Alfa D.N.A. Derived from racing technology, Alfa D.N.A. is the exclusive Alfa Romeo driving mode selector which perfectly adapts the vehicle's performance to suit both the driver's style and road conditions. There is a choice of three modes: DYNAMIC which optimises performance, NATURAL for optimum fuel economy and ALL-WEATHER for tackling bad weather and low grip conditions. It's simple and intuitive, just flick the switch near the gear knob to change the setup of the engine, brakes, steering and accelerator to suit the driving conditions.

Alfa TCT. This is the innovative twin dry clutch semi-automatic transmission, consisting of two gear boxes in parallel that allow the next gear to engage while the previous one is still engaged. It therefore offers continuous torque delivery without losing power when shifting gears, making them faster and slicker. The result is a driving comfort and sporty feel that far surpasses those offered by traditional automatic transmissions, coupled with improved efficiency and lower fuel consumption.

UCONNECT™. An advanced multimedia system that integrates all of the vehicle's technological functions in a single device. Even easier, you can operate the colour touch screen with the touch of a finger or simply your voice thanks to its voice recognition. The Uconnect™ 5" colour touch screen allows you to manage the DAB radio, media player (via USB or Aux-In) and phone** (Bluetooth™ hands free with SMS reader). The Uconnect™ 6.5" Radio Nav offers the additional features of a GPS navigation system with preloaded 3D maps and SD card reader.

*Matte Magnesium Grey paint available on Quadrifoglio Verde model only

ON THE ROAD CHARGES

ON THE ROAD (OTR) CHARGES INCLUDE:

12 months Government Vehicle Excise duty depending on CO₂ emissions (see table below left), vehicle first registration fee (£55), number plate (£25.53) and delivery costs (£525).

GRADUATED VEHICLE EXCISE DUTY (ROAD FUND LICENSE) VALID FROM 1ST APRIL 2014

The Graduated VED bands classify all new cars into one of 13 vehicle Excise Duty bands, depending on their type of fuel and carbon dioxide (CO₂) emissions level, measured in grams per kilometre (g/km).

BENEFIT-IN-KIND TAXATION

The company car Benefit-in-Kind Taxation scale is linked to the CO₂ emissions level. The table right shows the percentage of the car price to be taxed (P11D value). Below you can also find a simple explanation useful to calculate the BIK.

EXAMPLE OF HOW TO CALCULATE BIK

Look at the table, right, and find the percentage to be applied according to the CO₂ emissions. The car's price to be taxed (P11D value) includes: Total Retail Price (Basic Price + VAT) + Number Plate (£25.53) + Delivery costs (£525) + Option (Including VAT)
Calculate the BIK as follows: P11D value x % of car price to be taxed

CO ₂ EMISSIONS (G/KM)	% OF CAR'S PRICE TO BE TAXED	DIESEL SUPPLEMENTS
1 - 75	5%	8%
76 - 94	11%	14%
95 - 99	12%	15%

CLOVERLEAF

ALFA ROMEO MEMBERSHIP CLUB

THE CLOVERLEAF – SIGN OF THE TRUE ALFISTI

Alfa Romeo driver Ugo Sivocci carried a four-leafed clover symbol on the deep red bodywork of his Alfa Romeo RL for luck as he lined up for the 1923 Targa Florio. It must have worked...because he won. Ever since, the cloverleaf has symbolised the sporting heart of Alfa Romeo, recognised and celebrated by Alfisti throughout the world. So what better name for a club where you can share your passion for all things Alfa Romeo?
