

The 2006 Saturn RELAY

*You are a parent, a coach, a protector.
You are a music lover, a movie fan, a multimedia enthusiast.
You like style, comfort, the things that make life a little easier.
But you know that feeling safe is all that matters, really.
You, in other words, are asking for a lot.
Fortunately, we have an answer.*

The 2006 RELAY.

The RELAY-3 shown in Black Cherry. To see the RELAY in every available color, visit saturn.com/relay.

Master of chaos, organizer of families. Beneath the RELAY's clean exterior lines lies a versatile range of storage solutions, all designed to keep everything in order. There's the customizable overhead rail system, available hideaway rear storage bins, available second row toy box, and seatback storage that's perfect for holding headphones and all the other things that always seem to end up underfoot. What's more, the RELAY's cargo space can be quickly configured and reconfigured, thanks to second and third row seats that can be folded flat or removed altogether.¹ For the really big things, Saturn retailers have lots of ways to equip the RELAY's available trailer hitch and roof rack cross bars so you can bring skis, snowboards or bikes, a cargo box, boat or even a camper.²

¹When equipped with side air bags, second row captain's chairs cannot be removed. ²Maximum trailer ratings are calculated assuming a properly equipped base vehicle plus driver. See specifications page for details.

Both of the RELAY's available V-6 engines can tow up to 3,500 pounds.² Shown in Coastal Grey with available VersaTrak all-wheel drive.

Features like the 50/50-split folding third row seats and second row fold-flat seats make the interior of the RELAY-3 highly flexible.

Shown with Tan Leather Appointments and other available features.

The secret to a happy road trip: Stay entertained. When it comes to long family road trips, multiple entertainment options are in order. So no matter which RELAY you choose, a DVD entertainment system and CD/MP3 player come standard, along with a sound system that allows passengers to listen to multiple entertainment sources. For those who want even more variety, the RELAY is also available with XM Satellite Radio¹ and PhatNoise[®] Mobile Digital Media. XM brings you over 150 channels, including news, sports, talk, comedy, traffic, weather and commercial-free music—all broadcasting coast-to-coast. PhatNoise is a removable 40GB hard drive cartridge that slots into the overhead rail system and allows you to store and play up to 5,000 songs, 15 movies, 40 audio books and 100 video games. And finally: the RELAY is available with a 115-volt power outlet, so passengers can even plug in a video game console or laptop. Suddenly, everyone is happy.

The RELAY-3 shown with available features, including XM Satellite Radio.¹ Visit saturn.com/relay for all your audio options.

¹Available only in the 48 contiguous United States. Service fees extra. Visit gm.xmradio.com for system details. Simulated DVD picture.

No mile goes unprotected. Saturn safety engineers don't just think about what happens during a crash; they design systems that help you avoid crashes altogether. For instance, StabiliTrak is an available vehicle stability enhancement system that helps keep you going in the right direction on slick roads or during emergency maneuvers. Our Passenger Sensing System automatically turns the front passenger air bag off if it detects that the seat occupant would be harmed if the air bag deployed.¹ And, for added peace of mind, every single RELAY we build comes with OnStar® and a one-year subscription to the Safe & Sound Service Plan. OnStar can save time by unlocking locked doors; more importantly, it can help save lives by automatically sending for assistance if your air bags deploy.² Thanks to all the safety-minded thinking that goes into the RELAY, it earned a five-star front crash test safety rating from NHTSA.³ For a complete list of the RELAY's safety features, including anti-lock disc brakes with Traction Control and available second row side air bags,¹ visit saturn.com/relay.

¹Air bag inflation can cause severe injury or death to anyone too close to the bag when it deploys. Be sure every occupant is properly restrained. See inside back cover for important information about air bags, including a note about child safety. ²See inside back cover for important information about OnStar. ³See inside back cover for important information about the RELAY's safety rating.

• = standard ◦ = available — = not available

¹First and second row seats only. ²Not available at start of production. ³Cargo and load capacity limited by weight and distribution. ⁴Maximum trailer ratings are calculated assuming a properly equipped base vehicle plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your retailer for details. ⁵Based on GM testing. EPA estimates not yet available. ⁶Requires StabiliTrak. ⁷FWD models require Touring Package. ⁸See inside back cover for important information about air bags, including a note about child safety. ⁹See inside back cover for important information about OnStar. ¹⁰Toy box available with bucket seats only. ¹¹Available only in the 48 contiguous United States. Service fees extra. Visit gm.xmradio.com for system details.

