

BENTLEY
TRAVEL IN ANOTHER WORLD.

**YOUR BENTLEY.
SHAPED BY YOU IN EVERY SENSE.**

Imagination. The power or process of producing mental images and ideas. Your definitions talk about the ability to create ideas in the mind, especially of things never seen or experienced before. It's why many can create breathtaking works of art. Or write a novel that moves generations. Or build a bridge that is a statement of vision, not just a requirement of geography. It is a word that dates on a whole new meaning when you enter the world of Mulliner. But what is it that will define your Bentley? Naturally, it must be able to devour long journeys whilst cossetting its occupants in absolute comfort. The interior must be beautiful but functional at the same time. It should look elegant, yet exude a certain effortless power. Above all it must give its occupants a real sense of freedom, the sense that anything is possible. With a Bentley this feeling doesn't simply arrive along with a finished car; it begins much earlier, when you first start to form an idea of a Bentley in your mind. Your Bentley. With over two billion potential configurations, the possibilities are whatever you make them. You've already started your first Bentley journey. Only you know where it will end.

AZURE. THE SEDUCTION OF YOUR SENSES.

ENDLESS ELEGANCE.

The open road. The open skies. The Azure. A convertible unmatched in performance and potency and one that is truly evocative. Quite simply, this is the world's most elegant convertible.

In every sense a Bentley, with perfect interior refinement and a simple concept of open-air motoring. This is a car that takes a mere 2.5 seconds for its roof to glide away, revealing the freedom of the heavens, freedom symbolised by the Flying B radiator mascot proudly installed atop that famous radiator grille. An iconic piece of sculpture reinterpreted for the new century.

A new computer-controlled six-speed automatic gearbox brings a smoother shift and more interaction to the driving experience, transcribing the power of the 6.75-litre twin-turbocharged V8 engine into effortless propulsion. This is not only a luxury car but also a serious performance car, accelerating from 0-60 mph in 5.6 seconds (0-100km/h in 5.9 seconds), with a top speed of 171 mph (276km/h) available on demand.

Welcome to a world without boundaries.
