

2014 GTI

Das Auto.

# Runs with the fast crowd.

It's the original hot hatch that started it all. Now, 30 years later, the GTI is still winning awards and the respect of drivers on and off the track. Because while other hatches have come and gone, there's only one that has the heritage, performance, and staying power to be called GTI. And with the available limited-production Wolfsburg and Driver's Edition models, this hot hatch proves it still knows how to bring the heat.\* That's the Power of German Engineering.

**Leather-wrapped, multi-function sport steering wheel.** Grab hold of this sporty, flat-bottom steering wheel, and you'll start a kinetic connection on every drive. And you'll be able to connect on another level with its multi-function capability.

**Touchscreen navigation.** Whether you're on your own or off to find new destinations, the available touchscreen navigation can take you just about anywhere you want to go. Even if you just want to get lost in the drive.

**200-hp turbocharged engine.** More air = more power. And this turbocharger packs it in to pack a punch. Of course, you don't need a physics lesson to understand what it does. Just step on the gas—you'll understand very quickly.\*

**Golf ball shift knob.** Tradition. It's part of what makes every iconic car a legend. And we couldn't think of a more fun way to remind drivers of the heritage of the GTI than with a golf ball shift knob design.

### CELEBRATING THE HISTORY OF THE GTI

Heritage. It's in the bloodline of every GTI since the first one launched 30 years ago. Since then, each successor has paid homage to the original, staying true to what has made

each one so great: outstanding overall performance and a driving feel that still hasn't been matched to this day. Here's to another 30 years of putting smiles on the fast track.\*

Volkswagen DVD navigation depends on the signals from the worldwide Global Positioning Satellite network. The vehicle's electrical system, and existing wireless and satellite technologies, must be available and operating properly for the system to function. The system is designed to provide you with suggested routes to location addresses, destinations, and other points of interest. Changes in street names, construction zones, traffic flow, points of interest, and other road system changes are beyond the control of Volkswagen of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested navigation route. Periodically, the mapping is updated and a new DVD will be required in order to maintain the latest navigation information available to us. These will be available for purchase from time to time at additional cost. For further information regarding any Volkswagen model, please call 1-800-DRIVE-VW or just look us up at vw.com. VW14GTISBUS