Featured Standard Equipment

Seatback storage. Captain's chairs do double duty with additional seatback storage spaces. Perfect for headphones, CDs and other easily misplaced items.

Long-range fuel tank. The fewer stops you make, the faster you get there. That's why the RELAY has a class-leading 25-gallon fuel tank¹—to keep the stops to a minimum.

Heated side mirrors. Now you don't have to roll down the window and use your gloves to clear your side mirrors, because the RELAY's heated mirrors will do the work for you.

Overhead rail system. In addition to housing the DVD player and OnStar System², the overhead rail system is customizable with storage bins and inserts. Visit saturn.com/relay for details.

Hideaway rear storage bins. Compartmentalized bins keep wet umbrellas and muddy boots away from jackets, toys and groceries. Standard on the RELAY-3.

Steering wheel audio controls. Control the CD player and stereo without taking your eyes off the road or your hands off the wheel. Standard on the RELAY-3.

Available Equipment

Remote engine start. Take the chill off those don't-make-me-get-out-of-bed mornings by getting the RELAY warmed up from inside the house.

Inflator tool kit. In addition to a sportier suspension system, the Touring Package includes Automatic Level Control and this kit for inflating things like tires, rafts and pool toys.

Power sliding doors. Opening and closing the RELAY's side doors is even easier when you can do it with the push of a button.

Sit n' Lift™ Mobility Assistance. Rotates, extends and lowers the second row seat on the passenger side for easy exit and entry. Available with captain's chairs only.

GPS navigation radio. Uses GPS and a mapping DVD to visually and audibly tell you how to get from here to there. A CD player and radio are also integrated into the system.

Toy box. Lift the lid, and you'll find plenty of space for toys, DVDs or a game console. Available with second row bucket seats only.

Retailer-installed Accessories

Splash guards. Keep your tires from splattering mud, salt, pebbles and other road rubble onto the sides of your RELAY.

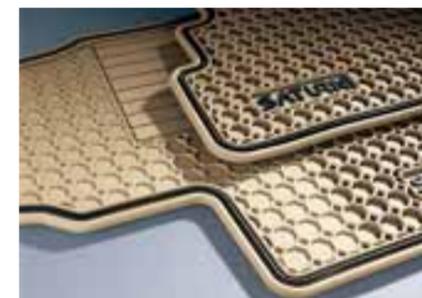

Cargo net. Helps make sure your cargo stays in place when you open the rear liftgate.

Overhead bin inserts. You can add up to three bins to the overhead rail storage system. Available inserts include flashlights, CD/DVD case, first-aid kit, and more.

Bike attachment. Attaches to the available trailer hitch for easy loading and unloading. A ski and snowboard attachment is also available.

Floor mats. Trap mud, ice and snow before they end up in the carpet. Made of rubber, so they're also easy to clean.

Cargo box attachment. Because there's always more to bring, we give you an extra place to stow your extras.

¹Excludes other GM vehicles. ²See inside back cover for important information about OnStar.

What makes a Saturn a Saturn?

