

2014
CADILLAC XTS

A high-contrast, black and white photograph of the front grille of a Cadillac. The grille features a prominent, circular crest in the center, which is the Cadillac logo. The grille is composed of a grid of rectangular openings, and the lighting creates strong highlights and deep shadows, emphasizing the texture and three-dimensional quality of the metal.

IT IS PERHAPS THE SMALLEST SPACE
KNOWN TO MAN.

THAT RAREFIED SLIVER BETWEEN THE GOOD AND THE TRULY GREAT.
THERE'S NO MAP TO HELP YOU FIND THIS ELUSIVE PLACE. THE ONLY
WAY TO GET THERE IS SIMPLY TO BELIEVE YOU CAN.

At Cadillac, we've set out to create our own uniquely
American breed of extraordinary. It's why we've created our own daring
school of design that bends steel way beyond its comfort zone. It's why
we've pushed technology two generations ahead by pioneering a bold
new way for drivers to intuitively access entertainment and information
with the flick of a finger. And why, in everything from safety
to performance, we're setting the standard.

BOLD. DARING. ORIGINAL. These are the kinds of luxury vehicles we
build. It takes tenacity, a refusal to leave well enough alone. That is the
difference between good and great. That is the difference between
just making luxury vehicles, and making Cadillacs.

04 ESSENCE OF XTS

STATE OF THE ART
MEETS HIGH ART.

XTS PREMIUM COLLECTION / Sapphire Blue Metallic

THE FUTURE IS HERE.
AND IT'S EFFORTLESS.

Its distinctive, sculpted lines hold immense visual energy and hint at something equally captivating: a newly available 410 HP Twin Turbo V6 that delivers a new level of invigorating performance. Inside the meticulously crafted cabin, technology steps to the forefront with the ingenious CUE[®] driver interface. And, thanks to its revolutionary dual-mode Magnetic Ride Control suspension and Brembo[®] front brakes, the XTS delivers the perfect balance between agility and composure. The intuitive, invigorating XTS. It's the return of life lived large.

1. Full functionality requires compatible Bluetooth[®] and smartphone. Some devices require USB connectivity.

INDIVIDUALLY,
ITS INNOVATIONS ARE INGENUOUS.
TOGETHER, THEY'RE UNPRECEDENTED.

XTS PREMIUM COLLECTION / General with Jet Black accents

AVAILABLE LED SIGNATURE LIGHTING WITH INTELLIBEAM

AVAILABLE AUTOMATIC PARKING ASSIST*

CUE

The XTS redefines the principles of what's possible, beginning with the groundbreaking CUE that brings the intuitive control of smartphones and tablets conveniently to the road. It's so advanced, it even senses your hand as it approaches, displaying relevant information and providing tactile feedback from its brilliant touch screen. The inspired thinking also extends to available XTS safety technologies like its perimeter warning that helps alert you to obstacles and hazards in your path. There's also the convenience of new Automatic Parking Assist. Once activated, this available system will locate a suitable parking spot and then help you parallel park your car. Under the artfully sculpted hood, the acclaimed 3.6L direct-injection V6 delivers a refined 305* HP. For an extra measure of performance, a new Twin Turbo V6 is available and delivers a potent 410 HP. Putting all this power where you need it, when you need it, are available All-Wheel Drive (standard on Twin Turbo mode(s) and the rear electronic Limited-Slip Differential (eLSD).

XT5 PREMIUM COLLECTION WITH TWIN TURBO V6 / Sapphire Blue Metallic

Where is it written that head-turning presence and formidable performance be restricted only to two-door coupes? The chiseled, angular skin of the XTS was designed not only to turn heads, but also to slice through the wind, helping improve performance and mitigate noise. Its iconic Cadillac grille is available in three dramatic designs. In each case, the shape is integrated into the overall design so seamlessly, the final effect is nothing short of stunning. Of course, its assertive stance and striking vertical rear tailamps make a bold statement, but when you spot the massive front Brembo® brakes lurking behind the spoked alloys, it becomes clear this is a Cadillac to be reckoned with.

INSPIRING
DESCRIBES MORE THAN THE DRIVE.

WHEN IT COMES TO THE DETAILS,

WHERE DO YOU STOP?

YOU DON'T.

