handle the request. You can also contact Saturn directly by calling our Customer Assistance Center at 1-800-553-6000 or by sending an e-mail by going to saturn.com.