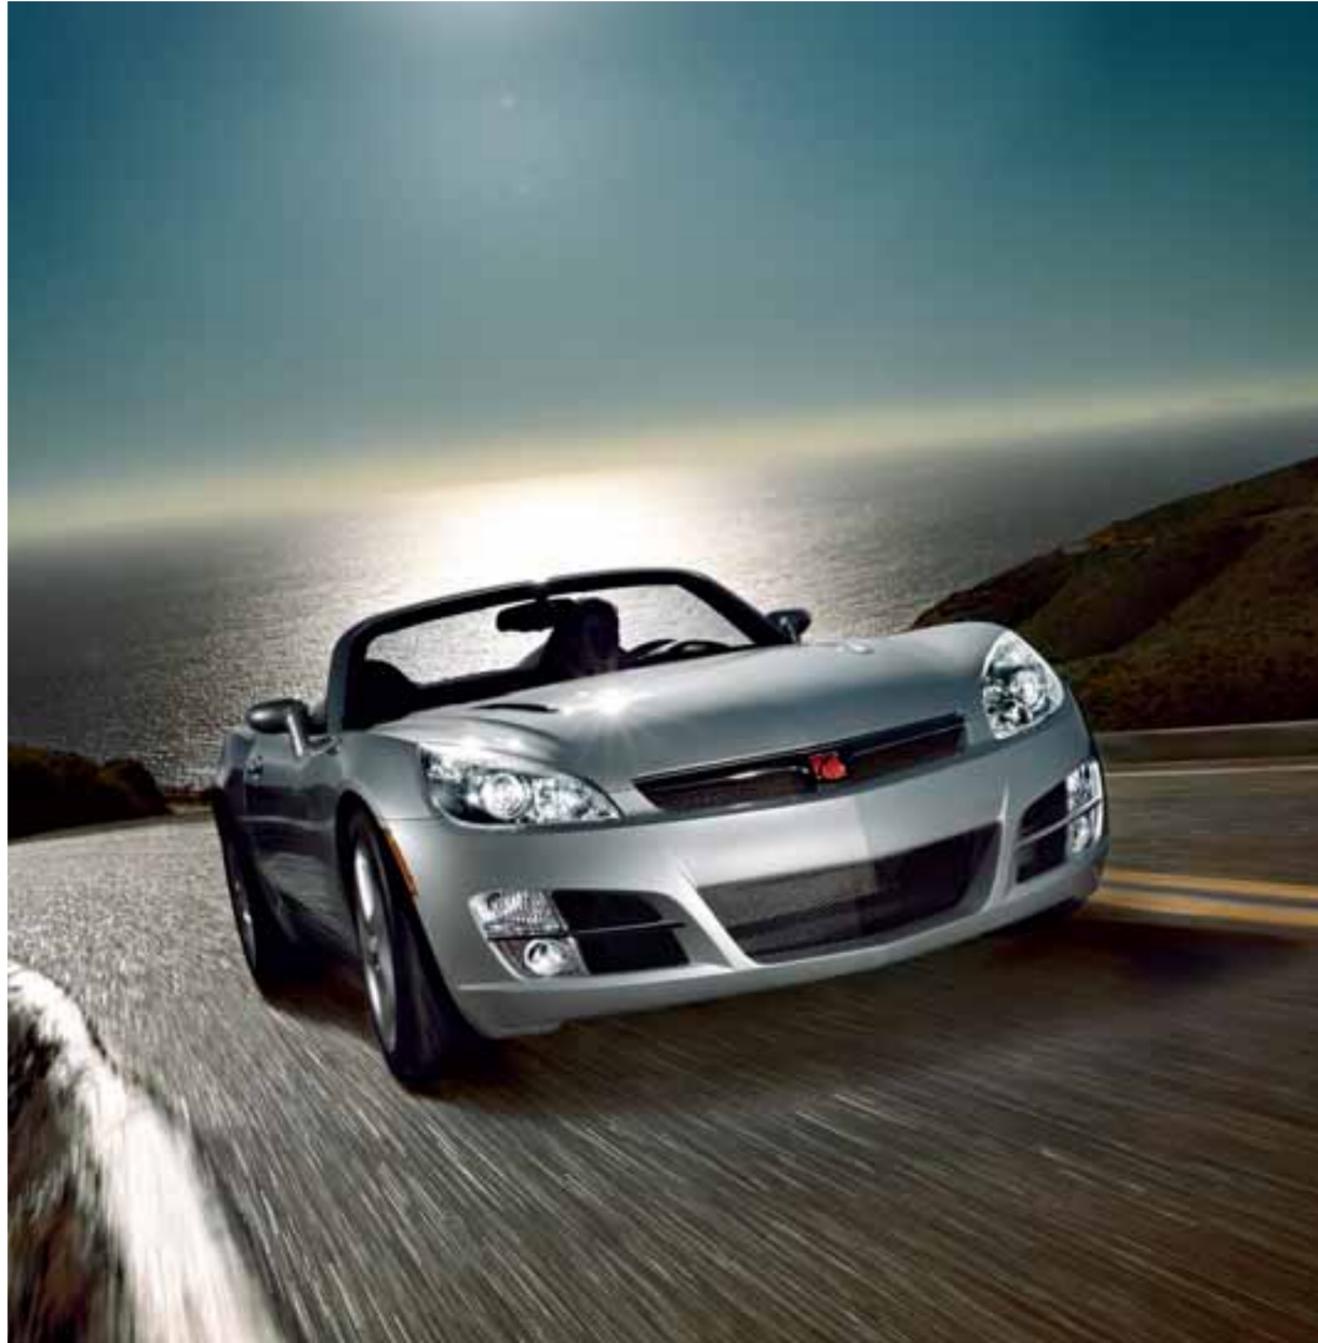

It's more than you can see in a picture or read on a page.
What makes Saturn different can only be experienced.
It's being with you today, tomorrow and the next 200,000 miles.
It's about a no-hassle experience and no-haggle prices.
It's about giving you thirty days to change your mind.¹
It's about making sure you love what you drive.
In other words, it's about you.