BRILLIANT HEADLAMP TECHNOLOGY

The High-Intensity Discharge (HID) headlamps are available with Adaptive Forward Lighting that swivels the headlamps in the direction you're steering. The brilliance of IntelliBeam is also available. This technology automatically switches between low and high beams when it detects an oncoming vehicle or when tailamps are detected in front of you.

DYNAMIC 20" WHEELS

Featuring a brilliant, polished finish and chrome inserts, these 20" Platinum Collection wheels are the ideal complement to the XTS.

BOLD, CONFIDENT GRILLE

The aerodynamic front is discerningly accented with chrome and balanced by a subtle piano-black finish, delivering a sleek and striking appearance. (Standard grille shown.)

ROOM WITH A VIEW

A third window was engineered behind each rear door. This design not only provides an overall feeling of even more space, but also gives rear-seat passengers a clearer view.

A PERFORMANCE THIS IMPRESSIVE DESERVES LIGHTING TO MATCH.

ILLUMINATED DOOR HANDLES

Refined details are everywhere, right down to the ovalable illuminated door handles. More than an accent, their soft glow makes them easier to see in the dark. When you touch them, they return to their nonilluminated state.

Puddle Lamps

Subtle lamps located under the outside mirrors cast a light near the entrance of the car as part of the carefully choreographed lighting sequence, so your path is well lit.

ILLUMINATED SILL PLATES

In the XT5, every detail was considered. For example, upon opening either front door in the Platinum Collection, backlit sill plates are an inviting touch.

AMBIENT INTERIOR LIGHTING

Available ambient lighting complements the LED multiple-angle lighting in the foot wells and from the overhead console. Casting a soft glow under the wood trim on the dash and front door panels, it adds intrigue to the contemporary design of the cabin.

With the XT5 setting the perfect stage for an exhilarating performance, it's fitting the lighting was designed as if it were a contemporary theater. Every piece of illumination was choreographed with a specific task in mind, whether it is to draw your eye to the meticulous details or to add illumination to key areas. Taken individually, each light is impressive in its own right, like the signature Cadillac light pipe technology integrated into the headlamps and taillamps. They form a razor-thin blade that is clearly evident at night—making your vehicle visible and distinctive from any angle. When backing up, there's a lower-mounted reverse lamp to improve your view. Even the available illuminated exterior door handles add a purposeful touch at night.

The XTS acknowledges your presence even before you take a seat. As you approach, lighting elements in the headlamps, door handles and side mirrors are choreographed to illuminate your way.

XT5 PLATINUM COLLECTION - Granite Metallic

EVEN THE FINE POINTS HAVE
FINER POINTS.

The first moments behind the wheel are, in many ways, the most inspiring—which is why we designed the XTS to feel more like a perfectly tailored garment. You wear it, feel it, think it. There's the wraparound instrument panel that blends seamlessly into the upper doors, creating an uninterrupted sense of spaciousness. To that, add fine leather seating surfaces, exotic woods and brushed metal that work in concert to further accentuate the cabin. Even the spacious backseat with unsurpassed-in-class rear legroom is slightly elevated so every passenger is afforded a seat with a view. Complementary rear-seat comfort is a new fold-down armrest with integrated controls for both the radio and available power sunshade. It may feel as if every interior detail was designed to meet your personal specifications. Perhaps that's because it was.

THE LINING OF A SUIT.
THE MOVEMENT OF A WATCH.
TRUE LUXURY CAN OFTEN BE FOUND
ON THE INSIDE.

The meticulous attention to detail continues into the striking cabin. Intuitive controls are complemented with impeccably detailed materials like lustrous exotic wood that trims the steering wheel and is carefully laid throughout the center console. Laminated front side glass and triple door seals work in tandem to help deflect noise before it enters the cabin. And to optimize seat comfort, pressure-mapping technology was used extensively to design the contoured front seats. Proof that in the XTS, technology definitely comes with a sophisticated side.

THE ART OF DETAIL

The closer you look, the better it gets. Leather surfaces, contrasting stitching, beautifully grained woods and brushed metal all come to life in the XTS.

INTELLIGENTLY DESIGNED STORAGE

From the smartly placed mobile device holder to the center control panel that opens, every millimeter of the XTS reveals yet another brilliantly engineered space.

FULL-LEATHER SEATS

Semi-aniline full-leather seating is exclusive to Platinum Collection models. This unique, luxurious leather is renowned for its ultra-soft feel and refined appearance.

THE SOUND DOESN'T SURROUND YOU.
IT IMMERSSES YOU.

BOSE PERSONAL SURROUND SPEAKERS

14+ SPEAKER BOSE STUDIO SURROUND SOUND SYSTEM

Your choice seats to a remarkable musical event are ready. Deep, powerful lows. A wide, spacious soundstage. All the emotion and dynamics of a live performance now rendered in a remarkable surround sound experience. And it's all brought to you by the 14-speaker Bose® Studio Surround® sound system in the Premium and Platinum Collections. Customized for the unique acoustic environment of the XTS, it uses two Personal® surround speakers on the top of each front seat to provide an immersive and individual sound experience. Of course, no matter where you are sitting, you'll enjoy rich, detailed sound that seems to extend well beyond the space. With its proprietary speakers, powerful amplifier and AudioPilot® noise compensation technology, this system puts you in the middle of the music.

INTELLIGENCE,
IN ITS SIMPLEST FORM.

The intuitive CUE[®] driver interface blends innovative technology with highly intelligent design to create an experience that's as effortless as it is advanced. It easily accesses every contact and song on up to ten Bluetooth[®]-enabled smartphones.¹ The available 3-D GPS navigation system² has map-integrated Doppler weather³ reports. CUE also streams Pandora Radio⁴ and lets you preset up to 60 favorites, including points of interest, addresses, phone numbers, and more. With CUE, the customization and content possibilities are not only endless, but right at your fingertips.

1. Full functionality requires compatible Bluetooth and smartphone. Some devices require USB connectivity. 2. Map coverage available in the United States, U.S. Virgin Islands, Puerto Rico and Canada. 3. Requires active SiriusXM subscription. 4. Data plan rates apply.

CUE is as intuitive as it is advanced. Spread your fingers to zoom in closer on a map. Swipe to breeze through your music. Simply speak and let the Natural Voice Recognition help you effortlessly place a phone call or change your music.

Considering that it can even detect your hand as it approaches the vibrant 8-inch LCD touch screen, interacting with CUE couldn't be easier. And when an icon is touched, the screen pulses to acknowledge the command, letting you keep your eyes safely on the road. On select models, you can even configure the gauge cluster to find the layout of information that perfectly suits you. With CUE, the future has arrived, and it's better than you could have possibly imagined.

PERFORMANCE GAUGE CLUSTER

ENHANCED GAUGE CLUSTER

BALANCED GAUGE CLUSTER

SIMPLE GAUGE CLUSTER

ONE PART DRIVER INTERFACE, ONE PART ENTERTAINMENT SYSTEM, CUE REIMAGINES THE CONNECTION BETWEEN CAR AND DRIVER.

CONVENIENCE

A clean, uncluttered design pairs with Natural Voice Recognition for effortless interaction. CUE is as easy and intuitive to use as your smartphone or tablet.

CONTROL

Seemingly instinctive, CUE uses proximity-sensing technology to detect your hand as it nears the LCD touch screen. Once there, press on icon and the screen pulses to acknowledge your prompt, helping you to stay focused on the road.

CONNECTIVITY

Available 3-D GPS navigation, Doppler-radar weather, Pandora Radio, Bluetooth connectivity and more.

1. Map coverage available in the United States, U.S. Virgin Islands, Puerto Rico and Canada. 2. Requires active SiriusXM subscription. 3. Data plan rates apply.

VISION, IN EVERY SENSE OF THE WORD.

The best safety features are those that help you avoid a collision in the first place. That's why the XTS offers the latest innovations in driver awareness and assistance to help inform you of potential hazards you may not even see. Using radar technology and strategically placed cameras, the XTS is ever-vigilant with its available Forward Collision Alert, Lane Departure Warning, Side Blind Zone Alert, Rear Cross-Traffic Alert, and Front and Rear Park Assist. Even the available Adaptive Cruise Control* uses radar to maintain a preset

distance between you and other vehicles. And the available Automatic Front and Rear Braking detects large objects you may not see to help prevent certain low-speed collisions by applying the brakes for you. As an alternative to warning chimes, the XTS offers a Safety Alert Seat that pulses, giving you instant, tactile feedback to alert you of select dangers on the road. With all of this, it's no surprise that the 2013 XTS was awarded a 5-Star Overall Vehicle Score for safety.