¹See inside back cover for details about Saturn's 30-day Vehicle Exchange Program.

The ever-expanding Saturn family: the ION[®] sedan, ION Red Line, seven-passenger RELAY,[™] and VUE[®].
For more information, visit saturn.com.

It all started with the very first Saturn. How do you design a car people will dream about? How do you build a car people will love? Finding the answer, year after year, is what keeps us going. And this year, we've been especially busy designing a whole new generation of vehicles that will re-establish what it means to own, love and drive a Saturn. In 2006, you'll meet the SKY™ roadster and AURA™ sedan, followed by a continuing stream of surprises. In every vehicle, you'll see even more sculptural lines, glowing interiors, advanced features, and soulful expressions of Saturn's philosophy of putting people first. In other words, the next few years are going to be big. And, as always, it's going to be a fun ride.

The vehicle shown is a pre-production model; the actual production model may vary.

Important words about this catalog

We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the retailer or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your Saturn retailer for complete details. Saturn reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times.

A note about air bags and child safety

Always use safety belts and proper child restraints. Even in vehicles equipped with air bags and the Passenger Sensing System, children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. Air bag inflation can cause severe injury or death to anyone too close to the bag when it deploys. Be sure every occupant is properly restrained. See your vehicle Owner's Handbook and child-safety seat instructions for more information.

OnStar information

OnStar services require vehicle electrical system and analog wireless service to be available and operating for features to function properly. OnStar uses existing emergency service providers as well as analog wireless and satellite technologies and is subject to their limitations. The U.S. Federal Communications Commission (FCC) ruled that wireless carriers will no longer be required to support the analog wireless network after February 16, 2008. As of January 1, 2008, OnStar plans to offer service only through equipment that operates on the digital network, which may require the purchase of a system upgrade. Call 1-888-4ONSTAR (1-888-466-7827), see your OnStar Owner's Guide, or visit onstar.com for system information and details. OnStar voice recognition system may not work with some voices. Remote door unlock success varies with conditions.

Important information about the RELAY's safety rating

Test based on 2005 Saturn RELAY. Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (NCAP). Visit safercar.gov for details.

Saturn's Vehicle Exchange Program

Within the first 30 days or 1,500 miles of delivery, whichever comes first, the original purchaser may exchange his or her Saturn vehicle if not completely satisfied. In the event that an owner returns his or her vehicle, he or she will exchange it for another 2006 Saturn vehicle. See retailer for limitations and restrictions. All the same factory-supported initiatives will be included on the exchange vehicle that were on the original vehicle. The vehicle must be returned in the condition in which it was delivered, without damage or excessive wear and tear. If non-warranty repairs equal to or greater than \$300 have been performed or are necessary, the vehicle is not eligible to be returned. If less than \$300, the damage must be repaired or the estimate deducted from the credit toward the exchange vehicle.

New Vehicle Limited Warranty

This warranty is for GM vehicles registered in the USA. See your Saturn retailer for terms and conditions. Covered for 3 years/36,000 miles (whichever comes first): the complete vehicle, tires, towing to your nearest Saturn retailer, cosmetic corrosion resulting from defects, repairs made to correct any vehicle defect, with no charge for most warranty repairs. Covered for 6 years/100,000 miles (whichever comes first): rust-through corrosion.

Corrosion protection

Saturn vehicles are designed and built to resist corrosion. All body and sheet metal components are warranted against rust-through corrosion for 6 years or 100,000 miles, whichever comes first. Application of additional rust-inhibiting materials is not required under the corrosion coverage and none is recommended. See your Saturn retailer for terms of this limited warranty.

An important note about alterations and warranties

Installations or alterations to the original equipment vehicle (or chassis) as distributed by General Motors are not covered by the General Motors New Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design features, materials, or workmanship of any alterations by such suppliers.

Assembly

Saturn vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Saturn vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

Engines

Saturn products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in Saturn products may also be used in other GM makes and models.

Updated service information

Saturn retailers receive useful service bulletins about Saturn products. See your retailer for more information.

There's something we'd like to say. And that is: Yes.
Yes to a highly evolved sense of style. Yes to having the flexibility to bring more. Yes to designs that turn heads and features that embrace technology. Yes to happy kids and quiet kids. Yes to making carpools feel like less of a chore. Yes to making memories and swapping stories. Yes to feeling protected. Yes to everything we love about driving. Yes to the 2006 Saturn RELAY.