1. Before making a lane change, always check the SBZA display and the side and inside mirrors, look over your shoulder for vehicles and hazards, and activate your turn signal. A SBZA display does not substitute for your personal responsibility to operate the vehicle safely and responsibly. The government's 5-Star Safety Ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (www.safercar.gov).

ADVANCED SAFETY

YOU'LL FEEL GOOD ABOUT.

With select models featuring ten ultrasonic motion detectors, six Doppler radar sensors and a high-definition Smart Camera taking twelve pictures every second, the XTS doesn't just watch the road. It analyzes it. Cross-references it. Writes a dissertation. And then leaves you with the condensed version. All through pulses in your driver's seat.

Why pulses? Because on the road there are many visual and auditory signals vying for your attention. That's why we offer safety technology you can actually feel with the available Safety Alert Seat. By sending immediate pulses through the seat cushion, either right or left, or simultaneously, this patented technology quickly and intuitively warns you of the direction of a potential hazard, increasing your confidence as you continue on your way.

From where you sit, it's just another example of how innovative XTS safety technology leads you confidently down the road ahead.

IT'S AS DEFENSIVE AS IT IS DYNAMIC.

CRASH-TEST TECHNOLOGY

Today's new "hyper-tech" dummies record and transmit crash data 10,000 times a second. More than 200 crash-test dummies of all shapes and sizes are wired with sensors that tell safety engineers how much and what kind of forces they endure during crash tests. This helps improve the safety of every Cadillac made.

AUTO-DRY BRAKES

It makes perfect sense—dry brakes stop faster than wet brakes. That's why we designed the XTS so that the available RainSense wipers and Auto-Dry brakes work together. After the RainSense wipers are activated, the brake pads are positioned closer to the rotor, sweeping away the moisture and helping to improve braking performance. Visit cadillac.com/autodry for further details.

It starts with a protective safety cage constructed with high-strength steel alloys for exceptional rigidity and strategically placed crumple zones. Then we add preventive safety features like the StabiliTrak Electronic Stability Control System and a sophisticated antilock braking system (ABS) with Electronic Braking Force Distribution that helps balance stopping power between the front and rear brakes.¹ There's also the confidence that comes with ten standard airbags¹ and a complimentary one-year subscription to OnStar² Automatic Crash Response. In a crash, built-in sensors in your vehicle can automatically send an alert to an OnStar Advisor who can contact you in your car.

1. Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children seats or booster seats should be used in a rear seat in the vehicle. Always use proper tie-down technique. For more information on vehicle safety features, visit cadillac.com/safety. Always read and follow the instructions for details and system limitations. OnStar acts as a link to existing emergency service providers.

40 PERFORMANCE POWERTRAIN

POWER THAT
APPEALS TO YOUR LEFT BRAIN
AND RIGHT FOOT
IN EQUAL MEASURES.

Its performance matches its dramatic presence. A 305 HP 3.6L direct-injection engine is standard on every XT5 and is renowned for its smooth, refined power. Ignite the newly available 410 HP Twin Turbo V6, and you'll experience an entirely new level of exhilaration. At its heart is a refined turbocharging system that combines Variable Valve Timing

and precise direct-injection to deliver outstanding performance by any measure. Either engine you select is coupled to an advanced Gen-II automatic transmission that delivers crisp, smooth shifts in step with the engine's impressive output. When you call for power, the XT5 answers immediately.

XT5 PLATINUM COLLECTION WITH TWIN TURBO V6 / GRANITE METALLIC

NEW TWIN TURBO V6 POWER
A technological masterpiece, twin turbochargers help the 3.6L direct-injection V6 engine deliver a potent 410 HP, setting a new standard in XT5 performance.

DRIVER SHIFT CONTROL
The electronically controlled 8-speed automatic transmission incorporates steering wheel-mounted paddle shifters that enable clutchless manual shifting. A quick tap is all that's required for a smooth, crisp upshift or downshift.

THE ROAD MEANDERS.
THE XTS DOES NOT.

Any luxury sedan can hold its own on a long stretch of interstate. However, when the pavement twists, writhes and dips, the XTS quickly separates itself from everything else on the road. With its advanced suspension and precisely tuned steering, it delivers a perfectly connected and sophisticated ride. Torque-vectoring All-Wheel Drive is available and features advanced software that manages torque front-to-rear, while the rear electronic Limited-Slip Differential (eLSD) controls torque side-to-side along the rear axle, putting power where you need it most for a surefooted grip on the pavement. The XTS also features revolutionary dual-mode Magnetic Ride Control that reacts in the blink of an eye to changing demands, while its advanced HiPer Strut technology helps the tires remain keyed to the surface. Combined with rear auto load-leveling suspension and speed-sensitive steering, the XTS handling is nothing short of a revelation.

MAGNETIC RIDE CONTROL
Revolutionary dual-mode Magnetic Ride Control reads the road up to 1,000 times per second and seamlessly adjusts damping for agile handling and a controlled ride.

THE PLATINUM COLLECTION:

WE DON'T PLAY GAMES
WHEN IT COMES TO LUXURY.
UNLESS, OF COURSE, IT'S LEAPFROG.

The XTS Platinum Collection takes all the innovation, design and especially the luxury of the XTS to an even higher level. Leather and exotic wood accent the instrument panel, floor console, and even the doors. Semi-aniline full-leather seats are not only exceptionally supple, but meticulously detailed with subtle hints of contrasting color. But luxury is just one of the many ways the XTS Platinum goes above and beyond to deliver an exhilarating driving experience. Newly available with this Collection is the Twin Turbo V6 engine. A technological masterpiece, this engine delivers 410 HP—a phenomenal figure that ensures that whatever situation you find yourself in, vast reserves of power and acceleration are available whenever you need them.

ULTRAVIEW SUNROOF
Spanning both rows of seats and giving the interior a bright, airy feel, this sunroof doesn't seem open as much as it is.

LEATHER-WRAPPED INTERIOR
Leather wraps virtually every surface you touch and feel, from the steering wheel to the door panels, even starting the engine.

ADAPTIVE CRUISE CONTROL
Progressive technology in the XTS offers an assured driving experience with Adaptive Cruise Control, as well as Automatic Front and Rear Braking.

EXCLUSIVE GRILLE
The strong lines and refined mesh grille are a signature of the Platinum Collection, found only on the Platinum Collection.

THE PREMIUM COLLECTION:
PREDICTIONS SEEM FRIVOLOUS WHEN YOU'VE ALREADY
SEEN THE FUTURE.

It's as close as you can get to a personalized fit. Tri-zone climate control means every inch of the car is perfectly heated or cooled. The reconfigurable gauge cluster allows you to toggle between four distinct gauge cluster designs and choose which design perfectly suits your driving experience. And the richly detailed interior comes complete with a 14-speaker Bose® Studio Surround[®] sound system. Even the newly available 410 HP Twin Turbo V6 is just another example of how we've pushed refinement and performance to a whole new level.

HEAD-UP DISPLAY

Using head-up display technology similar to that found in fighter jets helps keep your eyes on the road by projecting customizable key driving and entertainment information in full color at eye level.

BRILLIANCE THAT LOOKS AHEAD

IntelliBeam enhances the visionary technology of HID headlamps with Adaptive Forward Lighting. This technology turns the light beams on automatically and switches to low beams temporarily when oncoming headlamps or talllamps are detected.

BOSE STUDIO SURROUND SOUND SYSTEM

Your XTS doubles as an intimate concert venue with the 14-speaker Bose Studio Surround sound system that includes two Personal[®] surround speakers on the top of each front seat.

NAVIGATION SYSTEM

Convenience is within easy reach, thanks to the navigation system.¹ Featuring easy, intuitive voice guidance, 3-D GPS color imaging with integrated Doppler weather² and more, it's your on-the-road control center.

1. Map coverage available in the United States, U.S. Virgin Islands, Puerto Rico and Canada. 2. Requires active SiriusXM subscription.

THE LUXURY COLLECTION:

HOW CLOSE DID WE COME TO THE ONE IN YOUR IMAGINATION?

Step inside, and you'll find premium wood accents highlighting the instrument panel, door and shifter. With a Memory Package for two drivers that recalls presets for the power driver seat, passenger seat, outside mirrors and the steering column, the XTS stands ready no matter who holds the key. Heated, ventilated front seats with cushion-length adjusters and heated outboard rear seats mean everybody in the cabin is comfortable, no matter how long the drive or what the temperature is outside. Of course, it's all complemented by dramatic ambient lighting. Even the dual-exhaust outlets are beautifully integrated into the fascia to complete the modern and refined look. Proof that luxury and advanced design can coexist in perfect harmony.

PREMIUM WOOD TRIM

Eye-catching wood sets the tone for the interior of the XTS with its deep, rich color. The beautiful grain appears to change with the lighting, adding an extra touch of allure.

INTEGRATED EXHAUST

The dual-exhaust outlets are integrated into the rear fascia to ensure the impeccable lines of the XTS remain unbroken.

EXCEPTIONAL SEAT COMFORT

Ventilated front seats with cushion-length adjusters are a welcome requirement on hot days and during extended journeys.

HEATED STEERING WHEEL

The perfect antidote to a cold winter morning.

PAINT FINISHES

TINTCOAT

A premium 2-layer paint application with the addition of a third clearcoat, lending the finish an extra depth and brightness.

TRICOAT

A meticulous 3-layer process that results in a dramatic hue-shifting color.

CADILLAC SHIELD

THE STANDARD OF LUXURY OWNERSHIP

WARRANTY PROTECTION

Cadillac's 6-year or 70,000-mile Powertrain Warranty offers more years and miles standard than BMW and Mercedes-Benz. In addition, our 4-year or 50,000-mile Bumper-to-Bumper Warranty covers repairs on your entire vehicle, including parts and labor, to correct problems in materials or workmanship.

PREMIUM CARE MAINTENANCE

Standard on all 2011 and newer vehicles, Cadillac's Premium Care Maintenance program covers routine oil changes, tire rotations, certain air filter replacements and a thorough multi-point vehicle inspection for 4 years or 50,000 miles.¹ Mercedes-Benz and Lexus programs do not.

The standard one-year Directions and Connections Plan allows you to push one button to connect with a live Advisor to find the things and places you want. Get directions or a diagnostics check while you drive. Make calls safely with both hands on the wheel and control your vehicle with the RemoteLink mobile app. And as always, get help immediately in a crash or an emergency. These are just a few examples of the level of Personal Service we think you deserve as a Cadillac owner.

SECURITY BY ONSTAR

If you've reported your Cadillac stolen, OnStar[®] can use GPS technology to help authorities quickly locate and recover it. An OnStar Advisor can further assist authorities by sending a remote Stolen Vehicle Slowdown[®] signal to your vehicle to slow it down. Advisors can also enable a Remote Ignition Block, making it impossible to restart a stolen vehicle once it has been turned off.

DIAGNOSTICS BY ONSTAR

With next-in-class diagnostics from OnStar[®], maintaining your Cadillac can be as simple as checking your e-mail or your OnStar RemoteLink[™] mobile app. Every month, you can receive an e-mail with the status of key operating systems or push your OnStar button for a real-time diagnostics check on demand.

ROADSIDE ASSISTANCE

Cadillac offers more years of Roadside Assistance standard than any leading luxury brand, with services for 6 years or 70,000 miles. The program provides lockout, towing, refueling, Dealer Technician Roadside services and more.

COURTESY TRANSPORTATION

This Cadillac program provides alternate transportation and/or reimbursement of certain transportation expenses if your Cadillac requires warranty repairs for a year or 70,000 miles.² That's more years of service standard than any luxury automaker.

NAVIGATION BY ONSTAR

Just push the OnStar[®] button and an Advisor can download voice-guided turn-by-turn directions to your Cadillac, and a voice will call out every turn or send them to your navigation system. ³MapQuest.com[®] and send them to your Cadillac.

CONNECTIONS BY ONSTAR

Available Hands-Free Calling capability from OnStar[®] allows you to make and receive calls safely from your Cadillac. With the OnStar RemoteLink mobile app, you can access real-time information and control your Cadillac from anywhere you have cell phone service. Now you can even pin a destination with RemoteLink and send directions right to your vehicle.

EMERGENCY BY ONSTAR

In most crashes, built-in sensors can automatically alert an OnStar[®] Advisor who is immediately connected to your Cadillac to see if you need help sent to your exact location. Other OnStar emergency services include Injury Severity Predictor and First Aid Kit, which ensure you quickly get the help you need when seconds matter most. All Cadillac models come with 1 year of OnStar service standard.

MYCADILLAC APP

The forefront of the XTS doesn't stop with the vehicle. As a Cadillac owner, an advanced complimentary app is available for your new car. From virtually anywhere, anytime, a few taps of your finger on your iPhone or Android smartphone let you access features like parking reminders, Roadside Assistance and more. Plus, in conjunction with the OnStar RemoteLink app, you'll have the ability to remotely start your vehicle (when factory equipped) from any place you have cell service, and lock and unlock your doors. In addition, you can access key diagnostic information, including fuel tank level and range, and remaining oil life.

Requires active OnStar subscription.

ABOUT THIS CATALOG

We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, model and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or office to vehicles are approximate based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacturing and equipment. Since some information may have been updated since the time of printing (06/13), please check with your Cadillac dealer for complete details. Any variations in colors shown are due to reproduction variations and may vary from the actual appearance of the vehicle. Vehicles may be shown in different colors or equipment for presentation, for reference and model from at different times. Note: Some photographs in this catalog show vehicles with optional equipment.

ONSTAR OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating. For features to function properly, OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Call 1-888-ONSTAR (6666-7827) or visit onstar.com for OnStar's Terms and Conditions, Privacy Policy and details and system limitations.

ENGINES Cadillac products are equipped with engines produced by GM Powertrain or supplier to GM worldwide. The engine in Cadillac products may also be used in other GM makes or models.

TIRE SEALANT AND COMPRESSOR KIT Unless you opt into a spare tire, there's no jack or spare tire in this vehicle. If you do not opt into the spare tire, your vehicle has a tire sealant and compressor kit that uses liquid sealant to temporarily seal up to a 1/4-inch puncture in the tread area of the tire. After using the injector kit, it is

recommended to take the tire to an authorized dealer for inspection and repair as soon as possible but at most within 300 miles of driving. The tire sealant cannot seal any other tire-related damage. Periodic tire rotation may be required to ensure the sealant can only be used on one tire and tire type. See the expiration date.

ASSEMBLY Cadillac vehicles and their components are assembled or produced by different operating units of General Motors. Its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Cadillac vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify the your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

UPDATED SERVICE INFORMATION Cadillac dealers receive useful service bulletins about Cadillac products. You may purchase them from Helm. Incorporated by calling 1-800-551-4232 or by visiting www.helminc.com.

NEW-VEHICLE LIMITED WARRANTY World-class coverage comes standard on every 2013 Cadillac. This warranty is for Cadillac vehicles registered in the U.S.A. See your Cadillac dealer for terms and conditions.

COVERED FOR 6 YEARS/70,000 MILES (WHICHEVER COMES FIRST) Powertrain Program.

COVERED FOR 4 YEARS/50,000 MILES (WHICHEVER COMES FIRST) Bumper-to-Bumper coverage. Tires - Defects in material and workmanship. Repairs made to correct any vehicle defect. Corrosion on body sheet metal panels.

RUST THROUGH PROTECTION Cadillac vehicles are designed and built to resist corrosion and rust-through corrosion. Any body sheet metal that rusts through (in the form of an actual hole in the sheet metal) is covered for six years/unlimited mileage. Cosmetic or surface corrosion, resulting from stone chips or scratches in the paint, for example, is not included in the Rust Through coverage. Application of additional rust-inhibiting materials is not required under the Rust Through coverage and none is recommended. See your Cadillac dealer for terms of this limited warranty.

FLEET ORDERS Some standard content may be deleted with fleet orders. See dealer for details.

1. Roadside Assistance Program and Courtesy Transportation Program are not a part of the New Vehicle Limited Warranty. A separate limited warranty and coverage information booklet will be included with the vehicle. 2. The 2013 Cadillac XTS is a GM vehicle. It may be equipped with a 4-cylinder engine, a 6-cylinder engine or a V-8 engine. The 6-cylinder engine and the V-8 engine are GM engines. Cadillac, the Cadillac Script, Cadillac, the Cadillac emblem and the logo are trademarks of General Motors. Cadillac, the Cadillac Script, Cadillac, the logo, the XTS logo, the XTS name, the model name, vehicle design and other marks appearing in this catalog are the trademarks or service marks of General Motors. ©2013 General Motors.
